

## State agency online directory access

State agencies maintain the content of Oregon state government's [online agency directory](#) through a Web-based editor system. With a manager's approval, select state employees may request a user ID and password through the DAS Technology Support Center (TSC).

To obtain access to update the directory, call the TSC at 503-378-2135 or send an email to [helpdesk.tsc@oregon.gov](mailto:helpdesk.tsc@oregon.gov).

The system contains a link to an editor's guide (manual), or users may request a copy of the guide by contacting the TSC at the phone or email above.
