Licensure / Certification General Information

Please Note

If you held an Oregon nursing license / certificate in the past, call the Oregon State Board of Nursing (OSBN) office and ask for information about Reactivation.

Application

- Apply for licensure/certification well in advance of employment in Oregon. In some cases, it can take several weeks for information from schools and other agencies to arrive for processing. If you meet the requirements for licensure/certification, your license will be issued approximately five business days after we have reviewed all of the required information and have determined eligibility.
- The OSBN may deny licensure/certification to an applicant convicted of certain crimes. If you have a criminal history, you will need to report it on your application and attach explanatory information on a separate sheet of paper. Falsifying an application, supplying misleading information or withholding information is grounds for denial or revocation of licensure/certification. A positive criminal record check will require investigation and may delay processing. Practicing before you are licensed/certified may result in a civil penalty.
- Your license/certification will be issued using the name on the initial application. If you change your name before issue, submit legal documentation of your name change and changes will be made before mailing your license/certificate. If your name has changed after issue, please contact the Board and request a duplicate license/certificate application.
- Your mailing address must be complete and current in order for your license/certificate to reach you promptly.

Fees

- Fees are non-refundable and processed on receipt. Even if you do not complete the application process or do not qualify for licensure/certification, the fee is not refundable. The fee pays for processing the application and, if you are eligible, issuing the license/certificate.
- A canceled check is your receipt and notification that the OSBN has received the application.

Renewal

- Oregon uses a biennial birth date renewal system. When you receive your license/certificate, please note the expiration date. The expiration date is the midnight before your birthday in an odd year if you were born in an odd year or in an even year if you were born in an even year. Because of this, your first license/certificate may be valid anywhere from 60 days to two years and 59 days depending upon when you were born and when your application is complete. After that, if renewed on schedule, your license/certificate is good for two years.
- Your license is valid until the expiration date printed on it. There is no grace period permitting practice beyond this expiration date.
- You will renew all licenses/certificates simultaneously.
- Notify the OSBN in writing when you change your address to prevent delays in receiving your renewal notice. The post office does not routinely forward the Oregon State Board of Nursing mail.

Additional Information

- Refusal to provide a Social Security Number (SSN) may result in denial of license/certification issuance or renewal. This record of your SSN will be used for child support enforcement, tax administration purposes (including identification) and criminal background checks only, unless you authorize other use. If any disciplinary action is taken against your license/certification, your SSN will be reported to the federal Health Care Integrity and Protection Data Bank. Authority: ORS 25.785, ORS 305.385, USC Section 666 (a)(13).
- If you have a disability that requires special materials or assistance, please contact the OSBN office at 971-673-0685. If you are hearing impaired, you may reach the OSBN through Oregon Relay Service, at 1-800-735-2900.
- Information about nursing practice in Oregon can be found at the OSBN web site at **www.oregon.gov/OSBN**.
- Call the OSBN office 971-673-0685 if you need additional information.
- You may call the automated line, 971-673-0679, to see if your license/certificate has been issued.
