410-141-0000 – Definitions

In addition to the definitions in OAR 410-120-0000, the following definitions apply:

(1) “Action” means in the case of a Prepaid Health Plan (PHP) or Coordinated Care Organization (CCO):

(a) The denial or limited authorization of a requested service including the type or level of service;

(b) The reduction, suspension, or termination of a previously authorized service;

(c) The denial in whole or in part of payment for a service;

(d) The failure to provide services in a timely manner as defined by the Health Systems Division, Medical Assistance Programs (Division);

(e) The failure of a PHP or CCO to act within the timeframes provided in 42 CFR 438.408(b); or

(f) For a member who resides in a rural service area where the PHP or CCO is the only PHP or CCO, the denial of a request to obtain covered services outside of the PHP or CCO provider network under any of the following circumstances:

   (A) From any other provider (in terms of training, experience, and specialization) not available within the network;

   (B) From a provider not part of the network that is the main source of a service to the member as long as the provider is given the same opportunity to become a participating provider as other similar providers. If the provider does not choose to join the network or does not meet the qualifications, the member is given a choice of participating providers and is transitioned to a participating provider within 60 days;

   (C) Because the only plan or provider available does not provide the service due to moral or religious objections;

   (D) Because the member’s provider determines the member needs related services that would subject the member to unnecessary risk if received separately, and not all related services are available within the network; or

   (E) The Authority determines that other circumstances warrant out-of-network treatment for moral or religious objections.

(2) “Adjudication” means the act of a court or entity in authority when issuing an order, judgment, or decree, as in a final CCO or MCO claims decision or the Authority issuing
a final hearings decision. This function is non-delegable under the Coordinated Care contracts in the context of hearings and appeals.

(3) “Capitated Services” means those covered services that a PHP agrees to provide for a capitation payment under contract with the Authority.

410-141-0010 – Prepaid Health Plan Contract Procurement Screening and Selection Procedures

(1) Basis and scope:

(a) The Oregon Health Authority (Authority) will use screening and selection procedures to procure managed care services pursuant to ORS 414.725. The Authority may award Qualified Managed Care Organizations (MCO) a contract as a prepaid health plan (PHP) for purposes of administering the Oregon Health Plan (OHP);

(b) The OHP is funded with Federal Medicaid funds. The Authority will interpret and apply this rule to satisfy federal procurement and contracting requirements in addition to state requirements applicable to contracts with PHPs. The Authority will seek prior federal approval of PHP contracts;

(c) For purposes of source selection and screening in the procurement of managed care services, the Authority may use:

(A) The Request for Application (RFA) process described in sections (3) through (6) of this rule; or

(B) Any method described in the Department of Justice's (DOJ) Model Rules (chapter 137, division 047) for source selection and procurement process, except for bidding.

(2) In addition to the terms defined in OAR 410-141-0000, the following definitions for screening and selection procedures apply:

(a) Addendum or Addenda -- an addition or deletion to, a material change in, or general interest explanation of an RFA;

(b) Application -- Documents submitted by an MCO that seeks qualification to be awarded a contract. The applicant is the MCO submitting the Application;

(c) Award -- As the context requires, the act or occurrence of the Authority’s identification of a qualified MCO with which the Authority will enter into a contract;

(d) Closing -- The date and time announced in an RFA as the deadline for submitting Applications;

(e) MCO -- A corporation, governmental agency, public corporation or other legal entity that operates as a managed health, dental, chemical dependency, physician care, or mental health organization;
(f) Managed care services -- Capitated services provided by a PHP pursuant to ORS 414.725;

(g) Offer -- A response to an RFA, including all required responses and assurances, and the Certification of Application;

(h) Request for Applications (RFA) -- All documents used by the Authority for soliciting Applications for qualification in a specific RFA issued by the Authority, for one or more categories of contracts, one or more Service Areas or such other objective as the Authority may determine is appropriate for solicitation of managed care services.

(3) RFA process:

(a) The Authority will provide public notice of every RFA on its Web site. The RFA will indicate how prospective applicants will be made aware of Addenda by posting notice of the RFA on the electronic system for notifying the public of Authority procurement opportunities, or at the option of the requestor, mailing notice of the availability of the RFA to persons that have expressed interest in Authority procurement of managed care services;

(b) The RFA process begins with a public notice of the RFA, which will be communicated with the electronic notification system used by the Authority to notify the public of procurement opportunities. A public notice of a RFA shall identify the qualification requirements for the category of contract (e.g., Fully Capitated Health Plan FCHP), Dental Care Organization (DCO), etc.), the designated Service Area(s) where managed care services are requested or other objective that the Authority determines appropriate for solicitation of managed care services, and a sample contract;

(c) The Authority will provide notice of any RFA Addenda in a manner intended to foster competition and to make prospective applicants aware of the Addenda. The RFA will specify how the Authority will provide notice of Addenda;

(d) If the RFA so specifies, potential applicants must submit a letter of intent to the Authority within the time period specified in the RFA. The letter of intent does not commit any potential applicant to apply, however, if required, the Authority will not consider Applications from applicants who do not submit a timely letter of intent;

(e) Submitting the Application -- The Authority will only consider Applications that are submitted in the manner described in the RFA. Applicants must:

(A) Identify electronic Application submissions as defined in the RFA. The Authority is not responsible for any failure attributable to the transmission or receipt of electronic or facsimile Applications, including but not limited to receipt
of garbled or incomplete documents, delay in transmission or receipt of documents, or security and confidentiality of data;

(B) Submit Applications, when sent by mail, in a sealed envelope that is marked appropriately;

(C) Ensure the Authority receives their Applications at the required delivery point prior to the Closing date, listed in the RFA. The Authority will not accept late Applications.

(f) The Application must be completed as described in the RFA. To avoid duplication and burden, the Authority may permit a current contractor to submit an abbreviated Application that focuses only on additional or different requirements specific to the new contract or the new Service Area or capacity or other Authority objective that is the subject of the RFA;

(g) The Authority will enter into or renew a contract only if it determines that the action would be within the scope of the RFA and consistent with the effective administration of the OHP, including but not limited to:

(A) The capacity of any existing PHP(s) in the Service Area compared to the capacity of an additional PHP for the number of potential enrollees in the Service Area;

(B) The potential opportunity for clients to have a choice of more than one PHP.

(h) Disclosure of Application Contents and Release of Information:

(A) Application information, including the letter of intent, shall not be disclosed to any applicant (or other person) until the completion of the RFA process. The RFA process shall be considered complete when a contract has been awarded. No information will be given to any applicant (or other person) relative to their standing with other applicants during the RFA process;

(B) Application information shall be subject to disclosure upon the award date, with the exception of information that has been clearly identified and labeled "Confidential" under ORS 192.501-192.502, insofar as the Authority determines it meets the requirements for an exemption from disclosure;

(C) Any requestor shall be able to obtain copies of non-exempt information after the RFA process has been completed. The requestor shall be responsible for the time and material expense associated with the request. This fee includes the copying of the document(s) and the staff time (and agency attorney time, if requested by the Authority) associated with performing the task, in accordance with ORS 192.440(3). The Authority may require prepayment of estimated charges before acting on a request:
(i) Protests must be submitted, in writing, to the Authority prior to the protest date specified in the RFA. The protest shall state the reasons for the protest or request and any proposed changes to the RFA provisions, specifications or contract terms and conditions that the prospective applicant believes will remedy the conditions upon which the protest is based. Protests and judicial review of the RFA shall be handled using the process set forth in OAR 137-047-0730;

(j) The Authority is not obligated to enter into a contract with any applicant, and further, has no financial obligation to any applicant.

(4) Application for qualification:

(a) An MCO seeking qualification as a PHP must meet the requirements and provide the assurances specified in the RFA. The Authority determines whether the MCO qualifies based on the Application and any additional information and investigation that the Authority may require;

(b) The Authority determines an MCO is qualified when the MCO meets the requirements of the RFA, including written assurances, satisfactory to the Authority, that the MCO:

   (A) Provides or will provide the services described in the contract;

   (B) Provides or will provide the health services described in the contract in the manner described in the contract;

   (C) Is organized and operated, and will continue to be organized and operated, in the manner required by the contract and described in the Application;

   (D) Under arrangements that safeguard the confidentiality of patient information and records, will provide to the Authority, CMS, the Office of Inspector General, the Oregon Secretary of State, and the Oregon Medicaid Fraud Unit of the DOJ, or any of their duly authorized representatives, for the purpose of audit, examination or evaluation to any books, documents, papers, and records of the MCO relating to its operation as a PHP and to any facilities that it operates; and

   (E) Will continue to comply with any other assurances it has given the Authority.

(c) The Authority may determine that an MCO is potentially qualified if within a specified period of time the MCO is reasonably susceptible of being made qualified. The Authority is not obligated to determine whether an applicant is potentially qualified if, in its discretion, the Authority determines that sufficient qualified applicants are available to obtain the Authority objectives under the RFA. The Authority determines that an MCO is potentially qualified if:
(A) The Authority finds that the MCO is reasonably susceptible to meeting the operational and solvency requirements of the Application within a specified period of time; and

(B) The MCO enters into discussions with the Authority about areas of qualification that must be met before the MCO is operationally and financially qualified. The Authority will determine the date and required documentation and written assurances required from the MCO;

(C) If the Authority determines that a potentially qualified applicant cannot become a qualified MCO within the time announced in the RFA for contract award, the Authority may:

   (i) Offer the contract at a future date when the applicant demonstrates, to the Authority’s satisfaction, that the applicant is a qualified MCO within the scope of the advertised RFA; or

   (ii) Inform the applicant that it is not qualified for contract award.

(5) Evaluation and determination procedures:

   (a) The Authority evaluates an Application for qualification on the basis of information contained in the RFA, the Application and any additional information that the Authority obtains. Evaluation of the Application will be based on the criteria in the RFA;

   (b) The Authority will notify each MCO that applies for qualification of its qualification status;

   (c) Review of Authority’ qualification decisions shall be as set forth in ORS 279B.425;

   (d) The Authority may enter into negotiation with qualified or potentially qualified applicants concerning potential capacity and enrollment in relation to other available, or potentially available, capacity and the number of potential enrollees within the Service Area. The Authority may determine that it will limit contract award(s) to fewer than the number of qualified or potentially qualified applicants, to achieve the objectives in the RFA.

(6) Contract award conditions:

   (a) The applicant's submission of the Application with the executed Certification of Application is the MCO's Offer to enter into a contract. The Offer is a "Firm Offer," i.e., the Offer shall be held open by the applicant for the Authority' acceptance for the period specified in the RFA. The Authority’s award of the contract constitutes acceptance of the Offer and binds the applicant to the contract;
(b) No Contingent Offers. Except to the extent the applicant is authorized to propose certain terms and conditions pursuant to the RFA, an MCO shall not make its Offer contingent upon the Authority's acceptance of any terms or conditions other than those contained in the RFA;

(c) By timely signing and submitting the Application and Certification of Application, the applicant acknowledges that it has read and understands the terms and conditions contained in the RFA and that it accepts and agrees to be bound by the terms and conditions of the RFA;

(d) The Authority may award multiple contracts in accordance with the criteria set forth in the RFA. The Authority may make a single award or limited number of awards rather than multiple awards to all qualified or potentially qualified applicants, in order to meet Authority' needs including but not limited to adequate capacity for the potential enrollees in the Service Area;

(e) An applicant who claims to have been adversely affected or aggrieved by the Authority contract award or intent to award a contract must file a written protest with the Authority issuing office within seven (7) calendar days after receiving the Notice of Award. Protests and judicial review of contract award shall be handled using the procedures set forth in OAR 137047-9740.

