rules and regulations administered by the State Fire Marshal. Prior to adoption of any such exemption, the State Fire Marshal may request from the Department of Public Safety Standards and Training consideration of and recommendations regarding the exemption. (6) Upon the request of the Department of Human Services, an area agency or community mental health and developmental disabilities program, the State Fire Marshal shall inspect or cause an inspection to be made to determine if the adult foster home is in compliance with rules jointly adopted by the Department of Human Services and the State Fire Marshal establishing fire safety standards for adult foster homes.

The investigation shall be commenced immediately after the occurrence of the fire. The State Fire Marshal may superintend and direct the investigation if the State Fire Marshal deems it necessary.

(2) The fire chief of every city, or rural fire protection district shall provide the State Fire

Marshal with a full report of every fire occurring within the jurisdiction of the fire chief on a form provided or approved by the State Fire Marshal. Whenever the fire chief of every city under 200,000 population finds any fire is of undetermined or suspicious origin or involves a death or serious injury, the fire chief shall immediately notify the State Fire Marshal or a deputy state fire marshal and shall assemble all known facts and circumstances concerning the fire in an approved report form and shall submit such report to the State Fire Marshal, or the deputy state fire marshal assigned to the territory in which the fire originated. When evidence clearly indicates the cause of fire to be of incendiary origin, the fire chief shall also immediately notify the state, county or municipal police agency.

(3) This section shall not apply to forestlands under the jurisdiction of the State Forester. [Amended by 1965 c.602 §9; 1967 c.417 §6]

476.220 Report by officer investigating fire; exemption. (1) The officer making an investigation of a fire occurring in a city, village or township shall forthwith notify the State Fire Marshal and, within one week of the occurrence of the fire, shall furnish the State Fire Marshal a written statement of all facts relating to its cause and origin, and such other information as is required by forms provided by the State Fire Marshal.

(2) This section shall not apply to forestland under the jurisdiction of the State Forester. [Amended by 1967 c.417 §7]

476.230 Taking statements of persons knowing facts. If in the opinion of the State Fire Marshal further investigation is necessary, the State Fire Marshal or deputy state fire marshal, with the assistance of the district attorney, shall then proceed to take or have taken the statements of all persons supposed to be cognizant of any facts or who have means of knowledge in relation to the matter concerning which the examination is required and have such statements reduced to writing.

476.240 Supplying information to and requesting action by district attorney. If the Superintendent of State Police or an authorized assistant is of the opinion that there is evidence sufficient to charge a person with arson, burning with intent to defraud or prejudice the insurer, or a similar crime, the Superintendent of State Police or authorized assistant shall furnish the district attorney with such evidence, with the names of witnesses and a copy of material testimony taken in the case, and request the district attorney to cause the arrest of such person or take such other action as the district attorney deems necessary or advisable. [Amended by 1965 c.602 §10; 1967 c.417 §8]

476.250 District attorney summoning witnesses and requiring production of documents. The district attorney may at the discretion of the district attorney, upon the application of the State Fire Marshal or chief deputy state fire marshal, issue a subpoena to summon the attendance of witnesses before the district attorney to testify in relation to any matter which by law is a subject of inquiry and investigation, and require the production of any books, papers or documents the district attorney deems pertinent to an investigation of or relating to evidence pertaining to the cause of a fire. [Amended by 1967 c.417 §9]

476.260 District attorney assisting investigation of fires. The district attorney of any county, upon request of the state, county or a municipal police agency, shall assist such officers

(1) If an insurance company has reason to believe that a fire loss to its assured's real or personal property was caused by incendiary means, the company shall immediately make a report to the office of the State Fire Marshal. The report shall indicate the name of the assured, the date of the fire, location, occupancy, and facts and circumstances coming to the company's knowledge, tending to establish the cause or origin of the fire.

(2) Any federal, state or local public official or authorized agent thereof having legal authority to investigate a fire loss of real or personal property may request any insurance company to provide relevant information in its possession pertaining to that loss. Upon request, the company shall release such information to the official who requests it. For purposes of this subsection, "relevant information" means information having any tendency to make the existence of any fact that is of consequence to the investigation more probable or less probable.

