

## Changes to Files Representing the April 1, 2009 Prioritized List

The following changes were made to the files listed below (as indicated with a '✓') and posted to the Health Services Commission's website as the files were moved from the page labeled 'Pending Changes to List' to the one labeled 'Current Prioritized List' on 3/31/09. Typically, we have the time to conduct a more thorough error-checking process before posting these documents to the web, but there were some challenges in getting the List into the new Medicaid Management Information System (MMIS) for the first time. Instead of waiting until just before the April 1, 2009 List, we wanted to post these files a couple of weeks in advance of implementation. We apologize for any inconvenience this may have caused. If any further inconsistencies are found in the files for the April 1, 2009 List going forward, they will be added to this document.
