On February 22, 2017, the Oregon Department of Education, in collaboration with the Lane Education Service District, will hold an Oregon Alternative Education Summit at Lane ESD Main Campus.

Themed "*Pathways to Success*," this Alternative Education Summit will be an excellent opportunity for alternative school teachers, leaders, support providers, and other stakeholders to meet, share best practices and resources, and explore tools, techniques, and models of successful alternative programs around the State of Oregon. Participants can share ideas, ask questions, and build relationships.

During the Summit, we will focus on improving our graduation rate and post-secondary education outcomes. We need to increase our graduation rate and reduce our dropout rate in order to help achieve Oregon's 40-40-20 goals.

We will identify barriers that cause students to slip through the K-12 system, and the resources and programs to support our students. We want to engage everyone and collaborate to create a process for collecting and sharing innovative ideas, information, and insights.
