

**OREGON BOARD OF DENTISTRY
GENERAL INFORMATION AND INSTRUCTION SHEET**

DENTAL

LICENSURE BY EXAMINATION

Introduction:

These instructions are designed to assist you in the application process for dental licensure in Oregon. Please read and follow them carefully. A checklist format has been used to assist you in requesting documentation and to ensure you meet all application requirements.

There are two methods of licensure in Oregon:

1. Licensure by Examination

Dentists are eligible to apply for licensure by examination in Oregon within five (5) years of passage of any clinical Board examination administered by any state or regional testing agency.

Dentists who have graduated from a dental program located outside the United States or Canada must also meet additional education requirements. See item "H" on the checklist.

2. Licensure Without Further Examination

Dentists are eligible to apply for licensure without further examination if they hold an active dental license in another state, and if they have taken and passed the dental clinical examination conducted by any state or regional testing agency, in addition to meeting the requirements set forth in ORS 679.060 and 679.065. The applicant must verify to having 3,500 hours of licensed clinical practice in the past five years in other states, in Oregon, or in the Armed Forces of the United States, the United States Public Health Service or the United States Department of Veterans Affairs. If in the military, the applicant must have a letter submitted to the Board from the commanding officer outlining duties, length of service and whether any adverse actions have been reported or taken. In addition, the applicant must also verify to having completed 40 hours of continuing education in accordance with 818-021-0060 within two years immediately preceding submission of their application.

Dentists who have graduated from a dental program located outside the United States or Canada must also meet additional education requirements for Oregon. See item "H" on the checklist.

A dental license granted under 818-021-0011 will be the same as the license held in another state; i.e., if the dentist holds a general dentistry license, the Oregon Board will issue a general (unlimited) dentistry license. If the dentist holds a license limited to the practice of a specialty, the Oregon Board will issue a license limited to the practice of that specialty. If the dentist holds more than one license, the Oregon Board will issue a dental license which is least restrictive.

IMPORTANT INFORMATION – ALL APPLICANTS

Affirmative Responses to Questions on Page 2 of the Application Form

If you answer “yes” to any of the questions, for any reason, you must submit additional supporting documentation for that question as indicated on the application. This documentation should include:

1. **Written letter of explanation** from you giving full details.
2. **Certified copies** of disciplinary action, police reports, court documents, and medical evaluations or any other pertinent information.

Application Valid For 180 Days (OAR 818-021-0120):

1. If all information and documentation necessary for the Board to act on an application is not provided to the Board by the applicant within 180 days from the date the application is received by the Board, the Board shall reject the application as incomplete.
2. An applicant whose application has been rejected as incomplete must file a new application and must pay a new application fee.
3. **An applicant who fails the examination or who does not take the examination during the 180-day period following the date the Board receives the application, must file a new application and must pay a new application fee.**

Fees Non-refundable – (ORS 679.120(8)):

All fees paid to the Board are non-refundable or transferable.

Please anticipate a minimum of 6 – 8 weeks for complete application processing. Once requested, documentation from other states or jurisdictions and background checks can take several weeks for processing.

WHERE FORMS ARE TO BE SENT:

The Application and the Biennial Licensure Forms and their fees are to be sent to Oregon Board of Dentistry, Unit 23, PO Box 4395, Portland, Oregon 97208-4395.

All supplemental forms, Official Transcripts, and Certificates of Standings from other states are to be sent directly to the Oregon Board of Dentistry, 1500 SW 1st Avenue, Suite 770, Portland, OR 97201.

LICENSURE BY EXAMINATION: DOCUMENTATION REQUIREMENTS

A. **Application Form**

Application must be completed in full, notarized and submitted with the required fee to the Oregon Board of Dentistry, Unit 23, PO Box 4395, Portland, Oregon 97208-4395.

B. **Photograph (Signed and Dated)**

Submit a current 2" X 2" photograph, signed and dated. Affix to page 2 of the application in the space provided.

C. **Application Fee - \$345**

Fees must be paid in U.S. funds, by cashier's check or money order, payable to the "Oregon Board of Dentistry," and submitted with the application form. Applications will not be processed without the appropriate fee. **Fees paid are neither transferable nor refundable. All fees are mandatory.**

D. **Prescription Monitoring Program Fee - \$50**

This fee must be paid in U.S. funds, by cashier's check or money order, payable to the "Oregon Board of Dentistry," and submitted with the Application Form. A license will not be processed without the appropriate fee. **Fees paid are neither transferable nor refundable. All fees are mandatory.**

E. **Biennial Licensure Form**

The Biennial Licensure Form must be completed and submitted with the required fee to the Oregon Board of Dentistry, Unit 23, PO Box 4395, Portland, Oregon 97208-4395. When completing the form at least one address must be a physical street address.

F. **Biennial Licensure Fee - \$340**

This fee must be paid in U.S. funds, by cashier's check or money order, payable to the "Oregon Board of Dentistry," and submitted with the Biennial Licensure Fee form. A license will not be processed without the appropriate fee. **Fees paid are neither transferable nor refundable.**

G. **Transcript (With Degree Posted)**

Transcripts must be posted with dental degree from an ADA accredited dental program, and must be sent to the Board directly from the school. Dentists who completed non-ADA accredited programs must also have successfully completed a predoctoral dental education program of not less than two years at a dental school accredited by the Commission on Dental Accreditation of the American Dental Association, and be proficient in the English language. (OAR 818-021-0010(1)(b).)

H. National Board Scores

A photocopy of the National Board Scores must be **submitted by you** to the Oregon Board of Dentistry (OBD). If you need a copy, contact the Joint Commission on National Dental Examinations, 211 East Chicago Avenue, Suite 1846, Chicago, Illinois 60611, telephone number 1-800-232-1694; have them mail you a copy, then mail a photocopy to the OBD after you receive it.

I. License Verifications

License verifications must be requested by the applicant and submitted directly from every state, country or jurisdiction in which the applicant is currently licensed or has held licensure. (Note: Many states charge a fee for this service. Please contact the state and/or country directly prior to submitting your request to prevent delays in processing.)

J. Proof of Clinical Examination within Five (5) Years of Passage

1. Regional: If the applicant passed a clinical examination administered by a regional testing agency, submit a photocopy of the original ADEX, CRDTS, NERB, SRTA, or WREB certificate. The telephone number for CITA is 1-919-460-7750. The telephone number for CRDTS is 1-785-273-0380. The telephone number for NERB is 1-301-563-3300. The telephone number for SRTA is 1-757-318-9082. The telephone number for WREB is 1-602-944-3315.

2. State: If the applicant passed a state examination, verification from the state must be submitted directly to the Oregon Board of Dentistry, 1500 SW 1st Avenue, Suite 770, Portland, OR 97201.

M. Fingerprints – Live Scan

Live Scan fingerprints can only be transmitted electronically. Once the Oregon Board of Dentistry receives your application and application fee, we will send you the Request for Transmission for Live Scan Fingerprints form.

M. DEA Form

Applicants who have been licensed in another state must have this form completed and returned to the Board by the Drug Enforcement Administration.

N. Jurisprudence Examination

Once the application and application fee are received, the Jurisprudence Examination will be mailed to you. This examination is “open book” and may be returned to the Board by mail.

I, hereby declare that I am the person described in the attached application for licensure.

I have carefully read the questions in the attached application and have answered them completely, without reservations of any kind, and I declare under the penalty of perjury that my answers and all statements made by me are true and correct. Should I furnish any false information in this application, I hereby agree that such act shall constitute cause for the denial, suspension or revocation of my license to practice dentistry/dental hygiene in the State of Oregon.

I hereby authorize all hospitals, institutions, or organizations, my references, personal physicians, employers (past and present), business and professional associates (past and present) and all governmental agencies and instrumentalities (local, state, federal or foreign) to release to the Oregon Board of Dentistry any information, files or records requested by the Board in connection with the processing of this application. I further authorize the Board to release to the organizations, individuals and groups listed above any information, which is material to my application.