(7) Applicability of DOJ Model Rules: Except where inconsistent with the preceding sections of this rule, Authority will use the following DOJ Model Rules to govern solicitations for Managed Care Services:

(a) OAR 137-046 -- General Provisions Related to Public Contracting: 137046-0100, 137-046-0110 and 137-046-0400 through 137-046-0480;

(b) OAR 137-047 -- Public Procurements for Goods or Services: 137-0470100, 137-047-0260 through 137-047-0330, 137-047-0400 through 137047-0800.

(1) The Oregon Health Authority (Authority) and its Division of Medical Assistance Programs (Division) may adopt reasonable and lawful policies, procedures, rules and interpretations to promote the orderly and efficient administration of medical assistance programs including the Oregon Health Plan pursuant to ORS 414.065 (generally, fee-for-service), 414.725 (Prepaid Health Plans), and 414.115 to 414.145 (services contracts) subject to the rulemaking requirements of Oregon Revised Statutes and Oregon Administrative Rule (OAR) procedures.

(2) In applying its policies, procedures, rules and interpretations, the Division will construe them as much as possible to be complementary. In the event that the Division’s policies, procedures, rules and interpretations may not be complementary, the Division will apply the following order of precedence to guide its interpretation:

(a) For purposes of the provision of covered medical assistance to the Division clients, including but not limited to authorization and delivery of service, or denials of authorization or services, the Division, clients, enrolled Providers and the Prepaid Health Plans (PHP) will apply the following order of precedence:

(A) Those federal laws and regulations governing the operation of the medical assistance program and any waivers granted the Division by the Centers for Medicare and Medicaid Services to operate medical assistance programs including the Oregon Health Plan (OHP);

(B) Oregon Revised Statutes governing medical assistance programs;

(C) Generally for PHP, requirements applicable to the provision of covered medical assistance to the Division clients are provided in OAR 410-1410000 through 410-141-0860, Oregon Health Plan Administrative Rules for Prepaid Health Plans, inclusive, and where applicable, the Division’s General Rules, 410-120-0000 through 410-120-1980, and the provider rules applicable to the category of medical service;

(D) Generally for enrolled fee-for-service providers or other contractors, requirements applicable to the provision of covered medical assistance to Division clients are provided in the Division’s General Rules, OAR 410-1200000 through 410-120-1980, the Prioritized List and program coverage described in 410-141-0480 to 410-141-0520, and the provider rules applicable to the category of medical service; and

(E) Any other applicable duly promulgated rules issued by the Division and other offices or units within the Authority necessary to administer the State of Oregon’s
medical assistance programs, such as Electronic Data Transaction Rules in OAR 407-120-0100 to 407-120-0200; and

(F) The basic framework for provider enrollment in OAR 407-120-0300 through 407-120-0380 generally applies to providers enrolled with the Authority, subject to more specific requirements applicable to the administration of the OHP and the Division. For purposes of this rule, “more specific” means the requirements, laws and rules applicable to the provider type and covered services described in subsections (i)-(v) of this section.

(b) For purposes of contract administration solely as between the Division and its PHP, the terms of the applicable contract and the requirements in subsection (2)(a) of this rule applicable to the provision of covered medical assistance to the Division clients.

(A) Nothing in this rule shall be deemed to incorporate into contracts provisions of law not expressly incorporated into such contracts, nor shall this rule be deemed to supercede any rules of construction of such contracts that may be provided for in such contracts.

(B) Nothing in this rule gives, is intended to give, or shall be construed to give or provide any benefit or right, whether directly or indirectly or otherwise, to any person or entity unless such person or entity is identified by name as a named party to the contract.

410-141-0050 – MHO Enrollment for Children Receiving Child Welfare Services

Pursuant to and in the administration of the Authority in OAR 410-141-0060, Children, Adults and Families (CAF) or the Oregon Youth Authority (OYA) selects Prepaid Health Plans (PHPs) for a child receiving CAF Child Welfare services or OYA services with the exception of children in subsidized adoption and guardianship. This rule implements and further describes how the Oregon Health Authority (Authority) shall administer its authority under OAR 410-141-0060 and 410-141-3060 for purposes of making enrollment decisions and OAR 410-141-0080 and 410-141-3080 for purposes of making disenrollment decisions for children receiving CAF Child Welfare services or OYA services;

(1) The Authority has determined that, to the maximum extent possible, all children receiving CAF services should be enrolled in Mental Health Organizations (MHOs) or Coordinated Care Organizations (CCO) at the next available enrollment date following eligibility, redetermination, or upon review by the Authority, unless disenrollment from a MHO or CCO is authorized by the Authority in accordance with this section and OAR 410-141-0080 and 410-141-3080:

(a) Notwithstanding OAR 410-141-0060(4)(a) or 410-141-3060 or 410-141-0080(2)(b)(E) or 410-141-3080, children receiving CAF services are not exempt from mandatory enrollment in an MHO or CCO on the basis of third party resources (TPR) mental health services coverage;

(b) A decision to use fee-for-service (FFS) open card for a child receiving CAF services should be reviewed by the Authority if the child’s circumstances change and at the time of redetermination to consider whether the child should be enrolled in a MHO or CCO.

(2) When a child receiving CAF services is being transferred from one MHO to another or one CCO to another or for children transferring from FFS to a MHO or CCO, the MHO or CCO shall facilitate coordination of care consistent with OAR 410-141-0160 or 410-141-3160:

(a) MHOs and CCOs shall work closely with the Authority to ensure continuous MHO or CCO enrollment for children receiving CAF services;

(b) If the Authority determines that disenrollment should occur, the MHO or CCO shall continue to be responsible for providing covered services until the disenrollment date established by the Authority, which shall provide for an adequate transition to the next responsible MHO or CCO.

(3) It is not unusual for a child receiving CAF services to experience a change of placement that may be permanent or temporary in nature. Consistent with OAR 410-141-0080 or 410-141-3080, the Authority will verify the address change information to
determine whether a child receiving CAF services no longer resides in the MHO’s or CCO’s service area:

(a) A temporary absence as a result of a temporary placement out of the MHO’s or CCO’s service area does not represent a change of residence if the Authority determines that the child is reasonably likely to return to a placement in the MHO’s or CCO’s service area at the end of the temporary placement;

(b) Unless a corresponding change in MHO capitation rates is implemented, a child receiving CAF services placed in behavioral rehabilitation services (BRS) settings shall be enrolled in the MHO or CCO that serves the region in which the BRS setting is located, unless an out of area exception is requested by the MHO or CCO and agreed to by the Authority for purposes related to continuity of care.

(4) If the child receiving CAF services is enrolled in a MHO or CCO on the same day the child is admitted to psychiatric residential treatment services (PRTS), the MHO or CCO shall be responsible for covered services during that placement even if the location of the facility is outside of the MHO’s or CCO service area:

(a) The child receiving CAF services is presumed to continue to be enrolled in the MHO or CCO with which the child was most recently enrolled. An admission to a PRTS facility shall be deemed a temporary placement for purposes of MHO or CCO enrollment. Any address change or Authority system identifier (e.g., C5 status) change associated with the placement in the PRTS facility does not constitute a change of residence for purposes of MHO or CCO enrollment and shall not constitute a basis for disenrollment from the MHO or CCO, notwithstanding OAR 410-141-0080 and 410-141-3080. If the Authority determines that a child was disenrolled for reasons not consistent with these rules, the Authority shall re-enroll the child with the appropriate MHO or CCO and assign an enrollment date that provides for continuous MHO or CCO coverage with the appropriate MHO or CCO. If the child had been enrolled in a different MHO or CCO in error, the Authority shall disenroll the child from that MHO or CCO and recoup the capitation payments;

(b) Immediately upon discharge from long-term psychiatric care and prior to admission to a PRTS, a child receiving CAF services should be enrolled in an MHO or CCO. At least two weeks prior to discharge of a child receiving CAF services from a long-term psychiatric care (SAIP, SCIP, or STS) facility to a PRTS facility, the long-term care facility shall consult with the Authority about which MHO or CCO will be assigned in order to provide for enrollment in the MHO or CCO and make every reasonable effort within the laws governing confidentiality to consult with the MHO or CCO that will be assigned in order to provide for continuity of care upon discharge from long-term psychiatric care.

(5) Notwithstanding OAR 410-141-0060(6) and (7), 410-141-3060, 410-141-0080, and 410-141-3080, if a child receiving CAF services is enrolled in a MHO or CCO after the first day of an admission to PRTS, the date of enrollment shall be effective the next
available enrollment date following discharge from PRTS to the MHO or CCO assigned by the Authority:

(a) For purposes of these rules and to assure continuity of care for the child upon discharge, the next available enrollment date shall mean immediately upon discharge;

(b) At least two weeks prior to discharge, the PRTS facility shall consult with the Authority about which MHO or CCO will be assigned and shall make every reasonable effort within the laws governing confidentiality to consult with the MHO or CCO that will be assigned in order to provide for continuity of care upon discharge.

(f) Renewal means a regularly scheduled periodic review of eligibility resulting in a renewal or change of program benefits, including the assignment of a new renewal date or a change in eligibility status.

(2) The following populations may not be enrolled into an MCO or any type of health care coverage including:

(a) Persons who are non-citizens and are Citizen/Alien Waivered-Emergency Medical program eligible for labor and delivery services and emergency treatment services;

(b) Clients receiving premium assistance through the Specified Low-Income Medicare Beneficiary, Qualified Individuals, Qualified Disabled Working Individuals and Qualified Medicare Beneficiary programs without other Medicaid;

(c) Persons who are dually eligible for Medicare and Medicaid and enrolled in a program of all-inclusive care for the elderly.

(3) The following populations may not be enrolled into an MCO under the following circumstances:

(a) Newly eligible clients are exempt from enrollment with an MCO but not exempt from enrollment in a DCO, if they became eligible when admitted as an inpatient in a hospital. The client shall receive health care services on a fee-for-service (FFS)
basis only until the hospital discharges the client. The individual will receive dental services through the DCO.

(b) The client is covered under a major medical insurance policy or other third party resource (TPR) that covers the cost of services to be provided by a PHP as specified in and ORS 414.631 and, except as provided for children in Child Welfare through the BRS and PRTS programs, outlined OAR 410-141-3050. A client shall be enrolled with a DCO even if they have a dental TPR.

(4) Persons who are documented American Indian and Alaskan Native (AI/AN) beneficiaries are exempt from auto assignment mandatory enrollment for their managed care plans, as specified in 42 USC 1932, 2 (C), but may elect to be manually enrolled.

(5) Populations specified below are exempt from mandatory enrollment into a physical health MCO but are subject to mandatory enrollment into both dental and mental health plans as available in the member’s service area. The member may be manually enrolled into a physical health plan as deemed appropriate by the Authority. These individuals are as follows:

(a) Children in the legal custody of the Department or Oregon Health Authority where the child is expected to be in a substitute care placement for less than 30 calendar days unless:

   (A) Access to health care on a FFS basis is not available; or

   (B) Enrollment would preserve continuity of care.

