

**Oregon Board of Medical Examiners  
PHYSICIAN ASSISTANT COMMITTEE MINUTES  
September 9, 2004  
1500 SW 1<sup>st</sup> Ave, Suite 620  
Portland, Oregon 97201  
*Board Accepted as Revised 10-15-04***

**MEMBERS PRESENT**

Dana Gray, PA, Chairperson  
Randy Randolph, PA  
Bruce Carlson, MD  
Darrel Purkerson, RPh  
Sheridan A. Thiringer, DO, Board Liaison

**STAFF PRESENT**

Kathleen Haley, Executive Director  
Philip Parshley, MD, Medical Director  
Diana Dolstra, Licensing Administrator  
Jennifer Lannigan, Licensing Coordinator  
Brian Kirschner, PA Licensing Specialist

**GUEST**

Pat Kenney-Moore, Associate Director OHSU PA Program, Immediate Past President – OSPA,  
Standing in for Ted J. Ruback, MS, PA

**AGENDA**

***EXECUTIVE SESSION:***

Update on Physician Assistants currently under Board investigation – Gary Stafford, Chief Investigator.

PA Applicant interview

Review application for a Limited License, Postgraduate

***PUBLIC SESSION:***

Seth Howard Wittner, PA, to address the Committee concerning the Board's decisions on PAs performing Myringotomies

Approve Minutes from the June 10, 2004, Committee meeting

Proposed administrative rule change – First Review

    OAR 847-050-0041(6) - Supervising physician must be a Board approved dispensing physician prior to requesting emergency dispensing privileges for a physician assistant

Proposed administrative rule change – OAR 847-050-0037 (2) – Supervision  
Add subsection stating PA/Physician team are not required to list non-medical practice sites on the practice description

Determine where the medical records resulting from a PA's practice activities at non-medical sites should be located, and who will review the charts

Discuss whether PAs should be required to request chronic/intractable pain management authority in addition to a request for Schedule II prescription privileges

Approval of new applicants and practice changes

Approval of new licensee consent agenda

Approval of consent agenda

Approval of Limited License, Specials

Approval of Limited License, Postgraduate

Approval of PA students training in Oregon from PA programs outside of Oregon

FYI – Review the results of the Board's survey concerning physician supervision

Approve future meeting dates

\*\*\*\*\*

Dana Gray, PA, Chairperson, called the meeting to order at 9:30 a.m.

***EXECUTIVE SESSION:***

**UPDATE ON PHYSICIAN ASSISTANTS CURRENTLY UNDER BOARD INVESTIGATION – GARY STAFFORD, CHIEF INVESTIGATOR.**

**PA APPLICANT INTERVIEW**

**REVIEW APPLICATION FOR A LIMITED LICENSE, POSTGRADUATE LICENSE**

***PUBLIC SESSION:***

**PA APPLICANT INTERVIEW**

It was moved and seconded that

**THE PHYSICIAN ASSISTANT COMMITTEE RECOMMENDS THE BOARD OF MEDICAL EXAMINERS APPROVE THE APPLICATION FOR LICENSURE OF THEODORE BURBANK WADE, PENDING SATISFACTORY COMPLETION OF HIS FILE.**

Motion carried unanimously.

## **REVIEW APPLICATION FOR A LIMITED LICENSE, POSTGRADUATE LICENSE**

It was moved and seconded that

**THE PHYSICIAN ASSISTANT COMMITTEE RECOMMENDS THE BOARD OF MEDICAL EXAMINERS APPROVE THE APPLICATION FOR A LIMITED LICENSE, POSTGRADUATE FOR ERIC BRYN HARMON.**

Motion carried unanimously.

### **SETH HOWARD WITTNER, PA: ADDRESS TO THE COMMITTEE CONCERNING THE BOARD'S DECISION ON PAs PERFORMING MYRINGOTOMIES**

Seth Howard Wittner, PA, and his supervising physician, John M. Epley, MD, stated that the purpose of their presentation was to appeal the full Board's decision to not approve their request that myringotomies with and without tubes and with and without perfusion of the middle ear space be added to Mr. Wittner's practice description. Mr. Wittner indicated that he hoped some detailed arguments could be laid out for the full Board of Medical Examiners regarding the request, to set out what the rationale is for the request and explain Mr. Wittner's training at the hands of Dr. Epley.

Mr. Wittner outlined his training and experience in performing myringotomies in the Otolaryngology Head and Neck Surgery Department at Temple University Hospital as well as with Dr. Epley. Mr. Wittner stated that he has done 25 myringotomies, 20 for the purpose of instilling lidocaine and dexamethasone in the middle ear, and five for the purpose of putting a tube in place for ventilation of the middle ear or for delivery of home-administered drops to the middle ear for balance problems or for hearing loss to help in the face of a sudden onset sensory neural hearing loss. He indicated that he worked at Temple University Hospital for nearly 2 years and has submitted documentation of 112 hours of Category 1 CME in otolaryngology during that time. Dr. Epley stated he has no question of Mr. Wittner's ability to perform myringotomies on his own as there were no complications involved in any of the procedures Dr. Epley observed Mr. Wittner perform.

Mr. Wittner stated that Dr. Epley has a special video monitor in his surgical room so he can observe everything Mr. Wittner does during a procedure under magnification. He indicated that Dr. Epley and he replicate an eardrum with a little piece of Steri-Strip so that Mr. Wittner can see what he is doing on an imitation eardrum. He clarified that this allows him to make an appropriate incision in the correct place, which would be the posterior inferior quadrant furthest away from the ossicles, so that the smallest possible risk of damage is made to the small bones within the middle ear. He added that he uses a long syringe with a blunt tip that cannot easily damage anything inside the ear.

