

Input questions: 404/401/Removal-Fill pre-application meeting

Please supply answers to the questions below, and send the responses via email to the Corps or DSL staff person of contact no later than two weeks prior to your agenda date. The staff person of contact will confirm the meeting time after receiving this information.

The purpose of these questions is to gather information to help the staff person gather the relevant state agency and federal service representatives, and identify areas of the proposed project that may be incomplete or need revision prior to your [Joint Permit Application](#). Please use the [application checklist and questions](#) as guidelines for answering the questions below to the best of your knowledge.

1. What is the project purpose and need?
2. What is the proposed location? (please note or show, via attached map, any known environmental resources)
3. Please provide a general project description.
4. Please provide a general project footprint (narrative or map).
5. Please attach any conceptual drawings, maps or other supporting documents you have.
6. Please describe the general idea or scope of potential impact.
7. Please provide a proposed schedule or timing of proposed work.
8. Are there any Endangered Species Act-subject species present? If so, which ones?
9. Are there any known tribal government resource concerns or issues?
10. Are there any known cultural or historical resource concerns or issues?
11. Have you done a wetland delineation determination? If so, what were the results?
12. Will more than 5000 cubic yards of material be removed from the site?
13. Are there issues or provisions related to water rights or use at your proposed location?
14. Are there fish passage barriers or changes to current passage expected?
15. Do you have preliminary mitigation plans? If so, please provide the draft plans.
