

AGENDA

JFHQ & Readiness Centers, Region 2 thru 8

Safety Committee Meeting

Location: JFHQ VTC Room

Date: Tuesday, March 17, 2009

Time: 1:30 PM

1. Review and approve February meeting minutes – All
2. Updated on Safety Matrix - Robin
3. Review of Accident/Incident Reports for February – Robin
4. Review of Workers Comp statistics for 2008 - Robin
5. Hazard Log Review/Non Hazard Log – Robin
6. Review of GOSH Conference – Robin
7. Safety Day 2009 – Robin
8. SIC Codes & DART Rate - Robin
9. New Business
 - Kidde Fire Extinguisher Recall
 - Earthquake Drill

MEMORANDUM FOR RECORD

Subject: Safety Meeting for March, 2009

The Oregon Military Department Safety Committee met on 17 March 2009, at the Military Department in the VTC Room. The meeting convened at 1:30 PM. The status of the Member attendance was as follows:

Frank Wallace	SMW	Chairman	Present
Timothy Gilbert	AGI	Member	Present
Robin Webb	AGP	Safety Manager/Recorder	Present
Bryce Dohrman	AGC	Risk Manager	Absent
Bruce Vollstedt	AGI	Member	Present (Tele)
Jeff Beck	AGI	Member	Absent
Terry Larson	SMW	Member	Present
Terri Kroeker	DS-Air	Member	Present
Mike Wiley	Region 4	Member	Present (Tele)
John Unger	Region 5	Member	Absent
Owen Pence	Region 6	Member	Absent
Jack Cassity	Region 7	Member	Present (Tele)
Dan Hinkley	Region 8	Member	Present (Tele)
Mike Wilson	AGI	Member	Absent
Terry Sevey	RTI	Member	Present
Randy Luketmeyer	AGI	Member	Present
Cherie Zastoupil	OEM	Member	Present

1. Review of Minutes: The first order of business was to review the Safety Meeting minutes from the February, 2009 meeting. Minutes were approved as written.

2. Update on Safety Matrix: Robin indicated she updated the matrix by putting the policy number under each of the "X's" listed in the "In Compliance" column so that it will be easy to refer to. She indicated she only needs to put a few more finishing touches on language and then it's ready to go through the HR Director up the chain. She will try to get that accomplished by the end of this week. We will be working on scheduling the OSHA Consultant shortly.

3. Review of Accident/Incident Reports for February: Robin indicated there were two last month. Tim reiterated how important it is that when something happens, even if you don't go to the doctor, you still need to complete an incident report. One of the two incident reports this month reflect a worker who got hurt in October and just now had to

file a workers comp claim. Had he not filled out a report stating he hurt himself, there may have been questions regarding the validity of his incident.

4. Review of Workers Comp Statistics for 2008: Robin passed out a copy of the chart of injuries for 2008. She indicated this is only statistics for 2008 although the report indicates as of February 2009. This report also does not reflect the 2006 claim we still have open, two 2007 claims and a State Active Duty claim from 2002 which we are all still paying on. For 2009, we already have 12 new claims and 4 Incident Reports. Robin indicated she will bring a break down of what those 12 new claims consist of to the next meeting.

5. Hazard/Non Hazard Log Review: Robin reported no new issues have been added to either log.

6. GOSH Conference Update: Robin indicated she attended several classes including Emergency Preparedness/Emergency Response, Risk Management & Safety, Wellness Committees, Handling Life Threatening Emergencies in your Business, Pandemic Flu and Work Violence. All of which were very good classes. She made several good networking connections including Chief Don Fleck from Mt. Angel Fire Department who indicated he can provide us free CPR/AED training. I am supposed to connect with him next week to set that up. He also has a connection with the Safety Training Office at the Salem Fire Department, Station 6, who can help us do Fire Extinguisher Training. I should hear from him by the end of this week.

7. Safety Day 2009: Robin indicated an email came out that the next Safety Break day in Oregon is scheduled for May 13th. Any ideas or suggestions to anything we want to do? She will be having a meeting with Bonnie from SAIF on Monday so she can check in with her to see if they can provide something. Tim suggested maybe there is a mobile type device that can be parked out front that people look at. Bruce suggested that the Safety Committee have some type of goal for the year for improvement. Tim suggested the goal should be to get the OSHA Consultant in. Bruce suggested some thing like looking and identifying all ladders like last year in which we replaced 14 of them. We had a target; we identified it and went after it. Robin will gather info on what our biggest percent of injuries and then look at that information and see if there is something we can target. She will bring that information to the next meeting.

8. SIC Codes & DART Rate: Robin indicated that last month Bruce asked about the 9711 SIC Code and if we could be separate. Robin stated that she researched this and we are stuck under the 9711 code because we fall under the National Guard. There is no way to break us out separately. She will talk with Bonnie at SAIF to see if she can compare us by case rate within the state to something similar. Robin will report information at the next meeting.