(3) In the absence of fraud or malice, no insurance company or its authorized representative shall be liable for damages in a civil action or subject to criminal prosecution for the release of information required by subsections (1) and (2) of this section. [Amended by 1967 c.417 §11; 1981 c.701 §2; 1985 c.686 §4]

EXTINGUISHING FIRES IN UNPROTECTED AREAS

476.280 Municipal fire departments and rural fire protection districts authorized to extinguish fires in unprotected areas. (1) The fire chief, or the representative of the fire chief, of any duly organized municipal or rural fire protection district may extinguish any uncontrolled fire found to be burning in any unprotected area, if:

(a) The governing body of the city or the district board of the rural fire protection district, as the case may be, has authorized the fire chief and the representatives of the fire chief to extinguish uncontrolled fires that are found to be burning in unprotected areas situated outside of the boundaries of the city or district and that are causing or may cause an undue jeopardy to life or property; and

(b) The fire chief or the representative of the fire chief believes that such fire is causing or may cause undue jeopardy to life or property.

(2) In extinguishing a fire pursuant to subsection (1) of this section, the fire chief and the representatives of the fire chief may employ the same means and resources used by them to extinguish similar fires within their jurisdiction. [1971 c.683 §1]

476.290 Billing owner of property for cost of extinguishing fire; cost limited; collection; action for recovery of cost. Whenever a fire is extinguished pursuant to ORS 476.280, the governing body of the city or the district board of the rural fire protection district that provided the fire suppression service may, on forms furnished by the State Fire Marshal for such purposes, bill the owner of the property involved in the fire for the cost of providing the fire suppression service. The governing body of the city or the district board of the rural fire protection district that provided the fire suppression service may determine the cost of providing the fire suppression service by use of a state standardized-costs schedule as approved by the State Fire Marshal. The cost charged for providing the fire suppression service may not be greater than the

pro rata cost that would have been charged by the city or district for the performance by the city or district of a similar fire suppression service within its jurisdiction. If the cost is not paid within 30 days after the second billing, the governing body of the city or the district board of the rural fire protection district that provided the fire suppression service may bring an action for the recovery of the unpaid cost from the owner of the real property upon which the fire suppression service was rendered. [1971 c.683 §2; 2005 c.22 §355]

FIRE PREVENTION AND CONTROL ON CERTAIN LANDS NOT OTHERWISE PROTECTED

476.310 Zoning and rezoning of certain lands; hearing on petition of owners in nonzoned territory; duty of landowner to provide fire protection. (1) The governing body of each county may, in cooperation with the State Board of Forestry, zone and, as often as necessary, rezone any lands within the county lying outside the boundaries of incorporated cities, organized rural fire protection districts, federal and state-owned lands, lands protected under ORS chapter 477 and railroad rights of way, except that railroad rights of way may be zoned or rezoned if the owners of such rights of way file their written consent with the governing body. Lands, when zoned or rezoned, shall be divided into two zones as follows:

(a) Zone 1 shall be composed of forest, range, grass or undeveloped lands, or any of such lands intermingled with grazing and agricultural lands.

(b) Zone 2 shall be composed of rural lands not included in zone 1.

(2) During the season of the year when there is danger of fire, every owner of zone 1 land shall provide adequate protection against the starting or spread of fire thereon or therefrom, which protection shall meet with the approval of the governing body of the county in which the zone 1 land is located.

(3) An owner shall be deemed to have complied with the requirements of subsection (2) of this section if, on January 1 of each year, the owner files with the governing body of the county a bona fide fire protection plan that meets with the approval of the county governing body. The governing body of the county, or its appointed representative, shall periodically inspect the protection facilities provided under such a plan in order to confirm compliance by the owner.

(4) If any owner of zone 1 land fails or neglects to file a fire protection plan, or to comply with the standard of protection approved by the county governing body, the governing body shall provide for forest protection pursuant to ORS 476.320.

(5) Nothing contained in ORS 476.310 to 476.340 shall prevent interested property owners in any nonzoned territory from petitioning the governing body and State Board of Forestry to hold a hearing on the matter of zoning the territory if a majority of the landowners within the territory file such petition. The governing body, cooperating with the State Board of Forestry, shall give full consideration to the wishes of the landowners as shown by the hearing. [Amended by 1957 c.432 §1; 1963 c.222 §1; 1965 c.253 §143; 1991 c.459 §415a; 2005 c.22 §356]

476.320 Determination of form of fire protection for lands in zone 1; costs. (1) The form of protection from fire for lands lying in zone 1 shall be determined jointly by the governing body of the county, the State Fire Marshal and the State Board of Forestry, which determination shall be reduced to writing, signed by the officers of the agencies and entered in the journal of the governing body of the county.