Mr. Wittner stated that the main reason for requesting this procedure is to be able to serve patients more quickly at Dr. Epley's practice.

The PA committee recommended that Mr. Wittner attempt to obtain support for his request from OHSU. Ms Kenney-Moore stated that she is not aware that there is a PA currently doing myringotomies at OHSU.

Mr. Wittner indicated that there is a PA named Midge Price in the Seattle area who trained residents in myringotomies. Dana Gray, PA, recommended that Mr. Wittner ascertain from Ms. Price the average number of procedures a resident is required to perform in order to be considered sufficiently trained in the procedure.

Randy Randolph, PA, recommended that, if he is permitted to present at the full Board meeting, Mr. Wittner present the Board with a video showing himself performing the technique with Dr. Epley using the observation scope.

Mr. Wittner clarified that he and Dr. Epley are requesting to be granted authority for Mr. Wittner to do this procedure under general supervision, and that, if general supervision is not approved, then under direct supervision. Mr. Wittner stated that the practice location is 545 NE 47<sup>th</sup> Avenue, a surgical suite in Dr. Epley's medical office, across the street from Providence Medical Center.

Following the interview, the PA Committee discussed the presentation. Mr. Randolph and Dr. Carlson stated that Mr. Wittner's training appears to be very good. Dr. Thiringer stated that the issue will be when does a practitioner need a surgeon's license to do surgery. Dr. Thiringer added that another consideration for the Board is how granting this request would improve the healthcare to the people of the state. Dr. Thiringer indicated that he does not perceive OHSU would be supportive of this request.

Mr. Gray stated that he thought direct supervision is probably appropriate in this case. Dr. Parshley indicated that he has no objection to Mr. Wittner performing the procedure.

It was moved and seconded that

**THE PHYSICIAN ASSISTANT COMMITTEE RECOMMENDS THE BOARD OF MEDICAL EXAMINERS APPROVE MR. WITTNER TO DO MYRINGOTOMIES UNDER DIRECT SUPERVISION.**

Motion passed, with Dr. Thiringer voting "Nay."

Dr. Thiringer stated that he believes more information is needed, particularly the opinions of the educators at OHSU.

Ms. Haley highlighted that one of the difficulties in grappling with requests for new procedures is determining how much training and how many procedures must be performed in order to determine that a PA is proficient in a procedure.

Mr. Randolph stated his opinion that there is a very distinct difference between training residents to do a procedure versus a PA. He clarified that physicians are trained to go out and do procedures on their own and to recognize complications on their own and to take care of those complications on their own, but that is not what the PAs are asking to do. He said the PAs are asking to do a procedure repeatedly with someone in the next room, presumably in this case, to come and help them if need be. Mr. Randolph said he was not sure that he would agree that the PAs doing a procedure need to have the same experience and exposure as a resident in terms of numbers. He indicated that the critical issue is the PA being able to recognize the complication of a surgical procedure or a chest tube insertion or incision and drainage of a wound in a primary clinic and to have physician backup there to help the PA.

Ms Haley indicated that, while number of procedures performed may not be the ultimate answer, it is certainly a piece of the data that the Board has to weigh and that the Board needs some avenue of comparison with what a resident has done.

***Note: 10-15-04—The Board did not approve Mr. Wittner (or any PA) to perform myringotomies.***

**APPROVE THE MINUTES FROM THE JUNE 10, 2004, PHYSICIAN ASSISTANT COMMITTEE MEETING**

It was moved and seconded that

**THE PHYSICIAN ASSISTANT COMMITTEE APPROVES THE MINUTES OF THE JUNE 10, 2004 PHYSICIAN ASSISTANT COMMITTEE MEETING.**

Motion carried unanimously.

**PROPOSED ADMINISTRATIVE RULE CHANGE - FIRST REVIEW OAR 847-050-0041(6)** *Exhibit A*

At its meeting on June 10, 2004, the PA Committee recommended that the Board approve a new requirement that a physician requesting emergency dispensing authority for a PA or Nurse Practitioner (NP) must be a Board approved dispensing physician. The Board accepted the Committee's recommendation at its July 9, 2004, meeting, and requested staff to inform the Board of Nursing of its decision.

Diana Dolstra, Licensing Administrator, contacted the Nursing Board, and received a response from Tracy Klein, MS, WHCNP. In her written response, Ms. Klein indicated that NPs practice independently in Oregon and that a physician cannot delegate or supervise an NP to prescribe or dispense medication. Ms. Klein stated in her written response that the Board of Nursing cannot endorse the proposed rule and recommended that reference to NPs in the proposed administrative rule be deleted.

Mr. Gray clarified that when a supervising physician requests emergency dispensing authority for a PA, if the supervising physician is not already registered as a dispensing physician with the Board, the supervising physician will be able to register as such immediately.

Dr. Carlson stated that he supports this rule change as supervising physicians should be aware of the dispensing rules. He stated he believes NPs should be included in the rule and recommended that the rule could include the qualification, "in those situations in which the NP is required to have a supervising physician." Dr. Carlson indicated that two such situations would include rural health clinics and correctional facilities. He clarified that the proposed requirement applies to physicians, not to NPs.

Ms. Haley indicated that research would be required to determine if it is within the Board's jurisdiction to include NPs in the rule, given that administrative rules come from the statutes. Ms. Haley stated that Board staff would consult the Federal Health Clinic Act and call the Office of Rural Health for direction in drafting the rule.

