

2001 Oregon Statewide Outdoor Recreational Resource/Facility Inventory Bulletin

**A component of the 2003-2007
Oregon Statewide Comprehensive
Outdoor Recreation Plan**

This document is part of the Statewide Comprehensive Outdoor Recreation Plan (SCORP) process. Authority to conduct the SCORP process is granted to the Director of the Oregon Parks and Recreation Department under Oregon Revised Statutes (ORS) 390.104. This document and related appendices is prepared to comply with Chapter 630 of the Land and Water Conservation Fund Grants Manual produced by the National Park Service, Department of the Interior.

The preparation of this bulletin is financed, in part, through a planning grant from the National Park Service, Department of the Interior, under provisions of the Land and Water Conservation Fund Act of 1965 (Public Law 188-578). Accordingly, all of the Oregon Parks and Recreation Department programs and activities must be operated free from discrimination, on the basis of race, color, national origin, age or handicap. Any person who believes he or she has been discriminated against or who would like further information regarding the prohibition of discrimination should write to:

PROJECT OVERVIEW

1. Introduction

A comprehensive inventory of the supply of existing outdoor recreation resources and facilities is an essential tool for outdoor recreation planning in the state of Oregon. Along with an understanding of recreation participation, inventory data can help recreation providers identify the need for additional outdoor recreational resources and facilities within their coverage areas. Towards this end, the 2001 Oregon Statewide Outdoor Recreational Resource/Facility Inventory Bulletin will serve as a planning tool for both public and private recreation providers in analyzing their own needs and establishing goals and priorities.

The last inventory of outdoor recreation resources and facilities in the state of Oregon was published in November of 1995. Recognizing a need for accurate statewide recreation resource and facility inventory data, the Oregon Parks and Recreation Department (OPRD) was awarded a matching Land and Water Conservation Fund (LWCF) grant from the National Park Service for preparation of this bulletin. OPRD would like to acknowledge the support of the National Park Service Columbia Cascades Support Office staff for successful completion of this planning bulletin.

The 2001 Oregon Statewide Outdoor Recreational Resource/Facility Inventory is also an important part of the 2003-2007 Oregon Statewide Comprehensive Outdoor Recreation Plan (SCORP). A central component of this SCORP plan will be a quantitative comparison of the supply of existing recreation resources and facilities (information from this bulletin) with current outdoor recreation participation to identify recreational need. Recreational need is identified when the current level of recreation participation is found to exceed the current supply of recreation resources and facilities in a given area. The 2003-2007 Oregon SCORP will conduct such a recreational needs assessment for each of the 11 planning regions (see planning region map on page 14) and statewide. In addition, 5-year needs assessments will be conducted using projected population increases for each region and statewide.

The basic framework for this inventory (e.g., resource and facility measurements and presentation of figures and tables) was patterned after the 1994 Florida SCORP Plan¹. OPRD would like to acknowledge the quality recreational planning work being done by the State of Florida, Division of Recreation and Parks, Office of Park Planning.

The accuracy of this statewide inventory is essential to the 2003-2007 SCORP needs assessment process. As a result, considerable time and expense was allocated towards maximizing the inventory response for recreation providers across the state. The following section provides a description of this data collection process.

¹ Outdoor Recreation in Florida 1994. Florida's Statewide Comprehensive Outdoor Recreation Plan. State of Florida, Department of Environmental Protection. Division of Recreation and Parks Office of Park Planning. Tallahassee, Florida. March, 1994

1.1 Data Collection

The list of recreational resources and facilities measured in the 2001 Oregon Statewide Recreational Resource/Facility Inventory was developed after a review of the 1988-1998 Oregon Statewide Outdoor Recreation Facilities Supply Bulletin (released in November 1995), 1994 Florida SCORP Plan, and SCORP planning documents from other states.

The inventory included the measurement of 45 individual resource/facility items. The following list includes these items in alphabetical order.

