

Memorandum

Date	June 30, 2023
To	EMAC Members
From	Oregon Toll Program Project Team
Subject	ODOT's Progress Towards EMAC's Recommended Actions

The [Equity and Mobility Advisory Committee \(EMAC\)](#), convened by the Oregon Department of Transportation (ODOT), provides recommendations to ODOT and the Oregon Transportation Commission (OTC) to advance equity in the Oregon Toll Program by centering BIPOC communities, persons experiencing low-incomes, and historically and currently excluded and underserved communities.

Introduction

In 2022, the OTC adopted EMAC's [Shaping an Equitable Toll Program: Recommendations to the OTC](#), which included a recommended action that "ODOT and the OTC support a toll equity accountability committee or establish another structure where equity voices are at the table in a consistent, transparent, and resource-supported way to ensure long-term accountability."

After EMAC presented their report to the OTC, ODOT applied EMAC's recommendations to the I-205 Toll Project, the Regional Mobility Pricing Project, and the Oregon Toll Program. The information included in this progress report demonstrates ODOT's advancement of EMAC's recommendations, which are in various stages of development. This progress report will support an upcoming discussion at a workshop with ODOT on July 10, 2023, during which members will continue to deepen their understanding of how ODOT is advancing equity in the Toll Program, as well as brainstorm and initiate co-creation of successful solutions for EMAC's recommended actions.

	On the horizon

Percent Complete*	
10%	The action has started and may be in early planning, analysis, or development stages.
25%	Preliminary progress has been made, and more inputs are required to advance.
50%	Progress is underway, and a completion timeline exists. More inputs may be required to advance.
75%	Approaching completion.
100%	Fully complete.

***Note:** The steps to complete each action vary greatly. The descriptions above are meant to provide a broad definition of percent complete. The Next Steps for each action best illustrate anticipated progress.
