

Library Districts in Oregon: 2010

There are presently 24 library districts in Oregon — 19 special library districts and five county library service districts. All 24 districts are funded through voter-approved permanent tax rates. The following map shows the location of each of Oregon's library districts. The boundaries shown, however, may not be exact (particularly for the smaller districts and districts in Clackamas, Lincoln, Jefferson, Morrow, and Wasco counties). Information about each district is provided below the map, corresponding to the numbers on the map.