(b) Clients who are dually eligible for Medicare and Medicaid but not enrolled in a program of all-inclusive care for the elderly. The following apply to these clients:

   (A) A client who is also a Medicare beneficiary and is in a hospice program may not enroll in an FCHP or PCO that is also a Medicare Advantage plan. The client may enroll in either an FCHP or PCO that does not have a Medicare Advantage plan unless exempt for some other reason listed in this rule;

   (B) The client is enrolled in Medicare and the only FCHP or PCO in the service area is a Medicare Advantage plan. The client may choose not to enroll in an FCHP or PCO;

   (C) Enrollment in a FCHP or PCO of a client who is receiving Medicare and who resides in a service area served by PHPs shall be as follows:

      (i) If the client who is Medicare Advantage eligible selects a FCHP or PCO that has a corresponding Medicare Advantage plan, the client shall complete the 7208M or other CMS approved Medicare plan election form;
(ii) If the Medicare Advantage Plan Election form (OHP 7208M) described in this rule is signed by someone other than the client, the client’s representative must complete and sign the Signature by Mark or State Approved Signature sections of the OHP 7208M;

(iii) If the client is a Medicare beneficiary who is capable of making enrollment decisions, the client’s representative may not have authority to select FCHPs or PCOs that have corresponding Medicare Advantage components:

(I) If the FCHP or PCO has not received the form within ten calendar days after the date of enrollment, the FCHP or PCO shall send a letter to the member with a copy sent to the APD branch manager. The letter shall explain the need for the completion of the form; inform the member that if the form is not received within 30 days, the FCHP or PCO may request disenrollment; and instruct the member to contact their caseworker for other coverage alternatives.

(II) The FCHP or PCO shall choose whether to disenroll or maintain enrollment for all the clients from whom they do not receive a form at the end of 30 days, except as otherwise provided in this rule. The FCHP or PCO shall notify the PHP coordinator of the PHP’s annual decision to disenroll or maintain enrollment for the clients in writing. This notification shall be submitted by January 31 of each year or another date specified by the Authority. If the FCHP or PCO has decided to:

(III) Disenroll the clients and has not received a client’s form at the end of 30 days, the FCHP or PCO shall request disenrollment. HMU will disenroll the member effective the end of the month following the notification;

(D) Maintain enrollment. The FCHP or PCO may not request disenrollment at the end of 30 days.

(E) If the client is enrolled as a private member of a Medicare Advantage plan, the client may choose to remain enrolled as a private member or to enroll in the FCHP or PCO that corresponds to the Medicare Advantage plan:

(F) If the client chooses to remain as a private member in the Medicare Advantage plan, the client shall remain in the Medicaid FFS delivery system for physical health care services but shall select a DCO and MHO where available;

(G) If the client chooses to discontinue the Medicare Advantage enrollment and then, within 60 calendar days of disenrollment from the Medicare Advantage plan, chooses the FCHP or PCO that corresponds to the Medicare Advantage plan that was discontinued, the client shall be allowed to enroll in the FCHP or PCO even if the FCHP or PCO is not open for Enrollment to other clients;
(H) A Fully Dual Eligible (FDE) client who has been exempted from enrollment in an MHO may not be enrolled in a FCHP or PCO that has a corresponding Medicare Advantage plan unless the exemption was done for a provider who is on the FCHP’s or PCO’s panel.

(6) The Authority may temporarily exempt clients from mandatory enrollment for other just causes as determined by the Authority through medical review. The Authority may set an exemption period on a case-by-case basis for those as follows:

(a) Children under 19 years of age who are medically fragile and who have special health care needs. The Authority may enroll these children in MCOs on a case-by-case basis; children not enrolled in a MCO shall continue to receive services on a FFS basis;

(b) Until December 31, 2017, women who are pregnant and meet the qualifications in sub-sections A through E below may receive OHP benefits on a FFS basis for physical health only until 60 days after the birth of her child. Women meeting the criteria for the pregnancy enrollment exemption for their physical health plan coverage will continue to be enrolled in the appropriate MCO or CCO plan in their service area for dental and mental health coverage. After the 60 day period, the member shall enroll in a plan as appropriate. Those women under consideration for a pregnancy enrollment exemption for their physical health enrollment shall receive a response from the Authority within 30 working days of request. Upon approval of the FFS pregnancy exemption for physical health enrollment only, the client shall remain FFS for as long as she continues to meet the requirements in A through E below. In order to qualify for the FFS pregnancy exemption for physical health only, there shall be no home birth option available to the client through her plan and the client shall:

(A) Be pregnant;

(B) State that her intention is to have a home birth;

(C) Have an established relationship for the purpose of home birth with a licensed qualified practitioner who is not a participating provider with the client’s MCO;

(D) Make a request to change to FFS. This request can be made at any point in the pregnancy prior to delivery; and

(E) Meet any OAR and statutory requirements that define when a home birth is eligible for reimbursement by the Authority:

(i) Should a woman become unable to meet any of the requirements specified in OAR 333-076-0650(1), Table 1, either upon initial evaluation or once the
exemption is granted, the exemption shall be withdrawn, and the client will be subject to MCO enrollment requirements as stated in OAR 410-141-3060;

(ii) Conditions arising during the pregnancy as listed in subsections (I) through (V) below shall be reviewed by the Authority on a case-by-case basis for continuation of the FFS enrollment exemption:

(I) Fetal presentation other than vertex when known;

(II) Abnormal bleeding;

(III) Low–lying placenta within 2 cm. or less of cervical os;

(IV) Genital herpes, primary; secondary uncoverable at onset of labor; and

(V) Current substance abuse that has the potential to adversely affect labor and the infant.

(c) The following apply to clients and exemptions relating to organ transplants:

(A) Newly eligible clients are exempt from enrollment with an MCO if the client is newly diagnosed and under the treatment protocol for an organ transplant;

(B) Newly eligible clients with existing transplants shall enroll into the appropriate MCO for their service area;

(d) Other just causes to preserve continuity of care include the following considerations:

(A) Enrollment would pose a serious health risk; and

(B) The Authority finds no reasonable alternatives.

(7) Unless exempted above, enrollment is mandatory in all areas served by an MCO.

(8) When a service area changes from mandatory to voluntary, the member will remain with their PHP for the remainder of their eligibility period unless the member meets the criteria stated in this rule or as provided by OAR 410-141-0080.

(9) If the client resides in a mandatory service area and fails to select a DCO, MHO, PCO, or FCHP at the time of application for the OHP, the Authority shall enroll the client with a DCO, MHO, PCO, or FCHP as follows:

(a) The client shall be assigned to and enrolled with a DCO, MHO, PCO, or FCHP that meets the following requirements where MCO enrollment is not available or services are not available through the MCO:
(A) Is open for enrollment;

(B) Serves the county in which the client resides;

(C) Has practitioners located within the community-standard distance for average travel time for the client.

(b) Assignment shall be made first to an MCO;

(c) The Authority shall send a notice to the client informing the client of the assignments and the right to change assignments within 30 calendar days of enrollment. A change in assignment shall be honored if there is another DCO, MHO, PCO, or FCHP open for enrollment in the county in which the client resides;

(10) Clients shall be enrolled with PHPs according to the following criteria:

(a) Areas with sufficient physical health service capacity through a combination of Coordinated Care Organizations (CCOs), Fully Capitated Health Plans (FCHP), and Physician Care Organizations (PCO) shall be called mandatory service areas. In mandatory service areas, a client shall select:

(A) A CCO; or

(B) An FCHP or PCO:

   (i) If the client has an existing relationship with a provider who is contracted with the FCHP or PCO; and

   (ii) If approved by the Authority.

(b) Service areas without sufficient physical health service capacity shall be called voluntary service areas. In voluntary service areas, a client has the option to:

(A) Select a CCO; or

(B) Select an FCHP or PCO;

   (i) If the client has an existing relationship with a provider who is contracted with the FCHP or PCO; and

   (ii) If approved by the Authority; or

(C) Remain in the Medicaid fee-for-service (FFS) physical health care delivery system.
(c) Service areas with sufficient mental health and dental care service capacity through MHOs and DCOs shall be called mandatory MHO and DCO service areas. A client shall select an MHO and DCO in a mandatory MHO and DCO service area if mental health and dental services are not available through a CCO or the client is otherwise exempt from CCO enrollment;

(d) Service areas without sufficient dental care service capacity through MHOs and DCOs shall be called voluntary MHO and DCO service areas. In voluntary MHO and DCO service areas, a client may choose to:

   (A) Select a CCO open to enrollment that offers dental services; or
   
   (B) Select any MHO and DCO open for enrollment if CCO enrollment is not available; or
   
   (C) Remain in the Medicaid FFS mental health and dental care delivery system;

(11) Enrollments resulting from assignments shall be effective the first of the month or week after the Department enrolls the client and notifies the client of enrollment and the name of the PHP: If enrollment is initiated by an Authority worker on or before Wednesday, the date of enrollment shall be the following Monday. If enrollment is initiated by an Authority worker after Wednesday, the date of enrollment shall be one week from the following Monday. Monthly enrollment in a mandatory service area, where there is only one plan or DCO, shall be initiated by an auto-enrollment program of the Authority, effective the first of the month following the month-end cutoff. Monthly enrollment in service areas, where there is a choice of PHPs, shall be auto-enrolled by computer algorithm.

(12) The provision of capitated services to a member enrolled with a PHP shall begin as of the effective date of enrollment with the MCO except for:

   (a) A newborn whose mother was enrolled at the time of birth. The date of enrollment shall be the newborn’s date of birth;

   (b) Persons, other than newborns, who are hospitalized on the date enrolled. The date of enrollment shall be the first possible enrollment date after the date the client is discharged from inpatient hospital services;

   (c) For members who are re-enrolled within 30 calendar days of disenrollment, the date of enrollment shall be the date specified by the Authority and may be earlier than the effective date outlined above.

410-141-0065 – Fully Capitated Health Plan or Physician Care Organization (FCHP or PCO) Enrollment Requirements for Individuals Receiving Residential Substance Use Disorder (SUD) Treatment Services

This rule implements and further describes how the Oregon Health Authority (Authority) will administer its authority under 410-141-0060 for purposes of making enrollment decisions and 410-141-0080 for purposes of making disenrollment decisions for the adult and adolescent individuals receiving residential SUD treatment services;

(1) The Authority has determined that, to the maximum extent possible, all individuals should be enrolled at the next available enrollment date following eligibility, redetermination, or upon review by the Authority, unless disenrollment is authorized by the Authority in accordance with this section, OAR 410-141-0050 and OAR 410-141-0080

(2) If the Authority determines that disenrollment should occur, the FCHP or PCO will continue to be responsible for providing covered services until the disenrollment date established by the Authority, which shall provide for an adequate transition to the next responsible FCHP or PCO when applicable.

(3) It is not unusual for individuals to receive residential SUD treatment services outside of their residential or home county and outside of the FCHP or PCO's delivery service area. Receiving residential SUD treatment is considered a temporary absence from the individual's residential or home county and does not represent a change of residence or a change in enrollment when the individual is reasonably likely to return to the FCHP or PCO's delivery service area at the end of the residential treatment stay.

(4) If the individual is enrolled in a FCHP or PCO on the same day the individual is admitted to the residential treatment services, the managed care organization shall be responsible for the covered services during that placement even if the location of the facility is outside of the FCHP or PCO's service area;

(5) The individual is presumed to continue to be enrolled in the FCHP or PCO with which the individual was most recently enrolled. An admission to a residential SUD facility is deemed a temporary placement and does not constitute a change of residence for the purposes of FCHP or PCO enrollment and does not constitute a basis for disenrollment from the FCHP or PCO, notwithstanding OAR 410-1 41-0080(2)(b)(F). If the Authority determines that an individual was disenrolled for reasons not consistent with these rules, the Authority will re-enroll the individual with the appropriate FCHP or PCO and assign an enrollment date that provides for continuous FCHP or PCO coverage with the appropriate FCHP or PCO. If the individual was enrolled in a different FCHP or PCO in error, the Authority will disenroll the individual and recoup the capitation payments.

(6) If the individual is enrolled in a FCHP or PCO after the first day of an admission to a residential SUD treatment service facility, the individual will be retro effectively
disenrolled from the FCHPO or PCO, and capitation will be recouped. The date of enrollment shall be effective the next available enrollment date following discharge from the residential FCHP or PCO treatment service facility.

