## Yamhill County Problem Gambling Prevention

Percent of Youth Who Gambled in the Past Year

8th grade

Data Source: Oregon Healthy Teens Survey

Percent of Youth Who Gambled in the Past Year

11th grade

Data Source: Oregon Healthy Teens Survey

Youth who gamble are much more likely to be involved in other risky behaviors.

Gambling is not a harmless alternative activity for youth.

Gambling should be included in discussions of healthy choices and risky behaviors at school, in the community and at home.

Statewide youth gambling data shows a significant correlation between youth gambling and engaging in other risk behaviors such as drinking:

Percent who binge drank in the last 30 days, grade 11