Mr. Randolph expressed a concern about the requirement that supervising physicians list the medical necessity of emergency administration on the Practice description form and stated that administration is akin to treatment. Mr. Gray stated that he thinks the Board should remove the options to request emergency administration and emergency dispensing for PAs. Mr. Gray clarified that the rule language pertaining to these authorities is in the Board of Pharmacy rules as well, which the Board of Medical Examiners cannot change. Mr. Purkerson stated that he has no concern about PAs having emergency administration authority. Dr. Carlson clarified that emergency administration is primarily for Schedule II substances.

Ms Kenney-Moore stated that she believes the emergency administration and emergency dispensing issue continues to be a confusing one for the PA students at OHSU, although the students are educated on the intent of that section on the Practice description form. Dr. Carlson stated that last year he submitted definitions for emergency administration and emergency dispensing and that perhaps these definitions could be included on the Practice description form. Staff agreed to email those definitions to Mr. Randolph and Dr. Carlson. Mr. Randolph and Dr. Carlson agreed to address a revision to the Practice description form to incorporate

brief descriptions of emergency administration and emergency dispensing. The PA Committee agreed to refer this issue to the next committee meeting.

It was moved and seconded that

**THE PHYSICIAN ASSISTANT COMMITTEE RECOMMENDS THE BOARD OF MEDICAL EXAMINERS APPROVE OAR 847-050-0041 THAT REQUIRES A PHYSICIAN REQUESTING EMERGENCY DISPENSING AUTHORITY FOR A PA OR NURSE PRACTITIONER BE REGISTERED WITH THE BOARD AS A DISPENSING PHYSICIAN, WITH APPROPRIATE AMMENDMENTS.**

Motion carried unanimously.

### **PROPOSED ADMINISTRATIVE RULE CHANGE - OAR 847-050-0037 (2)**

At the March 11, 2004, PA Committee meeting, Ted Ruback, PA - OSPA representative, requested that the Committee discuss revising the language of the administrative rules, allowing physician assistants to practice in sites that are other than medical, without having to list these sites on the practice description or notify the Board that they are practicing at these sites. At this time PAs are required to list all practice sites, under a specific supervising physician, on the practice description form as stipulated in OAR 847-050-0037 (2) (a). The administrative rule does not differentiate between medical and non-medical sites.

Dr. Carlson stated that he believes a supervising physician should keep a record for any PA the physician supervises which indicates any practice sites other than medical at which the PA performed services, the type of services provided, a list of names of the patients to whom the services were provided, and a statement that the medical records for such services are located at the site where the services were provided.

The Committee listed the following types of duties at sites other than medical which would be included in the rule: school physicals, sports physicals, pre-school physicals, Head Start physicals, and summer camp physicals.

Ms. Haley stated that the Board needs to know the duties being provided by PAs at sites other than medical. She recommended revising the practice description such that the PA is only required to list additional duties provided at sites other than medical which are in addition to those duties the PA typically performs at the medical sites listed on the practice description. Dr. Carlson suggested that the question, "Is it anticipated that the PA will be practicing at any non-medical sites?" could be added to the practice description form, following by a space in which the additional duties beyond those the PA typically performs at medical sties would be listed if the question is answered "Yes." The Committee indicated, however, that often a practice activity at a site other than medical cannot be anticipated at the outset of the supervised practice.

It was suggested that the requirement to list all additional practice sites under the supervising physician be removed from page 6 of the practice description form, and that a revision to OAR 847-050-0037 (2) may not be necessary. The PA Committee agreed that it would be helpful to have the full Board's input on the issue of removing the "PA WILL HAVE ADDITIONAL PRACTICE SITES UNDER THIS SUPERVISING PHYSICIAN" section on page 6 of the practice description.

It was moved and seconded that

**THE PHYSICIAN ASSISTANT COMMITTEE RECOMMENDS THE BOARD OF MEDICAL EXAMINERS APPROVE THE REMOVAL OF THE ADDITIONAL PRACTICE SITES SECTION OF THE PRACTICE DESCRIPTION FORM.**

Motion carried unanimously.

**DETERMINE WHERE THE MEDICAL RECORDS RESULTING FROM A PA'S PRACTICE ACTIVITIES AT NON-MEDICAL SITES SHOULD BE LOCATED, AND WHO WILL REVIEW THE CHARTS**

At its meeting on July 9, 2004, the Board questioned where the medical records resulting from the PA's practice activities at non-medical sites would be located, and what the procedure for chart review should be.

It was moved and seconded that

**THE PHYSICIAN ASSISTANT COMMITTEE RECOMMENDS THE COMMITTEE DISCUSS WRITING A RULE THAT MEDICAL RECORDS BE MAINTAINED AT THE SITE WHERE THE ACTIVITY TOOK PLACE, IF NOT THE PRIMARY PRACTICE SITE.**

Motion carried unanimously.

**DISCUSS WHETHER PAs SHOULD BE REQUIRED TO REQUEST CHRONIC / INTRACTABLE PAIN MANAGEMENT AUTHORITY IN ADDITION TO A REQUEST FOR SCHEDULE II PRESCRIPTION PRIVILEGES**

At its meeting on July 9, 2004, the Board questioned how it would know if a PA were using Schedule II prescription privileges to manage intractable pain. The Board chartered the PA Committee to develop criterion for the approval of PAs to manage chronic/intractable pain.

Mr. Randolph stated that he believes physicians and PAs need to be better educated about the Material Risk Notice form and guidelines for its use, as well as the Board's Statement of Philosophy on Pain Management. Ms. Kenney-Moore stated that OHSU could incorporate these documents into their curriculum.