EDUCATIONAL REQUIREMENTS FOR NITROUS OXIDE, MINIMAL SEDATION, MODERATE SEDATION & GENERAL ANESTHESIA PERMITS

No dentist or dental hygienist will be granted a permit to administer sedation or general anesthesia **without documentation** of current training/education and/or competency in the permit category for which the applicant is applying.

The applicant may demonstrate current training/education or competency by any one of the following:

1. Initial training/education was completed within the **immediate two (2) years prior** to applying for a sedation or general anesthesia permit.
 - Provide documentation of training/education or competency in the permit category applying.
2. Initial training/education was completed within **the immediate five (5) years prior** to applying for a sedation or general anesthesia permit.
 - Provide documentation of all continuing education that would have been required for the anesthesia/permit category during the five year period following initial training.
 - Nitrous Oxide 10 hours – OAR 818-026-0040(9)
 - Minimal Sedation 10 hours – OAR 818-026-0050(9)
 - Moderate Sedation 35 hours – OAR 818-026-0060(12)
 - General Anesthesia 35 hours – OAR 818-026-0070(12)

or

- Provide documentation of completion of a comprehensive review course approved by the Board in the permit category to which the applicant is applying and **must** consist of at least one-half (50) % of the hours required by rule for a Nitrous Oxide (7 hours), Minimal Sedation (8 hours), Enteral Moderate Sedation (12 hours), and Parenteral Moderate Sedation (30 hours) Permits. General Anesthesia Permits will require at least 120 hours of general anesthesia training.
3. Initial training/education that was completed **greater than five (5) years immediately prior** to applying for a sedation or general anesthesia permit.
 - Provide documentation from another state that the applicant is licensed in that state and that the applicant holds the level of permit being applied for in Oregon and provides documentation of the completion of at least 25 cases in the requested level of sedation or general anesthesia in the 12 months immediately preceding application.

or

- Demonstration of competency to the satisfaction of the Board that the applicant possesses adequate sedation or general anesthesia skill to safely deliver sedation or general anesthesia services to the public.

The Oregon Board of Dentistry understands that protocols and forms may change throughout your career, however, if you are not currently practicing but wish to apply for a nitrous oxide permit you may use the protocols and forms used in your dental or dental hygiene programs, or you may also prepare your own forms to attach to the nitrous oxide permit application.

Please note:

Any of the following will result in automatic rejection of the application and delay the application process:

- Application must be completed on a typewriter or a computer.
- Copying or duplicating another licensee’s application in part or in total.
- Questions are not answered completely.
- Missing forms, certificates, or proof of training.
- Copying, cutting and/or pasting from other written material into the application or listing “see attached”. (i.e., literature, DPA, publications). Applications must be completed using your own protocols.

I have read and understand the above information: _____
SIGNATURE

If you have any questions, please contact the Board office at 971-673-3200.

I. TRAINING

1) Describe and **provide evidence of your formal training in nitrous oxide** (use additional sheets if necessary) and **submit a copy of your current Health Care Provider BLS/CPR level, or its equivalent, certification. Use additional sheets if necessary.**

TITLE OF COURSE	DATE	HOURS (CLINIC)	HOURS (CLASSROOM)	SPONSORING INSTITUTION OR LOCATION

2) Describe the formal education and in-office training your anesthesia assistant(s) has/have:

TITLE OF COURSE	DATE	HOURS (CLINIC)	HOURS (CLASSROOM)	SPONSORING INSTITUTION OR LOCATION

3) Provide copies of your anesthesia assistant's (s') valid and current Health Care Provider BLS/CPR level, or its equivalent, course completion documentation.

4) Briefly describe your minimum training standards for personnel who assist you with anesthesia.

II. PREOPERATIVE

1) Briefly describe your preoperative evaluation procedures.

2) Describe your minimum health standards for nitrous oxide administration, how you document your preoperative evaluation.

3) List contraindications for nitrous oxide administration.

4) What pre-induction instructions do you give patients? Do you have an instruction sheet which you give the patient? (Attach a copy.)

5) **Attach a copy of your informed consent form if you have one.**

6) **Attach a copy of your health history form.**

III. OPERATIVE

Describe your nitrous oxide administration procedures, listing dosages used, and documentation of monitoring.

IV. POSTOPERATIVE

Describe your standards for discharge.

V. EMERGENCY

1) Describe your emergency protocol (i.e., time line or algorithm) and explain what responsibilities your staff members have.

2) Do you have regularly scheduled emergency drills? _____yes _____no If yes, how often? _____
Date of most recent drill. _____

3) Describe your emergency kit.

a) List the drugs it contains and what each drug is used for.

b) What airway emergency equipment is available?

c) How do you ensure emergency kit contents are kept current?

I certify that the above statements are true and pursuant to OAR 818-026-0110, I acknowledge that by applying for a permit, I consent to the conduct of office evaluations.

DIVISION 26

ANESTHESIA

818-026-0000

Purpose

(1) These rules apply to the administration of substances that produce general anesthesia, deep sedation, moderate sedation, minimal sedation or nitrous oxide sedation in patients being treated by licensees. These regulations are not intended to prohibit training programs for licensees or to prevent persons from taking necessary action in case of an emergency.

(2) Nothing in this Division relieves a licensee from the standards imposed by ORS 679.140(1)(e) and 679.140(4).

Stat. Auth.: ORS 679 & 680
Stats. Implemented: ORS 679.250(7) & 679.250(10)
Hist.: OBD 2-1998, f. 7-13-98, cert. ef. 10-1-98; OBD 6-1999, f. 6-25-99, cert. ef. 7-1-99; OBD 3-2003, f. 9-15-03, cert. ef. 10-1-03; OBD 1-2005, f. 1-28-05, cert. ef. 2-1-05; OBD 1-2010, f. 6-22-10, cert. ef. 7-1-10; OBD 1-2013, f. 5-15-13, cert. ef. 7-1-13

818-026-0010

Definitions

As used in these rules:

(1) "Anesthesia Monitor" means a person trained in monitoring patients under sedation and capable of assisting with procedures, problems and emergency incidents that may occur as a result of the sedation or secondary to an unexpected medical complication.

(2) "Anxiolysis" means the diminution or elimination of anxiety.

(3) "General Anesthesia" means a drug-induced loss of consciousness during which patients are not arousable, even by painful stimulation. The ability to independently maintain ventilatory function is often impaired. Patients often require assistance in maintaining a patent airway, and positive pressure ventilation may be required because of depressed spontaneous ventilation or drug-induced depression of neuromuscular function. Cardiovascular function may be impaired.

(4) "Deep Sedation" means a drug-induced depression of consciousness during which patients cannot be easily aroused but respond purposefully following repeated or painful stimulation. The ability to independently maintain ventilatory function may be impaired. Patients may require assistance in maintaining a patent airway, and spontaneous ventilation may be inadequate. Cardiovascular function is usually maintained.

(5) "Moderate Sedation" means a drug-induced depression of consciousness during which patients respond purposefully to verbal commands, either alone or

accompanied by light tactile stimulation. No interventions are required to maintain a patent airway, and spontaneous ventilation is adequate. Cardiovascular function is usually maintained.

(6) "Minimal Sedation" means minimally depressed level of consciousness, produced by non-intravenous pharmacological methods, that retains the patient's ability to independently and continuously maintain an airway and respond normally to tactile stimulation and verbal command. When the intent is minimal sedation for adults, the appropriate initial dosing of a single non-intravenous pharmacological method is no more than the maximum recommended dose (MRD) of a drug that can be prescribed for unmonitored home use. Nitrous oxide/oxygen may be used in combination with a single non-intravenous pharmacological method in minimal sedation.

(7) "Nitrous Oxide Sedation" means an induced, controlled state of minimal sedation, produced solely by the inhalation of a combination of nitrous oxide and oxygen in which the patient retains the ability to independently and continuously maintain an airway and to respond purposefully to physical stimulation and to verbal command.

