Field Automation Users Group (FAUG)
Charter – August 24, 2005 Rev. August 20, 2010

Purpose/Overview:

The Field Automation Users Group (FAUG) is a crucial support tool to incorporate statewide policies and procedures that efficiently and reliably addresses the changing needs of field users. This group provides flexible training and user support at the local level, sets standards and ensures the consistency and usefulness of offender information that is available statewide. FAUG provides continuous improvement of field automation through communication between county Community Corrections agencies and the Oregon Department of Corrections.

FAUG accomplishes this mission by increasing our knowledge of and implementing the policies and procedures created, sharing information and expertise, and promoting statewide support and staff participation. Committee members share perspectives and valuable information from their counties. The sharing of information among committee members allows the members to get a clear picture of the statewide database system. When voting or prioritizing FAUG needs, committee members consider what is best for the department and not individual needs.