(2) The authority of the State Board of Forestry may be extended to include the establishment

of forest protection on lands lying within zone 1 for lands not subject to a fire protection plan under ORS 476.310. For such purposes the board of forestry may contract with individuals, associations, agencies, corporations, rural fire protection districts, counties, cities, federal agencies, or any of them. The cost of protection in zone 1 shall be assessed and collected in the same manner as protection costs for lands protected under ORS chapter 477.

(3) The moneys received by the State Board of Forestry under this section shall be paid into the State Treasury and credited to the State Forestry Department Account and shall be used exclusively for the purposes stated in this section.

(4) As used in this section, the “authority of the State Board of Forestry” means the duties, obligations, requirements and penalties of ORS chapter 477. [Amended by 1957 c.83 §5; 1965 c.253 §144; 1967 c.429 §53; 1981 c.362 §1; 1991 c.459 §415b; 1999 c.355 §1]

476.330 Prevention and control of fires in zone 2; tax levy. (1) The county court or board of county commissioners of any county may prevent and control fire occurring within the limits of zone 2 in such county, and may for such purposes establish and maintain fire fighting and fire control facilities and contract with existing fire control agencies, either individuals, associations, corporations, cities or rural fire protection districts. The State Fire Marshal, upon the request of any county court or board of county commissioners, shall meet with and advise such county court or board of county commissioners as to the establishment and maintenance of fire fighting and fire protection equipment and facilities.

(2) If the court or board establishes fire fighting and fire protection equipment and facilities, it shall not discontinue such equipment and facilities until at least three years after notice of its intention to do so has been first published in a newspaper considered by the board to be of general circulation in the county. The notice shall be published by four insertions in the newspaper and 12 months shall elapse between each insertion.

(3) While the county court or board of county commissioners of any county is maintaining fire fighting and fire protection equipment and facilities, the court or board annually shall levy a tax upon the taxable property lying within zone 2 in the county, not to exceed one-fourth of one percent (0.0025) of the real market value of all taxable property within the zone, computed in accordance with ORS 308.207, for the purpose of furnishing such fire protection.

(4) The court or board of county commissioners, upon approval of the majority of the electors of zone 2 voting at a special election called for such a purpose, may levy a special tax of not to exceed one-fourth of one percent (0.0025) of the real market value of all taxable property within the zone, computed in accordance with ORS 308.207. This special levy may be in addition to the regular levy under subsection (3) of this section.

(5) To carry into effect any of the powers granted under this section, the court or board, when authorized by a majority of the votes cast by the electors of the zone voting at an election called for that purpose by the court or board, may borrow money and sell and dispose of general obligation bonds, which bonds shall never in the aggregate exceed one and one-fourth of one percent (0.0125) of the real market value of all taxable property within the zone, computed in accordance with ORS 308.207.

(6) The tax limitations provided in subsections (3) and (4) of this section do not apply to taxes levied to pay principal or interest on outstanding bonds. [Amended by 1955 c.262 §1; 1959 c.288 §1; 1963 c.9 §29; 1967 c.356 §1; 1969 c.590 §1; 1971 c.647 §107; 1991 c.459 §416; 2007 c.154 §63]

476.340 Establishment of rural fire protection districts in zone 2; exemption from taxation of property included in district. Nothing contained in the provisions of ORS 476.310 to 476.330 shall be construed to prohibit the establishment of rural fire protection districts as provided by law within the boundaries of zone 2 as the same may be established in any county. In event of the organization of a rural fire protection district comprising lands in zone 2, property included within such fire protection district shall not thereafter be taxed or assessed under the provisions of ORS 476.320 or 476.330. [Amended by 1955 c.262 §2; 1963 c.222 §2]

476.380 Fire permits; limitations upon burning; records. (1) No person, outside the boundaries of a rural fire protection district or a forest protection district, shall cause or permit to be initiated or maintained on the property of the person, or cause to be initiated or maintained on the property of another any open burning of commercial waste, demolition material, domestic waste, industrial waste, land clearing debris or field burning without first securing a permit from the county court or board of county commissioners.

