The purpose of the committee meeting was to review and make recommendations to the agency regarding enforcement file number 09-5861. The enforcement committee convened in executive session at 8:28 am in accordance to ORS 192.660(2)(f) in order to consider information or records exempt from public inspection. No final actions or final decisions were made in executive session. The committee returned to open session at 8:56 am and reported there to be no violations to the laws or rules. The committee noted that the deficiencies identified within the Department of Human Services survey have been corrected; however, they recommended that the regulatory division issue a letter to the nursing home administrator advising that the facility Director of Nurses (DNS) would benefit from additional training/education on the state and federal nursing facility regulations.
