Final Documents

(1) In addition to the final documents identified in ORS 672.020(2) and 672.025(2), final documents include plats, design information, and calculations. All final documents will bear the seal and signature of the registrant under whose supervision and control they were prepared.

(2) Documents that are not final documents must be marked as "preliminary", "not for construction", "review copy", "draft copy, subject to change", or with some similar wording to indicate that the documents are not intended to represent the final work product of the registrant.

[Such documents, if clearly marked as non-final documents and submitted to a client, customer, public entity, or any other person, do not need to have the seal and signature of the registrant under whose supervision and control they were prepared. However, any document, regardless of how marked, that is submitted to a public jurisdiction for approval is a final document and requires the seal and signature of the registrant.]
