

National Drug Code Reporting for Medical and Institutional Providers

DMAP is required to collect Medicaid drug rebates on medical (CMS-1500) and institutional (UB-04) claims for outpatient drugs that are part of the [Medicaid Drug Rebate Program](#). To meet this requirement you must include National Drug Code (NDC) information whenever you bill DMAP [for drug procedure codes](#).

The NDC reported must be for the actual drug administered, as labeled on the drug packaging. In all claim formats, enter the NDC in 5-4-2 format, with no dashes.

Provider Web Portal claims

Just enter the following. The “N4” qualifier is not required.

- 11-digit **NDC**
- Choose the Unit of Measure (**UOM**) in the drop-down box.
- Enter the **NDC quantity** (limited 8 digits before the decimal and 3 digits after the decimal).

NDC	13533063102
NDC UOM	Milliliter
NDC Quantity	1.000