(8) "Maximum recommended dose" (MRD) means maximum Food and Drug Administration-recommended dose of a drug, as printed in Food and Drug Administration-Approved labeling for unmonitored dose.

Stat. Auth.: ORS 679
Stats. Implemented: ORS 679.250(7) & 679.250(10)
Hist.: OBD 2-1998, f. 7-13-98, cert. ef. 10-1-98; OBD 6-1999, f. 6-25-99, cert. ef. 7-1-99; OBD 3-2003, f. 9-15-03, cert. ef. 10-1-03; OBD 1-2005, f. 1-28-05, cert. ef. 2-1-05; OBD 1-2010, f. 6-22-10, cert. ef. 7-1-10

818-026-0020

Presumption of Degree of Central Nervous System Depression

(1) In any hearing where a question exists as to the degree of central nervous system depression a licensee has induced (i.e., general anesthesia, deep sedation, moderate sedation, minimal sedation or nitrous oxide sedation), the Board may base its findings on, among other things, the types, dosages and routes of administration of drugs administered to the patient and what result can reasonably be expected from those drugs in those dosages and routes administered in a patient of that physical and psychological status.

(2) The following drugs are conclusively presumed to produce general anesthesia and may only be used by a licensee holding a General Anesthesia Permit:

(a) Ultra short acting barbiturates including, but not limited to, sodium methohexital, thiopental, thiamylal;

(b) Alkylphenols — propofol (Diprivan) including precursors or derivatives;

- (c) Neuroleptic agents;
- (d) Dissociative agents — ketamine;
- (e) Etomidate; and
- (f) Volatile inhalational agents.

(3) No permit holder shall have more than one person under any form of sedation or general anesthesia at the same time exclusive of recovery.

(4) A licensee that does not hold a Moderate, Deep Sedation or General Anesthesia Permit may not administer, for purpose of anxiolysis or sedation, Benzodiazepines or narcotics in children under 6 years of age.

Stat. Auth.: ORS 679 & 680
 Stats. Implemented: ORS 679.250(7) & 679.250(10)
 Hist.: OBD 2-1998, f. 7-13-98, cert. ef. 10-1-98; OBD 6-1999, f. 6-25-99, cert. ef. 7-1-99; OBD 3-2003, f. 9-15-03, cert. ef. 10-1-03; OBD 1-2005, f. 1-28-05, cert. ef. 2-1-05; OBD 1-2010, f. 6-22-10, cert. ef. 7-1-10; OBD 1-2013, f. 5-15-13, cert. ef. 7-1-13; OBD 4-2015, f. 9-8-15, cert. ef. 1-1-16

818-026-0030
Requirement for Anesthesia Permit, Standards and Qualifications of an Anesthesia Monitor

(1) A permit holder who administers sedation shall assure that drugs, drug dosages, and/or techniques used to produce sedation shall carry a margin of safety wide enough to prevent unintended deeper levels of sedation.

(2) No licensee shall induce central nervous system sedation or general anesthesia without first having obtained a permit under these rules for the level of anesthesia being induced.

(3) A licensee may be granted a permit to administer sedation or general anesthesia with documentation of training/education and/or competency in the permit category for which the licensee is applying by any one the following:

(a) Initial training/education in the permit category for which the applicant is applying shall be completed no more than two years immediately prior to application for sedation or general anesthesia permit; or

(b) If greater than two years but less than five years since completion of initial training/education, an applicant must document completion of all continuing education that would have been required for that anesthesia/permit category during that five year period following initial training; or

(c) If greater than two years but less than five years since completion of initial training/education, immediately prior to application for sedation or general anesthesia permit, current competency or experience must be documented by completion of a comprehensive review course approved by the Board in the permit category to which the applicant is applying and must consist of at least one-half (50%) of the hours required by rule for

Nitrous Oxide, Minimal Sedation, Moderate Sedation and General Anesthesia Permits. Deep Sedation and General Anesthesia Permits will require at least 120 hours of general anesthesia training.

(d) An applicant for sedation or general anesthesia permit whose completion of initial training/education is greater than five years immediately prior to application, may be granted a sedation or general anesthesia permit by submitting documentation of the requested permit level from another state or jurisdiction where the applicant is also licensed to practice dentistry or dental hygiene, and provides documentation of the completion of at least 25 cases in the requested level of sedation or general anesthesia in the 12 months immediately preceding application; or

(e) Demonstration of current competency to the satisfaction of the Board that the applicant possesses adequate sedation or general anesthesia skill to safely deliver sedation or general anesthesia services to the public.

(4) Persons serving as anesthesia monitors in a dental office shall maintain current certification in Health Care Provider Basic Life Support (BLS)/Cardio Pulmonary Resuscitation (CPR) training, or its equivalent, shall be trained in monitoring patient vital signs, and be competent in the use of monitoring and emergency equipment appropriate for the level of sedation utilized. (The term "competent" as used in these rules means displaying special skill or knowledge derived from training and experience.)

(5) A licensee holding a nitrous or minimal sedation permit, shall at all times maintain a current BLS for Health Care Providers certificate or its equivalent.

(6) A licensee holding an anesthesia permit for moderate sedation, deep sedation or general anesthesia at all times maintains a current BLS for Health Care Providers certificate or its equivalent, and a current Advanced Cardiac Life Support (ACLS) Certificate or Pediatric Advanced Life Support (PALS) Certificate, whichever is appropriate for the patient being sedated. If a licensee permit holder sedates only patients under the age of 12, only PALS is required. If a licensee permit holder sedates only patients age 12 and older, only ACLS is required. If a licensee permit holder sedates patients younger than 12 years of age as well as older than 12 years of age, both ACLS and PALS are required. For licensees with a moderate sedation permit only, successful completion of the American Dental Association's course "Recognition and Management of Complications during Minimal and Moderate Sedation" at least every two years may be substituted for ACLS, but not for PALS.

(a) Advanced Cardiac Life Support (ACLS) and or Pediatric Advanced Life Support (PALS) do not serve as a substitute for Health Care Provider Basic Life Support (BLS).

(7) When a dentist utilizes a single dose oral agent to achieve anxiolysis only, no anesthesia permit is required.

(8) The applicant for an anesthesia permit must pay the appropriate permit fee, submit a completed Board-approved application and consent to an office evaluation.

(9) Permits shall be issued to coincide with the applicant's licensing period.

Classes of Anesthesia Permit

The Board shall issue the following classes of permits:

(1) A Nitrous Oxide Permit authorizes a dental hygienist or a dentist to induce nitrous oxide sedation.

(2) A Minimal Sedation Permit authorizes a dentist to induce minimal sedation and nitrous oxide sedation.

(3) A Moderate Sedation Permit authorizes a dentist to induce moderate sedation, minimal sedation and nitrous oxide sedation.

(4) A Deep Sedation Permit authorizes a dentist to induce deep sedation, moderate sedation, minimal sedation, and nitrous oxide sedation. The Board shall issue a Deep Sedation Permit to a licensee who holds a Class 3 Permit on or before July 1, 2010.

(5) A General Anesthesia Permit authorizes a dentist to induce general anesthesia, deep sedation, moderate sedation, minimal sedation and nitrous oxide sedation.

818-026-0040

Qualifications, Standards Applicable, and Continuing Education Requirements for Anesthesia Permits: Nitrous Oxide Permit

Nitrous Oxide Sedation.

(1) The Board shall issue a Nitrous Oxide Permit to an applicant who:

(a) Is either a licensed dentist or licensed hygienist in the State of Oregon;

(b) Maintains a current BLS for Healthcare Providers certificate or its equivalent; and

(c) Has completed a training course of at least 14 hours of instruction in the use of nitrous oxide from a dental school or dental hygiene program accredited by the Commission on Dental Accreditation of the American Dental Association, or as a postgraduate.