The PA Committee indicated that chronic/intractable pain management is part of the core competencies for PAs.

It was moved and seconded that

**THE PHYSICIAN ASSISTANT COMMITTEE RECOMMENDS PAs SHOULD NOT BE REQUIRED TO REQUEST CHRONIC / INTRACTABLE PAIN MANAGEMENT AUTHORITY IN ADDITION TO A REQUEST FOR SCHEDULE II PRESCRIPTION PRIVILEGES.**

Motion carried unanimously.

Ms. Kenney-Moore indicated that the OHSU PA Program could talk to the Board about the type of education that PA students receive before they graduate and also the fact that they would be required to take a pain management course, probably close to 12 hours of pain education in general.

***Note: 10-15-04—The Board determined that PAs must request chronic/intractable pain management authority as an additional procedure, outside the core competencies, and separate from a request for Schedule II prescribing privileges.***

## **APPROVAL OF NEW LICENSES AND PRACTICE CHANGES REQUIRING COMMITTEE REVIEW**

**Aubrey Anne Banovic, LL14135**

**I, Portland**

**Supervising Physician: Barbara A. Graham, MD15611**

**I, Portland**

**Committee Recommendation:**

Approve Aubrey Anne Banovic as a physician assistant in the State of Oregon, under the supervision of Barbara A. Graham, MD, per submitted practice description with prescription privileges and the following amendment:

- As Ms. Banovic is a new Oregon PA licensee, chart review is that of a new PA licensee which is; 50% of charts for the first 30 days, 30% for next 60 days, and 20% for the next 90 days.

**Scott Joseph Barlow, PA00867**

**GS, Corvallis**

**Supervising Physician: Toshio Nagamoto, MD19283**

**GS, Corvallis**

**Committee Recommendation:**

Approve Toshio Nagamoto, MD, as the new primary supervising physician for Scott Joseph Barlow, PA, per submitted practice description with Schedule II - V prescription privileges and the following amendments:

- pursuant to the Board's decision of April 18, 2003 and PA Committee review, emergency dispensing privilege is not approved
- pursuant to the Board's decision of April 18, 2003, and PA Committee review, emergency administration is approved but limited to morphine and demerol
- the placement of chest tubes is approved under personal physician supervision only pending documentation of training and a letter of competency.

Pursuant to OAR 847-050-0010 (8) (c), personal supervision means the supervising physician or designated agent must be at the side of the physician assistant at all times, personally directing the action of the physician assistant. Dr. Nagamoto must provide the Board with documentation of training and a letter of competency for review and approval by the Board, before Mr. Barlow may receive Board approval to perform these procedures under any supervision other than personal.

**Laura Stephanie Bellovin, PA00928**

**I, Gresham**

**Supervising Physician: Shammai Rockove, MD19455**

**U, Gresham**

**Committee Recommendation:**

Approve Shammai Rockove, MD, as a supervising physician for Laura Stephanie Bellovin, PA, per the submitted practice description, with Schedule II - V prescription privileges and the following amendments:

Prostate/Scrotal Ultrasound is not approved.

The following procedures are approved under personal physician supervision:

- Dilatation of strictures
- Cystometrogram
- Cystoscopy – supervising physician must perform initial cystoscopy
- Bladder Ultrasound
- Urodynamics

Pursuant to OAR 847-050-0010 (8) (c), personal supervision means the supervising physician or designated agent must be at the side of the physician assistant at all times, personally directing the action of the physician assistant. Dr. Rockove must provide the Board with documentation of training and a letter of competency for review and approval by the Board, before Ms. Bellovin may receive Board approval to perform these procedures under supervision other than personal.

On page 3 of the practice description, "NO" was checked for requesting emergency administering and/or emergency dispensing authority for your PA; however, you listed controlled substances in the section for the controlled substances the PA would administer or dispense. Pending written clarification of your request, Ms. Bellovin does not have approval to administer or dispense any controlled substances.

**Note: 10-15-04—The Board amended the Committee's approval as follows:**

Approve Shammai Rockove, MD, as a supervising physician for Laura Stephanie Bellovin, PA, per the submitted practice description, with Schedule II - V prescription privileges and the following amendments:

The following procedures are approved under personal physician supervision:

- Dilation of strictures
- Cystometrogram
- Cystoscopy – supervising physician must perform initial cystoscopy
- Bladder/ Prostate/Scrotal Ultrasound without interpretation
- Urodynamics

Pursuant to OAR 847-050-0010 (8) (c), personal supervision means the supervising physician or designated agent must be at the side of the physician assistant at all times, personally directing the action of the physician assistant. Dr. Rockove must provide the Board with documentation of training and a letter of competency, to include the number and frequency of the procedures performed by Ms. Bellovin, for review and approval by the Board, before Ms. Bellovin may receive Board approval to perform these procedures under supervision other than personal.

On page 3 of the practice description, "NO" was checked for requesting emergency administering and/or emergency dispensing authority for your PA; however, you listed controlled substances in the section for the controlled substances the PA would administer or dispense. Pending written clarification of your request, Ms. Bellovin does not have approval to administer or dispense any controlled substances.

**Garnie Jo Carter-Powell, PA00691**

**FP, Bend**

**Supervising Physician: David Fredstrom, MD08366**

**FP, Bend**

**Committee Recommendation:**

Approve David Fredstrom, MD, as the primary supervising physician for Garnie Jo Carter-Powell, PA, per submitted practice description with Schedule III - V prescription privileges and the following amendment:

- As Dr. Fredstrom has never received Board approval to supervise Ms. Carter-Powell, pending PA Committee review, chart review shall be that of a new hire PA, which is, 50% of charts for the first 30 days, 30% for the next 60 days, and 20% for the next 90 days.

