**TO:** Association of Community Mental Health Programs  
Community Mental Health Program Directors  
CAF Managers/ District Managers  
OPERA

**FROM:** Therese Hutchinson   
Program and Policy Development Specialist  
Intensive Treatment and Recovery Services Coordinator

**RE:** Intensive Treatment and Recovery Services Client Utilization

---

The document attached below contains Intensive Treatment and Recovery Services client utilization using dedicated Client Process Monitoring System (CPMS) provider numbers pulled by Addictions and Mental Health Division (AMH) during the week of June 1-5, 2009. Please remember CPMS data experiences a three to six month lag time. The data pull indicates state-wide utilization numbers increased to 1,695 individuals served since the last data pull on March 23-27, 2009. However, 939 individuals need to be served by the end of the biennium to meet the state-wide utilization requirement of 2,634. Please continue to enroll ITRS clients using the dedicated CPMS numbers provided to you by AMH until 6/30/09, the end of your contractual agreements. During the remainder of June and the month of July AMH will work with providers to ensure utilizations numbers submitted are correct.

Please review your ITRS utilization numbers. If your numbers differ from the numbers AMH provides in the chart below please send your CPMS data (name, CPMS #, date of birth) to [therese.hutchinson@state.or.us](mailto:therese.hutchinson@state.or.us).

The agency continues to gather and share utilization data with the counties. AMH remains committed to working with counties as they strive to meet their utilization goals.

If you have questions please contact either Therese Hutchinson for ITRS program questions at 503-945-5765 or [therese.hutchinson@state.or.us](mailto:therese.hutchinson@state.or.us) or Dagan Wright for data questions at 503-945-5726 or [dagan.wright@state.or.us](mailto:dagan.wright@state.or.us).
