### Division 45

#### REGULATIONS PERTAINING TO NPDES AND WPCF PERMITS

#### 340-045-0070

##### Permit Fees

(1) Except for a person assigned to the 700-PM general permit, a person required to have a WPCF or NPDES permit is subject to a two-part fee consisting of the applicable new-permit application fee and the annual fee in OAR 340-045-0075.

(a) A person submitting an application for a new NPDES or WPCF permit must submit the amount equal to the new-permit application fee and the first year's annual fee.

(b) A person is not required to submit a fee with an application for renewal of a NPDES or WPCF permit, unless the permit is to be modified as described in OAR 340-045-0075(5). A person requesting a permit modification must submit the appropriate modification fee in OAR 340-045-0075 with the application.

(c) A person is not required to pay a fee for modification of an existing, unexpired permit if DEQ initiates the modification and determines the modification does not require re-filing or department review of an application, plans, or specifications.

(d) When a governmental entity has an agreement with DEQ to assist with implementing a general permit, DEQ may in that agreement lower the general permit fees established in OAR 340-045-0075 and allow the governmental entity to collect the fee for DEQ and retain a portion of the fee for its services.

(2) A person must pay the applicable annual fee in OAR 340-045-0075 for as long as the permit is active.

(a) The annual fee must be paid by the date DEQ specifies.

(b) DEQ will apply the annual fee submitted as part of an application for a new NPDES or WPCF permit to the first 12 months the permitted facility is put into operation.

(c) The Director may alter the due date for the annual fee on receiving a permittee's justifiable request. The Commission may reduce or suspend the annual fee if a hardship is demonstrated.

(3) DEQ may refund a new-permit application fee submitted in whole or in part if DEQ determines that:

(a) A permit is not required; or

(b) The wrong application was filed.

(4) All fees must be made payable to the Oregon Department of Environmental Quality or DEQ's agent.

(5) A person assigned to the 700-PM general permit must pay fees according to the schedule provided in OAR 340-045-0075. The permittee must submit the applicable fees with the permit application. The new permit application fee, annual fee and 5-year renewal fee are non-refundable unless DEQ or DEQ's agent determines that the permittee cannot be assigned to the general permit. Fees must be made payable to the Oregon Department of Environmental Quality. An annual fee must be paid at the time of application, and for each following year that the permit is valid on a date specified by DEQ.

**Permit Fee Schedule**

(1) OAR chapter 340, division 71 contains the fee schedule for onsite sewage disposal system permits, including WPCF permits, and graywater reuse and disposal system WPCF individual permits.

(2) DEQ establishes fees for various industrial, domestic and general water quality permits:

(a) Table 70A lists the application and modification fees that apply to industrial NPDES and WPCF individual permits.

(b) Table 70B lists the annual fees that apply to industrial NPDES and WPCF individual permits.

(c) Table 70C lists application, modification and annual fees for domestic NPDES and WPCF individual permits.

(d) Table 70D lists annual population fees.

(e) Table 70E lists annual pretreatment fees applicable to domestic wastewater systems.

(f) Table 70I lists application, annual and surcharge fees for Underground Injection Control rule authorizations and general permits.

(3) DEQ must consider the following criteria when classifying a facility for determining applicable fees. For industrial sources that discharge to surface waters, discharge flow rate refers to the system design capacity. For industrial sources that do not discharge to surface waters, discharge flow refers to the total annual flow divided by 365:

(a) Tier 1 industry. A facility is classified as a Tier 1 industry if the facility:

(A) Discharges at a flow rate that is greater than or equal to 1 mgd; or

(B) Discharges large biochemical oxygen demand loads; or

(C) Is a large metals facility; or

(D) Has significant toxic discharges; or

(E) Has a treatment system that will have a significant adverse impact on the receiving stream if not operated properly; or

(F) Needs special regulatory control, as DEQ determines.

(b) Tier 1 domestic facility. A facility is classified as a Tier 1 domestic facility if the facility:

(A) Has a dry weather design flow of 1 mgd or greater; or

(B) Serves an industry that can have a significant impact on the treatment system.