**Michael Grant Garland, PA00915**

**N, Portland**

**Supervising Physician: Edward Alan McCluskey, MD18356**

**AN, Portland**

**Committee Recommendation:**

Approve Edward Alan McCluskey, MD, as the primary supervising physician for Michael Grant Garland, PA, per the submitted practice description, with Schedule II - V prescription privileges and the following amendments:

The following procedures are not approved pending Board review:

- Administer IV sedation during procedures including Propofol
- Botulism injections

The following procedures are approved under direct physician supervision:

- Refill and reprogram implantable spinal infusion pumps
- Reprogram spinal stimulators
- Radiologic dye injection to test implantable pump function

Pursuant to OAR 847-050-0010 (8) (a), direct supervision means the supervising physician or designated agent must be in the facility when the physician assistant is practicing. Dr. McCluskey must provide the Board with documentation of training and a letter of competency for review and approval, before Mr. Garland may receive Board approval to perform these procedures under supervision other than direct.

**Jill Marie Hartley, PA00807**

**GP, Bend**

**Supervising Physician: Barbara Largent, MD20016**

**FP, Bend**

**Committee Recommendation:**

Approve Barbara Jean Largent, MD, as the primary supervising physician for Jill Marie Hartley, PA, per the submitted practice description, with Schedule III - V prescription privileges and the following amendment:

- Colposcopy is approved under personal physician supervision, pending receipt and approval of documentation of training and a letter of competency.

**Thea Nicole Heaton, PA00957**

**FP, Ontario**

**Supervising Physician: Ned Winslow Farber, DO23243**

**FP, Ontario**

**Committee Recommendation:**

Approve Ned Winslow Farber, DO, as the primary supervising physician for Thea Nicole Heaton, PA, per the submitted practice description, with Schedule II - V prescription privileges and the following amendment:

- Norplant insertion and removal is approved under personal physician supervision, pending receipt and approval of documentation of training and a letter of competency from Dr. Farber.

Pursuant to OAR 847-050-0010 (8) (c), personal supervision means the supervising physician or designated agent must be at the side of the physician assistant at all times, personally directing the action of the physician assistant. Dr. Farber must provide the Board with documentation of training and a letter of competency for review and approval, before Ms. Heaton may receive Board approval to perform this procedure under supervision other than personal.

**Brookley Valentine Holter, PA 00818**

**ORS, Portland**

**Supervising Physician: Timothy James Treible, MD15152**

**ORS, Portland**

**Committee Recommendation:**

Approve Timothy J. Treible, MD, as the primary supervising physician for Brookley Valentine Holter, PA, per the submitted practice description, with Schedule III - V prescription privileges and the following amendment:

- Pin removals are approved under personal physician supervision.

Pursuant to OAR 847-050-0010 (8) (c), personal supervision means the supervising physician or designated agent must be at the side of the physician assistant at all times, personally directing the action of the physician assistant. Dr. Treible must provide the Board with documentation of training and a letter of competency for review and approval, before Ms. Holter may receive Board approval to perform these procedures under supervision other than personal.

**Kevin John Kolcun, LL14497**

**ORS, Bend**

**Supervising Physician: Anthony C. Hinz, MD21812**

**ORS, Bend**

**Committee Recommendation:**

Approve Kevin John Kolcun as a physician assistant in the State of Oregon, under the supervision of Anthony C. Hinz, MD, per submitted practice description, with Schedule II - V prescription privileges and the following amendment:

- As Mr. Kolcun is a new Oregon PA licensee, and Dr. Hinz has never received Board approval as a supervising physician, chart review will be that of a new PA licensee, which is 50% of charts for the first 30 days, 30% for the next 60 days, and 20% for the next 90 days. After December 25, 2004, reduce chart review to 10% of charts per month, and no less than 10 charts per month.

**Suzanne Elaine Marcato, LL14517**

**FP, Prineville**

**Supervising Physician: Ronald W. Sproat, MD12552**

**GS, Prineville**

**Committee Recommendation:**

Approve Suzanne Elaine Marcato as a physician assistant in the State of Oregon, under the supervision of Ronald W. Sproat, MD, per submitted practice description with Schedule II - V prescription privileges and the following amendment:

- Endometrial biopsies are approved under personal physician supervision, pending receipt and approval of documentation of training and a letter of competency.

Pursuant to OAR 847-050-0010 (8) (c), personal supervision means the supervising physician or designated agent must be at the side of the physician assistant at all times, personally directing the action of the physician assistant. Dr. Sproat must provide the Board with documentation of training and a letter of competency, to include the number and frequency of the procedure performed by Ms. Marcato as well as by Dr. Sproat himself, for review and approval by the Board, before Ms. Marcato may receive Board approval to perform this procedure under any supervision other than personal.

**Note: 10-15-04—The Board amended the Committee's approval as follows:**

Approve Suzanne Elaine Marcato as a physician assistant in the State of Oregon, under the supervision of Ronald W. Sproat, MD, per submitted practice description with Schedule II - V prescription privileges and the following amendment:

- Endometrial biopsies are not approved, pending receipt and approval of documentation of training and a letter of competency.

Dr. Sproat must provide the Board with documentation of training and a letter of competency, to include the number and frequency of the procedure performed by Ms. Marcato as well as by Dr. Sproat himself, for review and approval by the Board, before Ms. Marcato may receive Board approval to perform this procedure.