(a) The name of the drug;

(b) The FDA approved indications that identifies the drug may be used to treat a severe mental health condition; and,

(c) The reason that the Division should consider this drug for carve out.

(9) Upon receipt of a request from an FCHP or PCO requesting a drug not be paid within the capitation rate of the FCHP or PCO, the Division shall exclude the drug from capitation rate for the following January contract cycle if the Division determines that the drug has an approved FDA indication for the treatment of a severe mental health condition such as major depressive, bi-polar or schizophrenic disorders.

(10) The Division will pay for a drug that is not included in the capitation rate pursuant to the Pharmaceutical Services Program rules (chapter 410, division 121). An FCHP or PCO may not reimburse providers for carved out drugs.
(11) FCHPs and PCOs shall submit quarterly utilization data, within 60 days of the date of service, as part of the Centers for Medicare and Medicaid Services (CMS) Medicaid Drug Rebate Program requirements pursuant to Section 2501 of the Affordable Care Act.

0410-141-0080 – Managed Care Disenrollment from Prepaid Health Plans

For purposes of this rule, “Managed Care Prepaid Health Plan” means Fully Capitated Health Plan, Dental Care Organization, Physician Care Organization, and Mental Health Organization.

(1) All Oregon Health Plan (OHP) member-initiated requests for disenrollment from a Prepaid Health Plan (PHP) shall be initiated, orally or in writing, by the primary person in the benefit group enrolled with a PHP, where primary person and benefit group are defined in OAR 461-001-0000, 461-001-0035 and 461-110-0750, respectively. For members who are not able to request disenrollment on their own, the request may be initiated by the member’s representative.

(2) In accordance with 42 CFR 438.56(c)(2), the Authority and PHP shall honor a member or representative request for disenrollment for the following:

(a) Without cause:

(A) Newly eligible members may change their PHP assignment within 12 months following the date of initial enrollment. The effective date of disenrollment shall be the first of the month following the Division’s approval of disenrollment;

(B) At least once every 12 months;

(C) Existing members may change their PHP assignment within 30 days of the Authority’s automatic assignment or reenrollment in a PHP;

(D) In accordance with ORS 414.645, members may disenroll from a PHP during their redetermination (enrollment period) or one additional time during their enrollment period based on the members choice and with Authority approval. The disenrollment shall be considered “recipient choice.”

(b) With cause:

(A) At any time;

(B) Members who disenroll from a Medicare Advantage plan shall also be disenrolled from the corresponding PHP. The effective date of disenrollment shall be the first of the month that the member’s Medicare Advantage plan disenrollment is effective;

(C) Members who are receiving Medicare (dual eligible) and who are enrolled in a PHP that has a corresponding Medicare Advantage component shall be disenrolled from the PHP if the contractor has declared its decision to disenroll members in accordance with OAR 410-141-0060 in the annual Dual Eligible Clients with Medicare Advantage Plans (Schedule 5) form. The effective date of
disenrollment from the PHP shall be the first of the month following the date of request for disenrollment. Dual eligible shall receive choice counseling prior to reassignment;

(D) PHP does not, because of moral or religious objections, cover the service the member seeks;

(E) The member needs related services (for example a cesarean section and a tubal ligation) to be performed at the same time, not all related services are available within the network, and the member’s primary care provider or another provider determines that receiving the services separately would subject the member to unnecessary risk; or

(F) Other reasons including, but not limited to, poor quality of care, lack of access to services covered under the contract, or lack of access to participating providers experienced in dealing with the member's health care needs. Examples of sufficient cause include, but are not limited to:

   (i) The member moves out of the PHP's service area;

   (ii) The member is a Native American or Alaskan Native with Proof of Indian Heritage who wishes to obtain primary care services from his or her Indian Health Service facility, tribal health clinic/program, or urban clinic and the Fee-For-Service (FFS) delivery system;

   (iii) Continuity of care that is not in conflict with any section of 410-141-0060 or this rule. Participation in the Oregon Health Plan, including managed care, does not guarantee that any member has a right to continued care or treatment by a specific provider. A request for disenrollment based on continuity of care shall be denied if the basis for this request is primarily for the convenience of a member or a provider of a treatment, service, or supply including, but not limited to, a decision of a provider to participate or decline to participate in a PHP;

   (iv) As specified in ORS 414.645, the Authority may approve the transfer of 500 or more members from one PHP to another PHP if:

      (I) The members' provider has contracted with the receiving PHP and has stopped accepting patients from or has terminated providing services to members in the transferring PHP; and

      (II) Members are offered the choice of remaining enrolled in the transferring PHP; and

      (III) The member and all family (case) members shall be transferred to the provider’s new PHP;
(IV) The transfer shall take effect when the provider’s contract with their current PHP contractual relationship ends or on a date approved by the Division;

(V) Members may not be transferred under section 2(E)(vi) until the Division has evaluated the receiving PHP and determined that the PHP meets criteria established by the Division as stated in rule including, but not limited to, ensuring that the PHP maintains a network of providers sufficient in numbers, areas of practice, and geographically distributed in a manner to ensure that the health services provided under the contract are reasonably accessible to members; and

(VI) The Division shall provide notice of a transfer to members that will be affected by the transfer at least 90 days before the scheduled date of the transfer.

(G) Members whose request for disenrollment is denied shall receive notice in accordance with OAR 410-141-0263 and 410-141-3263 of their right to file a grievance or request a hearing over the denial.

(c) If the following conditions are met:

(A) The applicant is in the third trimester of her pregnancy and has just been determined eligible for OHP, or the OHP client has just been redetermined eligible and was not enrolled in a PHP within the past three months; and

(B) The new PHP the member is enrolled with does not contract with the member’s current OB provider, and the member wishes to continue obtaining maternity services from that non-participating OB provider; and

(C) The request to change PHP or return to FFS is made prior to the date of delivery;

(d) For purposes of a member’s right to file a grievance or request a hearing, disenrollment does not include the following:

(A) Transfer of a member from a PHP to a CCO or DCO;

(B) Involuntary transfer of a member from a PHP to another PHP; or

(C) Automatic enrollment of a member in a PHP.

(e) Member disenrollment requests are subject to the following requirements:

(A) The member shall join another PHP unless the member resides in a service area where enrollment is voluntary, or the member meets the exemptions to
enrollment as stated in 410-141-0060(4), and the member meets disenrollment criteria stated in 42 CFR 438.56(c)(2), or there isn’t another PHP in the service area;

(B) The effective date of disenrollment shall be the end of the month in which disenrollment was requested unless the Division approves retroactively;

(C) If the Division fails to make a disenrollment determination by the first day of the second month following the month in which the member files a request for disenrollment, the disenrollment is considered approved.

(3) The PHP may not disenroll members solely for the following reasons:

(a) Because of a physical, intellectual, developmental, or mental disability;

(b) Because of an adverse change in the member’s health;

(c) Because of the member's utilization of services, either excessive or lack thereof;

(d) Because the member requests a hearing;

(e) Because the member exercises their option to make decisions regarding their medical care with which the PHP disagrees;

(f) Because of uncooperative or disruptive behavior resulting from the member's special needs.

(4) Subject to applicable disability discrimination laws, the Division may disenroll members for cause when the PHP requests it for cause that includes, but is not limited to, the following:

(a) Member commits fraudulent or illegal acts related to the member’s participation in OHP such as: permitting the use of their medical ID card by others, altering a prescription, theft, or other criminal acts. The PHP shall report any illegal acts to law enforcement authorities and, if appropriate, to DHS Fraud Investigations Unit at 1-888-Fraud01 (1-888-372-8301) or http://www.oregon.gov/DHS/aboutdhs/Pages/fraud/index.aspx consistent with 42 CFR 455.13;

(b) Member became eligible through a hospital hold process and placed in the Adults and Couples category as required under 410-141-0060(4).

(c) Requests by the PHP for routine disenrollment of specific members shall include the following procedures to be followed and documented prior to requesting disenrollment of a member:
(A) A request shall be submitted in writing to the Coordinated Account Representative (CAR). The PHP shall document the reasons for the request, provide written evidence to support the basis for the request, and document that attempts at intervention were made;

(B) There shall be notification from the provider to the PHP at the time the problem is identified. The notification shall describe the problem and allow time for appropriate resolution by the PHP. Such notification shall be documented in the member's clinical record. The PHP shall conduct provider education or training regarding the need for early intervention, disability accommodation, and the services available to the provider;

(C) The PHP shall contact the member either verbally or in writing if it is a severe problem to inform the member of the problem that has been identified and attempt to develop an agreement with the member regarding the issues. Any contact with the member shall be documented in the member's clinical record. The PHP shall inform the member that their continued behavior may result in disenrollment from the PHP;

(D) The PHP shall provide individual education, disability accommodation, counseling, and other interventions with the member in a serious effort to resolve the problem;

(E) The PHP shall contact the member's care team regarding the problem and, if needed and with the agreement of the member, involve the care team and other appropriate individuals working with the member in the resolution within the laws governing confidentiality;

(F) If the severity of the problem warrants, the PHP shall develop a care plan that details how the problem is going to be addressed and coordinate a care conference with the member, their care team, and other individuals chosen by the member. If necessary, the PHP shall obtain an authorization for release of information from the member for the providers and agencies in order to involve them in the resolution of the problem. If the release is verbal, it shall be documented in the member’s record;

(G) The PHP shall submit any additional information or assessments requested by the Division CAR;

(H) The Authority shall notify the member in writing of a disenrollment made as defined in the section above;

(I) If the member's behavior is uncooperative or disruptive including, but not limited to, threats or acts of physical violence, as the result of his or her special needs or disability, the PHP shall also document each of the following:
(i) A written description of the relationship of the behavior to the special needs or disability of the individual and whether the individual's behavior poses a direct threat to the health or safety of others. Direct threat means a significant risk to the health or safety of others that cannot be eliminated by a modification of policies, practices, or procedures. In determining whether a member poses a direct threat to the health or safety of others, the PHP shall make an individualized assessment based on reasonable judgment that relies on current medical knowledge or best available objective evidence to ascertain the nature, duration, and severity of the risk to the health or safety of others, the probability that potential injury to others shall actually occur, and whether reasonable modifications of policies, practices, or procedures shall mitigate the risk to others;

(ii) A PHP-staffed interdisciplinary team review that includes a mental health professional or behavioral specialist and other health care professionals who have the appropriate clinical expertise in treating the member's condition to assess the behavior, the behavioral history, and previous history of efforts to manage behavior;

(iii) If warranted, a clinical assessment of whether the behavior will respond to reasonable clinical or social interventions;

(iv) Documentation of any accommodations that have been attempted and why the accommodations haven’t worked;

(v) Documentation of the PHP's rationale for concluding that the member's continued enrollment in the PHP seriously impairs the PHP's ability to furnish services to either this particular member or other members;

(vi) If a Primary Care Provider (PCP) terminates the member as a patient, the PHP shall attempt to locate another PCP on their panel who will accept the member as their patient. If needed, the PHP shall obtain an authorization for release of information from the member in order to share the information necessary for a new provider to evaluate whether they can treat the member. All terminations of members as patients shall be according to the PHP's policies and shall be consistent with PHP or PCP's policies for commercial members and with applicable disability discrimination laws. The PHP shall determine whether the PCP's termination of the member as a patient is based on behavior related to the member's disability and shall provide education to the PCP about disability discrimination laws.

