

## Two Rivers Correctional Facility

*Adults In Custody at TRCI Train Companion Dogs*

### Rehabilitating Offenders and Canines

#### THE ROC PROGRAM

Behind the walls of prison, adults in custody and dogs have found a connection. In preparation for their forever homes, the dogs in TRCI's ROC program go through AKC good citizenship training lasting six to eight weeks. The training is led by professional dog trainers and the adults in custody at TRCI. Our dog adoption program partners with local non-profit groups to provide dogs and prepare them for adoption. If you are interested in adopting one of our dogs we want to encourage you to make an appointment to come visit and submit an application.

**Questions or comments?**