**Bridget Anne Metcalf, PA00768**

**FP, Portland**

**Supervising Physician: William A. Spisak, MD13012**

**I, Portland**

**Committee Recommendation:**

Approve William A. Spisak, MD, as a secondary supervising physician for Bridget Anne Metcalf, PA, per the submitted practice description, with Schedule III – V prescription and emergency administering privileges.

**Robert Gary Petersen, PA00035**

**OBG, Medford**

**Supervising Physician: David Lee Street, MD15501**

**GS, Medford**

**Committee Recommendation:**

Approve David Lee Street, MD, as the primary supervising physician for Robert Gary Petersen, PD, per submitted practice description with the following amendments, and Schedule II prescription privileges. The following procedures are approved under personal physician supervision:

- Thoracentesis
- Placement and removal of chest tubes

Pursuant to OAR 847-050-0010 (8) (c), personal supervision means the supervising physician or designated agent must be at the side of the physician assistant at all times, personally directing the action of the physician assistant. Mr. Petersen's current supervising physician, Dr. David Street, MD, must provide the Board with documentation of training and a letter of competency for Board review and approval, before Mr. Petersen may receive Board approval to perform these procedures under supervision other than personal.

**Note: 10-15-04—The Board amended the Committee's approval as follows:**

Approve David Lee Street, MD, as the primary supervising physician for Robert Gary Petersen, PA, per submitted practice description with the following amendments, and Schedule II prescription privileges. The following procedures are approved under personal physician supervision:

- Thoracentesis
- Placement of chest tubes

Pursuant to OAR 847-050-0010 (8) (c), personal supervision means the supervising physician or designated agent must be at the side of the physician assistant at all times, personally directing the action of the physician assistant. Mr. Petersen's current supervising physician, Dr. David Street, MD, must provide the Board with documentation of training and a letter of competency for Board review and approval, before Mr. Petersen may receive Board approval to perform these procedures under supervision other than personal.

**Daniel David Ruimy, PA00346**

**CDS, Portland**

**Supervising Physician: James Edwards, MD13102 VS, Portland**

**Committee Recommendation:**

Thoracentesis is approved under general physician supervision.

Dr. Edwards' withdrawal of his request for approval of Mr. Ruimy to perform angiograms is accepted.

**Stuart Thompson Sharp, LL14544**

**CDS, Portland**

**Supervising Physician: Hugh Gately, MD12049**

**CDS, Portland**

**Committee Recommendation:**

Approve Stuart Thompson Sharp as a physician assistant in the State of Oregon, under the supervision of Hugh Gately, MD, per submitted practice description, Schedule II - V prescription privileges, and the following amendments:

The following procedures are approved under personal physician supervision:

- Insertion and removal of:
  - Cut-downs
  - Pacemaker wires
  - Chest tubes
  - Venous arterial cannulation
  - Swan-Ganz catheters
  - Subclavian intrajugular lines
  - Endotracheal tubes
- Opening mediastinal incisions and Subcutaneous tissues – the Board requires clarification from Dr. Gately regarding whether this procedure is re-entry sternotomy
- Removal of intra-aortic balloon pumps

Pursuant to OAR 847-050-0010 (8) (c), personal supervision means the supervising physician or designated agent must be at the side of the physician assistant at all times, personally directing the action of the physician assistant. Dr. Gately must provide the Board with documentation of training and a letter of competency for review and approval, before Mr. Sharp may receive Board approval to perform these procedures under supervision other than personal.

As Mr. Sharp is a newly Oregon licensed PA, pending Board review, chart review is that of a new licensed PA; which is, 50% of charts for the first 30 days, 30% of charts for the next 60 days, and 20% for the next 90 days. After six months, chart review is reduced to 10% of charts per month, or no less than 10 charts per month.

**Note: 10-15-04—The Board amended the Committee's approval as follows:**

Approve Stuart Thompson Sharp as a physician assistant in the State of Oregon, under the supervision of Hugh Gately, MD, per submitted practice description, Schedule II - V prescription privileges, and the following amendments:

The following procedures are approved under personal physician supervision:

- Insertion of:
  - Cut-downs
  - Pacemaker wires
  - Chest tubes
  - Venous arterial cannulation
  - Swan-Ganz catheters
  - Subclavian intrajugular lines
  - Endotracheal tubes
- Opening mediastinal incisions and subcutaneous tissues – the Board requires clarification from Dr. Gately regarding whether this procedure is re-entry sternotomy

Pursuant to OAR 847-050-0010 (8) (c), personal supervision means the supervising physician or designated agent must be at the side of the physician assistant at all times, personally directing the action of the physician assistant. Dr. Gately must provide the Board with documentation of training and a letter of competency for review and approval, before Mr. Sharp may receive Board approval to perform these procedures under supervision other than personal.

As Mr. Sharp is a newly Oregon licensed PA, pending Board review, chart review is that of a new licensed PA; which is, 50% of charts for the first 30 days, 30% of charts for the next 60 days, and

20% for the next 90 days. After six months, chart review is reduced to 10% of charts per month, or no less than 10 charts per month.

**Yelena V. Shuey, PA00860**

**FP, Ontario**

**Supervising Physician: Ned Winslow Farber, DO23243**

**FP, Ontario**

**Committee Recommendation:**

Approve Ned Winslow Farber, DO, as the primary supervising physician for Yelena V. Shuey, PA, per the submitted practice description, with Schedule II - V prescription privileges and the following amendment:

- Norplant insertion and removal is approved under personal physician supervision, pending receipt and approval of documentation of training and a letter of competency from Dr. Farber.

