

Internships and Job Shadows

We receive many inquiries each week regarding Internships or Job Shadows. Unfortunately we are not able to accommodate these requests for several reasons. The main reason is we lack the staffing resources to train people outside the Medical Examiner Program. We only have staff time for our own program training. We must also maintain the privacy of our families and their loved ones, so we are very restrictive with visitors.

We certainly understand the interest in Forensic Medicine, but regret we are unable to accommodate this interest at this time.

Thank you,

Eugene Gray
Forensic Administrator
Office of the State Medical Examiner
