

RECRUITMENT

e-RECRUIT ONLINE APPLICATION SYSTEM

In 2009, the state of Oregon moved to an online application system, E-Recruit powered by NeoGov, the industry leader in public sector recruitment software. The efficiencies gained through on-line application submission strengthen our ability to hire the most talented staff to service the citizens of Oregon.

Agency Human Resource (HR) will use E-Recruit for the request to fill process, job announcement development, application screening and evaluation, eligible and referral list development, interview scheduling, job seeker communications, and hiring. For detailed step-by-step instructions on using the E-Recruit System, visit Oregon GovSpace, E-Recruit Resource Center. If you have questions relating to the E-Recruit System contact <http://www.oregon.gov/das/HR/pages/index.aspx>.