(2) The following facilities, equipment and drugs shall be on site and available for immediate use during the procedure and during recovery:

(a) An operating room large enough to adequately accommodate the patient on an operating table or in an operating chair and to allow delivery of appropriate care in an emergency situation;

(b) An operating table or chair which permits the patient to be positioned so that the patient's airway can be maintained, quickly alter the patient's position in an emergency, and provide a firm platform for the administration of basic life support;

(c) A lighting system which permits evaluation of the patient's skin and mucosal color and a backup lighting system of sufficient intensity to permit completion of any operation underway in the event of a general power failure;

(d) Suction equipment which permits aspiration of the oral and pharyngeal cavities and a backup suction device which will function in the event of a general power failure;

(e) An oxygen delivery system with adequate full face masks and appropriate connectors that is capable of delivering high flow oxygen to the patient under positive pressure, together with an adequate backup system;

(f) A nitrous oxide delivery system with a fail-safe mechanism that will insure appropriate continuous oxygen delivery and a scavenger system; and

(g) Sphygmomanometer and stethoscope and/or automatic blood pressure cuff.

(3) Before inducing nitrous oxide sedation, a permit holder shall:

(a) Evaluate the patient;

(b) Give instruction to the patient or, when appropriate due to age or psychological status of the patient, the patient's guardian;

(c) Certify that the patient is an appropriate candidate for nitrous oxide sedation; and

(d) Obtain informed consent from the patient or patient's guardian for the anesthesia. The obtaining of the informed consent shall be documented in the patient's record.

(4) If a patient chronically takes a medication which can have sedative side effects, including, but not limited to, a narcotic or benzodiazepine, the practitioner shall determine if the additive sedative effect of nitrous oxide would put the patient into a level of sedation deeper than nitrous oxide. If the practitioner determines it is possible that providing nitrous oxide to such a patient would result in minimal sedation, a minimal sedation permit would be required.

(5) A patient under nitrous oxide sedation shall be visually monitored by the permit holder or by an anesthesia monitor at all times. The patient shall be monitored as to response to verbal stimulation, oral mucosal color and preoperative and postoperative vital signs.

(6) The permit holder or anesthesia monitor shall record the patient's condition. The record must include documentation of all medications administered with dosages, time intervals and route of administration.

(7) The person administering the nitrous oxide sedation may leave the immediate area after initiating the administration of nitrous oxide sedation only if a qualified anesthesia monitor is continuously observing the patient.

(8) The permit holder shall assess the patient's responsiveness using preoperative values as normal guidelines and discharge the patient only when the following criteria are met:

(a) The patient is alert and oriented to person, place and time as appropriate to age and preoperative psychological status;

(b) The patient can talk and respond coherently to verbal questioning;

(c) The patient can sit up unaided or without assistance;

(d) The patient can ambulate with minimal assistance; and

(e) The patient does not have nausea, vomiting or dizziness.

(9) The permit holder shall make a discharge entry in the patient's record indicating the patient's condition upon discharge.

(10) Permit renewal. In order to renew a Nitrous Oxide Permit, the permit holder must provide proof of a current BLS for Healthcare Providers certificate or its equivalent. In addition, Nitrous Oxide Permit holders must also complete four (4) hours of continuing education in one or more of the following areas every two years: sedation, nitrous oxide, physical evaluation, medical emergencies, monitoring and the use of monitoring equipment, or pharmacology of drugs and agents used in sedation. Training taken to maintain current BLS for Healthcare Providers certificate or its equivalent, may not be counted toward this requirement. Continuing education hours may be counted toward fulfilling the continuing education requirement set forth in OAR 818-021-0060 and 818-021-0070.

818-026-0050

Minimal Sedation Permit

Minimal sedation and nitrous oxide sedation.

(1) The Board shall issue a Minimal Sedation Permit to an applicant who:

(a) Is a licensed dentist in Oregon;

(b) Maintains a current BLS for Healthcare Providers certificate or its equivalent; and

(c) Completion of a comprehensive training program consisting of at least 16 hours of training and satisfies the requirements of the ADA Guidelines for Teaching Pain Control and Sedation to Dentists and Dental Students (2007) at the time training was commenced or postgraduate instruction was completed, or the equivalent of that required in graduate training programs, in sedation, recognition and management of complications and emergency care; or

(d) In lieu of these requirements, the Board may accept equivalent training or experience in minimal sedation anesthesia.

(2) The following facilities, equipment and drugs shall be on site and available for immediate use during the procedures and during recovery:

(a) An operating room large enough to adequately accommodate the patient on an operating table or in an operating chair and to allow an operating team of at least two individuals to freely move about the patient;

(b) An operating table or chair which permits the patient to be positioned so the operating team can maintain the patient's airway, quickly alter the patient's position in an emergency, and provide a firm platform for the administration of basic life support;

(c) A lighting system which permits evaluation of the patient's skin and mucosal color and a backup lighting system of sufficient intensity to permit completion of any operation underway in the event of a general power failure;

(d) Suction equipment which permits aspiration of the oral and pharyngeal cavities and a backup suction device which will function in the event of a general power failure;

(e) An oxygen delivery system with adequate full facemask and appropriate connectors that is capable of delivering high flow oxygen to the patient under positive pressure, together with an adequate backup system;

(f) A nitrous oxide delivery system with a fail-safe mechanism that will insure appropriate continuous oxygen delivery and a scavenger system;

(g) Sphygmomanometer, stethoscope, pulse oximeter, and/or automatic blood pressure cuff; and

(h) Emergency drugs including, but not limited to: pharmacologic antagonists appropriate to the drugs used, vasopressors, corticosteroids, bronchodilators, antihistamines, antihypertensives and anticonvulsants.

(3) Before inducing minimal sedation, a dentist permit holder who induces minimal sedation shall:

(a) Evaluate the patient;

(b) Give written preoperative and postoperative instructions to the patient or, when appropriate due to age or psychological status of the patient, the patient's guardian;

(c) Certify that the patient is an appropriate candidate for minimal sedation; and

(d) Obtain written informed consent from the patient or patient's guardian for the anesthesia. The obtaining of the informed consent shall be documented in the patient's record.

(4) No permit holder shall have more than one person under minimal sedation at the same time.

(5) While the patient is being treated under minimal sedation, an anesthesia monitor shall be present in the room in addition to the treatment provider. The anesthesia monitor may be the dental assistant. After training, a dental assistant, when directed by a dentist permit holder, may administer oral sedative agents or anxiolysis agents calculated and dispensed by a dentist permit holder under the direct supervision of a dentist permit holder.

(6) A patient under minimal sedation shall be visually monitored at all times, including recovery phase. The dentist permit holder or anesthesia monitor shall monitor and record the patient's condition.

(7) The patient shall be monitored as follows:

(a) Color of mucosa, skin or blood must be evaluated continually. Patients must have continuous monitoring using pulse oximetry. The patient's response to verbal stimuli, blood pressure, heart rate, and respiration shall be monitored and documented if they can reasonably be obtained.

(b) A discharge entry shall be made by the dentist permit holder in the patient's record indicating the patient's condition upon discharge and the name of the responsible party to whom the patient was discharged.

(8) The dentist permit holder shall assess the patient's responsiveness using preoperative values as normal guidelines and discharge the patient only when the following criteria are met:

(a) Vital signs including blood pressure, pulse rate and respiratory rate are stable;

(b) The patient is alert and oriented to person, place and time as appropriate to age and preoperative psychological status;

(c) The patient can talk and respond coherently to verbal questioning;

(d) The patient can sit up unaided;

(e) The patient can ambulate with minimal assistance; and

(f) The patient does not have uncontrollable nausea or vomiting and has minimal dizziness.

(g) A dentist permit holder shall not release a patient who has undergone minimal sedation except to the care of a responsible third party.

(9) Permit renewal. In order to renew a Minimal Sedation Permit, the permit holder must provide

documentation of a current BLS for Healthcare Providers certificate or its equivalent. In addition, Minimal Sedation Permit holders must also complete four (4) hours of continuing education in one or more of the following areas every two years: sedation, physical evaluation, medical emergencies, monitoring and the use of monitoring equipment, or pharmacology of drugs and agents used in sedation. Training taken to maintain current BLS for Healthcare Providers certificate, or its equivalent, may not be counted toward this requirement. Continuing education hours may be counted toward fulfilling the continuing education requirement set forth in OAR 818-021-0060.

