## A SFMS Desk Manual

R\*STARS: PROF.1  
Revised: 7/26/2011

### **R\*STARS VENDOR PROFILE**

In the Statewide Financial Management Application (SFMA), vendor data is maintained in both R\*STARS and ADPICS. Users must have the correct security access to add vendor information in R\*STARS using the Systemwide Vendor Profile screen (52) and the Systemwide Mail Code Profile screen (51).

Changes to the Systemwide Vendor Profile, screen 52 and the Systemwide Mail Code Profile, screen 51 can only be made centrally. Vendor change information can be sent to the SFMS Operations Vendor Desk by fax, 503-378-8940; E-Mail, VENDOR SFMS 1 \* DAS SCD; [SFMS.1.Vendor@State.Or.US](mailto:SFMS.1.Vendor@State.Or.US), mail, 155 Cottage St NE U60, Salem OR 97301-3970; or by phone, 503-373-0256.

#### **R\*STARS Vendor Profile Maintenance Screens**

Screen 52 – Systemwide Vendor Profile

Use this screen to add new vendors. The mail code for the 52 screen is 000.

Screen 51 - Systemwide Mail code Profile

Use this screen to add new address for established vendors. (referred to as mail codes)

Screen 3A – Vendor Alpha Inquiry

Use this screen to do an alpha search for a vendor

Screen 3N – Vendor Number Inquiry

Use this screen to do a numeric search for a vendor

Screen 3S – Vendor Record Status Inquiry

Use this screen to see which requested vendors and mail codes are in request (R) status from R\*STARS or partial (P) status from ADPICS.

After signing on to R\*STARS, the system retrieves the Main Menu.

- You may either follow the menu options below by pressing the listed function key or typing in the screen code, or you can move the cursor to the LINK TO field and type in "3a" to access the Vendor Alpha Inquire screen
  - From the main menu
  - F5 or PR
  - F8 or VEN
  - F2 or 3a for Vendor Alpha Inquiry Screen
    - or
    - F10 or 52 for Systemwide Vendor Profile (for adding new vendors)
      - or
      - F11 or 51 for Systemwide Mail Code Profile (for adding new addresses)

### Note:

You cannot LINK out of the 3A screen. For this reason it may be easier to go directly to the 52 Systemwide Vendor Profile or 51 Systemwide Mail Code Profile screen. You can then use the INTERRUPT (F9) option to access the 3A screen. This is referred to as 'interrupting to' a new screen.

To use the interrupt option

- Go to the LINK TO field
- Type in the screen you would like to access
- Press F9

This will open the screen requested. When you have completed your search, press F9 again to return you to the screen that you interrupted from.

Hereafter, screen numbers will be used to designate navigation through R\*STARS.

### To Add a New Vendor:

Always do an alpha search before you add a new vendor. If the vendor you are searching for is already on file, you must determine which vendor number is currently correct. Check both the vendor name and the Address fields on the 3A screen.

New vendor information is added on screen 52.

**To search for a vendor:**

Go to screen 52

- Type "**S**" for systemwide in the SELECT VENDORS FROM field.
- Type at least the first three letters of the vendor's name in the SEARCH NAME field. You must type in at least 2 alpha characters in the first 3 spaces (see Help screen (F1) keyword DKD for valid search criteria).
  - For proper names, perform the search on the first 3-5 characters of the last name. Look in both the vendor name and vendor address fields. An individual may already be on file with a business name
  - For organizations, perform the search on the first 3-5 characters of the business name
  - A search cannot be performed if there is more than one space in the first 3 characters (i.e. C J Hansen needs to be CJ Hansen)
- For this example, type "**ACC**" to search for Accounting Analysts. Press <Enter>.

- The 52 screen must contain the legal name and address for the vendor. If the vendor is a sole proprietor or has a DBA (doing business as), the owner's name must be entered as the vendor name. The tax identification number used must correspond with the vendor name. The business or DBA name can be reflected in the address field.
- On the Systemwide Vendor Profile screen (52), enter the following information:

**VENDOR NO:** Type a "1" followed by the vendor's FEIN/SSN. Note that state employees may have two vendor numbers. The first vendor number can be entered by typing in a 1 followed by the employees 9 digit Social Security Number. The second vendor number can be entered by typing a 1 followed by the employees ID number. ID numbers are assigned by PPDB to all employees. Employee ID Numbers start with a 1OR followed by 7 digits. Employees are required to give their ID upon request. An employee or the employees' supervisor can provide the employee ID number.

