PUBLIC NOTICE
Troutdale Energy Center
Notice of Proposed Order

Issuance of Proposed Order
The Oregon Department of Energy, staff to the Energy Facility Siting Council (EFSC), issued the Proposed Order on the Troutdale Energy Center on December 16, 2013. The Proposed Order recommends EFSC approve the application and grant a Site Certificate, subject to the conditions in the order.

Facility Description
The proposed Troutdale Energy Center includes a combined-cycle 652-megawatt natural gas fueled power plant to be used to meet peak load electricity needs. In addition to the power plant, the facility includes related and supporting facilities, including a switchyard and overhead transmission lines.

Location of Proposed Facility
Primarily in the City of Troutdale, just north of Interstate 84 and west of the Sandy River. The majority of the facility would be located on Lot 3 of the Port of Portland-owned Troutdale Reynolds Industrial Park. A portion of the related transmission line may be located in the City of Fairview.

For detailed maps, please see the ODOE website or Exhibit B of the Site Certificate Application.

Contested Case Process
Following issuance of the proposed order, the Council must conduct a contested case proceeding on the application for site certificate.

Only those individuals or organizations that raised an issue on the record of the public hearing are eligible to participate in the contested case, provided the Proposed Order does not differ substantively from the Draft Proposed Order. In this case, there are no substantive changes between the Draft Proposed Order and the Proposed Order. Therefore, to be eligible to participate in the contested case, you must have raised issues, either in person at the Public Hearing on September 26, 2013, or in writing on the Draft Proposed Order by that date. All those eligible to participate in the contested case will receive a Notice of Contested Case, by certified mail, describing the requirements for participation.

If you believe you are eligible to participate in the contested case and do not receive a Notice of Contested Case, please contact Chris Green, Siting Analyst, at chris.green@state.or.us, or at 503-373-5050.

The deadline to request party or limited party status is January 6, 2014 at 5pm.

Pre-Hearing Conference
For those granted party or limited party status, the pre-hearing conference will be held on January 21, 2014 by telephone.

At the pre-hearing conference the Hearing Officer will determine the schedule for the contested case hearing.
**EFSC Decision Process**
Following the contested case, the Council will issue a Final Order on the Application. More information about the contested case process is available on the Department of Energy’s website at [http://www.oregon.gov/energy/Siting/Pages/proc ess.aspx](http://www.oregon.gov/energy/Siting/Pages/proc ess.aspx).

**More Information**
Additional information about the facility and the review process is available using any of the options listed below. If you need more information or if you believe you are eligible to participate in the contested case and do not receive a Notice of Contested Case, please contact Chris Green, Siting Analyst, by e-mail at chris.green@state.or.us or phone at or 503-373-5050.