Dental Hygiene and Dental Assistant Procedures Performed Under Nitrous Oxide or Minimal Sedation

(1) Under indirect supervision, dental hygiene procedures may be performed for a patient who is under nitrous oxide or minimal sedation under the following conditions:

(a) A licensee holding a Nitrous Oxide, Minimal, Moderate, Deep Sedation or General Anesthesia Permit administers the sedative agents;

(b) The permit holder, or an anesthesia monitor, monitors the patient; or

(c) if a dental hygienist with a nitrous oxide permit administers nitrous oxide sedation to a patient and then performs authorized procedures on the patient, an anesthesia monitor is not required to be present during the time the patient is sedated unless the permit holder leaves the patient.

(d) The permit holder performs the appropriate pre- and post-operative evaluation and discharges the patient in accordance with 818-026-0050(7) and (8).

(2) Under direct supervision, a dental assistant may perform those procedures for which the dental assistant holds the appropriate certification for a patient who is under nitrous oxide or minimal sedation under the following conditions:

(a) A licensee holding the Nitrous Oxide, Minimal, Moderate, Deep Sedation or General Anesthesia Permit administers the sedative agents;

(b) The permit holder, or an anesthesia monitor, monitors the patient; and

(c) The permit holder performs the appropriate pre- and post-operative evaluation and discharges the patient in accordance with 818-026-0050(7) and (8).

818-026-0060

Moderate Sedation Permit

Moderate sedation, minimal sedation, and nitrous oxide sedation.

(1) The Board shall issue or renew a Moderate Sedation Permit to an applicant who:

(a) Is a licensed dentist in Oregon;

(b) In addition to a current BLS for Healthcare Providers certificate or its equivalent, either maintains a current Advanced Cardiac Life Support (ACLS) certificate and/or a Pediatric Advanced Life Support (PALS) certificate, whichever is appropriate for the patient being sedated; and

(c) Satisfies one of the following criteria:

(A) Completion of a comprehensive training program in enteral and/or parenteral sedation that satisfies the requirements described in Part V of the ADA Guidelines for Teaching Pain Control and Sedation to Dentists and Dental Students (2007) at the time training was commenced.

(i) Enteral Moderate Sedation requires a minimum of 24 hours of instruction plus management of at least 10 dental patient experiences by the enteral and/or enteral-nitrous oxide/oxygen route.

(ii) Parenteral Moderate Sedation requires a minimum of 60 hours of instruction plus management of at least 20 dental patients by the intravenous route.

(B) Completion of an ADA accredited postdoctoral training program (e.g., general practice residency) which affords comprehensive and appropriate training necessary to administer and manage parenteral sedation, commensurate with these Guidelines.

(C) In lieu of these requirements, the Board may accept equivalent training or experience in moderate sedation anesthesia.

(2) The following facilities, equipment and drugs shall be on site and available for immediate use during the procedures and during recovery:

(a) An operating room large enough to adequately accommodate the patient on an operating table or in an operating chair and to allow an operating team of at least two individuals to freely move about the patient;

(b) An operating table or chair which permits the patient to be positioned so the operating team can maintain the patient's airway, quickly alter the patient's

position in an emergency, and provide a firm platform for the administration of basic life support;

(c) A lighting system which permits evaluation of the patient's skin and mucosal color and a backup lighting system of sufficient intensity to permit completion of any operation underway in the event of a general power failure;

(d) Suction equipment which permits aspiration of the oral and pharyngeal cavities and a backup suction device which will function in the event of a general power failure;

(e) An oxygen delivery system with adequate full face mask and appropriate connectors that is capable of delivering high flow oxygen to the patient under positive pressure, together with an adequate backup system;

(f) A nitrous oxide delivery system with a fail-safe mechanism that will insure appropriate continuous oxygen delivery and a scavenger system;

(g) A recovery area that has available oxygen, adequate lighting, suction and electrical outlets. The recovery area can be the operating room;

(h) Sphygmomanometer, precordial/pretracheal stethoscope, capnograph, pulse oximeter, oral and nasopharyngeal airways, laryngeal mask airways, intravenous fluid administration equipment, automated external defibrillator (AED); and

(i) Emergency drugs including, but not limited to: pharmacologic antagonists appropriate to the drugs used, vasopressors, corticosteroids, bronchodilators, antihistamines, antihypertensives and anticonvulsants.

(3) No permit holder shall have more than one person under moderate sedation, minimal sedation, or nitrous oxide sedation at the same time.

(4) During the administration of moderate sedation, and at all times while the patient is under moderate sedation, an anesthesia monitor, and one other person holding a current BLS for Healthcare Providers certificate or its equivalent, shall be present in the operator, in addition to the dentist permit holder performing the dental procedures.

(5) Before inducing moderate sedation, a dentist permit holder who induces moderate sedation shall:

(a) Evaluate the patient and document, using the American Society of Anesthesiologists Patient Physical Status Classifications, that the patient is an appropriate candidate for moderate sedation;

(b) Give written preoperative and postoperative instructions to the patient or, when appropriate due to age or psychological status of the patient, the patient's guardian; and

(c) Obtain written informed consent from the patient or patient's guardian for the anesthesia.

(6) A patient under moderate sedation shall be visually monitored at all times, including the recovery phase. The dentist permit holder or anesthesia monitor shall monitor and record the patient's condition.

(7) The patient shall be monitored as follows:

(a) Patients must have continuous monitoring using pulse oximetry, and End-tidal CO₂ monitors. Patients with cardiovascular disease shall have continuous electrocardiograph (ECG) monitoring. The patient's blood pressure, heart rate, and respiration shall be recorded at regular intervals but at least every 15 minutes, and these recordings shall be documented in the patient record. The record must also include documentation of preoperative and postoperative vital signs, all medications administered with dosages, time intervals and route of administration. If this information cannot be obtained, the reasons shall be documented in the patient's record. A patient under moderate sedation shall be continuously monitored and shall not be left alone while under sedation;

(b) During the recovery phase, the patient must be monitored by an individual trained to monitor patients recovering from moderate sedation.

(8) A dentist permit holder shall not release a patient who has undergone moderate sedation except to the care of a responsible third party.

(a) When a reversal agent is administered, the dentist permit holder shall document justification for its use and how the recovery plan was altered.

(9) The dentist permit holder shall assess the patient's responsiveness using preoperative values as normal guidelines and discharge the patient only when the following criteria are met:

(a) Vital signs including blood pressure, pulse rate and respiratory rate are stable;

(b) The patient is alert and oriented to person, place and time as appropriate to age and preoperative psychological status;

(c) The patient can talk and respond coherently to verbal questioning;

(d) The patient can sit up unaided;

(e) The patient can ambulate with minimal assistance; and

(f) The patient does not have uncontrollable nausea or vomiting and has minimal dizziness.

(10) A discharge entry shall be made by the dentist permit holder in the patient's record indicating the patient's condition upon discharge and the name of the responsible party to whom the patient was discharged.

(11) After adequate training, an assistant, when directed by a dentist permit holder, may dispense oral medications that have been prepared by the dentist permit holder for oral administration to a patient under direct supervision. Pursuant to OAR 818-042-0115 a Certified Anesthesia Dental Assistant, when directed by a dentist permit holder, may introduce additional anesthetic agents into an infusion line under the direct supervision of a dentist permit holder.