Backcountry Roads - Unpaved	Freshwater Beach Areas
Baseball/Softball	Freshwater Beach Length
Bicycle Trails - Surfaced	Golf Course Areas
Bicycle Trails - Unsurfaced	Golf Course Holes
Boat Ramps	Hiking Trails
Community Walking Trails/Paths - Surfaced	Indoor Swimming Pools
Community Walking Trails/Paths - Unsurfaced	Jogging Trails - Surfaced
Cultural Historic Sites	Jogging Trails - Unsurfaced
Day Use Picnic Tables	Museum/Interpretive Building Sites
Designated 4 x 4 Motorized Trails	Nature/Interpretive Trails - Surfaced
Designated Bridle Trails	Nature/Interpretive Trails - Unsurfaced
Designated Cross-Country Ski Trails	Non-Motorized Boat Launches - Canoe/Raft/Kayak
Designated Hunting Area	Outdoor Swimming Pools
Designated Motorized Trails ATV & Motorcycle Dual Sport	Outdoor Basketball
Designated Snowmobile Trails	Outdoor Recreational Land
Downhill Skiing Areas	Outdoor Recreational Water
Downhill Skiing Lifts	Outdoor Tennis
Dump Stations	RV/Trailer Campsites
Equipped Play Areas	Shooting Ranges - Archery
Fishing Piers	Shooting Ranges - Rifle/Pistol
Football/Rugby/Soccer	Shooting Ranges - Skeet/Trap
Freshwater Beach Area Total	Tent Campsites
	Windsurfing Access Sites

The tables included in this bulletin contain only those resource/facility items with numbers reported by recreation providers. If a resource/facility item is missing from a table, no facilities were reported.

As part of this process, a set of resource and facility definitions were developed for use during data collection (see Appendix page 76). In addition, units of measurement for each resource and facility (e.g., hiking trails in linear miles, fishing piers in linear feet, and so forth) were determined based on the requirements of the needs assessment methodology included in the 2003-2007 Oregon SCORP planning process.

For ease of completion, 5 versions of the inventory questionnaire were used to gather recreational resources and facilities information across the state. A copy of the public-sector questionnaire and cover letter is included, see Appendix page 78. In addition, a copy of the public school district and cover letter is included, see Appendix page 86. For larger agencies (e.g., U.S. Forest Service, Bureau of Land Management, Oregon Parks & Recreation Department), custom computer spreadsheets were developed for large-scale data collection (an example is included, see Appendix page 109).

Data collection for the 2001 Oregon Statewide Recreational Resource/Facility Bulletin was conducted over a period from November 13, 2000 to August 31, 2001. Each recreation provider was sent a cover letter and a copy of the appropriate Recreational Resource/Facility Inventory Questionnaire. A postage-paid return envelope was provided with each questionnaire mailing (and all follow-up mailings). A replacement questionnaire was mailed to providers who had not returned their questionnaires approximately four weeks after the initial inventory mailing. Approximately eight weeks after the initial mailing, a phone call was made to each recreation provider who had not returned a questionnaire. During the conversation, the provider's contact person and mailing address was verified. If the questionnaire was misplaced, another was mailed out. Finally, a phone call was made to each non-respondent during the week of July 30, 2001. Again, if the questionnaire was misplaced, another was mailed out. Recreational Resource/Facility Inventory Questionnaires received after August 31, 2001 are not included in this Bulletin.

Since many recreation areas have multiple ownership/management arrangements, it was necessary that each recreation provider understand which resources/facilities to report. To reduce the opportunity for over counting of facilities, the following note was included on each inventory questionnaire.

IMPORTANT NOTE: Please provide information for only those resources/facilities within your jurisdiction or park. Each agency is responsible for reporting its own resources/facilities currently managed. If an agency owns a recreational parcel, but it is managed by another agency, the agency with management responsibility should report the resource/facilities (to avoid over reporting).

After receiving completed inventory questionnaires from each recreation provider, the reported data was checked for reporting accuracy. Follow-up phone calls were made when necessary to verify data accuracy.

In addition to inventory questionnaires, a number of other information sources were used to gather inventory data (e.g., private recreation directories, recreation resource publications state agency contacts, etc.) for this bulletin. For a complete listing of these information sources see Appendix page 77. As providers were identified, a number were interviewed by telephone to obtain additional information.

