REGULAR **CONSENT** **EFFECTIVE DATE** February 1, 2009

SUBJECT: PACIFIC POWER & LIGHT: (Advice No. 08-025) Revises the market weights for the calculation of the energy charge daily rate for Standard Offer Supply Service.

STAFF RECOMMENDATION:

Staff recommends that the tariff sheets filed by PacifiCorp in Advice No. 08-025 be allowed to go into effect on February 1, 2009.

DISCUSSION:

On November 12, 2008, the Commission issued Order No. 08-543 approving PacifiCorp's calculation of Net Variable Power Costs (NVPC) for 2009. In order to be consistent with Order No. 08-543, it is necessary to revise the market weights for the calculation of the energy charge daily rate for Standard Offer Supply Service under Schedule 220. PacifiCorp serves less than 1 MW of load to 130 meters under this schedule.

Staff has reviewed PacifiCorp's tariff filing and finds that the market hub weighting figures proposed are consistent with those used in the Transition Adjustment Schedule – Schedule 294, recently filed and approved in Advice No. 08-022.

PROPOSED COMMISSION MOTION:

The revised tariff sheet filed in PacifiCorp Advice No. 08-025 be allowed to go into effect on February 1, 2009.
