

FIRE  
WARNING

**KIDS EXPERIMENTING WITH  
FIRE IS RISKY BUSINESS.**

Most people don't realize that children and teens are responsible for many fires in Oregon. If you're a parent, talk to your child about the dangers of fire. If your child is involved in misusing fire, contact your local fire department now. Oregon has a well-developed network of concerned firefighters and counselors who can help your child and keep your family safe.
