

**EXHIBIT 1**  
**BUILDING VALUATION DATA/PHASED PROJECTS/DEFERRED SUBMITTALS**

The valuation of building construction for building permit purpose shall be the total construction cost for all classes of work. The plan review and building permit fee will be based on valuation computed from the following average values, which were compiled in April 2001. See OAR 918-460-0070 and 918-480-0030 for fees related to phased projects and deferred submittals. Permit fees for less than a complete structure will be based upon the percent of construction to be completed under the permit as determined by the jurisdiction having authority. The cost is intended to comply with the definition of "valuation" in Section 223 of the State of Oregon Structural Specialty Code and includes architectural, structural, electrical, plumbing, heating and ventilation devices and equipment, except as specifically listed below. It also includes the contractors' profit, which should not be omitted.

Occupancy & Type	\$ PSF	Occupancy & Type	\$ PSF	Occupancy & Type	\$ PSF
<b>1. APARTMENT HOUSES:</b>		<b>9. HOMES FOR THE ELDERLY:</b>		<b>18. PUBLIC BUILDINGS:</b>
