**Section 1.  
DEPARTMENT POLICY**

Pursuant to ORS 390.610(4), it is the policy of the Oregon Parks and Recreation Department to prohibit the use of the ocean shore as a north-south utility, communication, transshipment or conveyance corridor. This prohibition applies to pipelines, conduits, cables, wires, towers, transmission, relay or booster stations and other continuous or intermittent facilities for moving material or services, or transmitting data, information, energy, or other commodity whether for private or public use or benefit. The Department, in its discretion, may make exceptions to this policy in cases of emergency or when need is demonstrated for the project to occur on and alter the ocean shore. Need is demonstrated when practicable alternatives are not available. Benefit to the citizens of Oregon, as a whole, shall be a primary consideration in any decision by the Department to grant an exception to this policy. Cost shall not be the sole reason that an alternative is determined to be not available.