(12) Permit renewal. In order to renew a Moderate Sedation Permit, the permit holder must provide

documentation of a current BLS for Healthcare Providers certificate or its equivalent; a current Advanced Cardiac Life Support (ACLS) certificate and/or a current Pediatric Advanced Life Support (PALS) certificate; Successful completion of a board approved course on minimal/moderate sedation at least every two years may be substituted for ACLS, but not for PALS; and must complete 14 hours of continuing education in one or more of the following areas every two years: sedation, physical evaluation, medical emergencies, monitoring and the use of monitoring equipment, or pharmacology of drugs and agents used in sedation. Training taken to maintain current ACLS or PALS certification or successful completion of the American Dental Association's course "Recognition and Management of Complications during Minimal and Moderate Sedation" may be counted toward this requirement. Continuing education hours may be counted toward fulfilling the continuing education requirement set forth in OAR 818-021- 0060.

818-026-0065

Deep Sedation

Deep sedation, moderate sedation, minimal sedation, and nitrous oxide sedation.

(1) The Board shall issue a Deep Sedation Permit to a licensee who holds a Class 3 Permit on or before July 1, 2010 who:

(a) Is a licensed dentist in Oregon; and

(b) In addition to a current BLS for Healthcare Providers certificate or its equivalent, maintains a current Advanced Cardiac Life Support (ACLS) certificate and/or a Pediatric Advanced Life Support (PALS) certificate, whichever is appropriate for the patient being sedated.

(2) The following facilities, equipment and drugs shall be on site and available for immediate use during the procedures and during recovery:

(a) An operating room large enough to adequately accommodate the patient on an operating table or in an operating chair and to allow an operating team of at least two individuals to freely move about the patient;

(b) An operating table or chair which permits the patient to be positioned so the operating team can maintain the patient's airway, quickly alter the patient's position in an emergency, and provide a firm platform for the administration of basic life support;

(c) A lighting system which permits evaluation of the patient's skin and mucosal color and a backup lighting system of sufficient intensity to permit completion of any operation underway in the event of a general power failure;

(d) Suction equipment which permits aspiration of the oral and pharyngeal cavities and a backup suction device which will function in the event of a general power failure;

(e) An oxygen delivery system with adequate full face mask and appropriate connectors that is capable of delivering high flow oxygen to the patient under positive pressure, together with an adequate backup system;

(f) A nitrous oxide delivery system with a fail-safe mechanism that will insure appropriate continuous oxygen delivery and a scavenger system;

(g) A recovery area that has available oxygen, adequate lighting, suction and electrical outlets. The recovery area can be the operating room;

(h) Sphygmomanometer, precordial/pretracheal stethoscope, capnograph, pulse oximeter, electrocardiograph monitor (ECG), automated external defibrillator (AED), oral and nasopharyngeal airways, laryngeal mask airways, intravenous fluid administration equipment; and

(i) Emergency drugs including, but not limited to: pharmacologic antagonists appropriate to the drugs used, vasopressors, corticosteroids, bronchodilators, antihistamines, antihypertensives and anticonvulsants.

(3) No permit holder shall have more than one person under deep sedation, moderate sedation, minimal sedation, or nitrous oxide sedation at the same time.

(4) During the administration of deep sedation, and at all times while the patient is under deep sedation, an anesthesia monitor, and one other person holding a current BLS for Healthcare Providers certificate or its equivalent, shall be present in the operatory, in addition to the dentist permit holder performing the dental procedures.

(5) Before inducing deep sedation, a dentist permit holder who induces deep sedation shall:

(a) Evaluate the patient and document, using the American Society of Anesthesiologists Patient Physical Status Classifications, that the patient is an appropriate candidate for deep sedation;

(b) Give written preoperative and postoperative instructions to the patient or, when appropriate due to age

or psychological status of the patient, the patient's guardian; and

(c) Obtain written informed consent from the patient or patient's guardian for the anesthesia.

(6) A patient under deep sedation shall be visually monitored at all times, including the recovery phase. The dentist permit holder or anesthesia monitor shall monitor and record the patient's condition.

(7) The patient shall be monitored as follows:

(a) Patients must have continuous monitoring using pulse oximetry, electrocardiograph monitors (ECG) and End-tidal CO₂ monitors. The patient's heart rhythm shall be continuously monitored and the patient's blood pressure, heart rate, and respiration shall be recorded at regular intervals but at least every 5 minutes, and these recordings shall be documented in the patient record. The record must also include documentation of preoperative and postoperative vital signs, all medications administered with dosages, time intervals and route of administration. If this information cannot be obtained, the reasons shall be documented in the patient's record. A patient under deep sedation shall be continuously monitored;

(b) Once sedated, a patient shall remain in the operatory for the duration of treatment until criteria for transportation to recovery have been met.

(c) During the recovery phase, the patient must be monitored by an individual trained to monitor patients recovering from deep sedation.

(8) A dentist permit holder shall not release a patient who has undergone deep sedation except to the care of a responsible third party. When a reversal agent is administered, the dentist permit holder shall document justification for its use and how the recovery plan was altered.

(9) The dentist permit holder shall assess the patient's responsiveness using preoperative values as normal guidelines and discharge the patient only when the following criteria are met:

(a) Vital signs including blood pressure, pulse rate and respiratory rate are stable;

(b) The patient is alert and oriented to person, place and time as appropriate to age and preoperative psychological status;

(c) The patient can talk and respond coherently to verbal questioning;

(d) The patient can sit up unaided;

(e) The patient can ambulate with minimal assistance; and

(f) The patient does not have uncontrollable nausea or vomiting and has minimal dizziness.

(10) A discharge entry shall be made by the dentist permit holder in the patient's record indicating the patient's condition upon discharge and the name of the responsible party to whom the patient was discharged.

(11) Pursuant to OAR 818-042-0115 a Certified Anesthesia Dental Assistant, when directed by a dentist permit holder, may administer oral sedative agents calculated by a dentist permit holder or introduce additional anesthetic agents into an infusion line under the direct visual supervision of a dentist

(12) Permit renewal. In order to renew a Deep Sedation Permit, the permit holder must provide documentation of a current BLS for Healthcare Providers certificate or its equivalent; a current Advanced Cardiac Life Support (ACLS) certificate and/or a current Pediatric Advanced Life Support (PALS) certificate; and must complete 14 hours of continuing education in one or more of the following areas every two years: sedation, physical evaluation, medical emergencies, monitoring and the use of monitoring equipment, or pharmacology of drugs and agents used in sedation. Training taken to maintain current ACLS and/or PALS certificates may be counted toward this requirement. Continuing education hours may be counted toward fulfilling the continuing education requirement set forth in OAR 818-021-0060.

818-026-0070

General Anesthesia Permit

General anesthesia, deep sedation, moderate sedation, minimal sedation and nitrous oxide sedation.

(1) The Board shall issue a General Anesthesia Permit to an applicant who:

(a) Is a licensed dentist in Oregon;

(b) In addition to a current BLS for Healthcare Providers certificate or its equivalent, maintains a current Advanced Cardiac Life Support (ACLS) certificate and/or a Pediatric Advanced Life Support (PALS) certificate, whichever is appropriate for the patient being sedated, and

(c) Satisfies one of the following criteria:

(A) Completion of an advanced training program in anesthesia and related subjects beyond the undergraduate dental curriculum that satisfies the requirements described in the ADA Guidelines for Teaching Pain Control and Sedation to Dentists and Dental Students (2007) consisting of a minimum of 2 years of a postgraduate anesthesia residency at the time training was commenced.

(B) Completion of any ADA accredited postdoctoral training program, including but not limited to Oral and Maxillofacial Surgery, which affords comprehensive and appropriate training necessary to administer and manage general anesthesia, commensurate with these Guidelines.

(C) In lieu of these requirements, the Board may accept equivalent training or experience in general anesthesia.