(c) Tier 2 industry or domestic facility: A facility is classified as Tier 2 if it does not meet Tier 1 qualifying factors.

(4) New permit application fee. Unless this rule does not require it, the applicant must submit the applicable new permit application fee listed in Table 70A, 70C, 70G, or 70I with each application. The facility category and type of permit (e.g., individual vs. general) determines the amount of the fee.

(5) Permit modification fee. Tables 70A and 70C list the permit modification fees. Modification fees for Individual WPCF Underground Injection Control permits are contained in Table 70I. Permit modification fees vary with the type of permit, the type of modification and the timing of modification as follows:

(a) Modification at time of permit renewal:

(A) Major modification — involves an increase in effluent limitations or any other change that involves significant analysis by DEQ;

(B) Minor modification — does not involve significant analysis by DEQ.

(b) Modification prior to permit renewal:

(A) Major modification — involves an increase in effluent limitations or any other change that involves significant analysis by DEQ. DEQ may require a permittee requesting a significant modification to their permit to enter into an agreement to pay for these services according to ORS 468.073. ORS 468.073 allows DEQ ". . . to expedite or enhance a regulatory process by contracting for services, hiring additional staff or covering costs of activities not otherwise provided during the ordinary course of department business . . . ."

(B) Minor modification — does not involve significant analysis by DEQ.

(6) Annual fees. Tables 70B and 70G list applicable annual fees for general and industrial permit holders. Table 70H lists applicable annual fees for Municipal Separate Storm Sewer permits. Tables 70C, 70D, and 70E also list annual fees for domestic sources and include the following:

(a) Annual fee. This is based on the type of treatment system, the dry weather design flow, and the duration assigned to the permit before a renewal application is required;

(b) Population-based fee. A permit holder with treatment systems other than Type F (septage alkaline stabilization facilities) must pay an annual population-based fee. Table 70D lists the applicable fee;

(c) Pretreatment fee. A source DEQ requires to administer a pretreatment program under federal pretreatment program regulations (40 C.F.R., Part 403; January 29, 1981, and its amendments) must pay an additional annual fee plus a fee for each significant industrial user specified in their annual report for the previous year. Table 70E lists the applicable fee.

(7) Technical activities fee. Table 70F lists the technical activity, plan review and administrative fees. They are categorized as follows:

(a) All permits. A permittee must pay a fee for NPDES and WPCF individual and general permit-related technical activities. DEQ will charge a fee for initial submittal of engineering plans and specifications. DEQ will not charge fees for revisions and re-submittals of engineering plans and specifications or for facilities plans, design studies, reports, change orders, or inspections.

(b) General permits. A permittee must pay the technical activity fee shown in Table 70F when the following activities are required for application review:

(A) Disposal system and environmental management plan review;

(B) Site inspection and evaluation.

(8) For permits the Oregon Department of Agriculture administers, the permit applicant or permit holder must pay the permit fees following the fee schedule the Oregon Department of Agriculture establishes.

(9) Administrative activity fees are listed in Table 70F:

(a) The annual electronic reporting requirement waiver fee applies to permit holders who qualify for a temporary or permanent waiver exempting them from submitting data and reports electronically.

(b) A permittee must pay a fee for a transfer of ownership as specified under OAR 340-045-0045 and for requests to change the legal or common name on the permit issued to the facility.

TABLE 3

SLOPE, EFFECTIVE SOIL DEPTH RELATIONSHIP

**OAR 340-071-0220**

**TABLE 4**

**Minimum length of absorption trench (linear feet) required per 150 gallons projected daily sewage flow determined from soil texture versus effective soil depth.**

| <b>Effective Soil Depth</b> | <b>Soil Group</b> |          |          |
|-----------------------------|-------------------|----------|----------|
|                             | <b>A</b>          | <b>B</b> | <b>C</b> |
| 18" to Less than 24"        | 125               | 150      | 175      |
| 24" to Less than 36"        | 100               | 125      | 150      |
| 36" to Less than 48"        | 75                | 100      | 125      |
| 48" or more                 | 50                | 75       | 125      |

Soil Group A — Sand, Loamy Sand, Sandy Loam.