(d) In addition to the requirements as stated above, requests by the PHP for an exception to the routine disenrollment process shall include the following:

(A) In accordance with 42 CFR 438.56, the PHP shall submit a request in writing to the CAR for approval. An exception to the disenrollment process may only be
requested for members who have committed an act of or made a credible threat of physical violence directed at a health care provider, the provider’s staff, other patients, or the PHP’s staff so that it seriously impairs the PHP’s ability to furnish services to either this particular member or other members. A credible threat means that there is a significant risk that the member will cause grievous physical injury to others (including, but not limited to, death) in the near future, and that risk cannot be eliminated by a modification of policies, practices, or procedures. The PHP shall document the reasons for the request and provide written evidence to support the basis for the request prior to requesting an Exception to the Disenrollment Process of a Member;

(B) The provider shall immediately notify the PHP about the incident with the member. The notification shall describe the problem and shall be maintained for documentation purposes;

(C) The PHP shall attempt and document contact with the member and their care team regarding the problem and, if needed, involve the care team and other appropriate individuals in the resolution within the laws governing confidentiality;

(D) The PHP shall provide any additional information requested by the CAR, the Authority, or Department of Human Services assessment team;

(E) If the member’s behavior could reasonably be perceived as the result of his or her special needs or disability, the PHP shall also document each of the following:

(i) A written description of the relationship between the behavior to the special needs or disability of the individual and whether the individual’s behavior poses a credible threat of physical violence as defined above;

(ii) In determining whether a member poses a credible threat to the health or safety of others, the PHP shall make an individualized assessment based on reasonable judgment that relies on current medical knowledge or best available objective evidence to ascertain the nature, duration, and severity of the risk to the health or safety of others, the probability that potential injury to others will actually occur, and whether reasonable modifications of policies, practices, or procedures will mitigate the risk to others;

(F) Documentation shall exist that verifies the provider or PHP immediately reported the incident to law enforcement. The PHP shall submit a copy of the police report or case number. If a report is not available, submit a signed entry in the member’s clinic record documenting the report to law enforcement or other reasonable evidence;
(G) Documentation shall exist that verifies what reasonable modifications were considered and why reasonable modifications of policies, practices, or procedures will not mitigate the risk to others;

(H) Documentation shall exist that verifies any past incidents and attempts to accommodate similar problems with this member;

(I) Documentation shall exist that verifies the PHP’s rationale for concluding that the member’s continued enrollment in the PHP seriously impairs the PHP’s ability to furnish services to either this particular member or other members.

(e) Approval or denial of disenrollment requests shall include the following:

(A) If there is sufficient documentation, the request shall be evaluated by the PHP's CAR or a team of CARs who may request additional information from Ombudsman Services or other agencies as needed. If the request involves the member’s mental health condition or behaviors related to substance abuse, the CAR shall also confer with the Division's substance use disorder specialist;

(B) In cases where the member is also enrolled in the PHP’s Medicare Advantage plan, the PHP shall provide proof to the Division of CMS’ approval to disenroll the member. If approved by the Division, the date of disenrollment from both plans shall be the disenrollment date approved by CMS;

(C) If there is not sufficient documentation, the CAR shall notify the PHP within two business days of initial receipt what supporting documentation is needed for final consideration of the request;

(D) The CARs shall review the request and notify the PHP of the decision within ten working days of receipt of sufficient documentation from the PHP;

(E) Written decisions including reasons for denials shall be sent to the PHP within 15 working days from receipt of request and sufficient documentation from the CAR.

(5) The following procedures apply to all denied disenrollment requests:

(a) The CAR shall send the member a notice within five days after the decision for denial with a copy to the PHP and the member’s care team;

(b) The notice shall give the reason for the denial of the disenrollment request and the notice of a member's right to file a complaint (as specified in 410-141-0260 through 410-141-0266) and to request an administrative hearing in accordance with 42 CFR 438.56;
(c) Written decisions including the reason for denials shall be sent to the PHP within 15 working days from receipt of request and sufficient documentation from the CAR.

(6) The following procedures apply to all approved disenrollment requests:

(a) The CAR shall send the member a notice within five days after the request was approved with a copy to the PHP and the member's care team;

(b) The notice shall give the disenrollment date, the reason for disenrollment, and the notice of the member's right to file a complaint (as specified in 410-141-0260 through 410-141-0266) and to request an administrative hearing and the option to continue enrollment in the PHP pending the outcome of the hearing, in accordance with 42 CFR 438.420. If the member requests a hearing, the disenrollment will proceed unless the member requests continued enrollment, pending a decision;

(c) The disenrollment effective date will be ten calendar days after the disenrollment notice is sent to the member, unless the member requests a hearing and ongoing enrollment, pending a hearing decision. The disenrollment will take effect immediately upon the issuing of a hearing officer's decision to uphold disenrollment;

(d) If disenrollment is approved, the CAR shall contact the member's care team to arrange enrollment in a different plan. The Division may require the member to obtain services from FFS providers until such time as they can be enrolled with another PHP;

(e) If no other PHP is available to the member, the member will be exempt from enrollment in that type of managed care plan for 12 months. If a member who has been disenrolled for cause is re-enrolled in the PHP, the PHP may request a disenrollment review by the CAR. A member may not be involuntarily disenrolled from the same PHP for a period of more than 12 months. If the member is re-enrolled after the 12-month period and the PHP again requests disenrollment for cause, the request shall be referred to the OHA assessment team for review.

(7) Other reasons for the PHP's request for disenrollment shall include the following:

(a) If the member is enrolled in the PHP on the same day the member is admitted to the hospital, the PHP shall be responsible for said hospitalization. If the member is enrolled after the first day of the inpatient stay, the member shall be disenrolled and enrolled on the next available enrollment date following discharge from inpatient hospital services;

(b) The member has surgery scheduled at the time their enrollment is effective with the PHP, the provider is not on the PHP's provider panel, and the member wishes to have the services performed by that provider;
(c) The Medicare member is enrolled in a Medicare Advantage plan and was receiving hospice services at the time of enrollment in the PHP;

(d) The member had End Stage Renal Disease at the time of enrollment in the PHP;

(e) Excluding the DCOs, if the PHP determines that the member has Third Party Liability (TPL), the PHP will contact the Health Insurance Group (HIG) to request disenrollment;

(f) If a PHP has knowledge of a member’s change of address, the PHP shall notify the member’s care team. The care team shall verify the address information and disenroll the member from the PHP, if the member no longer resides in the PHP’s service area. Members shall be disenrolled if out of the PHP’s service area for more than three months, unless previously arranged with the PHP. The effective date of disenrollment shall be the date specified by the Division and if a partial month remains, the Division shall recoup the balance of that month’s capitation payment from the PHP;

(g) The member is an inmate who is serving time for a criminal offense or confined involuntarily in a state or federal prison, jail, detention facility, or other penal institution. This does not include members on probation, house arrest, living voluntarily in a facility after their case has been adjudicated, infants living with an inmate, or inmates who become inpatients. The PHP is responsible for identifying the members and providing sufficient proof of incarceration to the Division for review of the disenrollment request. The Division shall approve requests for disenrollment from PHPs for members who have been taken into custody;

(h) The member is in a state psychiatric institution.

(8) The Division has authority to initiate and disenroll members as follows:

(a) If informed that a member has a third party insurer (TPL), the Division shall refer the case to the HIG for investigation and possible exemption from PHP enrollment. The Division shall disenroll members who have TPL effective the end of the month in which HIG makes such a determination. In some situations, the Division may approve retroactive disenrollment;

(b) If the member moves out of the PHP’s service area, the effective date of disenrollment shall be the date specified by the Division, and the Division shall recoup the balance of that month’s capitation payment from the PHP;

(c) If the member is no longer eligible for the Oregon Health Plan, the effective date of disenrollment shall be the date specified by the Division;

(d) If the member dies, the last date of enrollment shall be the date of death.
(9) Unless specified otherwise in these rules or in the Division notification of disenrollment to the PHP, all disenrollments are effective the end of the month the Authority approves the request with the following exceptions:

(a) The Authority may retroactively disenroll or suspend enrollment when the member is taken into custody. The effective date shall be the date the member was incarcerated.

(b) The Authority may retroactively disenroll enrollment if the member has TPL pursuant to this rule. The effective date shall be the end of the month in which HIG makes the determination.

(1) Prepaid Health Plans (PHPs) shall have written policies and procedures that ensure the provision of all medically and dentally appropriate covered services, including urgent care services and emergency services, preventive services and ancillary services, and in those categories of services included in contract or agreements with the Division of Medical Assistance Programs (Division) and Addictions and Mental Health (AMH). PHPs shall communicate these policies and procedures to providers, regularly monitor providers’ compliance with these policies and procedures, and take any corrective action necessary to ensure provider compliance. PHPs shall document all monitoring and corrective action activities:

(a) PHPs shall ensure that all participating providers providing covered services to Division members are credentialed upon initial contract with the PHP and recredentialed no less frequently than every three years thereafter. The credentialing and recredentialing process shall include review of any information in the National Practitioners Databank and a determination based on the requirements of the discipline or profession that participating providers have current licensure in the state in which they practice, appropriate certification, applicable hospital privileges, and appropriate malpractice insurance. This process shall include a review and determination based on the activity and results of a professional quality improvement review. PHPs may elect to contract for or to delegate responsibility for this process. PHPs shall accept both the Oregon Practitioner Credentialing Application and the Oregon Practitioner Recredentialing Application, both of which were approved by the Advisory Committee on Physician Credentialing Information (ACPI) on September 28, 2004, thereby implementing ORS 442.807. PHPs shall retain responsibility for delegated activities including oversight of the following processes:

(A) PHPs shall ensure that covered services are provided within the scope of license or certification of the participating provider or facility and within the scope of the participating provider’s contracted services and that participating providers are appropriately supervised according to their scope of practice;

(B) PHPs shall provide training for PHP staff and participating providers and their staff regarding the delivery of covered services, Oregon Health Plan (OHP) administrative rules, and the PHP’s administrative policies;

(C) PHPs shall maintain records documenting academic credentials, training received, licenses or certifications of staff and facilities used, and reports from the National Practitioner Data Bank and shall provide accurate and timely information about license or certification expiration and renewal dates to the Division. PHPs may not refer Division members to or use providers who do not have a valid license or certification required by state or federal law. If a PHP knows or has reason to know that a provider’s license or certification is expired or
not renewed or is subject to licensing or certification sanction, the PHP shall immediately notify the member’s Provider Services Unit.

(D) PHPs may not refer members to or use providers who have been terminated from the Division or excluded as Medicare and Medicaid providers by Centers for Medicare and Medicaid (CMS) or who are subject to exclusion for any lawful conviction by a court for which the provider could be excluded under 42 CFR 1001.101. PHPs may not accept billings for services to members provided after the date of such provider’s exclusion, conviction, or termination. The Oregon Health Authority (Authority) has developed disclosure statement forms for individual practitioners and entities. If a PHP wishes to use their own disclosure statement form, they shall submit to their Coordinated Care Account Representative (CAR) for Authority approval prior to use. PHPs shall obtain information required on the appropriate disclosure form from individual practitioners and entities and shall retain the disclosure statements in the PHP credential files. If a PHP knows or has reason to know that a provider has been convicted of a felony or misdemeanor related to a crime or violation of federal or state laws under Medicare, Medicaid, or Title XIX (including a plea of “nolo contendere”), the PHP shall immediately notify the Division’s Provider Services Unit.

(E) PHPs shall obtain and use the Division’s provider enrollment (encounter) number for providers when submitting provider capacity reports. Only registered National Provider Identifiers (NPIs) and taxonomy codes are to be used for purposes of encounter data submission, prior to submitting encounter data in connection with services by the provider. Effective January 1, 2007, provider number “999999” may no longer be used in encounter data reporting or provider capacity reporting. PHPs shall require each qualified provider to have and use a National Provider Identifier as enumerated by the National Plan and Provider Enumeration System (NPPES).

