**Please answer all questions. An incomplete application will not be processed.
If the information requested is not applicable, please indicate as such.**

A. REFERENCE INFORMATION:

1. Enter the legal name of the applicant. This must be the **legal** Oregon name (i.e., Acme Products, Inc.) or the **legal** representative of the company if it operates under an assumed business name (i.e., John Smith, dba Acme Products). The name must be a legal, active name registered with the Oregon Department of Commerce, Corporation Division (503) 378-4752, unless otherwise exempted by their regulations. The permit will be issued to the legal name of the applicant.

If the legal name of the applicant has changed since the previous permit was issued or the permit needs to be transferred to a new owner, a *Name Change/Transfer of Ownership* form must also be submitted with this application. This form is available by contacting a DEQ regional office listed below or on DEQ's website, located at <http://www.deq.state.or.us/wq/wqpermit/docs/forms/pmttfrappl.pdf>.

2. Enter the common name of the facility or operation if different than the legal name.
3. Enter the DEQ file number (this number may be found on the first page of your permit).
4. Indicate if the applicant is the owner of the facility.
5. Indicate County of facility.
6. Enter the physical location of the facility (not mailing address), including city, state, and zip code.
7. Provide the primary Standard Industrial Classification (SIC) code that best describes the primary industrial activities performed by your facility under which you are required to obtain permit coverage. Your primary industrial activity includes any activities performed on-site which are (1) identified by the facility's one SIC code for which the facility is primarily engaged; and (2) included in the narrative descriptions of 40 CFR 122.26(b)(14)(i), (iv), (v), or (vii), and (ix). See *Table 1: Sources Covered* on page 3 of the permit for a complete list of SIC codes and industrial activities.
8. If your site has secondary industrial activities (i.e., co-located activities) that are not identified as your primary industrial activity, provide the SIC code(s) that describe these other industrial activities. You are only required to provide SIC code(s) for industrial activities on site that are listed in *Table 1: Sources Covered* on page 3 of the permit.
9. Enter the name, telephone number, and mailing address of the Legal Contact. The Legal Contact is the person that receives official correspondence from DEQ, such as renewal notices or notices of noncompliance, and may be contacted if there are questions about this application.
10. Enter the name, telephone number and mailing address of the Facility Contact if different from the Legal Contact. The Facility Contact is the person located at the facility that has specific knowledge of the facility or operation under permit (e.g., the treatment plant operator), and may be contacted if there are specific questions about this application.
11. Enter invoicing information for billing purposes if different from the Legal Contact (e.g., "Invoice To: Business Office - Accounts Payable").

B. STORM WATER DISCHARGE INFORMATION:

12. Indicate the name(s) of the receiving water(s) that industrial stormwater from your facility will discharge to. Your receiving water may be a lake, stream, river, wetland or other waterbody, and may or may not be located adjacent to your facility. Your stormwater may discharge directly to the receiving water or indirectly via a storm sewer system, an open drain or ditch, or other conveyance structure. Do NOT list a man-made conveyance, such as a storm sewer system, as your receiving water. Indicate the **first natural receiving water** your stormwater discharge enters. For example, if your discharge enters a storm sewer system, that empties into Trout Creek, which flows into Pine River, your receiving water is Trout Creek, because it is the first natural waterbody your discharge will reach. Similarly, a discharge into a ditch that feeds Spring Creek should be identified as "Spring Creek" since the ditch is a manmade conveyance. If you discharge into a municipal separate storm sewer system (MS4), you must identify the waterbody into which that portion of the storm sewer discharges. That information should be readily available from the operator of the MS4.

C. SIGNATURE OF LEGALLY AUTHORIZED REPRESENTATIVE:

The signature of a legally authorized representative must be provided in order to process this application.

Definition of Legally Authorized Representative:
See 40 CFR 122.22 for more detail. Also, please also provide the information requested in <i>[brackets]</i>