9. New Business:

1. Kidde Fire Extinguishers: Robin passed out a recall on Kidde Fire Extinguishers. She indicated that this should probably be posted on bulletin boards for employees as they may have some of these extinguishers at home. Terry Sevey indicated he thought there may be a couple of these located at RTI. Tim will double check to make sure no one has these as they do not meet commercial standards.

2. Earthquake Drill: Robin indicated she contacted OEM asking about Earthquake drills. Cherie Zastoupil indicated she will follow up on the Governors Proclamation to see if they have picked a date and then follow up with Althea Turner, OEM employee, to see if anything is planned.

10. Next Meeting: The next meeting is scheduled for Tuesday at 1:30 PM, April 14, 2009 in the VTC room. The call in number is 1-866-308-7464, Conf. ID – 410190. Meeting adjourned at 2:30 PM.

Employers to celebrate Safety Break for Oregon May 13 Employee involvement key to workplace safety

(Salem) — Employers across Oregon will be celebrating workplace safety and health with award programs, barbeques, and other special events during the seventh-annual Safety Break for Oregon on May 13, 2009.

Oregon's Occupational Safety and Health Division (Oregon OSHA) coordinates the one-day event, designed to raise awareness and promote the value of workplace safety and health in preventing injuries and illnesses. The voluntary event – which occurs on the second Wednesday in May – is designed to be flexible to meet an employer's safety and health program needs.

"My hope is for businesses to use Safety Break for Oregon to celebrate their safety and health achievements," said Michael Wood, Oregon OSHA administrator. "It's also a great time to talk with employees about ways to create safer workplaces."

A Safety Break celebration is also planned on the Capitol steps in Salem at noon on May 13, 2009. The event will feature remarks from Wood, Oregon legislators and labor representatives.

The theme for this year's event "Working Hard at Playing it Safe," encourages employee involvement and management cooperation. Employees who work together on safety and health concerns can result in fewer injuries and reduced workers' compensation costs for employers.

Companies planning to participate are encouraged to sign up online. For ideas on hosting an event, to download graphics or for more information, go the Safety Break for Oregon link on the Oregon OSHA Web site, www.orosha.org/subjects/safetybreak.html.

2007 Oregon Occupational Injury and Illness Survey Summary

Information Management Division

Department of Consumer & Business Services

December 2008

by Stacey Barnhart and James Burke

Private sector results – new record low

Oregon workers employed in the private sector during calendar year 2007 suffered work-related injuries and illnesses at a rate of 5.1 for every 100 full-time employees, the lowest ever recorded. Of the 61,365 total recordable cases in 2007, 54.6 percent resulted in cases with lost work time (days away from work, restriction, or transfer).

Industry lost-workday-cases rates

The private sector cases with days away from work, job transfer, or restriction rate (DART) remained at 2.8 in 2007. The DART rate includes injury and illness cases that resulted in one or more days away from work (lost-workday cases). The 2002-2007 rates are based on revised recordkeeping requirements and are not comparable with those from prior years.

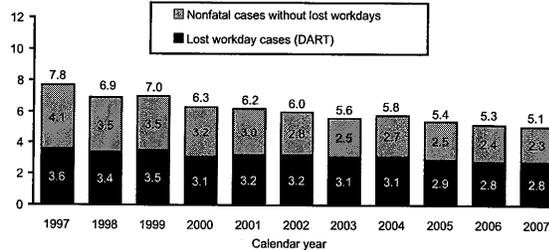

In 2007, the highest rate among industry divisions was 5.6, which was recorded by the transportation and warehousing industry. Finance and insurance reported the lowest rate of 0.1. Industry data are based on the North American Industry Classification System (NAICS), which replaced the Standard Industrial Classification system as the means of classifying businesses by the type of activity in which they are primarily engaged. The BLS Survey of Occupational Injuries and Illnesses first reported NAICS-based data in 2003.

Public-sector results

The public sector reported a total-cases incidence rate of 5.4 in 2007. State government recorded a total-cases rate of 3.9, while local government registered a rate of 6.1.

The 2007 public sector DART rate consists of the state government rate of 2.5 and local government rate of 2.7. The overall DART rate was 2.6.

Occupational injury and illness incidence rates, private sector, 1997-2007

Note: Due to rounding, lost-workday cases and nonfatal cases without lost workdays may not sum to the total-cases rate.