(2) The county court or board of county commissioners, or its designated representative, shall prescribe conditions for issuance of any permit and shall refuse, revoke or postpone issuance of permits when necessary to prevent danger to life or property or to protect the air resources of this state. The Environmental Quality Commission shall notify the State Fire Marshal of the type of and time for burning to be allowed on each day under schedules adopted pursuant to ORS 468A.570 and 468A.595. The State Fire Marshal shall cause all county courts and boards of county commissioners or their designated representatives in the affected areas to be notified of the type of and time for burning to be allowed on each day and of any revisions of such conditions during each day. The county court, board or representative shall issue permits only in accordance with schedules of the Environmental Quality Commission adopted pursuant to this section and ORS 468A.555 to 468A.620 and 468A.992, 476.990, 478.960 and 478.990 but may reduce the hours allowed for burning if necessary to prevent danger to life or property from fire. The State Fire Marshal may refuse or postpone permits when necessary in the judgment of the State Fire Marshal to prevent danger to life or property from fire, notwithstanding any determination by the county court or board of county commissioners or its designated officer. Notwithstanding any other provision of this subsection, for a permit for the propane flaming of mint stubble, the county court or board of county commissioners, or its designated representative may only prescribe conditions necessary to prevent the spread of fire or to prevent endangering life or property and may refuse, revoke or postpone permission to conduct the propane flaming only when necessary to prevent danger to life or property from fire.

(3) Nothing in this section:

(a) Requires permission for starting a campfire in a manner otherwise lawful.

(b) Relieves a person starting a fire from responsibility for providing adequate protection to prevent injury or damage to the property of another. If such burning results in the escape of fire and injury or damage to the property of another, such escape and damage or injury constitutes prima facie evidence that the burning was not safe.

(c) Relieves a person who has obtained permission to start a fire, or the agent of the person, from legal liability for property damage resulting from the fire.

(d) Permits an act within a city or regional air quality control authority area that otherwise is unlawful pursuant to an ordinance of the city or rule, regulation or order of the regional authority.

(4) The county court or board of county commissioners shall maintain records of all permits

and the conditions thereof, if any, that are issued under this section and shall submit at such times, as the Environmental Quality Commission shall require such records or summaries thereof to the commission. The Environmental Quality Commission shall provide forms for the reports required under this subsection. [1967 c.420 §3; 1969 c.613 §2; 1971 c.563 §8; 1973 c.835 §164; 1975 c.635 §2; 1991 c.920 §21; 1997 c.473 §5]

STANDARDIZATION OF FIRE PROTECTION EQUIPMENT

476.410 Standard thread hose couplings and hydrant fittings required. All equipment for fire protection purposes purchased by state and municipal authorities, or any other authorities having charge of public property, shall be equipped with the standard thread for fire hose couplings and hydrant fittings as adopted by the State Fire Marshal under ORS 476.030. Prior to adopting any such standard, the State Fire Marshal may request from the Department of Public Safety Standards and Training consideration of and recommendations regarding the standard. [Amended by 1963 c.523 §8; 1973 c.667 §20; 1993 c.185 §29; 1997 c.13 §2; 1997 c.853 §43]

476.420 Standardization of existing fire protection equipment; exemption. The standardization of existing fire protection equipment in this state shall be arranged for and carried out by or under the direction of the State Fire Marshal who may proceed to make the changes necessary to standardize all existing fire protection equipment in this state. Prior to making any such change, the State Fire Marshal may request from the Department of Public Safety Standards and Training consideration of and recommendations regarding the change. The State Fire Marshal shall provide the appliances necessary for carrying on this work and shall proceed with such standardization as rapidly as possible and complete such work at the earliest date circumstances will permit. However, the State Fire Marshal may exempt from standardization special purpose fire equipment and existing fire protection equipment when it is established that such equipment is not essential to the coordination of public fire protection operations. The provisions of this section and ORS 476.440 shall not apply to fire protection equipment used under authority of ORS chapters 477 and 526. [Amended by 1965 c.602 §11; 1973 c.667 §21; 1993 c.185 §30; 1997 c.13 §3; 1997 c.853 §44]

476.430 Changing private equipment. The State Fire Marshal shall notify industrial establishments and property owners having equipment for fire protection purposes, which may be necessary for a fire department to use in protecting the property or putting out fire, of the changes necessary to bring their equipment up to the requirements of the standard established and shall render them such assistance as may be available in converting their defective equipment to standard requirements.

476.440 Sale of nonstandard equipment prohibited; exemption. No person shall sell or offer for sale in Oregon any fire hose, hydrant, fire engine or other equipment for fire protection purposes unless such equipment is fitted and equipped with the standard thread for fire hose couplings and hydrant fittings as has been adopted by the State Fire Marshal under ORS 476.030. Fire equipment for special purposes, research programs or special features of fire protection equipment found appropriate for uniformity within a particular protection area, may be exempted from this requirement by order of the State Fire Marshal. [Amended by 1963 c.523 §9; 1965 c.602 §12]

