Committee Issues:

The committee has indicated that we need to do a final review of our LEPC Plan and to identify a Chairman for the LEPC.

State Fire Marshals Office:

Bill Brauer provided additional information for assisting our new LEPC and volunteered to provide an orientation for our LEPC members and we will also include the listed Businesses and industry for this workshop. We also will look at their plans and review and approve as they meet our requirements.

Bill also provided a list for the Businesses and industries on the reportable EPA Most Hazardous materials list.

The training will probably be in May due to scheduling conflicts and the location was tentatively set for Camp Rilea.

New Business: Gene Strong was asked to be the Chairman and Lenard Hansen was asked to be the Vice-Chair for this start-up period.

Next Meeting:

The meeting will be held at the Seaside PD, and will be on April 15, 2010, @ 0900 Hrs

The meeting was adjourned at 0950 Hrs

Respectfully Submitted,

Gene Strong
