License Renewals

Nearly all physicians and physician assistants in Oregon will renew their licenses between October and December 31, 2013. As a result, Board staff will process approximately 17,000 license renewals in a three-month period while at the same time continuing to process new applications to practice in Oregon. The implementation of online renewals in 2009 has made this process smooth for licensees and manageable for staff.

Online renewals are more accurate, more efficient and less costly. Accuracy is increased in two ways. First, when a licensee logs in with his or her license number, date of birth and password, the program will pre-populate much of the information currently on file. Second, the system ensures that the licensee completes any required fields before submitting the renewal. Online renewals are also more efficient. Licensees report that the process is fast due to the pre-populated fields and ease of electronic entry. In addition, licensing staff is able to issue approvals in an average of seven days, while it took an average 20 days to process a paper renewal application. Costs are reduced by eliminating paper copies and postage by allowing a licensee to complete the renewal and submit it immediately online.

Licensees can expect an e-mail reminder to renew in addition to the

Board Welcomes New Osteopathic Member

In April, the Board welcomed Katherine L. Fisher, DO, as its newest member.

Dr. Fisher is a California native who attended The College of Idaho in Caldwell, Idaho, and earned a Bachelor of Science degree in Biology, English and Human Ecology Dimension. She continued to medical school at the College of Osteopathic Medicine of the Pacific in Pomona, California, and completed an osteopathic rotating internship at East Moreland General Hospital in Portland, Oregon. Dr. Fisher stayed in Portland to complete her internship and residency in internal medicine at Emanuel Hospital.

Dr. Fisher practices at Adventist Health Medical Group in Portland, Oregon. She also acts as a member of the Applicant Interview Group and as a Clerkship Director at Western University of Health Sciences, College of Osteopathic Medicine of the Pacific-Northwest.

She succeeds Lewis D. Neace, DO, who completed two consecutive terms while remaining on active duty in the Combat Rescue Wing of the Air Force. +

Katherine L. Fisher, DO, joined the Board in April.

Legislature Passes Bill on Disclosing Financial Interests

A decision to refer a patient to a facility for a diagnostic test, treatment or service must be based on the patient's clinical needs and personal health choices. Providers are reminded to disclose any financial interest when making a referral. Senate Bill 683 expands this requirement to physician assistants and requires the Oregon Health Authority to adopt rules regarding the form and manner of the disclosure. The Board investigates allegations that a provider failed to inform the patient as required, and violations result in disciplinary action.

postcard reminder. Beginning in October, licensees can complete the online renewal by visiting www.oregon.gov/OMB. Alternatively, licensees may visit the Board office to complete the renewal process on a designated Board computer.

Continuing Medical Education Audits

In January 2014, the Oregon Medical Board will conduct random audits of Continuing Medical Education (CME) compliance for physicians and physician assistants.

Hours must be relevant to the licensee's practice and be completed within the 2012-2013 licensing biennium. Licensees who have completed the six hours of CME on pain management or end-of-life care offered by the Department of Human Services can apply these courses to the total hours required by the Board.

Licensees can use ongoing participation in specialty board recertification to fulfill CME requirements. However, lifetime certification will not satisfy these requirements. Staff will verify certification status directly through the certifying board.

Board staff will notify audited licensees in January 2014 by e-mail and letter. Licensees must respond to the request within 60 days with documentation of completed CME.

For additional information regarding CME requirements, including the number of hours required, acceptable CME accreditors, possible exemptions and penalties for failure to comply, please visit www.oregon.gov/OMB/pages/cme.aspx. +

New Services Available Through OHSU Library

For many years, the OHSU Library has provided services to Oregon licensed health professionals. A small portion of MD and DO licensing fees are appropriated through state legislation and administered by the OHSU Library to provide information resources for Oregon clinicians.

After evaluating the usage and cost of existing resources available to licensed health professionals in Oregon, the Library is rolling out an article delivery pilot project available to MDs and DOs. In partnership with the Reprints Desk, the pilot project will provide free, expedient journal article delivery on a first-come, first-served basis. Each clinician can order up to three articles during the pilot, which will end in June 2014 or when the funds appropriated for the project are spent.

Additionally, the Library will be adding AccessMedicine, a collection of 75 reference books. Harrison's, Goodman and Gillman's and the Lange Current Diagnosis and Treatment series are just a few of the titles available.

The OHSU Library is excited to offer these new services but regretfully had to discontinue others. STAT!Ref, DynaMed and EBSCO Medline are resources that will no longer be available.

To use these resources or learn more about them, go to www.ohsu.edu/library/orhp. Inquiries may be directed to refer@ohsu.edu. +

Committee Member Changes

The sub-committees of the Board provide an invaluable public service. The Committees are responsible for reviewing license applications and advising the Board on rules and policy questions. Each Committee is made up of members of the profession and physicians. The Board appreciates the work done by each Committee and welcomes these new Committee members.