476.520 Governor authorized to assign fire-fighting forces and equipment. The Governor may assign and make available for use and duty in any county, city or district, under the direction and command of an officer designated by the Governor for the purpose, any part of the fire-fighting forces and equipment of any fire-fighting organization in this state other than an organization that possesses only one self-propelled pumping unit. The Governor may make fire-fighting forces and equipment available under this section in response to fire, a heightened danger of fire or a significant reduction in available fire-fighting resources. [Amended by 2005 c.16 §1]

476.530 Chief executive of political subdivision to assign forces and equipment; federal equipment. The chief executive of any county, city or fire protection district or the head of any fire department of any political subdivision, including agencies of this state, if so ordered by the Governor, shall assign and make available for duty and use in any county, city or fire district under the direction and command of such officer as may be designated by the Governor for the purpose, any part of the fire-fighting forces and equipment under the control of the chief executive or the head of the fire department, provided that any equipment made available by loan, or otherwise, to any county, city or fire district or this state by the United States or any agency thereof, shall at all times be subject to the order of the United States or such agency in accordance with the terms and conditions upon which the equipment is made available. 476.550 Loss or damage to equipment. When any equipment is used pursuant to ORS 476.520 or 476.530 the state shall be liable for any loss thereof or damage thereto and shall pay any expense incurred in the operation or maintenance thereof. upon the Department of State Police and such loss, damage or expense shall be payable from the Emergency Fund of the state. [Amended by 1979 c.76 §2; 1993 c.186 §3]

"Employee" as used herein means, and the provisions of ORS 476.520 to 476.610 apply with equal effect to, all firefighters, whether paid, volunteer or call. [Amended by 1991 c.67 §145]

Compensation for recalled off-duty firefighters and substitute firefighters and any allowable expense necessarily incurred by them in the performance of their duties shall be charged against the county, city or fire district for which they were appointed and shall be audited, allowed and paid as other charges against it are audited, allowed and paid, and shall be subject to reimbursement by the state as provided in ORS 476.550 and 476.560. [Amended by 1979 c.76 §3; 1991 c.67 §146]

(2) The regular employment position of an employee on leave of absence under this section shall be considered vacant only for the period of the leave of absence. The employee shall not be subject to removal or discharge from such position as a consequence of the leave of absence.

(3) Upon the termination of a leave of absence under this section, the employee shall be restored to the employee's position or an equivalent position by the employer without loss of seniority, vacation credits, sick leave credits, service credits under a pension plan or any other employee benefit or right that had been earned at the time of the leave of absence.

The term includes the State of Oregon or any county, city, district, authority, public corporation or entity and any of their instrumentalities organized and existing under law or charter, but does not include the federal government. [1997 c.266 §2]

Note: 476.574 and 476.576 were added to and made a part of 476.510 to 476.610 by legislative action but were not added to any smaller series therein. See Preface to Oregon Revised Statutes for further explanation.

476.576 Violation of job restoration rights of volunteers as unlawful employment practice. (1) Any violation of ORS 476.574 by an employer is an unlawful employment practice.

Any order issued by the Governor in relation to carrying out the provisions of ORS 476.520 to 476.610 may be either written or oral. If written, a copy thereof shall be filed in the office of the Secretary of State and another copy dispatched forthwith to the chief executive of any county, city or fire protection district affected. Immediately thereafter such order, rule or regulation shall be in effect. Oral orders may be made by the Governor when in the opinion of the Governor the emergency is such that delay in issuing a written order would be dangerous to the welfare of the people of the state. However, written copies of such oral order shall be filed and dispatched as soon after issuing such oral order as is conveniently possible in the manner above provided for written orders.

476.590 Preparation of plans by State Fire Marshal; advice and counsel to Governor. The State Fire Marshal shall prepare plans for the effective carrying out of the provisions of ORS 476.520 to 476.610 and provide advice and counsel to the Governor for the most practical utilization under ORS 476.520 to 476.610 of the fire-fighting resources of this state. [Amended by 2005 c.16 §2]

476.600 Liability for injury to person or property. Neither the state nor any county, city or fire district or other political subdivision nor any firefighter acting as the agent of any of the foregoing is liable for any injury to person or property resulting from the performance of any

duty imposed by the authority of ORS 476.520 to 476.590. In carrying out the provisions of ORS 476.520 to 476.590 or while acting within the scope of any duty imposed by authority of the provisions of ORS 476.520 to 476.590, no person shall incur civil liability. A person does not, however, escape full liability for injury to person or property resulting from willful misconduct or gross negligence of the person. [Amended by 1991 c.67 §147; 2005 c.22 §357]

476.610 Payment of claims. The state shall draw warrants on the State Treasurer for the payment of all duly approved claims lawfully incurred in pursuance of ORS 476.520 to 476.600. [Amended by 1983 c.740 §189; 1993 c.186 §5]

476.760 Prohibition against distributing or offering certain cigarettes; improper packaging markings; seizure and forfeiture; interagency agreements; inspections; rules. (1) A person may not distribute or offer to sell a cigarette within this state unless the cigarette is of a variety the State Fire Marshal has determined to have reduced ignition propensity.