(F) The provider enrollment request (for encounter purposes) and disclosure statement described in paragraphs (D) and (E) require the disclosure of taxpayer identification numbers. The taxpayer identification number will be used for the administration of this program including provider enrollment, internal verification and administrative purposes for the medical assistance program, administration of tax laws, and may be used to confirm whether the individual or entity is subject to exclusion from participation in the medical assistance program. Taxpayer identification number includes Employer Identification Number (EIN), Social Security Number (SSN), and the Individual Tax Identification Number (ITIN) used to identify the individual or entity on the enrollment request form or disclosure statement. Disclosure of tax identification numbers for these purposes is mandatory. Failure to submit the requested taxpayer identification number(s) may result in denial of enrollment as a provider, denial of a provider number for encounter purposes, denial of continued enrollment as a provider, and deactivation of all provider numbers used by the provider for encounters.
(b) FCHPs, Physician Care Organization (PCOs), and Dental Care Organizations (DCOs) shall have written procedures that provide newly enrolled members with information about which participating providers are currently not accepting new patients (except for staff models);

(c) FCHPs, PCOs, and DCOs shall have written procedures that allow and encourage a choice of a Primary Care Provider (PCP) or clinic for physical health and dental health services by each member. These procedures shall enable a member to choose a participating PCP or clinic (when a choice is available for PCPs or clinics) to provide services within the scope of practice to that member;

(d) If the member does not choose a PCP within 30 calendar days from the date of enrollment, the FCHP or PCO shall ensure the member has an ongoing source of primary care appropriate to his or her needs by formally designating a practitioner or entity. FCHPs and PCOs that assign members to PCPs or clinics shall document the unsuccessful efforts to elicit the member’s choice before assigning a member to a PCP or clinic. FCHPs and PCOs who assign PCPs before 30 calendar days after enrollment shall notify the member of the assignment and allow the member 30 calendar days after assignment to change the assigned PCP or clinic.

(2) In order to make advantageous use of the system of public health services available through county health departments and other publicly supported programs and to ensure access to public health services through contract under ORS Chapter 414-153:

(a) Unless cause can be demonstrated to the member’s satisfaction why such an agreement is not feasible, FCHPs and PCOs shall execute agreements with publicly funded providers for payment of point-of-contact services in the following categories:

(A) Immunizations;

(B) Sexually transmitted diseases; and

(C) Other communicable diseases.

(b) The following services may be received by Division members from appropriate non-participating Medicaid providers. If the following services are not referred by the FCHP or PCO in accordance with the FCHP’s or PCO’s referral process (except as provided for under 410-141-0420 Billing and Payment under the OHP), the member is responsible for payment of such services:

(A) Family planning services; and

(B) Human immunodeficiency virus (HIV) and acquired immune deficiency syndrome (AIDS) prevention services.
(c) FCHPs and PCOs are encouraged to execute agreements with publicly funded providers for authorization of and payment for services in the following categories:

(A) Maternity case management;

(B) Well-child care;

(C) Prenatal care;

(D) School-based clinic services;

(E) Health services for children provided through schools and Head Start programs; and

(F) Screening services to provide early detection of health care problems among low-income women and children, migrant workers, and other special population groups.

(d) Recognizing the social value of partnerships between county health departments, other publicly supported programs, and health providers, FCHPs and PCOs are encouraged to involve publicly supported health care and service programs in the development and implementation of managed health care programs through inclusion on advisory and planning committees;

(e) FCHPs and PCOs shall report to the Division on their status in executing agreements with publicly funded providers and on the involvement of publicly supported health care and service programs in the development and implementation of their program on an annual basis.

(3) FCHPs and PCOs shall ensure a newly enrolled member receives timely, adequate, and appropriate health care services necessary to establish and maintain the health of the member. An FCHP’s liability covers the period between the member’s enrollment and disenrollment with the FCHP, unless the member is hospitalized at the time of disenrollment. In such an event, an FCHP is responsible for the inpatient hospital services until discharge or until the member’s PCP or designated practitioner determines the care is no longer medically appropriate.

(4) A PCO’s liability covers the period between the member’s enrollment and disenrollment with the PCO, unless the member is hospitalized at the time of disenrollment. In such an event, the PCO is not responsible for the inpatient hospital services by definition and the inpatient hospital services will be the responsibility of the Division.

(5) The member shall obtain all covered services, either directly or upon referral, from the PHP responsible for the service from the date of enrollment through the date of disenrollment.
(6) FCHPs and PCOs with a Medicare HMO component and MHOs have significant and shared responsibility for capitated services and shall coordinate benefits for shared members to ensure that the member receives all medically appropriate services covered under respective capitation payments. If the fully dual eligible member is enrolled in a FCHP or PCO with a Medicare HMO component, the following apply:

   (a) Mental health services covered by Medicare shall be obtained from the FCHP or PCO or upon referral by the FCHP or PCO;

   (b) Mental health services that are not covered by the FCHP or PCO that are covered by the MHO shall be obtained from the MHO or upon referral by the MHO.

(7) PHPs shall coordinate services for each member who requires services from agencies providing health care services not covered under the capitation payment. The PCP shall arrange, coordinate, and monitor other medical and mental health or dental care for that member on an ongoing basis except as provided for in Section (7)(c) of this rule:

   (a) PHPs shall establish and maintain working relationships with local or allied agencies, community emergency service agencies, and local providers;

   (b) PHPs shall refer members to the divisions of the Authority and local and regional allied agencies that may offer services not covered under the capitation payment;

   (c) FCHPs and PCOs may not require members to obtain the approval of a PCP in order to gain access to mental health and Substance Use Disorder assessment and evaluation services. Division members may refer themselves to MHO services.

410-141-0140 – Oregon Health Plan Prepaid Health Plan (PHP) Emergency and Urgent Care Services

(1) PHPs shall have written policies and procedures and monitoring systems that ensure the provision of appropriate urgent, emergency, and triage services 24-hours a day, 7-days-a-week for all Division of Medical Assistance Programs (Division) members. PHPs shall:

(a) Communicate these policies and procedures to Participating Providers;

(b) Regularly monitor participating providers' compliance with these policies and procedures; and

(c) Take any corrective action necessary to ensure participating provider's compliance. PHPs shall document all monitoring and corrective action activities.

(2) PHPs shall have written policies and procedures and monitoring processes to ensure that a practitioner provides a medically or dentally appropriate response as indicated to urgent or emergency calls consisting of the following elements:

(a) Telephone or face-to-face evaluation of the Division member to determine the nature of the situation and the Division member's immediate need for services;

(b) Capacity to conduct the elements of an assessment that is needed to determine the interventions necessary to begin stabilizing the urgent or emergency situation;

(c) Development of a course of action at the conclusion of the assessment;

(d) Provision of services and/or referral needed to address the urgent or emergency situation, begin post-stabilization care or provide outreach services in the case of a Mental Health Organization (MHO);

(f) Provision for notifying other providers requesting approval to treat Division members of the determination.

(3) PHPs shall ensure the availability of an after-hours call-in system adequate to triage urgent care and emergency calls from Division members. Urgent calls shall be returned appropriate to the Division member's condition but in no event more than 30 minutes after receipt. If information is not adequate to determine if the call is urgent, the call shall be returned within 60 minutes in order to fully assess the nature of the call. If information is adequate to determine the call may be emergent in nature, the call shall be returned immediately.
(4) If a screening examination in an emergency room leads to a clinical determination by the examining physician that an actual emergency medical condition exists under the prudent layperson standard as defined in emergency services, the PHP must pay for all services required to stabilize the patient, except as otherwise provided in (6) of this rule. The PHP may not require prior authorization for emergency services:

(a) The PHP may not retroactively deny a claim for an emergency screening examination because the condition, which appeared to be an emergency medical condition under the prudent layperson standard, turned out to be non-emergency in nature;

(b) The PHP may not limit what constitutes an emergency medical condition based on lists of diagnoses or symptoms;

(c) The PHP may not deny a claim for emergency services merely because the primary care physician (PCP) was not notified, or because the PHP was not billed within 10 calendar days of the service.

(5) When a Division member's primary care provider, designated practitioner or other health plan representative instructs the Division member to seek emergency care, in or out of the network, the PHP is responsible for payment of the screening examination and for other medically appropriate services. Except as otherwise provided in (6) of this rule, the PHP is responsible for payment of post-stabilization care that was:

(a) Pre-authorized by the PHP;

(b) Not pre-authorized by the PHP if the PHP (or the on-call provider) failed to respond to a request for pre-authorization within one hour of the request being made, or the PHP or Provider on call could not be contacted; or

(c) If the PHP and the treating physician cannot reach an agreement concerning the Division member's care and a PHP representative is not available for consultation, the PHP must give the treating physician the opportunity to consult with a PHP physician and the treating physician may continue with care of the patient until a PHP physician is reached or one of the following criteria is met:

(A) The participating provider with privileges at the treating hospital assumes responsibilities for the Division member's care;

(B) The participating provider assumes responsibility for the Division member's care through transfer;

(C) A contractor representative and the treating physician reach an agreement concerning the Division member's care; or

(D) The Division member is discharged.
(6) Physician Care Organization (PCO) responsibility with regard to emergency services, urgent care services, or post stabilization care services is as follows:

(a) A PCO is not financially responsible for emergency services, urgent care services, or post stabilization services, to the extent such services are inpatient hospital services. The PCO shall not authorize, cause, induce or otherwise furnish any incentive for emergency services, urgent care services, or post stabilization services to be rendered as inpatient hospital services except to the extent medically appropriate.

(b) A PCO is financially responsible for post stabilization services (other than inpatient hospital services) obtained by Division members within or outside the PCO's network under the following circumstances:

   (A) Post stabilization services have been authorized by the PCO's authorized representative;

   (B) Post stabilization services have not been authorized by the PCO's authorized representative, but are administered to maintain the Division member's stabilized condition within 1 hour of a request to the PCO's authorized representative for approval of further post stabilization services;

   (C) Post stabilization services have not been authorized by the PCOs authorized representative, but are administered to maintain, improve, or resolve the Division member's stabilized condition if:

       (i) The PCO's authorized representative does not respond to a request for authorization within 1 hour;

       (ii) The PCO's authorized representative cannot be contacted; or

       (iii) The PCO's authorized representative and the treating physician cannot reach an agreement concerning the Division member's care and the participating provider is not available for consultation. In this situation, the PCO must give the treating physician the opportunity to consult with the participating provider and the treating physician may continue with the care of the Division member until the participating provider is reached or one of the criteria in section (6) of this rule has been met.

(c) The PCO's financial responsibility for non-Inpatient post-stabilization services it has not approved ends when:

   (A) The participating provider with privileges at the treating hospital assumes responsibilities for the Division member's care;
(B) The participating provider assumes responsibility for the Division member's care through transfer;

(C) A PCO representative and the treating physician reach an agreement concerning the Division member's care; or

(D) The Division member is discharged.

(7) PHPs shall have methods for tracking inappropriate use of emergency care and shall take action, individual Division member counseling, to improve appropriate use of urgent and emergency care settings. DCOs and MHOs shall be responsible for taking action to improve appropriate use of urgent and emergency care settings for dental or mental health related care when inappropriate use of emergency care is made known to them through reporting or other mechanisms.