Emergency Medical Services (EMS) Advisory Committee:

Christoffer Poulsen, DO, FACEP, is a board certified emergency medicine physician practicing at Sacred Heart Medical Center in Eugene. Dr. Poulsen is the Medical Director and Physician Advisor of Lane Fire Authority in Lane County, Oregon. He is also the Assistant Medical Director at REACH Air Medical based in Santa Rosa, California, and an Affiliate Assistant Professor of Oregon Health and Science University's Department of Emergency Medicine. He joined the Committee in July 2013.

Susan Katz is the newly appointed public member of the Committee. She is a retired teacher who specialized in the gifted program. A Memphis, Tennessee native, Ms. Katz now lives in Portland where she volunteers in the community and spends time with family. She joined the Committee in July 2013. The public member position is a new addition to the Committee, and the Committee members look forward to Ms. Katz's important perspective on the role of EMS in the community. +

Committee Opening

The Board's **Acupuncture Advisory Committee** is seeking a **physician member**. The Committee makes recommendations to the Board on licensing, investigations, education and issues related to acupuncture in Oregon. It is composed of three acupuncturists, two physicians and one Board member. The term of office is four years. Committee meetings occur twice a year, with additional meetings or conference calls if necessary.

Applicants must submit a curriculum vitae and letter of intent. Interested parties may contact the Board at 971-673-2700 or log on to www.oregon.gov/OMB/pages/ccmvacancies.aspx. +

Oregon Administrative Rules

Rules proposed and adopted by the Oregon Medical Board.

The Oregon Medical Board and other state agencies operate under a system of administrative rules to ensure fairness and consistency in procedures and decisions. Periodically, these Oregon Administrative Rules (OARs) must be amended in response to evolving standards and circumstances. OARs are written and amended within the agency's statutory authority granted by the Legislature.

Rules go through a First and Final Review before being permanently adopted. Temporary rules are effective after First Review, but they expire in 180 days unless permanently adopted after a Final Review. Official notice of rulemaking is provided in the Secretary of State *Bulletin*. The full text of the OARs under review and the procedure for submitting comments can be found at: www.oregon.gov/omb/pages/proposedrules.aspx.

Proposed Rules

First Review

Board Administration

OAR 847-003-0200: Board Member

Compensation - The proposed new rule establishes the compensation authorized for Board members.

Physicians (MD/DO/DPM)

OAR 847-015-0025: Dispensing, Distribution and Administration - The proposed rule amendment establishes documentation standards for drugs dispensed, distributed or administered; requires provision of take-home instructions for drugs dispensed or distributed; clarifies that distribution, as defined by the Board of Pharmacy, is distinct from dispensing; and

clarifies that supervising a physician assistant with drug dispensing authority without registering as a dispensing physician is a violation of the rule.

OAR 847-017-0000 through 847-017-0040: Office-Based Surgery - The proposed rule amendments classify levels of office-based surgeries and set forth the corresponding requirements; reorganize and add new definitions; establish a standard of practice for licensees performing office-based surgery; set forth requirements for where a licensee may perform office-based surgery; clarify the assessment and informed consent procedures prior to the performance of an office-based surgery; clarify the requirements for patient medical records; expand the emergency care and transfer protocol requirements; require reporting of specified office-based surgical adverse events; and contain general grammar and language housekeeping changes.

Medical & Osteopathic Physicians (MD/DO)

OAR 847-010-0066: Visiting Physician

Requirements - The proposed rule amendment would expand the visiting physician approval to include out-of-state physicians who provide health care services without compensation at a community nonprofit organization such as a county health fair. The proposed rule amendment also deletes the requirement for the visiting physician applicant to submit a curriculum vitae as the needed information is now gathered through the electronic application process.

OAR 847-020-0150 and 847-020-0185: Documents and Forms to be Submitted for Licensure;

License Application Withdrawals - The proposed rule amendments reflect the merger of the two national databanks (formerly the National Practitioner Data Bank and the Health Integrity & Protection Data Bank) into one (now known as the National Practitioner Data Bank).

(Continued on page 10)

Oregon Administrative Rules

(Continued from page 9)

OAR 847-026-0010: Documents, Letters and Certifications Obtained by the Board - The proposed rule amendment reflects the merger of the two national databanks (formerly the National Practitioner Data Bank and the Health Integrity & Protection Data Bank) into one (now known as the National Practitioner Data Bank).

Temporary Rules

First Review, Temporarily Adopted

All Licensees

OAR 847-001-0040: Approval of Notices of Civil Penalty - The proposed new rule, which has been temporarily adopted, puts into administrative rule the authority that has been previously delegated by the Board to the Executive Director over approving and signing Notices of Civil Penalty for violation of Board administrative rules.

