RULE SUMMARY

These rules provide governance and protection to Marine Reserves as designated by the State Land Board along the Oregon ocean shore and areas adjacent to state parks protected from all extractive activities, including the removal or disturbance of living and non-living marine resources, except as necessary for monitoring or research to evaluate reserve condition, effectiveness, or impact of stressors. Having Marine Reserves provides an additional tool to help protect, sustain or restore the nearshore marine ecosystem, its habitats, and species for the values they represent to present and future generations.
