

2.0 - Table of Contents

1.0 Initial Response Guide		
Sec.	Topic	Page
1.1	Initial Response Checklist	2
1.2	Initial Incident Information Checklist	3
1.3	Initial Incident Site Hazard Analysis Checklist	5
1.4	Initial Contact List: Emergency Notification and Response Services	6
1.5	Initial Contact List: Qualified Individuals and Internal Notification	7
1.6	Initial Contact List: Arc Terminals Portland Response Team	8
1.7	Initial Contact List: Arc Terminals Away Response Team	10
1.8	Local Emergency Resources and Contacts	10
1.9	Additional Resource Contact List: Supplies	12
1.10	Additional Resource Contact List: Services	13
1.11	Additional Resource Contact List: Wildlife Care	15
1.12	Evacuation Plan	16
1.12.1	Evacuation Routes	17
1.13	Initial Response Efforts	19
1.13.1	Petroleum Liquids	19
1.13.2	Land Spills	20

2.0 - Table of Contents

3.0 Introduction		
Sec.	Topic	Page
3.1	Purpose and Scope	2
3.1.1	First Response Responsibilities	2
3.1.2	FRP Documentation	3
3.1.3	Cover Sheet	4
3.1.4	Submittal Agreement	5
3.1.5	Delegation of Authority Letters	6
3.1.6	MOA cover sheet	9
3.2	Company Commitment, Limitations, and Use of Plan	10
3.3	Plan Cross Reference Based on 33 CFR 154.1030(b)	10
3.4	Plan Cross Reference Based on 40 CFR 112.20 Appendix F	11
3.5	Plan Cross Reference Based on OAR 340-141-0140	12
3.6	Plan Cross Reference Based on OAR 340-141-0160	14
3.7	Facility Information	15
3.7.1	Geographic Area Covered by Plan	15
3.7.2	Facility Description	18
3.7.3	Site History	19
3.7.4	Dates and Types of Substantial Expansion	19
3.8	Facility Response Plan Revisions	19

3.8.1	FRP Revision Sources	20
3.8.2	Spill Response Plan Preparation References	20
3.9	Facility Response Plan Revision Log	21

4.0 Spill Response		
Sec.	Topic	Page
4.1	Initial Response Actions	2
4.2	Initial Response Efforts	2
4.2.1	Petroleum Liquids	3
4.2.2	Land Spills	4
4.2.3	Response to an Average Most Probable Spill	4
4.3	Shut Down Procedures	5
4.4	Procedures to Control Spills Due to Failures	6
4.4.1	Marine Hose Failure	6
4.4.2	Tank Overfill/Failure	6
4.4.3	Piping Leak or Rupture	6
4.4.4	Explosion and Fire	7
4.4.5	Equipment Failure (Pumping System/Relief Valve)	7
4.5	Support Facilities	8
4.5.1	Medical Facilities	8
4.5.2	First Aid Equipment	9
4.5.3	Contacting Emergency Medical Services	9
4.6	Command Post	10
4.6.1	On-site Staging Areas	10
4.7	Manpower, Scheduling, and Transportation	10
4.8	Sensitive Areas Protection and Cleanup	11
4.8.1	General Spill Containment and Shoreline Protection	11
4.8.2	Lower Columbia River Geographic Response Plan	11
4.9	Assessment of Incident	13
4.9.1	Spill Response Oil Classification	15
4.9.2	Field Identification of Oil Types	16
4.9.3	Spill Size and Movement	17

5.0 Response Teams		
Sec.	Topic	Page
5.1	Qualified Individuals	3
5.2	Response Team Organization	3
5.2.1	ICS Organization Assignments	4
5.2.1.1	Command Staff	4
5.2.1.2	Operations Section	8
5.2.1.3	Planning Section	17
5.2.1.4	Logistics Section	25

5.2.1.5	Finance Section	32
5.2.2	Unified Command Structure	36
5.2.3	On-site Response Team (ORT) and Emergency Spill Response Team (ESRT)	37
5.2.4	Arc Terminals Corporate Support (Response Teams)	37
5.2.4.1	Regional Spill Response Team	37
5.2.4.2	Advisory and Resource Team	38
5.2.4.3	Additional Support Teams	38
5.2.5	Response Contractors	38
5.3	Response Team Personnel	38
5.4	Government Agencies	40
5.4.1	Local Support Agencies	40
5.4.2	Cleanup Support	40
5.4.2.1	U.S. Navy Supervisor of Salvage	40
5.4.2.2	U.S. Coast Guard Strike Teams	40
5.5	Contractors and Commercial Suppliers	40
5.5.1	Marine Contractors and Equipment	40
5.5.2	Shoreline and Terrestrial Cleanup Contractors	41
5.6	Volunteers	41
5.6.1	Legal Considerations	41
5.6.2	Volunteer Coordinator Tasks	42