Pursuant to OAR 847-050-0010 (8) (c), personal supervision means the supervising physician or designated agent must be at the side of the physician assistant at all times, personally directing the action of the physician assistant. Dr. Farber must provide the Board with documentation of training and a letter of competency for review and approval, before Ms. Shuey may receive Board approval to perform this procedure under supervision other than personal.

**Ronald Alan Smith, LL14505**

**ORS, Salem**

**Supervising Physician: Blake Alan Nonweiler, MD19775**

**ORS, Salem**

**Committee Recommendation:**

Approve Ronald Alan Smith as a physician assistant in the State of Oregon, under the supervision of Blake A. Nonweiler, MD, per submitted practice description, with Schedule III - V prescription privileges and the following amendment:

- As Mr. Smith is a new PA licensee in the State of Oregon and a new PA graduate, chart review is 50% of charts for first 30 days, 30% of charts for next 60 days, and 20% for the next 90 days. After six months, reduce chart review to 10% of charts per month or no less than 10 charts per month.

**Eduardo Rodolfo Valenzuela, PA00950**

**U, Bend**

**Supervising Physician: Michel Adeodat Boileau, MD09307**

**U, Bend**

**Committee Recommendation:**

Approve Michel A. Boileau, MD, as the primary supervising physician for Eduardo Rodolfo Valenzuela, PA, per submitted practice description with Schedule II - V prescription privileges.

**Hans Edwin Weih, PA00421**

**FP, Oakridge**

**Supervising Physician: Harry T. Adamo, MD11130**

**FP, Albany**

**Committee Recommendation:**

Approve the revised practice description for Hans Edwin Weih, PA, under the supervision of Harry T. Adamo, MD, per submitted practice description with emergency administering, emergency dispensing, Schedule II-V prescription privileges, and the following amendments:

- Pending Board review of documentation of training and a letter of competency, circumcision is not approved
- EKG with interpretation is revised to read EKG with initial interpretation
- Endometrial and cervical biopsies are approved under personal physician supervision

Pursuant to OAR 847-050-0010 (8) (c), personal supervision means the supervising physician or designated agent must be at the side of the physician assistant at all times, personally directing the action of the physician assistant. Dr. Adamo must provide the Board with documentation of training and a letter of competency, including the number and frequency of procedures performed by Mr. Weih, for review and approval, before Mr. Weih may receive Board approval to perform these procedures under supervision other than personal.

**Note: 10-15-04—The Board amended the Committee's approval as follows:**

Approve the revised practice description for Hans Edwin Weih, PA, under the supervision of Harry T. Adamo, MD, per submitted practice description with emergency administering,

emergency dispensing, Schedule II-V prescription privileges, and the following amendments:

- Circumcision is not approved, pending Board review of documentation of training and a letter of competency
- Endometrial and cervical biopsies are not approved, pending Board review of documentation of training and a letter of competency
- EKG with interpretation is revised to read EKG with initial interpretation

Dr. Adamo must provide the Board with documentation of training and a letter of competency, including the number and frequency of procedures performed by Mr. Weih, for review and approval, before Mr. Weih may receive Board approval to perform these procedures.

**Erika Lee Wilson, PA00478**

**FP, Hood River**

**Supervising Physician: Sonia J. Schuemann, MD20946**

**FP, Hood River**

**Committee Recommendation:**

Approve Erika Wilson, PA, under the physician supervision of Sonia J. Schuemann, MD, to perform the following procedures under direct supervision:

- laser hair removal
- laser vein treatment
- laser removal of lentigines
- laser genesis
- Intense Pulse Light therapy
- Botox injections
- soft tissue filler injections
- microdermabrasion
- chemical resurfacing

**Note: 10-15-04—The Board amended the Committee's approval as follows:**

Approve Erika Wilson, PA, under the physician supervision of Sonia J. Schuemann, MD, to perform the following procedures under direct supervision:

- laser hair removal
- laser vein treatment
- laser removal of lentigines
- Intense Pulse Light therapy
- soft tissue filler injections
- microdermabrasion
- chemical resurfacing

Laser genesis is not approved pending receipt and approval by the Board of a description of this procedure.

Botox injections are not approved as the procedure is only approved in Dermatology or Plastic Surgery practices and limited to the face for cosmetic purposes only on adult patients.

It was moved and seconded that

**THE PHYSICIAN ASSISTANT COMMITTEE RECOMMENDS THE BOARD OF MEDICAL EXAMINERS APPROVE THE AFOREMENTIONED RECOMMENDATIONS AS AMENDED.**

Motion carried, with Mr. Gray and Mr. Randolph voting "Nay" on the recommendation to not approve Laura Stephanie Bellovin, PA to perform the procedures Prostate and Scrotal Ultrasound.

**Note: 10-15-04—The Board accepted the aforementioned Committee recommendations as amended.**

| <b>Student PA Name</b> | <b>Training Dates</b> | <b>Supervising Physician</b> | <b>Location</b>   |
|------------------------|-----------------------|------------------------------|-------------------|
| Leanne Brink           | 3/14/05 – 8/26/05     | Thomas Creelman, MD          | Warm Springs, OR  |
| Chad Jorgensen         | 8/30/04 – 9/24/04     | Ron Cirullo, MD              | Eugene, OR        |
| Chad Jorgensen         | 9/27/04 – 10/22/04    | Craig Mohler, MD             | Eugene, OR        |
| Julieta Ortega         | 8/30/04 – 9/24/04     | Michael Knowler, MD          | Prineville, OR    |
| Chrissi Rotin          | 3/14/05 – 8/26/05     | James Nordal, MD             | Cave Junction, OR |

It was moved and seconded that

### **THE PHYSICIAN ASSISTANT COMMITTEE RECOMMENDS THE BOARD OF MEDICAL EXAMINERS APPROVE THE AFOREMENTIONED STUDENTS.**

Motion carried unanimously.

