

Distribution of the Hazardous Substance Information Survey

The Office of State Fire Marshal's Community Right to Know Unit annually sends out Hazardous Substance Information Surveys beginning in February and ending in October. The survey mailings are staggered based on which county the facility is located in. If a company has numerous facilities throughout the state of Oregon, they have the option to have all surveys mailed at once by submitting a request in writing to the Office of State Fire Marshal (send to address below). NOTE: By submitting substantive updates within 30 days, as required by Oregon administrative rules, facilities are in compliance with the federal submission dates.
