NIATx: What has been done?

- Combined NIATx invitational with Washington State.
- Reconstructed SAPT Block Grant Independent Peer Review to incorporate “walkthrough” and follow-up data review.
- Taught NIATx process using webinar.
- Highlighted NIATx program successes in AMH EBP newsletter.

NIATx Next Steps

NIATx as Transformation Initiative

NIATx Sustainability and Spread approved as new DHS, AMH Transformation Initiative.

- Provides higher visibility within AMH and DHS for NIATx;
- Creates work rhythm and structure for state level efforts; and,
- Builds accountability for state-level work concerning the initiative.

NIATx Next Steps

Transformation and LEAN

Transformation and LEAN tools to be used by AMH in this initiative:

- Governance structure
- Charter
- Work plan
- Measurement and evaluation

NIATx Next Steps

State “Power Tools”

- Quality Assurance
- Contract Performance Standards
- Data Collection and Management
- Strengthen Communication with Key Stakeholders with specific focus on intermediaries (counties, health plans)
- Workforce Development

Quality Assurance

- AMH recognizes and promotes use of NIATx process as an approved quality assurance process for meeting the new administrative rule standards.
- Continue to use for the SAPT Block Grant Independent Peer Review requirement.

Performance Management and Standards

- Build on efforts to infuse performance standards (NIATx aims) into contract standards.
- Strengthen internal mechanisms supporting use of data to manage.
- Recognize NIATx as an evidence based practice administrative practice.

Data Collection and Management

- Analyze Oregon NIATx 200 data for internal assessment and continue providing reports back to providers.
- OHSU (SAPRP) grants and integration into other administrative data systems (use of probabilistic linkage software)
- Currently implementing a long-term evaluation using NIATx 200 measures, surveys, and administrative data up to one year post-admission data
- Integrate NIATx measures into a pilot electronic health record system that could replace CPMS
- Continued Excel Workbook and online data entry support for NIATx measures
