New Year, Clean Slate?

Addictions and Mental Health has decided to go through and clean up old, forgotten data. If you have 10 or more clients that are still open in CPMS and their open dates are from before January 1st 2000, you received an e-mail with a letter and a list of these clients. The due date for the information requested in the letter was December 31, 2011. If you received the letter but have yet to send in the information please call Dianna Dobay, 503-945-6186 or Nora Goya, 503-945-5956 ASAP!

Not receiving the mail can mean you have no data fitting the above mentioned criteria. But please, when you receive your Monthly Management Report (MMR) make some extra time to review it and help improve the quality of data. We use the data to get better insight in the treatment world and inform our leaders and decision makers as accurately as possible.

Speaking of MMR...

The month of December turned out to be quite challenging for our office- the CPMS mainframe system was down for several days. Consequently no December MMR was printed. We apologize for the inconvenience this caused. Our Office of Information Services staff has now restored the system. Please look over this month's report to ensure everything is accurate.

¹ Client Process Monitoring System (data system for mental health and chemical dependency treatment services).

Changes, Changes! Read all about it!

We are sad to announce two CPMS Unit members are leaving.

But don't cry yet! They are only moving to OWITS! Dianna Dobay and Justin King are joining the new OWITS Plus project. This move is extremely important to ensure a smooth transition when it happens. They are sad to go, but excited to start the process of moving from CPMS to OWITS.

However, those mathematicians out there have probably already noticed that only leaves 3 people to work on CPMS. Please remember this and be patient with our remaining staff. Here are a few tips to help them out and keep your information up to date:

- Please respond to questions and requests as quickly as possible.
- Take a second to go over the data you are sending and ensure it is accurate.
- For questions please review the manuals located on the web before emailing or calling.

Attn: ITRS Providers!

The only correct Eligibility Code for ITRS programs is '00' for 'None'. All others are incorrect.

If you have an ITRS DUII client, please remember the individual needs to have a dual enrollment. This means one enrollment in your ITRS provider number with '00' as the eligibility, and one enrollment in your DUII provider number with '06' or '26' as the eligibility code.

General eligibility rules for A&D Providers!

When you enroll clients into regular outpatient services, the eligibility code is '00' for 'None'.

If the client is being enrolled in your DUII Outpatient program, please use the appropriate eligibility code (06 - DUII Diversion or 26 - DUII Convicted).

General eligibility rules for MH Providers!

Enter the code that appropriately identifies the special eligibility group to which the client belongs. Use only one code.

Code Definitions:

04 - Severe and Persistent Mental Illness (SPMI) / Serious Emotional Disorder (SED) (Priority One, i.e., if untreated, at risk of hospitalization)

16 - Non-SPMI / SED, but still Priority One (if untreated, at risk of hospitalization)

17 - Priority Two Client - (geographic, clinical or financial reasons prevent access to private behavioral health services)

18 - Priority Three Client - (does not meet priority 1 or 2 criteria)

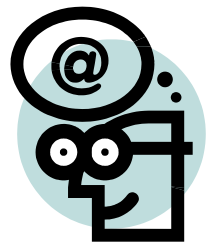

Website location!

Our manuals and e-form applications can be found at:
