BEFORE THE
ENERGY FACILITY SITING COUNCIL
OF THE STATE OF OREGON

In the Matter of the Site Certificate for
the Proposed Helix Wind Power
Facility

TERMINATION ORDER

1 The Energy Facility Siting Council issued a Site Certificate to Helix Wind Power
2 Facility, LLC, a wholly owned subsidiary of Iberdrola Renewables, Inc., for the Helix
3 Wind Power Facility on July 31, 2009. The Council issued the first Amended Site
4 Certificate on June 28, 2011. The Council issued the second Amended Site Certificate on
5 August 31, 2012. As amended, the site certificate authorized the certificate holder to
6 construct and operate a wind energy facility with a peak generating capacity of
7 approximately 201 megawatts in Umatilla County, Oregon. Condition 24 of the Amended
8 Site Certificate established a deadline of August 5, 2014 for the certificate holder to begin
9 construction of the facility. The certificate holder did not satisfy that condition. Pursuant
10 to OAR 345-027-0000, the Amended Site Certificate is now expired. Upon expiration of
11 a site certificate, OAR 345-027-0110(9) requires the Council to issue an order of
12 termination.

13 THEREFORE, the Council hereby terminates the Amended Site Certificate for the Helix
14 Wind Power Facility.

W. Bryan Wolfe, Chair
Oregon Energy Facility Siting Council

Dated November 21, 2014