(2) The following facilities, equipment and drugs shall be on site and available for immediate use during the procedure and during recovery:

(a) An operating room large enough to adequately accommodate the patient on an operating table or in an operating chair and to allow an operating team of at least three individuals to freely move about the patient;

(b) An operating table or chair which permits the patient to be positioned so the operating team can maintain the patient's airway, quickly alter the patient's position in an emergency, and provide a firm platform for the administration of basic life support;

(c) A lighting system which permits evaluation of the patient's skin and mucosal color and a backup lighting system of sufficient intensity to permit completion of any operation underway in the event of a general power failure;

(d) Suction equipment which permits aspiration of the oral and pharyngeal cavities and a backup suction device which will function in the event of a general power failure;

(e) An oxygen delivery system with adequate full face mask and appropriate connectors that is capable of delivering high flow oxygen to the patient under positive pressure, together with an adequate backup system;

(f) A nitrous oxide delivery system with a fail-safe mechanism that will insure appropriate continuous oxygen delivery and a scavenger system;

(g) A recovery area that has available oxygen, adequate lighting, suction and electrical outlets. The recovery area can be the operating room;

(h) Sphygmomanometer, precordial/pretracheal stethoscope, capnograph, pulse oximeter, electrocardiograph monitor (ECG), automated external defibrillator (AED), oral and nasopharyngeal airways, laryngeal mask airways, intravenous fluid administration equipment; and

(i) Emergency drugs including, but not limited to: pharmacologic antagonists appropriate to the drugs used, vasopressors, corticosteroids, bronchodilators, intravenous medications for treatment of cardiac arrest, narcotic antagonist, antihistaminic, antiarrhythmics, antihypertensives and anticonvulsants.

(3) No permit holder shall have more than one person under general anesthesia, deep sedation, moderate sedation, minimal sedation or nitrous oxide sedation at the same time.

(4) During the administration of deep sedation or general anesthesia, and at all times while the patient is under deep sedation or general anesthesia, an anesthesia monitor, and one other person holding a current BLS for Healthcare Providers certificate or its equivalent, shall be present in the operatory in addition to the dentist permit holder performing the dental procedures.

(5) Before inducing deep sedation or general anesthesia the dentist permit holder who induces deep sedation or general anesthesia shall:

(a) Evaluate the patient and document, using the American Society of Anesthesiologists Patient Physical Status Classifications, that the patient is an appropriate candidate for general anesthesia or deep sedation;

(b) Give written preoperative and postoperative instructions to the patient or, when appropriate due to age or psychological status of the patient, the patient's guardian; and

(c) Obtain written informed consent from the patient or patient's guardian for the anesthesia.

(6) A patient under deep sedation or general anesthesia shall be visually monitored at all times, including recovery phase. A dentist permit holder who induces deep sedation or general anesthesia or anesthesia monitor trained in monitoring patients under deep sedation or general anesthesia shall monitor and record the patient's condition on a contemporaneous record.

(7) The patient shall be monitored as follows:

(a) Patients must have continuous monitoring of their heart rate, heart rhythm, oxygen saturation levels and respiration using pulse oximetry, electrocardiograph monitors (ECG) and End-tidal CO₂ monitors. The patient's blood pressure, heart rate and oxygen saturation shall be assessed every five minutes, and shall be contemporaneously documented in the patient record. The record must also include documentation of preoperative and postoperative vital signs, all medications administered with dosages, time intervals and route of administration. The person administering the anesthesia and the person monitoring the patient may not leave the patient while the patient is under deep sedation or general anesthesia;

(b) Once sedated, a patient shall remain in the operatory for the duration of treatment until criteria for transportation to recovery have been met.

(c) During the recovery phase, the patient must be monitored, including the use of pulse oximetry, by an individual trained to monitor patients recovering from general anesthesia.

(8) A dentist permit holder shall not release a patient who has undergone deep sedation or general anesthesia except to the care of a responsible third party. When a reversal agent is administered, the dentist permit holder shall document justification for its use and how the recovery plan was altered.

(9) The dentist permit holder shall assess the patient's responsiveness using preoperative values as normal guidelines and discharge the patient only when the following criteria are met:

(a) Vital signs including blood pressure, pulse rate and respiratory rate are stable;

(b) The patient is alert and oriented to person, place and time as appropriate to age and preoperative psychological status;

(c) The patient can talk and respond coherently to verbal questioning;

(d) The patient can sit up unaided;

(e) The patient can ambulate with minimal assistance; and

(f) The patient does not have nausea or vomiting and has minimal dizziness.

(10) A discharge entry shall be made in the patient's record by the dentist permit holder indicating the patient's condition upon discharge and the name of the responsible party to whom the patient was discharged.

(11) Pursuant to OAR 818-042-0115 a Certified Anesthesia Dental Assistant, when directed by a dentist permit holder, may introduce additional anesthetic agents to an infusion line under the direct visual supervision of a dentist permit holder.

(12) Permit renewal. In order to renew a General Anesthesia Permit, the permit holder must provide documentation of a current BLS for Healthcare Providers certificate or its equivalent; a current Advanced Cardiac Life Support (ACLS) certificate and/or a current Pediatric Advanced Life Support (PALS) certificate; and must complete 14 hours of continuing education in one or more of the following areas every two years: sedation, physical evaluation, medical emergencies, monitoring and the use of monitoring equipment, or pharmacology of drugs and agents used in sedation. Training taken to maintain current ACLS and/or PALS certificates may be counted toward this requirement. Continuing education hours may be counted toward fulfilling the continuing education requirement set forth in OAR 818-021-0060.

Standards Applicable When a Dentist Performs Dental Procedures and a Qualified Provider Induces Anesthesia

(1) A dentist who does not hold an anesthesia permit may perform dental procedures on a patient who receives anesthesia induced by a physician anesthesiologist licensed by the Oregon Board of Medical Examiners, another Oregon licensed dentist holding an appropriate anesthesia permit, or a Certified Registered Nurse Anesthetist (CRNA) licensed by the Oregon Board of Nursing.

(2) A dentist who does not hold a Nitrous Oxide Permit for nitrous oxide sedation may perform dental procedures on a patient who receives nitrous oxide induced by an Oregon licensed dental hygienist holding a Nitrous Oxide Permit.

(3) A dentist who performs dental procedures on a patient who receives anesthesia induced by a physician anesthesiologist, another dentist holding an anesthesia permit, a CRNA, or a dental hygienist who induces nitrous oxide sedation, shall maintain a current BLS for Healthcare Providers certificate, or its equivalent, and have the same personnel, facilities, equipment and drugs available during the procedure and during recovery as required of a dentist who has a permit for the level of anesthesia being provided.

(4) A dentist, a dental hygienist or an Expanded Function Dental Assistant (EFDA) who performs procedures on a patient who is receiving anesthesia induced by a physician anesthesiologist, another dentist holding an anesthesia permit or a CRNA shall not schedule or treat patients for non emergent care during the period of time of the sedation procedure.

(5) Once anesthetized, a patient shall remain in the operatory for the duration of treatment until criteria for transportation to recovery have been met.

(6) The qualified anesthesia provider who induces moderate sedation, deep sedation or general anesthesia shall monitor the patient's condition until the patient is discharged and record the patient's condition at discharge in the patient's dental record as required by the rules applicable to the level of anesthesia being induced. The anesthesia record shall be maintained in the patient's dental record and is the responsibility of the dentist who is performing the dental procedures.

(7) A dentist who intends to use the services of a qualified anesthesia provider as described in section 1 above, shall notify the Board in writing of his/her intent. Such notification need only be submitted once every licensing period.

818-026-0110

Office Evaluations

(1) By obtaining an anesthesia permit or by using the services of a physician anesthesiologist, CRNA, an Oregon licensed dental hygienist permit holder or another dentist permit holder to administer anesthesia, a licensee consents to in-office evaluations by the Oregon Board of Dentistry, to assess competence in central nervous system anesthesia and to determine compliance with rules of the Board.

(2) The in-office evaluation may include, but is not limited to:

(a) Observation of one or more cases of anesthesia to determine the appropriateness of technique and adequacy of patient evaluation and care;

(b) Inspection of facilities, equipment, drugs and records; and

(c) Confirmation that personnel are adequately trained, hold a current BLS for Healthcare Providers certificate, or its equivalent, and are competent to respond to reasonable emergencies that may occur during the administration of anesthesia or during the recovery period.

