Health Systems Performance Committee

The Board established the Health Systems Performance Committee to recommend to the Board and continually refine uniform, statewide health care quality standards for use by all purchasers of health care, third-party payers, health care providers and consumers. The Committee will be guided by the triple aim of improving population health, improving the individual's experience of care and reducing per capita costs. The Committee will also be guided by the Oregon Health Fund Board's final report, "Aim High: Building a Healthy Oregon" (November 2008), particularly in reference to Building Block 2: Setting High Standards.

The Health Systems Performance Committee will establish two subcommittees: One focusing on recommendations for payment policy and standards, and the second focusing on standards and metrics related to value in terms of both quality and cost in health care. The two subcommittees together will constitute the Health Systems Performance Committee. Each subcommittee may bring in additional content experts to assist them in developing their recommendations for methodologies, standards and metrics. Recommendations to the Board require a majority vote of the full Health Systems Performance Committee.