Soil Group B — Sandy Clay Loam, Loam, Silt Loam, Silt, Clay Loam.

Soil Group C — Silty Clay Loam, Sandy Clay, Silty Clay, Clay.

If sand grains are fine or very fine, site according to Group B soils.

**OAR 340-071-0220**

**TABLE 5**

**Minimum length of absorption trench (linear feet) required per 150 gallons projected daily sewage flow determined from soil texture versus depth to temporary groundwater.**

| <b>Depth to Temporary Groundwater</b> | <b>Soil Group</b> |          |          |
|---------------------------------------|-------------------|----------|----------|
|                                       | <b>A</b>          | <b>B</b> | <b>C</b> |
| 24" to Less than 48"                  | 100               | 125      | 150      |
| 48" or More                           | 50                | 75       | 125      |

Soil Group A — Sand, Loamy Sand, Sandy Loam.

Soil Group B — Sandy Clay Loam, Loam, Silt Loam, Silt, Clay Loam.

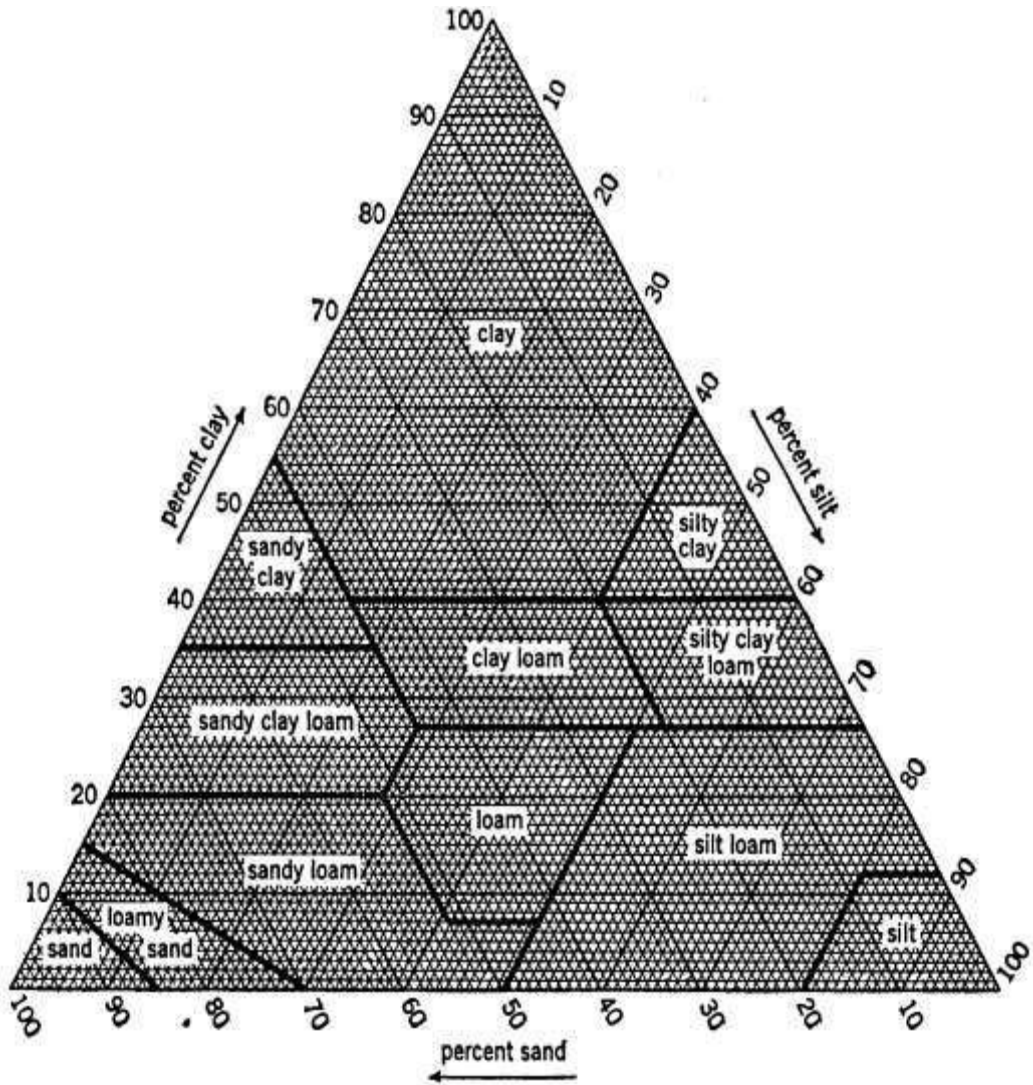

Soil Group C — Silty Clay Loam, Sandy Clay, Silty Clay, Clay.

If sand grains are fine or very fine, site according to Group B soils.

**TABLE 9A**

**SITE EVALUATION AND EXISTING  
SYSTEM EVALUATION FEES**

**New Site Evaluation Fees**

Fees in this section apply to each system for which site suitability is evaluated

|   |         |
|---|---------|
| Single family dwelling - First lot  | \$700   |
| Single family dwelling - Each additional lot evaluated during initial visit | \$700   |
| Commercial facility with a design capacity of 1,000 gpd or less             | \$700   |
| Commercial facility with a design capacity of 1,001-1,500 gpd               | \$882   |
| Commercial facility with a design capacity of 1,501-2,000 gpd               | \$1,063 |
| Commercial facility with a design capacity of 2,001-2,500 gpd               | \$1,244 |
| Commercial facility s with a design capacity of 2,501-3,000 gpd             | \$1,426 |
| Commercial facility with a design capacity of 3,001-3,500 gpd               | \$1,607 |
| Commercial facility with a design capacity of 3,501-4,000 gpd               | \$1,788 |
