

Who pays for OMIP?

- OMIP spends over \$170 million a year on its 18,000 members.
- Your premiums cover about 55 percent of this cost.
- The other 45 percent is billed to Oregon health insurance companies, who add it to the individual and employer premiums their customers pay.
- **Bottom line:** When the OMIP board sets premiums, it weighs the pain of increased costs to you against higher insurance costs for all other insured Oregonians.
