

**September 18-19, 2007 OWEB Board Meeting  
Executive Director Update #C6: Land Acquisition Grant Update**

**Background**

Land acquisition grant applications often require more time to fully evaluate and prepare a funding recommendation than is available in the regular 21-week grant cycle. At the time of writing this staff report, none of the three land acquisition projects deferred at previous Board meetings are ready for consideration at the September 2007 Board meeting and therefore are not addressed in Agenda Item F.

**Status of Acquisition Projects Previously Deferred by the Board (as of August 15, 2007)**

The following table shows the status of the three pending land acquisition grants:

<b>Application</b>	<b>Status</b>
Newton Creek Wetlands (207-301)	The Subcommittee has been deferring the due diligence decision pending progress in capacity development and fundraising.
Lostine River (207-324)	Pending due diligence receipt.
Pilcher Creek (206-339)	Pending due diligence receipt.

**Staff Contact**

If you have questions or need additional information about the deferred land acquisition grant applications, please contact Douglass Fitting, at [douglass.fitting@state.or.us](mailto:douglass.fitting@state.or.us) or 503-986-0046.