**Note: 10-15-04—The Board accepted the aforementioned Committee recommendations.**

## **REVIEW THE RESULTS OF THE BOARD'S SURVEY CONCERNING PHYSICIAN SUPERVISION**

At its meeting on March 11, 2004, the Committee reviewed the requested medical and surgical procedures not in the core competencies, to determine whether to add any to the core competency list on the practice description. The Committee recommended that the Board approve the proposed revisions. At its meeting on April 16, 2004, the Board evaluated the Committee recommendations and tabled their decisions until they had more time to review the list. At its meeting on July 9, 2004, the Board deferred making any recommendations until the new Board members had the opportunity to review the procedures. Following the July 9, 2004 Board meeting, new Board members had the opportunity to individually review the list of procedures. The physician Board members' individual opinions are currently in survey form. The full Board has not reached a consensus on the appropriateness of the degree of supervision for each procedure.

Board staff commented that, in its current form, the survey results could be used by a non-medically-trained individual to inform PAs about the current likelihood that a procedure outside the core competencies would be approved, and under what conditions, which was the original intent of the list. Staff clarified that those procedures requested for which there is no clear direction regarding approval from the survey results, staff would refer the request on to the PA Committee for review. The PA Committee cited the usefulness of the survey results from the standpoint of informing the Committee's and Board's decision-making process for considering requests outside of the core competencies. The PA Committee clarified that this list is for BME internal use only at this time. Board staff will include the survey results in the PA Committee and Board agenda books on an ongoing basis.

## **APPROVE FUTURE MEETING DATES:**

|              |                       |
|--------------|-----------------------|
| BME          | October 14 – 15, 2004 |
| PA Committee | December 9, 2004      |
| BME          | January 13 – 14, 2005 |
| PA Committee | March 10, 2005        |

## **ADJOURNMENT**

There being no further business to discuss, Dana Gray, PA, adjourned the meeting at 1:35 p.m.

OREGON ADMINISTRATIVE RULES

CHAPTER 847, DIVISION 050 - BOARD OF MEDICAL EXAMINERS

PROPOSED RULES CHANGES – OCTOBER 2004

FIRST REVIEW BY THE BOARD

**Proposed administrative rules require the supervising physician of a physician assistant who is requesting emergency dispensing privileges, or a nurse practitioner requesting dispensing privileges from the Board of Nursing to be registered with the Board as a dispensing physician.**

**847-050-0041**

**Prescription Privileges**

(1) An Oregon grandfathered physician assistant may issue written or oral prescriptions for medications, Schedule III-V, which the supervising physician has determined the physician assistant is qualified to prescribe commensurate with the practice description and approved by the Board if the physician assistant has passed a specialty examination approved by the Board prior to July 12, 1984, and the conditions in (2) (a) and (b) are met.

(2) A physician assistant may issue written or oral prescriptions for medications, Schedule II-V, which the supervising physician has determined the physician assistant is qualified to prescribe commensurate with the practice description and approved by the Board if the following conditions are met:

(a) The physician assistant has met the requirements of OAR 847-050-0020(1); or is an Oregon grandfathered physician assistant who has passed the Physician Assistant National Certifying Examination (PANCE).

(b) The applicant must document adequate training and/or experience in pharmacology commensurate with the practice description;

(c) The Board may require the applicant to pass a pharmacological examination which may be written, oral, practical, or any combination thereof based on the practice description.

(d) An application for Schedule II controlled substances prescription privileges must be submitted to the Board by the physician assistant's supervising physician and must be accompanied by the practice description of the physician assistant. The Schedule II controlled substances prescription privileges of a physician assistant shall be limited by the practice description approved by the board and may be restricted further by the supervising physician at any time. To be eligible for Schedule II controlled substances prescription privileges, a physician assistant must be certified by the National Commission for the Certification of Physician Assistants and must complete all required continuing medical education coursework.

(2) The prescribing physician assistant, to be authorized to issue prescriptions for Schedules II through V controlled substances, must be registered with the Federal Drug Enforcement Administration.

(3) Written prescriptions shall be on a blank which includes the printed or handwritten name, office address, and telephone number of the supervising physician and the printed or handwritten name of the physician assistant. The prescription shall also bear the name of the patient and the date on which the prescription was written. The physician assistant shall sign the prescription and the signature shall be followed by the letter "P.A." Also the physician assistant's Federal Drug Enforcement Administration number shall be shown on prescriptions for controlled substances.

(4) A licensed physician assistant may make application to the Board for emergency administering and dispensing authority. The application must be submitted in writing to the Board by the supervising physician and must explain the need for the request, as follows:

- (a) Location of the practice site;
- (b) Accessibility to the nearest pharmacy, and
- (c) Medical necessity for emergency administering or dispensing.

(5) The dispensed medication must be pre-packaged by a licensed pharmacist, manufacturing drug outlet or wholesale drug outlet authorized to do so under ORS 689 and the physician

assistant shall maintain records of receipt and distribution.

**(6) A physician who supervises a physician assistant who is applying for emergency dispensing privileges, or monitors/supervises a nurse practitioner who dispenses medications in a Rural Health Clinic, must be registered with the Board of Medical Examiners as a dispensing physician.**