After inventory data for each recreation provider were verified for accuracy, the data was entered into a Microsoft Access database. This database was used to generate all figures and tables included in this bulletin. Recreational resource and facility inventory data was entered in the database for each county. County level data was combined for each planning regions and statewide for inventory information reported in this bulletin.

1.2 Recreation Provider Response

Inventory questionnaires were initially sent out to 375 public-sector recreation providers identified in the state of Oregon. These providers include all Federal and State agencies, County, Municipal, Port and Special District recreation departments, and Native American Tribes. Thirty of these providers reported either no resources/facilities or resources/facilities being managed by another provider. A total of 316 completed questionnaires were returned and entered into the inventory database. Twenty nine providers failed to return a questionnaire. The response rate for the public-sector provider portion of the inventory was 92%.

In addition, inventory questionnaires were sent out to 209 independent school districts in the state of Oregon. A total of 189 completed questionnaires were returned and entered into the inventory database. Twenty school districts failed to return a questionnaire. The response rate for the public-sector provider portion of the inventory was 90%.

As previously mentioned, a large portion of the inventory data collection was conducted using a number of secondary data sources. Including all primary and secondary data collection, outdoor recreation resources/facilities from a total of 1,622 public and private-sector recreation providers were entered into the inventory database.

1.3 Major Recreation Suppliers Categories

A wide range of public and private-sector recreation organizations provide outdoor recreation opportunities for the general public in Oregon. In an effort to summarize data for figures and tables in this bulletin, each recreation provider has been classified into one of eight major recreation supplier categories. Table 1.1 (below) lists these eight supplier categories and the specific recreational providers assigned to each category.

Table 1.1 Major Recreation Supplier Categories and Providers

Major Recreation Supplier Categories	Recreation Providers Within Categories
1. Federal	Federal Agencies
2. State	State Agencies
3. County	County Park & Recreation Departments
4. Municipal	City Park & Recreation Departments
5. Other Public	Special Park & Recreation Districts Ports Native American Tribes Public Golf Courses Public Museums Public Gun/Archery Ranges Public Marinas
6. Schools	Independent School Districts State Universities Community Colleges Technical Schools Private Primary & Secondary Schools & Colleges
7. Utilities	Private-Sector Utilities
8. Private	RV Parks and Campgrounds Private Golf Courses Private Museums Visitor Centers Science Centers Marinas Yacht Clubs Fishing Camps Gun/Archery Clubs and Ranges Downhill Ski Areas YMCA's YWCA's

Note: A full listing of recreation providers in these 8 recreation supplier categories is included, see Appendix page 89

Private Data Limitations

Due to time and cost constraints only specific private recreational facilities were included in this inventory. Table 1.2 includes the specific recreational facilities measured for each type of recreation provider in the Private Recreation Provider Category.

Table 1.2 Private Supplier Recreational Facilities

Private Recreation Providers	Facilities Measured in Inventory
1. RV and Campgrounds	RV/Trailer Campsites (Number) Tent Campsites (Number)
2. Golf Courses*	Golf Course Area (Acres) Golf Course Holes (Number)

APPENDICES

RESOURCE AND FACILITY DEFINITIONS

Backcountry Roads (Unpaved): Any unpaved roads through public or private lands, such as gravel logging roads usable for recreational purposes.

Community Walking Trails/Paths: Any pathway within or nearby a city or town designated for use by the general public, but not normally designated for use by motorized vehicles.

Designated Motorized Trails-ATV and Motorcycle: Trails marked specifically for use by ATV's and motorcycles (including dual sport and dirt bikes).

Downhill Skiing Area (Lift capacity per hour): The total number of skiers/snowboarders that a ski area's lift system can move to the top of a ski run per hour.

Equipped Play Areas: Children's playgrounds containing equipment such as swings, jungle gyms, and other play apparatus.

Freshwater Beach Resources: Freshwater sandy beach areas are found on water bodies such as lakes, ponds, rivers, etc. Freshwater beach resources include freshwater sandy beach areas within a recreation provider's jurisdiction or park (including freshwater tidal zones).