DART rates by industry division, private sector, 2007

Industry	2007
Private sector total	2.8
Agriculture, forestry, fishing, hunting	3.9
Mining	2.2
Construction	3.4
Manufacturing	3.6
Wholesale trade	3.3
Retail trade	3.4
Transportation and warehousing	5.6
Utilities	3.9
Information	0.8
Finance and insurance	0.1
Real estate, rental and leasing	1.1
Professional and business services	1.3
Management of companies and enterprises	1.0
Administrative and support and waste management and remediation services	--
Education services	0.7
Health care and social assistance	3.2
Arts, entertainment, and recreation	4.7
Accommodation and food services	2.7
Other services (except public administration)	0.7

The 2007 rates are based on the NAICS and are not comparable to results from years prior to 2003.

-- Indicates data not available.

Information Management Division
 350 Winter St. NE, Room 300
 P.O. Box 14480
 Salem, OR 97309-0405
 503-378-8254

National survey results

The total-cases incidence rate for the private sector nationwide was 4.2 in 2007. The DART rate was 2.1, and the incidence rate for other recordable cases was 2.1. The Oregon total-cases incidence rate and DART rate exceeded the national rates by 23.8 and 33.3 percent, respectively. The Oregon cases-without-lost-workdays incidence rate was 9.5 percent higher than the national figure. One reason Oregon rates are higher than

national rates is a higher proportion of Oregon's workforce is employed in hazardous industries.

The number of injuries and illnesses reported in any year can be influenced by many factors, including the level of economic activity, working conditions and work practices, worker experience and training, and the number of hours worked.

Comparison of Oregon and national incidence rates

	Total cases					DART cases					Cases without lost workdays				
	2003	2004	2005	2006	2007	2003	2004	2005	2006	2007	2003	2004	2005	2006	2007
Oregon rates	5.6	5.8	5.4	5.3	5.1	3.1	3.1	2.9	2.8	2.8	2.5	2.7	2.5	2.4	2.3
National rates	5.0	4.8	4.6	4.4	4.2	2.6	2.5	2.4	2.3	2.1	2.4	2.3	2.2	2.1	2.1

Note: Due to rounding, the rates of DART cases and nonfatal cases without lost workdays may not sum to total-cases rates.

Data in this summary are based upon the annual Survey of Occupational Injuries and Illnesses (SOII), which collects data from a scientifically selected sample of employer establishments across the state. This should be distinguished from the data collected from workers' compensation claims submitted to the department by insurers.

CPSC Media Contact: (301) 504-7908

Kidde Recalls to Replace Fire Extinguishers Due to Failure to Operate

WASHINGTON, D.C. - The U.S. Consumer Product Safety Commission, in cooperation with the firm named below, today announced a voluntary recall of the following consumer product. Consumers should stop using recalled products immediately unless otherwise instructed.

Name of product: Kidde XL Fire Extinguishers

Units: About 167,000

Distributor: Walter Kidde Portable Equipment Inc., of Mebane, N.C.

Hazard: The pressurized cylinders in the recalled fire extinguishers could lose pressure and fail to operate. In the event of a fire, this failure could put a consumer and property at risk.

Incidents/Injuries: None reported.

Description: This recall involves the Kidde XL Fire Extinguishers with model numbers FX340SC, FX340H, FX340GW, XL5MR, FX210R, FX340SC-2, FX210W, XL2.5TCZ-4, E-340-3 and with manufacture dates between October 2007 and April 2008. "Kidde" and the model number can be found on the label on the front of the extinguisher. The manufacture year is on the bottom of the extinguisher. If your extinguisher is one of the listed model numbers and is marked with the year 07 or 08, contact Kidde to determine if you have a recalled extinguisher.

Sold at: Department, home, and hardware stores nationwide from October 2007 through April 2008 for about \$35.

Manufactured in: Mexico

Remedy: Consumers should immediately inspect the pressure gauge. If it points to the red zone, contact Kidde to receive a free replacement extinguisher. If the gauge is not in the red zone, but you have questions about an extinguisher within the listed model numbers, please contact Kidde for additional information.

Consumer Contact: For additional information, contact Kidde at (888) 345-4407 between 8 a.m. and 5 p.m. ET Monday through Friday or visit the firm's Web site at www.Kidde.com

Send the link for this page to a friend! The U.S. Consumer Product Safety Commission is charged with protecting the public from unreasonable risks of serious injury or death from thousands of types of consumer products under the agency's jurisdiction. The CPSC is committed to protecting consumers and families from products that pose a fire, electrical, chemical, or mechanical hazard. The CPSC's work to ensure the safety of consumer products - such as toys, cribs, power tools, cigarette lighters, and household chemicals - contributed significantly to the decline in the rate of deaths and injuries associated with consumer products over the past 30 years.

To report a dangerous product or a product-related injury, call CPSC's hotline at (800) 638-2772 or CPSC's teletypewriter at (800) 638-8270, or visit CPSC's web site at www.cpsc.gov/talk.html. To join a CPSC email subscription list, please go to <https://www.cpsc.gov/cpsclist.aspx>. Consumers can obtain this release and recall information at CPSC's Web site at www.cpsc.gov.
