RULE SUMMARY

Amendments to OAR 804-022-0005 and OAR 804-022-0010 are proposed to clarify language in relation to application criteria for registration. Additional amendments to OAR 804-022-010 are proposed to define an additional path for determining that an applicant for registration by reciprocity has qualifications substantially equivalent to the registration requirements of 804-022-0005 as required by ORS 671.435. The rule revisions related to reciprocity are designed to add flexibility and fairness while still ensuring that only duly qualified professionals obtain an Oregon registration.

The Agency requests public comment on whether other options should be considered for achieving the rule's substantive goals while reducing the negative economic impact of the rule on business.