Golf Course Holes: The number of golf greens provided by a golf course. For example, a golf course may have 9 greens and 2 sets of tees, and advertise as being an 18-hole course. For this inventory, such a golf course was recorded as having 9 holes.

Outdoor Recreation Land: Land acres available for public recreation use.

Outdoor Recreation Water: Lake, reservoir, and pond surface acres available for public recreation use.

Surfaced Trail: Includes a variety of trail surface types such as concrete, asphalt, paved rock, or wood chip surfaces.

Unsurfaced Trail: A recreational trail or path with a dirt/natural surface.

PUBLIC-SECTOR INVENTORY QUESTIONNAIRE COVER LETTER

August 7, 2001

Dear Recreation Provider:

Oregon Parks and Recreation Department (OPRD) is currently updating the Statewide Comprehensive Outdoor Recreation Plan (SCORP) for 2003-2007. This plan must be prepared every five years to keep Oregon eligible for matching federal Land and Water Conservation Fund (LWCF) grants. These grants assist eligible local governmental organizations throughout Oregon with outdoor recreation development projects.

The SCORP plan is required to contain a current inventory of public outdoor recreation resources and facilities throughout the state. As State Liaison Officer for the LWCF program in Oregon, I urge you to assist in this important effort by completing the following inventory survey for your agency/organization.

This information, along with results of a recreational participation survey and public workshop input will be used to identify types of projects that should receive high priority for funding through the LWCF program. An accurate accounting of public recreation resources and facilities will also assist other statewide or regional recreation and tourism-related planning efforts.

After completing the questionnaire, seal it with the sticker provided on the last page and drop it in the mail (postage has been provided). Completed questionnaires should be mailed by August 24, 2001.

Participating agencies and organizations will receive a copy of the plan (expected completion in late October, 2002). If you have any questions, please contact Terry Bergerson by phone: 503.378.4168 x 305, fax: 503.378.6447 or email: terry.bergerson@state.or.us.

Thank you for your cooperation with this important matter.

Sincerely,

Michael Carrier
Director and State Liaison Officer
November 13, 2000

IMPORTANT NOTE: Please provide information for only those resources/facilities within your jurisdiction or park. Each agency is responsible for reporting its own resources/facilities currently managed. If an agency owns a recreational parcel, but it is managed by another agency, the agency with management responsibility should report the resource/facilities (to avoid over reporting).

SCHOOL DISTRICT INVENTORY QUESTIONNAIRE COVER LETTER

January 5, 2001

Dear Superintendent:

Oregon Parks and Recreation Department (OPRD) is currently updating the Statewide Outdoor Recreation Plan (SCORP) for 2002-2006. This plan must be prepared every five years to keep Oregon eligible for matching federal Land and Water Conservation Fund (LWCF) grants. These grants assist eligible local governmental organizations throughout Oregon with outdoor recreation development projects.

The SCORP plan is required to contain a current inventory of public outdoor recreation resources and facilities throughout the state. As State Liaison Officer for the LWCF program in Oregon, I urge you to assist in this important effort by completing the inventory survey.

This information, along with results of a recreational participation survey and public workshop input will be used to identify types of projects that should receive high priority for funding through the LWCF program. An accurate accounting of public recreation resources and facilities will also assist other statewide or regional recreation and tourism-related planning efforts.

After completing the questionnaire, please return it to us using the postage-paid envelope provided. To avoid over reporting, please return a single questionnaire including all recreational resources/facilities in your public school district. Completed questionnaires should be mailed by JANUARY 31, 2001.

All participating public recreation providers will receive a copy of the SCORP plan (expected completion in late October, 2002). If you have any questions, please contact Terry Bergerson by phone: 503.378.4168 x 305, fax: 503.378.6447 or email: terry.bergerson@state.or.us.

Thank you for your cooperation with this important matter.

Sincerely,

Michael Carrier
Director and State Liaison Officer

IMPORTANT NOTE: Please provide information for only those resources/facilities within your school district's jurisdiction and available for use by the general public (either during or after school hours). Each public recreation provider is responsible for reporting its own resources/facilities currently managed. If an agency/organization owns a recreational parcel, but it is managed by another agency, the agency with management responsibility should report the resource/facilities (to avoid over reporting).
