Portland, OR 97232

Re: Oregon Laborer's Request for Revision

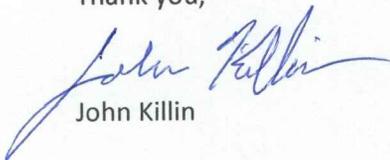

To Whom This May Concern;

The Associated Wall and Ceiling Contractors is an interested party in this revisions and we request notification of any coming hearings.

Not only is our contract used as evidentiary support, the following areas of work may affect our members; Material and Yard Man, Scissor-lift and Man-lift, Demolition, Drying and Heating and Weather Protection.

We are not currently taking a position of support or opposition but would like to retain our status as an interested party at this time.

Thank you,

John Killin