OAR 847-005-0005: Fees - The proposed rule amendment, which has been temporarily adopted, reflects fees approved by the Oregon Legislature for the 2013-15 biennial budget, including adjusted registration fees, a \$100 application fee for a physician to supervise a physician assistant, a one-time surcharge for physician assistants, and a pass through fee for the actual cost of criminal records checks performed on applicants or licensees.

OAR 847-008-0003: Delegation of Authority - The proposed new rule, which has been temporarily adopted, puts into administrative rule the licensing authority that has been previously delegated by the Board to the Executive Director and Medical Director.

OAR 847-008-0068: State and Nationwide Criminal Records Checks, Fitness Determinations - The proposed rule amendment, which has been temporarily adopted, specifies that the criminal records check cost will be passed through to the applicant or licensee as approved by the Oregon Legislature in the 2013-15 budget.

OAR 847-020-0165, 847-050-0022, 847-070-0024, and 847-080-0016: Application for Licensure by Military Spouse or Domestic Partner - The proposed new rules, which have been temporarily adopted, implement an augmented process for licensure of military spouses or domestic partners as required by 2013 House Bill 2027. Four rules are included here, broken down by appropriate OAR division, for medical and osteopathic physicians, physician assistants, acupuncturists, and podiatric physicians. Specifically, each rule defines "military spouse or domestic partner," provides the qualifications for this augmented process, provides the documents that will be accepted in lieu of other documents, lists any information that the Board will obtain on behalf of the applicant, and specifies the additional documents that will be required as part of this augmented application process.

OAR 847-065-0015, 847-065-0025, 847-065-0035, 847-065-0055, 847-065-0060, and 847-065-0065: Health Professionals' Services Program - The proposed rule amendments, which have been temporarily adopted, reflect changes made by 2013 House Bill 2124 regarding the Health Professionals' Services Program. Specifically, the rule amendments refer to the new statutory location for the definition of "substantial non-compliance," remove the term "successful completion" from the definitions and add the substantive information to the rule on Completion Requirements, clarify the purpose of

the investigation into the licensee's practice that occurs prior to full enrollment in the program, clearly establish the ability for licensees to self-refer to the program, exempt enrolled licensees with solely a mental health disorder from random drug or alcohol testing unless otherwise required by the Board, require the Board to assess the licensee's compliance with the monitoring agreement to complete the program or the contractor to assess the compliance if the licensee is self-referred, specify that civil commitments for mental illness are considered substantial non-compliance rather than all admissions for mental health treatment, and allow the Board to review reports from the program for substantial non-compliance rather than mandating investigation of all reports.

Medical and Osteopathic Physicians (MD/DO)

OAR 847-010-0063: Limited License, Medical Faculty - The proposed rule amendment, which has been temporarily adopted, accurately reflects that the Limited License, Medical Faculty is approved weekly rather than quarterly as a result of the delegation of these license application approvals to the Executive Director and Medical Director in July 2010.

Medical and Osteopathic Physicians and Physician Assistants (MD/DO/PA)

OAR 847-050-0027 and 847-050-0042: Approval of Supervising Physician; Registration - The proposed rule amendment, which has been temporarily adopted, specifies that there is a fee for the supervising physician application and implements a one-time surcharge for physician assistants renewing or applying for initial licensure in the 2014-2015 licensing biennium. These fees are as approved by the Oregon Legislature in the 2013-15 budget.

Adopted Rules

Final Review

All Licensees

OAR 847-001-0035: Approval of Suspensions and Terminations of Orders by Operation of Law -

The new rule delegates authority to the Executive Director and Medical Director to approve Suspensions and Terminations of Orders that occur by operation of law. Currently, Suspensions that occur by operation of law are those required by statute for licensees who are in arrears for child support, licensees who do not comply with CME audit requirements, licensees who are adjudged to be mentally ill or admitted to a treatment facility for a mental illness for more than 25 consecutive days, and licensees who are imprisoned.

Currently, Terminations of Orders that occur by operation of law are those required by statute for licensees who come into compliance with child support or the CME audit requirements after the minimum 90 day suspension.

Acupuncturists (LAc)

OAR 847-070-0050: Acupuncture Advisory

Committee - The rule amendment corrects the term of office for Acupuncture Committee members and specifies that the Committee elects its own chair and is entitled to compensation.

Podiatrists (DPM)

OAR 847-080-0007 through 847-080-0030: Podiatry -

The rule amendments update the name of the licensing exam, clarify that applicants must pass the MPA and DEA exams and a criminal records check, streamline and clarify the qualifications and documentation requirements to reflect a simplified application process that has evolved with advancements in technology and availability of electronic documents, and clarify the requirement for a clinical competency assessment for applicants who have not had sufficient postgraduate training or specialty board certification or recertification within the past 10 years. +