| Commercial facility with a design capacity of 4,001-4,500 gpd               | \$1,969 |
| Commercial facility with a design capacity of 4,501-5,000 gpd               | \$2,151 |
| Commercial facility with a design flow greater than 5,000 gpd               | \$2,373 |
| Site Evaluation Report Review fee   | \$659   |
| Existing System Evaluation Report fee                                       | \$659   |

**OAR 340-071-0140**

**TABLE 9B**

**PERMITTING FEES FOR SYSTEMS NOT  
SUBJECT TO WPCF PERMITS**

| Type of Fee  |   | System Type |         |         |         |         | Plan Review fees for Commercial Facility Systems |
|--|---|-------------|---------|---------|---------|---------|--|
|  |   | A           | B       | C       | D       | E       |  |
| Construction-Installation Permit Fees  | For systems with a design capacity of less than 600 gpd | \$461       | \$890   | \$1,038 | \$1,272 | \$1,566 | \$0  |
|  | For systems with a design capacity of 601-1,000 gpd     | \$461       | \$890   | \$1,038 | \$1,272 | \$1,566 | \$379  |
|  | For systems with a design capacity of 1,001-1,500 gpd   | \$560       | \$989   | \$1,137 | \$1,352 | \$1,710 | \$445  |
|  | For systems with a design capacity of 1,501-2,000 gpd   | \$659       | \$1,088 | \$1,236 | \$1,433 | \$1,763 | \$511  |
|  | For systems with a design capacity of 2,001-2,500 gpd   | \$758       | \$1,187 | \$1,335 | \$1,513 | \$1,862 | \$577  |
| Reinspection fee   |   | \$103       | \$103   | \$103   | \$103   | \$103   | \$103  |
| Pump Evaluation fee. For all permits that specify the use of a pump or dosing siphon except for sand filter, Alternative treatment technologies, Recirculating gravel filter, and pressurized distribution systems |   | \$66        | \$66    | \$66    | \$66    | \$66    | \$66   |

**System Type Key:**

Type A = Gray Water waste disposal sumps

Type B = Holding tanks

Type C = Standard subsurface, Absorption trenches in saprolite, Redundant, Seepage trench, Steep slope

Type D = Alternative treatment technologies, Capping fill, Pressurized distribution, Tile dewatering

Type E = Recirculating gravel filter, Sand filter (commercial or residential)
