Severe Weather Safety!

Make sure to fill your car with gas and top off all your fluids before hitting the road. It is a great idea to have an emergency car kit in your car all of the time. It is especially important in cold weather! Here is a list of some of the things that are great for a car kit:

- Warm Blanket, Water, non-perishable food, kitty litter, Reflecting Triangle, Snow Shovel, Jumper Cables, Revolving Siren light (12-Volt), Flat Tire Fixer, Tow Rope, First-Aid Kit, Safety Vest, Distress Banner, Utility Knife, Heavy Duty Work Gloves, Duct Tape, Ice Scraper with Glove, Blanket, Waterproof Poncho, Adjustable Wrench (10"), 6 n 1 Screwdriver, 12-Hour Lightstick, Hand Warmers.

Small children and elderly are most susceptible to the cold so make sure your loved ones have a hat, gloves, scarf, with plenty of layers.

Your fingers, toes, the tips of your cheeks and ears are most susceptible to frost bite so keep them covered! Bundle up and have fun.