(1) PHPs shall have written policies, procedures, and monitoring systems that ensure the provision of Medical Case Management Services and delivery of primary care to and coordination of health care services for all members:

(a) PHPs are to coordinate and manage capitated services and non-capitated services and ensure that referrals made by the PHP's providers to other providers for covered services are noted in the appropriate Division member's clinical record;

(b) PHPs shall ensure members receiving Exceptional Needs Care Coordination (ENCC) services for the aged, blind, or disabled who have complex medical needs as described in 410-141-0405 are noted in the appropriate Division member's record. ENCC is a service available through Fully Capitated Health Plans (FCHPs) or Physician Care Organizations (PCOs) that is separate from and in addition to medical case management services;

(c) These procedures must ensure that each member has an ongoing source of primary care appropriate to his or her needs and a practitioner or entity formally designated as primarily responsible for coordinating the health care services furnished to the member in accordance with OAR 410-141-0120;

(d) FCHPs and PCOs shall communicate these policies and procedures to providers, regularly monitor providers' compliance with these policies and procedures, and take any corrective action necessary to ensure provider compliance. FCHPs and PCOs shall document all monitoring and corrective action activities:

(ii) If the member is enrolled in a FCHP or PCO with a Medicare HMO component or Medicare Advantage, then Medicare covered mental health services shall be obtained from the FCHP or PCO or upon referral by the FCHP or PCO, respectively. Mental health services that are not covered by the FCHP or PCO but are covered by the MHO shall be obtained from the MHO or upon referral by the MHO.

(C) PHPs shall have written procedures for referrals that ensure adequate prior notice of the referral to referral providers and adequate documentation of the referral in the member's clinical record;

The procedures shall address notification of acceptance or denial and entry of information into the PCP’s clinical record;

(I) FCHPs and PCOs shall have written policies and procedures to ensure information on all emergency department visits is entered into the member’s appropriate PCP’s clinical record. FCHPs and PCOs shall communicate this policy and procedure to providers, monitor providers’ compliance with this policy and procedure, and take corrective action necessary to ensure compliance;

(J) If a member is hospitalized in an inpatient or outpatient setting for a covered service, PHPs shall ensure that:

   (i) A notation is made in the member’s appropriate PCP’s clinical record of the reason, date, and expected duration of the hospitalization;

(3) For members living in residential facilities or homes providing ongoing care, FCHPs and PCOs shall provide medications in a manner that is consistent with the appropriate medication dispensing system of the facility, which meets state dispensing laws. FCHPs and PCOs shall provide emergency prescriptions on a 24-hour basis.

(4) For members who are discharged to post hospital extended care, the FCHP shall notify the appropriate Authority office at the time of admission to the skilled nursing facility (SNF) and begin appropriate discharge planning. The FCHP is not responsible for the post hospital extended care benefit unless the member was a member of the FCHP during the hospitalization preceding the nursing facility placement. The FCHP shall notify the nursing facility and the member no later than two full working days prior
to discharge from post hospital extended care. For members who are discharged to Medicare Skilled Care, the appropriate DHS office shall be notified at the time the FCHP learns of the admission. The FCHP shall initiate appropriate discharge planning at the time of the notification to the Authority office.

(5) PHPs shall coordinate the services the PHP furnishes to members with the services the member receives from any other PHP (FCHP, PCO, DCO, CDO, or MHO) in accordance with OAR 410-141-0120 (6). (6) When a member’s care is being transferred from one PHP to another or for clients transferring from fee-for-service to a PHP, the PHP shall make every reasonable effort within the laws governing confidentiality to coordinate transfer of the client into the care of a PHP participating provider.

(7) PHPs shall make attempts to contact targeted Division populations by mail, telephone, in person, or through the Authority within the first three months of enrollment to assess medical, mental health, or dental needs appropriate to the PHP. The PHP shall, after reviewing the assessment, refer the member to his PCP or other resources as indicated by the assessment. Targeted populations shall be determined by the PHP and approved by the Division.

(8) MHOs shall establish working relationships with the Local Mental Health Authorities (LMHAs) and Community Mental Health Programs (CMHPs) operating in the service area for the purposes of maintaining a comprehensive and coordinated mental health delivery system and to help ensure member access to mental health services that are not provided under the capitation payment.

(11) MHOs shall use a multi-disciplinary team service planning and case management approach for members requiring services from more than one public agency. This approach shall help avoid service duplication and assure timely access to a range and intensity of service options that provide individualized, medically appropriate care in the least restrictive treatment setting (e.g., clinic, home, school, community).
(12) MHOs shall consult with and provide technical assistance to FCHPs and PCOs to help assure that mental health conditions of members are identified early so that intervention and prevention strategies can begin as soon as possible.

410-141-0220 – Managed Care Prepaid Health Plan Accessibility

(1) Prepaid Health Plans (PHPs) shall have written policies and procedures that ensure access to all covered services for all members. PHPs shall communicate these policies and procedures to participating providers, regularly monitor participating providers’ compliance with these policies and procedures, and take any corrective action necessary to ensure participating provider compliance. PHPs shall document all monitoring and corrective action activities. PHPs shall not discriminate between members and non-members as it relates to benefits and covered services to which they are both entitled:

(a) PHPs shall have written policies and procedures that ensure for 90 percent of their members in each service area, routine travel time or distance to the location of the PCP does not exceed the community standard for accessing health care participating providers. The travel time or distance to PCPs shall not exceed the following, unless otherwise approved by the Division:

(A) In urban areas: 30 miles, 30 minutes, or the community standard, whichever is greater;

(B) In rural areas: 60 miles, 60 minutes, or the community standard, whichever is greater.

(b) PHPs shall maintain and monitor a network of appropriate participating providers sufficient to ensure adequate service capacity to provide availability of and timely access to medically appropriate covered services for members:

(A) PHPs shall have an access plan that establishes standards for access, outlines how capacity is determined, and establishes procedures for monthly monitoring of capacity and access and for improving access and managing risk in times of reduced participating provider capacity. The access plan shall also identify populations in need of interpreter services and populations in need of accommodation under the Americans with Disabilities Act;

(B) PHPs shall make the services it provides including: specialists, pharmacy, hospital, vision, and ancillary services as accessible to members in terms of timeliness, amount, duration, and scope as those services are to non-members within the same service area. These providers shall have the expertise to treat, take into account, and accommodate the full range of medical, dental, or mental health conditions experienced by these members, including emotional, disturbance and behavioral responses, and combined or multiple diagnoses.

(2) PHPs enrollment standards:

(a) PHPs shall remain open for enrollment unless the Authority has closed enrollment because the PHP has exceeded their enrollment limit or does not have sufficient capacity to provide access to services as mutually agreed upon by the Division and the PHP;

(b) PHPs enrollment may also be closed by the Division due to sanction provisions;

(3) If a PHP is assumed by another PHP, members shall be automatically enrolled in the succeeding PHP. The member will have 30 calendar days to request disenrollment from the succeeding PHP. If the succeeding PHP is a Medicare Advantage plan, those members who are Medicare beneficiaries shall not be automatically enrolled but shall be offered enrollment in the succeeding PHP.

(a) A PHP may provide less than the required 90 calendar-day notice to the Authority upon approval by the Authority when the PHP must terminate a participating provider or participating provider group due to problems that could compromise member care, or when such a participating provider or participating provider group terminates its contract with the PHP and refuses to provide the required 90 calendar-day notice;

(b) If DHS must notify members of a change in participating providers or PHPs, the PHP shall provide the Authority with the name, prime number, and address label of the members affected by such changes at least 30 calendar days prior to the planned effective date of such activity. PHPs must monitor waiting time for clients at least through complaint and appeal reviews, termination reports, and member surveys to determine if waiting times for clients in all settings are appropriate;

(c) PHPs shall have written procedures and a monitoring system for timely follow-up with members when participating providers have notified the PHP that the members have failed to keep scheduled appointments. The procedures shall address determining why appointments are not kept, the timely rescheduling of missed appointments, as deemed medically or dentally appropriate, documentation in the clinical record or non-clinical record of missed appointments, recall or notification efforts, and outreach services. If failure to keep a scheduled appointment is a symptom of the member’s diagnosis or disability or is due to lack of transportation to the PHP’s participating provider office or clinic, PHPs shall provide outreach services as medically appropriate;

(d) PHPs shall have policies and procedures that ensure participating providers will attempt to contact members if there is a need to cancel or reschedule the member's appointment and there is sufficient time and a telephone number available;

(e) PHPs shall have written policies and procedures to triage the service needs of members who walk into the PCP's office or clinic with medical, mental health, or dental care needs. (6) PHPs shall have written policies and procedures that ensure the maintenance of 24-hour telephone coverage (not a recording) either on site or through call sharing or an answering service, unless this requirement is waived in writing by the Division because the PHP submits an alternative plan that will provide equal or improved telephone access:

When medically appropriate, all such calls shall be forwarded to the on-call PCP who shall respond immediately to calls which may be emergent in nature. If information is inadequate to determine if the call is urgent, the call shall be returned within 60 minutes;

PHPs shall have written procedures and trained staff to communicate with hearing impaired members via TDD/TTY;

(f) PHPs shall monitor compliance with the policies and procedures governing 24-hour telephone coverage and on-call PCP coverage, take corrective action as needed, and report findings to the PHP's quality improvement committee;

(g) PHPs shall monitor such arrangements to ensure that the arrangements provide access to 24-hour care. PHPs shall, in addition, have telephone coverage at PHP's
administrative offices that will permit access to PHPs’ administrative staff during normal office hours including lunch hours.

(7) PHPs shall develop written policies and procedures for communicating with and providing care to members who have difficulty communicating due to a medical condition or who are living in a household where there is no adult available to communicate in English or where there is no telephone:

(b) PHPs shall provide or ensure the provision of qualified interpreter services for covered medical, mental health, or dental care visits including home health visits to interpret for members with hearing impairment or in the primary language of non-English speaking members. Such interpreters shall be linguistically appropriate and be capable of communicating in English and the primary language of the member and be able to translate clinical information effectively. Interpreter services shall be sufficient for the provider to be able to understand the member’s complaint, to make a diagnosis, to respond to the member's questions and concerns, and to communicate instructions to the member;

(c) PHPs shall ensure the provision of care and interpreter services that are culturally appropriate, i.e., demonstrating both awareness for and sensitivity to cultural differences and similarities and the effect of those on the medical care of the member;

(B) Such a plan shall include procedures to determine whether members are receiving accommodations for access and to determine what will be done to remove existing barriers and to accommodate the needs of members;

410-141-0264 – Contested Case Hearings

(1) An individual who is or was a Division member at the time of the notice of action is entitled to a contested case hearing if a Prepaid Health Plan (PHP) has denied requested services, payment of a claim, or terminates, discontinues or reduces a course of treatment, or any other action.

   (a) If a member receives an adverse notice of action, the member may file a request for a contested case hearing:

   (b) If a member receives an adverse notice of appeal resolution from the PHP, the member may request a contested case hearing based on the notice of appeal resolution:

   (c) Contested case hearings are governed by OAR 410-120-1860, 410-120-1865, and this rule.

(2) A written hearing request must be received by the Division not later than the 45th day following the date of the Notice of Action, or if the hearing request was initiated after an appeal, not later than the 45th day following the Notice of Appeal Resolution.

(3) Effective, February 1, 2012, the method described in OAR 137-003-0520(8)–(10) is used in computing any period of time prescribed in the division of rules in OAR 410 division 120 and 141 applicable to timely filing of requests for hearing. Due to operational conflicts, the procedures needing revision and the expense of doing so, OAR 137-003-0520(9) and 137-003-0528(1)(a), which allows hearing requests to be treated as timely based on the date of postmark, does not apply to Division hearing requests.

(4) A member who may be entitled to continuing benefits may request and receive continuing benefits in the same manner and same amount while an appeal or contested case hearing is pending.