By using the F5 key on the 51 screen, you can scroll through the existing mail codes. The system will display the mail codes in numerical order. After the last mail code for the vendor has been recalled, the system will retrieve the first mail code of the next vendor. Be sure to watch the mail code number until the next VENDOR NO is displayed or the mail code reaches 500.

When you add mail codes in R\*STARS, use the next consecutive mail code within the "001-499" range. Mail codes within the range "500-699" are mail codes that can only be added from ADPICS.

If the address that you need is already on file, you do not need to add a new mail code. R\*STARS users can use any mail code listed.

Abbott Laboratories has mail codes "000", "001", and "002". To add another payment address, use the next sequential mail code, "003".

**NOTE:**

*Name and address standards are discussed in further detail below*

**SEARCH NAMES / ALTERNATE VENDOR NAMES**

Search names (R\*STARS) are provided for cross reference purposes to help find a vendor by alphabetic search when the exact name entered in the system may not be known. The vendor name is automatically inserted as the first search name. In R\*STARS there are three user definable search name fields.

The following conventions have been adopted for creating search names and alternate vendor names:

**PERSONS** - In the fourth search name field, enter the following format required by the IRS for 1099 electronic reporting.

LASTNAMEcommaFIRSTNAMEcommaMIDDLENAMEORINITIAL

Both commas are required even if no middle name or initial is used, no spaces or other punctuation marks are permitted. The last name must have at least 1 and not more than 13 characters, the first name may have up to 10 characters, the middle name up to 7.

**ORGANIZATIONS** - The second search name field will contain the first five characters of the organization name (including spaces), a space, and the zip code (i.e., for Pitney Bowes, Pitne xxxxx) . The third and fourth search name fields may include another name or set of initials which may facilitate finding the vendor on any alphabetic search (i.e., IBM for International Business Machines, UPS for United Parcel Service, etc.).

**SOLE PROPRIETORSHIPS** - These entities are a sort of cross between persons and organizations. Because the proprietor is the person responsible for paying taxes, the vendor name and the last search name are entered as for a PERSON. The business name is entered in the second search name field as for an organization. The business name is also entered in the third search name field and as the first line in the address field.

**PARTNERSHIPS** - Enter the business name in the second search name field as for an organization. In addition two partners names (if known) are entered in the third and fourth search name fields as for a PERSON.

**GOVERNMENT AGENCIES and POLITICAL SUBDIVISIONS** - There are a number of special codes pertaining to these entities that are entered in place of certain search names. For further details see the instructions on the next page for entering these special records.

**LIENS, LEVIES, GARNISHMENTS, AND ASSESSMENTS** - Mail codes for payees receiving monies diverted by these orders must also contain a search name for the vendor named on the related 52 screen. See PROF.4 for more information.

**POST OFFICES and POSTMASTERS** - Enter US PO, space, zip code in the fourth search name field.

**OREGON UNIVERSITY SYSTEM** - Enter the university acronym in a search field. If possible, include the department in a search field.

**SEARCH NAMES / ALTERNATE VENDOR NAMES for  
OREGON STATE GOVERNMENT AGENCIES and POLITICAL SUBDIVISIONS**

Oregon state government agencies and political subdivisions are generally entered only in R\*STARS, although certain entities (i.e. water districts) are also entered in ADPICS to facilitate routine payments such as utility bills. Certain conventions have been adopted with respect to vendor names and search names in these records to assure consistency of format and completeness of information.

**POLITICAL SUBDIVISIONS** - Political subdivisions are counties, cities, and special districts that either have taxing authority or receive tax distributions from the state. Vendor names for counties and cities will begin with "COUNTY OF" or "CITY OF" respectively on the 52 screen record and the 001 mail code 51 screen record. Vendor names for all Oregon school districts will begin with the name of the related county (i.e. "MARION CO SCH DIST 24J") in the 52 screen record and the 000 mail code 51 screen record. Additional 51 screen mail codes may contain other appropriate vendor names and addresses.

Each political subdivision is assigned a political subdivision (PSD) number. This number, with the prefix "PSD", will become the second search name (the first enterable search name) in every record for that vendor (i.e., for Marion County School District 24J, "PSD240340"). Each PSD number is composed of three pairs of digits. The first pair indicates the county in which the subdivision is found (i.e. "24xxxx" is in Marion County). The second pair indicates what type of subdivision is represented (i.e. "xx03xx" is a school district). The final pair of digits is a sequence number to differentiate similar subdivisions in the same county.