6.0 Response Planning

Sec.	Topic	Page
6.1	Planning Volumes	2
6.1.1	Probable Discharge Volumes	2
6.1.2	Probable Discharge Travel Distances	3
6.2	Recovery Capacity	3
6.2.1	Effective Daily Recovery Capacity (EDRC)	3
6.2.2	Oil Storage	3
6.3	Response Times	4
6.4	Response Capability Planning Standard	4
6.5	Planning Volume Calculations	5

Appendix A Training and Drills

Sec.	Topic	Page
1.1	Training and Drills General Information	2
1.2	Training Requirements	2
1.2.1	HAZWOPER Training Requirements	3
1.2.2	Spill Response Team Training Requirements	3
1.2.3	Facility Personnel	5
1.2.4	Skilled Support Personnel and Specialist Employees	6

1.2.5	Contract Laborers and Supervisors	6
1.2.6	Volunteers and Visitors	6
1.2.7	Trainers	7
1.3	Facility Response Plan Training Sessions	7
1.3.1	Training Certification and Documentation	7
1.3.2	Classroom Instruction	8
1.4	Facility Response Plan Drills	8
1.4.1	Qualified Individual Notification Exercise	10
1.4.2	Spill Management Team Tabletop Exercise	11
1.4.3	Facility Equipment Deployment	12
1.4.4	PRC Equipment Deployment	13
1.4.5	Government Initiated Unannounced Exercises	14
1.5	Drill Documentation	14
1.6	Drill and Training Logs	16

Appendix B Spill Scenarios		
Sec.	Topic	Page
1.1	General	2
1.2	Small Spill Scenario	2
1.3	Medium Spill Scenario	5
1.4	Worst Case Discharge Spill Scenario	10

Appendix C Hazard Evaluation		
Sec.	Topic	Page
1.1	Hazard Evaluation	2
1.2	Hazard Identification	2
1.2.1	Operations with Risk of Releases	2
1.2.2	Storage Tank Hazard Identification	2
1.2.3	Storage Tank List	10
1.2.4	Release to the Storm Water System	14
1.3	Vulnerability Analysis	19
1.3.1	Residential Areas	19
1.3.2	Wetlands or Other Sensitive Environments	19
1.3.3	Fish & Wildlife	19
1.3.4	Recreational Areas	20
1.3.5	Transportation Routes	20
1.3.6	Wellheads and Drinking Water	20
1.4	Reportable Spill History	20
1.5	Excerpt from the Lower Columbia River GRP	22
1.6	Material Safety Data Sheets	22

Appendix D Response Strategies		
Sec.	Topic	Page

1.1	Response Strategies	2
1.2	Containment and Protection	5
1.3	Shoreline Cleanup Method Selection	6
1.3.1	Potential Impacts Associated with Cleanup Techniques	7
1.3.2	Natural Recovery	12
1.3.4	Soils	13
1.3.5	Groundwater	13
1.3.6	Shoreline Cleanup Advisory Team (SCAT)	14
1.4	In-situ Burning and Chemical Dispersants	15
1.5	Environmental Conditions to Consider During Response	15
1.5.1	Currents and Tides	16
1.5.2	Winds	17
1.5.3	Climate	17
1.5.4	Geography	17
1.6	Movement Prediction of Oil Spills	17
1.6.1	Movement over Land	17
1.6.2	Movement in a River	18
1.6.3	Computer Models	18
1.7	Spill Surveillance	18
1.7.1	Aerial Surveillance	18
1.7.2	Non-Dedicated Work Boats	18
1.8	Special Cleanup Considerations for Group V Oils	18
1.9	Oiled Wildlife Care	19
1.9.1	Notifications	19
1.9.2	Permits	20
1.9.3	Wildlife Branch	22
1.9.4	Oiled Wildlife Care Procedures	22
1.9.5	Oiled Wildlife Facilities, Equipment, and Personnel	23
1.10	Planning Cycle	26
1.10.1	Shift Turnover	27
1.11	Post Spill Procedures	27