(3) The evaluation shall be performed by a team appointed by the Board and shall include:

(a) A permit holder who has the same type of license as the licensee to be evaluated and who holds a current anesthesia permit in the same class or in a higher class than that held by the licensee being evaluated.

(b) A member of the Board's Anesthesia Committee; and

(c) Any licensed dentist, deemed appropriate by the Board President, may serve as team leader and shall be responsible for organizing and conducting the evaluation and reporting to the Board.

(4) The Board shall give written notice of its intent to conduct an office evaluation to the licensee to be evaluated. Licensee shall cooperate with the evaluation team leader in scheduling the evaluation which shall be held no sooner than 30 days after the date of the notice or later than 90 days after the date of the notice.

Reporting of Death, Serious Complications or Injury

If a death, any serious complication or any injury occurs which may have resulted from the administration of any central nervous system anesthesia or sedation, the licensee performing the dental procedure must submit a written detailed report to the Board within five days of the incident along with the patient's original complete dental records. If the anesthetic agent was administered by a person other than the person performing the dental procedure, that person must also submit a detailed written report. The detailed report(s) must include:

- (1) Name, age and address of patient;
- (2) Name of the licensee and other persons present during the incident;
- (3) Address where the incident took place;
- (4) Type of anesthesia and dosages of drugs administered to the patient;
- (5) A narrative description of the incident including approximate times and evolution of symptoms; and
- (6) The anesthesia record and the signed informed consent form for the anesthesia when required.

Anesthesia Committee

(1) The Board hereby creates a committee to be known as the Anesthesia Committee. The chairperson shall be a dentist who is a member of the Board. All other members shall hold a Moderate, Deep Sedation or General Anesthesia Sedation Permit. At least one member, other than the chairperson, shall be a practicing specialist who holds a General Anesthesia Permit. Members serve at the pleasure of the Board and shall be appointed by the President of the Board. The Board President shall insure that the committee includes representatives of dental specialty groups including general dentists.

(2) The Anesthesia Committee shall, upon request of the Board, advise the Board on policies and procedures related to the regulation of general anesthesia, deep sedation, moderate sedation, minimal sedation and nitrous oxide sedation.

INFORMATION REQUESTED

The 2001 Legislature passed Senate Bill 786 (ORS 676.400), which requires that health professional regulatory boards maintain information regarding racial, ethnic and bilingual status of licensees and applicants and report to the data to the Legislature.

This law was the result of a study performed by the Governor’s Racial and Ethnic Health Task Force, which determined that access to health care by racial and ethnic minorities is inadequate to address the chronic health issues these communities face. People of color and people with native languages other than English experience extreme difficulty accessing health services. Culturally competent health care providers are critical in providing appropriate health care and the collection of the information requested below will assist decision makers in developing programs to address the disparity in access to health care experienced by various communities.

See the reverse of this page for racial and ethnic definitions from the State of Oregon employment documents and the US Census Bureau.

Provision of this information is voluntary. If you choose not to provide the information, it will have no effect on the acceptance or processing of your application or renewal.

Please print information

The following definitions are from the U. S. Census Bureau and Oregon Employment Documents.

Race - The concept of race as used by the Census Bureau reflects self-identification by people according to the race or races with which they most closely identify. These categories are sociopolitical constructs and should not be interpreted as being scientific or anthropological in nature. Furthermore, the race categories include both racial and national-origin groups.

White/Caucasian - A person having origins in any of the original peoples of Europe, the Middle East, or North Africa. It includes people who indicate their race as "White" or report entries such as *Irish, German, Italian, Lebanese, Near Easterner, Arab, or Polish*.

Black/African American - A person having origins in any of the black racial groups of Africa. It includes people who indicate their race as "Black, African Am., or Negro," or provide written entries such as *African American, Afro American, Kenyan, Nigerian, or Haitian*

Asian - A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam. It includes "Asian Indian," "Chinese," "Filipino," "Korean," "Japanese," "Vietnamese," and "Other Asian."

Asian Indian - Includes people who indicate their race as "Asian Indian" or identify themselves as Bengalese, Bhara, Dravidian, East Indian, or Goanese.

Chinese - Includes people who indicate their race as "Chinese" or who identify themselves as Cantonese, or Chinese American. Written entries of Taiwanese are included with Chinese.

Filipino - Includes people who indicate their race as "Filipino" or who report entries such as Philipino, Philippine, or Filipino American.

Japanese - Includes people who indicate their race as "Japanese" or who report entries such as Nipponese or Japanese American.

Korean - Includes people who indicate their race as "Korean" or who provide a response of Korean American.

Vietnamese - Includes people who indicate their race as "Vietnamese" or who respond Vietnamese American.

Cambodian - Includes people who provide a response such as Cambodian or Cambodia.

Hmong - Includes people who provide a response such as Hmong, Laohmong, or Mong.

Laotian - Includes people who provide a response such as Laotian, Laos, or Lao.

Thai - Includes people who provide a response such as Thai, Thailand, or Siamese.

Other Asian - Includes people who provide a response of Bangladeshi, Burmese, Indonesian, Pakistani, or Sri Lankan.

Hispanic/Latino - A person having origins in any of the *Mexican, Puerto Rican, Cuban, Central or South American*, or other Spanish cultures, regardless of ethnicity.

Native American Indian and Alaska Native - A person having origins in any of the original peoples of North and South America (including Central America), and who maintain tribal affiliation or community attachment. It includes people who classify themselves as described below.

American Indian - Includes people who indicate their race as "American Indian," entered the name of an Indian tribe, or report such entries as Canadian Indian, French-American Indian, or Spanish-American Indian.

Alaska Native - Includes of Eskimos, Aleuts, and Alaska Indians as well as entries such as Arctic Slope, Inupiat, Yupik, Alutiiq, Egegik, and Pribilovian. The Alaska tribes are the Alaskan Athabaskan, Tlingit, and Haida.

Native Hawaiian and Other Pacific Islander -A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands. It includes people who indicate their race as "Native Hawaiian," "Guamanian or Chamorro," "Samoan," and "Other Pacific Islander."

Native Hawaiian - Includes people who indicate their race as "Native Hawaiian" or who identify themselves as "Part Hawaiian" or "Hawaiian."

Guamanian or Chamorro - Includes people who indicate their race as such, including Chamorro or Guam.

Samoan - Includes people who indicate their race as "Samoan" or who identified themselves as American Samoan or Western Samoan.

Other Pacific Islander - Includes people who provided a response of a Pacific Islander group such as Tahitian, Northern Mariana Islander, Palauan, Fijian, or a cultural group such as Melanesian, Micronesian, or Polynesian.

Some Other Race - Includes all other responses not included in the "White," "Black or African American," "American Indian and Alaska Native," "Asian," "Hispanic" and the "Native Hawaiian and Other Pacific Islander" race categories described above.

CODE: **Race – Bold, underlined, italic print. (White, Black/African American, Asian, Hispania, etc.)**
Ethicity – Italic print under the Race headings. (English, Dutch, Irish, Norwegian, Russian, etc)

PRIVACY ACT NOTIFICATION

As part of your application for an initial professional license, you are required to provide your Social Security Number to the Oregon Board of Dentistry (OBD). This is a mandatory requirement under Oregon Laws 1997, Chapter 746, section 117 (ORS 25.785) and under Federal Law USC section 666(a)(13)(a).

Failure to provide your Social Security Number will be a basis to refuse to issue your license.

The OBD will maintain a record of your Social Security Number in your licensing file.

The OBD is required to report your Social Security Number to the following entities:

- Division of Child Support – ORS 25.750 –25.785
- Oregon Department of Revenue – ORS 305.380 – 305.385
- United States Health Care Integrity Protection Data Bank (HIPDB) – 45 CFR, Part 61, established under Section 1128E of the Social Security Act.
- National Practitioners Data Bank (NPDB) – Section (5) Medicare and Medicaid Patient and Program Protection Act of 1987.