Contact SFMS Vendor desk for the correct political subdivision number (PSD) to be included when adding a new political subdivision vendor. A list of the types of political subdivisions has been included.

Cities and counties have special codes on the 001 mail code 51 screen record. The prefix "CCC" plus the assigned city/county code will be entered in the third search name field (i.e., for Salem, "CCC2470"). The prefix "OLCC" plus the assigned Oregon Liquor Control Commission numbers will be entered in the fourth search name field (i.e., for Woodburn, "OLCC2473").

Many political subdivisions also participate in the Local Government Investment Pool. These vendors will have their account numbers entered with the prefix "LGIP" in the LICENSE field of the 001 mail code 51 screen record (i.e., for Marion County, "LGIP04007") and the value 0.0 in the TAX RATE field.

**OREGON STATE GOVERNMENT AGENCIES** - Oregon state government agencies are assigned numbers for identification in interagency transactions. Vendor records for state agencies will include the appropriate agency number with the prefix "AGY" in the fourth search name field (i.e., for DAS, "AGY107"). Records for agencies whose status has changed will contain the obsolete agency number with the prefix "OBAGY" in the fourth search name field (i.e., for Department of General Services, "OBAGY125").

### **FOREIGN VENDOR ADDRESSES**

Foreign vendor numbers begin with a "2", followed by your agency number and any numbers you wish to create. Because foreign vendor numbers are not specific to the vendor, always do an alpha search on R\*STARS before adding the vendor. When assigning a new foreign vendor number, check R\*STARS' 52 screen for the next consecutive number for your agency. Since the vendor number is neither a Federal Employer Identification Number nor a Social Security Number, the FEI/SSN field in the R\*STARS 52 screen record will contain an "O" indicating an 'other' number type.

Entering the Address:

1. Enter the city, province and postal or zip code below the address.
2. Enter the country in the CITY field.
3. Enter "XX" in the ST field.
4. Enter "X"'s into the first part of the ZIP CODE field.
5. Type the country name into the COUNTRY field. Because this field will not print on the warrants, the country name is also typed in the city field.

Foreign vendors must return a form W-8 before activation. SFMS will determine which W-8 form is appropriate. If the W-8 form is returned with a valid U.S. tax identification number, the vendor profile will not have an end date. If the vendor does not have a valid U.S. tax identification number, an end-date will be added to the vendor 52 profile. All foreign vendors remain in inactive status until a payment is ready to be issued. Each payment to the vendor will be required to be evaluated for tax withholding and reporting before the vendor is activated for payment. Foreign vendors remain active through one nightly batch cycle only. Foreign vendors are inactivated the first business day following an activation request.

### **NAME CONTROL**

The following instructions from IRS define the name control function. The purpose of this field is to enable automated verification of taxpayer identification numbers.

*If determinable, enter the first four (4) characters of the surname of the person whose TIN is being reported in positions 15-23 of the "B" Record; otherwise, enter blanks. This is usually the payee. If the name that corresponds to the TIN is not included in the first or second payee name line and the correct name control is not provided, a backup withholding notice may be generated for the record. Surnames of less than four (4) characters should be left justified, filling the unused positions with blanks. Special characters and imbedded blanks should be removed. In the case of a business, other than a sole proprietorship, use the first four significant characters of the business name. Disregard the word "the" when it is the first word of the name, unless there are only two words in the name. A dash (-) and an ampersand (&) are the only acceptable special characters. Surname prefixes are considered part of the*

surname, e.g., for Van Elm, the name control would be VANE. When two last names are shown for an individual, derive the name control from the first last name.

EMPLOYEES' OFFICE ADDRESSES

Employee office addresses on mail code 000 may have a return to agency PDT value (begins with an "R"). This will allow warrants issued to employees to be returned to the initiating agency for distribution.

LIENS, LEVIES, GARNISHMENTS, AND ASSESSMENTS

Mail codes 410-499 are reserved for mail codes resulting from compliance with one of these court orders. They will be input only with the approval of the SFMS Operations vendor staff and must contain the agency number and the name and telephone number of the individual entering the record. Records entered without this information will be deleted. See PROF.4 for more information