Appendix E Spill Documentation and ICS Forms

Sec.	Topic	Page
1.1	Documentation Procedures	2
1.2	Spill Information	2
1.2.1	Initial Spill Information	2
1.2.2	Response/Resource Tracking	2
1.2.3	Response Planning	3
1.2.4	Response Summary Reporting	3
1.2.5	Sampling Surveys	3
1.3	Climatological Data	3

1.4	General Government Incident Reporting Requirements	3
1.4.1	Hazardous Materials Release Reporting	3
1.4.2	Hazardous Substance Release Reporting	4
1.5	ICS Forms	5

Appendix F Spill Prevention

Sec.	Topic	Page
1.1	Spill Prevention	2
1.1.1	Secondary Containment	2
1.1.2	Site Drainage	2
1.1.3	Loading and Unloading of Transportation Vehicles	5
1.2	Site Security	6
1.3	Tank and Pipeline Testing	6
1.4	Discharge Detection Systems	6
1.4.1	Detection by Personnel	6
1.4.2	Automated Detection Systems	7
1.5	Excerpts from Spill Prevention, Control, and Countermeasures Plan	7

Appendix G Equipment Lists

Sec.	Topic	Page
1.1	General	2
1.2	Equipment Operability and Readiness	2
1.2.1	Response Equipment Operability	2
1.2.2	Equipment Response Times	2
1.2.3	Equipment Information	2
1.3	Additional Equipment Necessary to Sustain Response	2
1.3.1	Response Resource Operating Criteria	3
1.4	Equipment Listing	3

Appendix H Disposal Plan

Sec.	Topic	Page
1.1	General	2
1.2	Response	2
1.3	Reclamation	3
1.4	Characterization	3
1.4.1	Characterization Guidelines	3
1.5	Temporary Storage and Segregation	5
1.6	Transportation	6
1.7	Hazardous Waste Transport and Disposal	6
1.8	Non-Hazardous Waste Transport and Disposal	7
1.9	Waste Handling	7

1.10	Recycling	8
1.11	Treatment	8
1.12	Disposal	9
1.13	Recordkeeping	9
1.14	Incident Disposal Plan Template	9

Appendix I Site Safety and Health Plan

Sec.	Topic	Page
1.1	General Information	2
1.2	Components of a Site Safety and Health Plan	2
1.3	Important Safety Activities and Considerations	2
1.4	Respirator Protection Program	4
1.4.1	Introduction	4
1.4.2	Responsibilities	4
1.4.3	Written Operating Instructions	4
1.4.4	Selection and Use	5
1.4.5	Use of Respirator in IDLH Atmospheres	5
1.4.6	Seal and Fit Testing	5
1.4.7	Employee Training	6
1.4.8	Medical Monitoring	6
1.4.9	Inspection and Maintenance	6
1.4.10	Work Area Surveillance	7
1.4.11	Evaluation	7
1.4.12	Recordkeeping	7
1.5	Respirator Equipment Operating Instructions	7
1.5.1	Single-Use Disposable Mask	7
1.5.2	Cartridge Respirators	8
1.5.3	Airline Respirators	10
1.5.4	Airline Respirators with Escape Bottle	11
1.5.5	Self-Contained Breathing Apparatus (SCBA)	11
1.5.6	Monthly Inspection of Self-Contained Breathing Apparatus	12
1.5.7	Self-Contained Breathing Apparatus (SCBA) Monthly Inspection Sheet	14
1.6	Quality of Compressed Breathing Air	15
1.7	Qualitative Fit Test and Pressure Check Procedures	16

Appendix J Communications Plan

Sec.	Topic	Page
1.1	General	2
1.2	Emergency Communications Plan	2
1.3	Paramount Communications Equipment Table	4
1.4	Federal Communications	5
1.5	State Radio Communications	7

1.6	Communications Channel Matrix	9
------------	--------------------------------------	----------

Appendix K Relationship to Other Emergency Response Plans

Sec.	Topic	Page
1.1	Relationship to Other Emergency Response Plans	2
1.1.1	NCP	2
1.1.2	NWACP and GRPs	2
1.1.3	Incident Management Handbook	2
1.1.4	Washington State DOE ICS Manual	3
1.1.5	Local Plans	3
1.1.6	SPCC – Arc Terminals Portland	3

Appendix L Correspondence and Certifications

Appendix M Dock Operations Manual

Sec.	Topic	Page
1.1	Arc Terminals Portland Dock Operations Manual	1
1.2	Appendices	29

Appendix N Acronyms and Definitions

Sec.	Topic	Page
1.1	Acronyms and Abbreviations	2
1.2	Definitions	3
