

Larry A. Brown
Kingsley Field Fire Department,
Klamath Falls
Year of Death: 2003

Captain Brown and the members of his crew spent their shift performing normal duties such as fire extinguisher checks and participating in aircraft emergency egress training exercises. Captain Brown was last seen by his crew at approximately 2030hrs as he prepared to go to sleep. Firefighters found Captain Brown unresponsive laying diagonally across his bed when they went to check on him at approximately 0700hrs the next morning. Paramedics and an ambulance were called and firefighters assessed Captain Brown. Due to the fact that he was obviously deceased, no resuscitative measures were attempted. The cause of death was listed as arteriosclerotic cardiovascular disease.