(2) Cigarette packaging may not bear a marking or other device identifying the packaged cigarettes as having reduced ignition propensity other than a packaging marking approved for use with those cigarettes by the State Fire Marshal under ORS 476.785. This subsection does not apply if the cigarettes are in interstate commerce and not intended for distribution in this state.

(3) The State Fire Marshal, an authorized representative of the State Fire Marshal or any law enforcement agency may immediately seize and subject to forfeiture any cigarettes distributed or offered for sale in violation of subsection (1) of this section and any packaging, and cigarettes contained in that packaging, that violates subsection (2) of this section. The State Fire Marshal shall destroy cigarettes and packaging seized and forfeited under this subsection. However, prior to destroying cigarettes or packaging seized under this subsection, the State Fire Marshal shall allow the true holder of the trademark rights in the cigarette variety to inspect the cigarettes and packaging.

(4) The State Fire Marshal may enter into a cooperative agreement with any state or local agency that allows the agency to act as an authorized representative of the State Fire Marshal for enforcement purposes under this section.

(5)(a) The State Fire Marshal or an authorized representative, upon oral or written demand, may inspect the inventory of cigarette manufacturers, wholesale or retail dealers and transporters as the State Fire Marshal or an authorized representative deems necessary to ensure compliance with this section. The State Fire Marshal may adopt rules to require reports, in a form prescribed

by the State Fire Marshal, by cigarette manufacturers, wholesale or retail dealers and transporters for the purpose of ensuring compliance with this section.

(b) As used in this subsection, “transporter” has the meaning given that term in ORS 323.010. [2007 c.34 §2]

Note: See note under 476.755.

476.765 Imposition of civil penalties; bringing of actions. (1) The State Fire Marshal shall impose civil penalties under ORS 476.995 in the manner provided by ORS 183.745.

(2) The Attorney General may bring an action at the request of the office of the State Fire Marshal, in the name of the state, seeking:

(a) Injunctive relief to prevent or end a violation of ORS 476.760;

(b) To recover civil penalties imposed under ORS 476.995; or

(c) To recover attorney fees and other enforcement costs and disbursements. [2007 c.34 §4]

Note: See note under 476.755.

476.770 Determination of cigarette variety ignition propensity; reduced ignition propensity standard; listing; cigarette design; rules. (1) For each variety of cigarette sold or proposed for sale in this state, the State Fire Marshal shall determine whether that variety of cigarette has reduced ignition propensity.

(2) Any cigarette variety certified by a manufacturer under ORS 476.780 shall be determined to have reduced ignition propensity.

(3) Except as provided in this section, ignition propensity testing certified, conducted or accepted by a manufacturer or the State Fire Marshal must be performed using ASTM International specification E2187-04, Standard Test Method for Measuring the Ignition Strength of Cigarettes. The ignition propensity testing must be conducted on 10 layers of filter paper. Forty replicate tests shall constitute a complete test trial for each cigarette variety tested. The fire safety performance standard described in subsection (6) of this section applies only to a completed test trial.

(4) The State Fire Marshal may adopt an ignition propensity testing method developed by ASTM International as a modification or replacement of the method designated by subsection (3) of this section if the State Fire Marshal, by rule, deems the modified or replacement method acceptable for determining cigarette fire safety. However, the State Fire Marshal may not adopt a modified or replacement method that in repeated testing results in a change in the percentage of cigarettes exhibiting full-length burns from the percentage produced on the same variety of cigarettes by use of the ASTM E2187-04 method or that otherwise affects the ability of the cigarette to meet the fire safety performance standard described in subsection (6) of this section.

(5) If the State Fire Marshal determines that ignition propensity testing cannot be performed on a cigarette using a method described in subsection (3) or (4) of this section, the manufacturer may propose an alternative testing method and an alternative fire safety performance standard for the variety. If the State Fire Marshal approves the alternative testing method and determines that the alternative fire safety performance standard is equivalent to the fire safety performance standard described in subsection (6) of this section, the manufacturer may use the alternative testing method and the alternative fire safety performance standard for the purpose of certifying the variety of cigarette under ORS 476.780. Except as provided under the approved alternative

testing method and the alternative fire safety performance standard, a cigarette variety described in this subsection remains subject to ORS 476.755 to 476.790 and 476.995.

