

Who: Hazardous Materials Technicians

WHAT: HAZMAT IQ ABOVE/BELOW THE LINE SYSTEM

When: Wednesday, August 29, 2012 * 0800-1700
OR
Thursday, August 30, 2012 * 0800-1700

Where: The LaSells Stewart Center – Oregon State University
875 Southwest 26th Street
Corvallis, OR 97331

Why: This class was the highest rated class at the 2012 Hazmat Conference. HazMat IQ is a training system formulated from more than 50 years of Hazardous Materials (HazMat) response experience. Traditional HazMat response is founded in the principles of industrial hygiene, organic chemistry and inorganic chemistry. While these foundations are valuable in the right setting, HazMat IQ has revolutionized technician training by turning the focus away from mastering textbooks and onto the critical knowledge needed to make a simple decision: *Can I make entry to effectuate a rescue?*

In order to do this, a technician needs to understand the environmental hazards and the required personal protection equipment. HazMat IQ training streamlines the size-up process and enables responders to maximize their response efficiency and effectiveness.

Cost: FREE – Thanks to a grant from the USDOT: Pipeline and Hazardous Materials Safety Administration to the Mid-Valley LEPC.

Register: Email Sadie Bernt at sadie.bernt@cityofalbany.net
or call at 541-704-2332

In your email or voicemail include:
Student's Full Name, Department/Agency/Company, Contact Number, Specify which day of training you are registering for, Training Officer Name, Training Officer's Contact Number.