(6) For a cigarette variety to be declared to have reduced ignition propensity, no more than 25 percent of the cigarettes in a complete test trial conducted in accordance with an ignition propensity testing method described in this section shall exhibit full-length burns.

(7) The State Fire Marshal shall issue, keep current and make available to the public a list of the cigarette varieties the State Fire Marshal has determined to have reduced ignition propensity.

(8) A cigarette listed in a certification under ORS 476.780 that uses lowered permeability bands in the cigarette paper to achieve compliance with the fire safety performance standard described in subsection (6) of this section must have at least two nominally identical bands on the paper surrounding the tobacco column. If the bands are not positioned on the cigarette by design, at least one complete band must be at least 15 millimeters from the lighting end of the cigarette. If the bands are positioned on the cigarette by design, the cigarette must have at least two bands that are entirely located at least 15 millimeters from the lighting end and:

(a) If the cigarette is filtered, that are located at least 10 millimeters from the filter end of the tobacco column; or

(b) If the cigarette is nonfiltered, that are located at least 10 millimeters from the labeled end of the tobacco column. [2007 c.34 §5]

Note: See note under 476.755.

476.775 Laboratories; ignition propensity testing. (1) A laboratory that conducts ignition propensity testing for purposes of ORS 476.770 must have a quality control and assurance program. The program shall be designed to ensure the testing repeatability value for all test trials used to certify a cigarette variety. The repeatability value of ignition propensity testing may not be greater than 0.19.

(2) Ignition propensity testing used in a manufacturer certification submitted under ORS 476.780 must be conducted in a laboratory that has been accredited under:

(a) The ISO/IEC 17025 standard of the International Organization for Standardization, as amended and in effect on April 17, 2007; or

(b) A standard recognized in State Fire Marshal rules as comparable to prevailing international accreditation standards. [2007 c.34 §6]

Note: See note under 476.755.

476.780 Cigarette variety certification by manufacturer; retesting; record retention; unfavorable determination by State Fire Marshal. (1) A manufacturer shall submit a written certification attesting that each variety of cigarette listed in the certification has been subjected to ignition propensity testing described in ORS 476.770 and meets the fire safety performance standard described in ORS 476.770 (6).

(2) The certification shall provide the following information for each variety of cigarette listed:

(a) The brand name shown on the cigarette packaging.

(b) The style, such as light or ultralight.

(c) The length in millimeters.

(d) The circumference in millimeters.

(e) The flavor, such as menthol or chocolate, if applicable.

(f) Whether the cigarette is filtered or nonfiltered.

(g) A packaging description, such as soft pack or box.

(h) A description of the packaging marking approved by the State Fire Marshal under ORS 476.785.

(i) The name, address and telephone number of the laboratory conducting the ignition propensity testing, if other than the laboratory of the manufacturer.

(j) The date of the ignition propensity testing.

(3) The certification of a cigarette variety is valid for three years from the date of receipt by the State Fire Marshal.

(4) If the manufacturer certifies a cigarette variety and later makes any change that is likely to alter the cigarette variety's compliance with the fire safety performance standard described in ORS 476.770 (6), before distributing the changed cigarette variety in this state the manufacturer shall retest the ignition propensity of that variety. Notwithstanding subsection (3) of this section, a manufacturer may not sell a cigarette variety described in this subsection unless that variety continues to meet the fire safety performance standard described in ORS 476.770 (6).

(5) A manufacturer shall retain copies of all ignition propensity test data for cigarette varieties listed in the certification, including any retesting performed under subsection (4) of this section. The manufacturer shall retain the test data for not less than three years. The manufacturer shall provide copies of the test data upon request to the State Fire Marshal and to the Attorney General. Failure of a manufacturer to provide copies of ignition propensity test data requested by the State Fire Marshal or the Attorney General creates a rebuttable presumption that a cigarette variety does not meet the fire safety performance standard described in ORS 476.770 (6).

(6) The State Fire Marshal may determine that a cigarette variety certified under this section does not have reduced ignition propensity only if:

(a) The test data provided to the State Fire Marshal by the manufacturer demonstrate that the cigarette variety does not meet the fire safety performance standard described in ORS 476.770 (6); or

(b) The State Fire Marshal conducts ignition propensity testing on the cigarette variety and the test results demonstrate that the cigarette variety does not meet the fire safety performance standard described in ORS 476.770 (6).

(7) Ignition propensity testing by the State Fire Marshal under subsection (6) of this section shall be conducted in accordance with the testing requirements applicable to manufacturers by a laboratory meeting the requirements described under ORS 476.775.

(8) Upon a determination by the State Fire Marshal under subsection (6) of this section, the State Fire Marshal may seek the remedies described in ORS 476.765. [2007 c.34 §7]

Note: See note under 476.755.

476.785 Cigarette packaging markings. (1) A manufacturer shall place a single type of marking on all packaging for cigarettes of the manufacturer sold in this state to indicate that cigarettes of the manufacturer sold in this state meet the fire safety performance standard established in ORS 476.770 (6).

(2) A manufacturer shall submit to the State Fire Marshal a proposal for marking cigarette packaging. The proposed marking must be in an eight-point font or larger and consist of one of

the following:

(a) Modification of the universal product code to indicate a visible mark printed at or around the universal product code. The mark may consist of alphanumeric or symbolic characters permanently printed, stamped, engraved or embossed in conjunction with the universal product code.

(b) A visible combination of alphanumeric or symbolic characters permanently stamped, engraved or embossed upon the packaging or cellophane wrapping.

(c) Printed, stamped, engraved or embossed text indicating that the cigarettes meet the fire safety performance standard established in ORS 476.770 (6).

(3) The State Fire Marshal shall approve or disapprove the proposal for packaging marking. In determining whether to approve or disapprove a proposal for packaging marking, the State Fire Marshal:

(a) Shall give preference to packaging marking that is consistent with the packaging marking in use and approved for that cigarette variety in the State of New York; and

(b) Shall approve packaging marking that bears the letters "FSC."

(4) A proposal for packaging marking is approved unless the State Fire Marshal disapproves the proposal on or before the 10th day after receipt. The approved packaging marking may be used for the cigarette variety upon receipt by the State Fire Marshal of the manufacturer certification for that variety under ORS 476.780.

(5) A manufacturer may not modify the approved packaging marking unless the modification has been submitted to and approved by the State Fire Marshal. [2007 c.34 §8]

Note: See note under 476.755.

476.790 Providing copies of cigarette certification and illustration of packaging markings. (1) A manufacturer selling cigarettes to a wholesale dealer in this state shall provide the wholesale dealer with a copy of the certification for those cigarettes submitted to the State Fire Marshal under ORS 476.780. The manufacturer shall also provide the wholesale dealer with copies of an illustration of the packaging marking required under ORS 476.785. The manufacturer shall supply copies of the illustration to the wholesale dealer in sufficient number to allow one copy for each retail dealer receiving the cigarettes from the wholesale dealer.

(2) A wholesale dealer shall provide a copy of the illustration described in subsection (1) of this section to each retail dealer that receives cigarettes of the manufacturer from the wholesale dealer. A wholesale dealer is not required to provide a retail dealer of the cigarettes of a manufacturer with more than one copy of the illustration for that manufacturer. [2007 c.34 §9]

Note: See note under 476.755.

476.795 Interpretation of ORS 476.755 to 476.790 and 476.995. The interpretations given to the New York Fire Safety Standards for Cigarettes (Part 429, Title 19, New York Environmental Conservation Rules and Regulations) shall be persuasive authority in the interpretation of ORS 476.755 to 476.790 and 476.995. [2007 c.34 §12]

ORS 476.755 to 476.790 and 476.995 do not apply to any cigarette variety that the State Fire Marshal determines is subject to a federal law that imposes a cigarette fire safety performance standard that is at least as strict as the standard imposed under ORS 476.770. [2007 c.34 §13]

The Cigarette Fire Safety Fund shall consist of all moneys recovered from the imposition of civil penalties under ORS 476.995. Interest earned by the Cigarette Fire Safety Fund shall be credited to the fund.

(2) All moneys in the fund are continuously appropriated to the Department of State Police for use by the office of the State Fire Marshal for fire safety, enforcement and fire prevention programs. [2007 c.34 §14]

476.915 Source of revenue to repay loan. A city or rural fire protection district that enters into an agreement with the State Fire Marshal for a fire protection equipment acquisition loan may obtain moneys for repayment thereof in the same manner as other moneys are obtained for purposes of the payment of expenses of the city or rural fire protection district. [1991 c.587 §4]

Note: See note under 476.900.

476.920 Rules; acceptance of gifts, donations and grants.