   (a) To be entitled to continuing benefits, the member must complete a hearing request or request for appeal, requesting continuing benefits, no later than:

       (A) The tenth day following the date of the notice or the notice of appeal resolution; and

       (B) The effective date of the action proposed in the notice, if applicable.

   (b) In determining timeliness under section (4)(a) of this rule, delay caused by circumstances beyond the control of the member is not counted.

   (c) The benefits must be continued until:
(A) A final appeal resolution resolves the appeal, unless the member requests a hearing with continuing benefits, no later than ten days following the date of the notice of appeal resolution;

(B) A final order resolves the contested case;

(C) The time period or service limits of a previously authorized service have been met; or

(D) The member withdraws the request for hearing.

(5) The Division representative shall review the hearing request, documentation related to the hearing issue, and computer records to determine whether the claimant or the individual for whom the request is being made is or was a Division member at the time the action was taken, and whether the hearing request was timely.

(6) PHPs shall immediately transmit to the Division any hearing request submitted on behalf of a member, including a copy of the notice of action and, if applicable, notice of appeal resolution.

(7) If the member files a request for hearing with the Division, the Division shall send a copy of the hearing request to the PHP.

(8) PHPs shall review a hearing request, which has not been previously received or reviewed as an appeal, using the PHP’s appeal process as follows:

(a) The appeal shall be reviewed immediately and shall be resolved, if possible, within 16 calendar days, pursuant to OAR 410-141-0262;

(b) The PHP shall provide the member with a written notice of appeal resolution.

(9) When a member requests a hearing, the PHP shall cooperate with providing relevant information required for the hearing process to the Division, as well as the results of the review by the PHP of the appeal and the administrative hearing request, and any attempts at resolution by the PHP.

(10) Information about members used for administrative hearings is handled in confidence consistent with ORS 411.320, 42 CFR 431.300 et seq, the Health Insurance Portability and Accountability Act (HIPAA) Privacy Rules, and other applicable federal and state confidentiality laws and regulations. The Division shall safeguard the member’s right to confidentiality of information used in the hearing as follows:

(a) The Division, the member and their representative, the PHP and any practitioner whose authorization, treatment, services, items, or request for payment is involved in the hearing may use this information for purposes of resolving the hearing without a signed release from the member. The Division may also use this information,
pursuant to OAR 410-120-1360(4), for health oversight purposes, and for other purposes authorized or required by law. The information may also be disclosed to the Office of Administrative Hearings and the Administrative Law Judge assigned to the hearing and to the Court of Appeals if the member seeks judicial review of the final order;

(b) Except as provided in subsection (a), the Division shall ask the member to authorize a release of information regarding the hearing to other individuals. Before any information related to the hearing is disclosed under this subsection, the Division must have an authorization for release of information documented in the hearing file.

(11) The hearings request and the notice of appeal resolution shall be referred to the Office of Administrative Hearings and the hearing will be scheduled.

(a) The parties to the hearing shall include the PHP, the member and his or her representative, or the representative of a deceased member’s estate;

(b) The procedures applicable to the hearing shall be conducted consistent with OAR 410-120-1860 and 410-120-1865;

(c) A final order should be issued or the case otherwise resolved by the Division ordinarily within 90 calendar days from the earlier of the following:

(A) The date the member requested a PHP appeal, not including the number of days the member took to subsequently file a request for hearing or

(B) The date the member filed a request for contested case hearing.

(d) The final order is the final decision of the Division.

(12) If the hearing decision is adverse to the member, the PHP may recover the cost of the services furnished to the member while the hearing is pending, to the extent that they were furnished solely because of the requirements of this rule and in accordance with forth in 42 CFR 438.420.

(13) The PHP must promptly correct the action taken up to the limit of the original request or authorization, retroactive to the date the action was taken, if the hearing decision is favorable to the member, or Division or the PHP decides in the member’s favor before the hearing even if the member has lost eligibility after the date the action was taken:

(a) If the PHP, or a hearing decision reverses a decision to deny, limit, or delay services that were not furnished while the hearing was pending, the PHP must authorize or provide the disputed services promptly and as expeditiously as the member’s health condition requires;
(b) If the PHP, or the hearing decision reverses a decision to deny authorization of services and the member received the disputed services while the hearing was pending, the PHP must pay for the services in accordance with Division policy and regulations in effect when the member requested the services.

(g) FCHPs and PCOs that contract with FQHCs and RHCs shall negotiate a rate of reimbursement that is not less than the level and amount of payment that the FCHP or PCO would make for the same service furnished by a provider who is not an FQHC nor RHC, consistent with the requirements of Balanced Budget Act (BBA) 4712(b)(2).

410-141-0440 – Prepaid Health Plan Hospital Contract Dispute Resolution

When there is a failure to reach agreement on a contract between a Fully Capitated Health Plan (FCHP) or a Physician Care Organization (PCO) and a non Type A, Type B, or Critical Access hospital, the two disagreeing parties must engage in non-binding mediation. This requirement to engage in non-binding mediation does not apply to disagreements involving emergency or urgent services as defined in Oregon Health Plan administrative rules. The hospital, FCHP, and the PCO can call for mediation. If the parties agree on a mediator their selection shall stand. If a mediator cannot be mutually agreed on, the State will make the selection from the recommended names forwarded by each party. The cost of mediation will be evenly split between the FCHP or PCO and the hospital.

(1) The mediation will proceed under the following guidelines:

   (a) Access to care for Oregon Health Plan members is of critical importance;

   (b) Any agreement must operate within the capitation rate received by the FCHP or PCO;

   (c) Reimbursement levels must bear some relationship to the cost of the services;

   (d) Consideration shall be given to the efforts of each part to manage the overall utilization of health care resources and control costs;

   (e) A comparison to statewide averages of each party's cost of services, service utilization rates and administrative costs may be considered in reaching a mediation recommendation.

(2) No client medical information, communication between parties, or any other non public information used in the mediation may be disclosed to any person not a party to the mediation. All such information shall not be admissible nor disclosed in any subsequent administrative, judicial or mediation proceeding.

(3) Within thirty (30) days of the conclusion of the mediation, the mediator will issue a report to the State and to the involved parties that will include mediation findings, and recommendations. All confidential information will be excluded from the mediator's report.

(1) Division members are eligible to receive, subject to section (11) of this rule, those treatments for the condition/treatment pairs funded on the Health Evidence Review Commission (HERC) Prioritized List of Health Services adopted under OAR 410-141-0520 when such treatments are medically or dentally appropriate, except that services shall also meet the prudent layperson standard defined in 410-141-0140. Refer to 410-141-0520 for funded line coverage information.

(2) Medical Assistance Benefit Packages follow practice guidelines adopted by the HERC in conjunction with the Prioritized List of Health Services unless otherwise specified in rule.

(3) Diagnostic services that are necessary and reasonable to diagnose the member’s presenting condition are covered services regardless of the placement of the condition on the Prioritized List of Health Services.

(4) Comfort care is a covered service for a member with a terminal illness.

(5) Preventive services promoting health and reducing the risk of disease or illness are covered services for members. These services include, but are not limited to, periodic medical and dental exams based on age, sex, and other risk factors; screening tests; immunizations; and counseling regarding behavioral risk factors (See OAR 410-141-0520 Prioritized List of Health Services).

(6) Ancillary services are covered subject to the service limitations of the OHP program rules when the services are medically or dentally appropriate for the treatment of a covered condition/treatment pair, or the provision of ancillary services will enable the member to retain or attain the capability for independence or self-care.

(8) In addition to the coverage available under section (1) of this rule, a member may be eligible to receive, subject to section (11), services for treatments that are below the funded line or not otherwise excluded from coverage:

   (a) Services may be provided if it can be shown that:
(A) The OHP member has a funded condition for which documented clinical evidence shows that the funded treatments are not working or are contraindicated; and

(B) Concurrently has a medically related unfunded condition that is causing or exacerbating the funded condition; and

(C) Treating the unfunded medically related condition would significantly improve the outcome of treating the funded condition;

(D) Ancillary services that are excluded and other services that are excluded are not subject to consideration under this rule;

(E) Any unfunded or funded co-morbid conditions or disabilities shall be represented by an ICD-10-CM diagnosis code or when the condition is a mental disorder, represented by DSM-V diagnosis coding to the highest level of axis specificity; and

(F) In order for the treatment to be covered, there shall be a medical determination and finding by the Division for fee-for-service OHP clients or a finding by the Prepaid Health Plan (PHP) for members that the terms of subsection (a)(A)–(C) of this rule have been met based upon the applicable:

(i) Treating physician opinion;

(ii) Medical research;

(iii) Community standards; and

(iv) Current peer review.

(b) Before denying treatment for an unfunded condition for any member, especially a member with a disability or with a co-morbid condition, providers shall determine whether the member has a funded condition/treatment pair that would entitle the member to treatment under the program, and both the funded and unfunded conditions shall be represented by an ICD-10-CM diagnosis code, or when the condition is a mental disorder, represented by DSM-V diagnosis coding to the highest level of axis specificity.

(9) The Division shall maintain a telephone information line for the purpose of providing assistance to practitioners in determining coverage under the OHP Benefit Package of Covered Services. The telephone information line shall be staffed by registered nurses who shall be available during regular business hours. If an emergency need arises outside of regular business hours, the Division shall make a retrospective determination under this section, provided the Division is notified of the emergency situation during the next business day. If the Division denies a requested service, the Division shall provide
written notification and a notice of the right to an administrative hearing to both the OHP member and the treating physician within five working days of making the decision.

(10) If a condition/treatment pair is not on the HERC Prioritized List of Health Services and the Division determines the condition/treatment pair has not been identified by the HERC for inclusion on the list, the Division shall make a coverage decision in consultation with the HERC.

(11) Coverage of services available through the OHP Benefit Package of Covered Services is limited by OAR 410-141-0500 (Excluded Services and Limitations for Oregon Health Plan Clients).

(12) General anesthesia for dental procedures that are medically and dentally appropriate to be performed in a hospital or ambulatory surgical setting may be used only for those members as detailed in OAR 410-123-1490.

(b) “Application” means an entity’s written response to a Request for Application (RFA);

(c) “Award date” means the date on which the Authority acts on the applications by issuing or denying certification and by awarding or not awarding contracts;

(d) “Certification” means the Authority’s determination that an entity meets the standards, set forth in the RFA, for being a CCO, through initial certification or recertification;

(e) “Coordinated Care Services” means fully integrated physical health services, chemical dependency and mental health services, and shall include dental health services as provided in ORS 414.625(3), by July 1, 2014;

(f) "CMS Medicare/Medicaid Alignment Demonstration" means a demonstration proposal by the Authority to CMS that will align and integrate Medicare and Medicaid benefits and financing to the greatest extent feasible for individuals who are eligible for both programs. The Authority and CMS shall jointly establish its timelines and requirements for participation in the Demonstration;

(g) “Entity” means a single legal entity capable of entering into a risk contract that covers coordinated care services with the State and conducting the business of a coordinated care organization;

(h) “Request for Applications (RFA)” means the document used for soliciting applications for certification as a CCO, award of or amendment of a contract coordinated care services, or other objectives as the Authority may determine appropriate for procuring coordinated care services.

(2) The Authority shall establish an application process for entities seeking certification and contracts as CCOs.

(3) The Authority shall use the following RFA processes for CCO certification and contracting:

(a) The Authority shall provide public notice of every RFA on its Web site. The RFA shall indicate how prospective applicants shall be made aware of addenda by posting notice of the RFA on the electronic system for notification to the public of
Authority procurement opportunities, or upon request, by mailing notice of the availability of the RFA to persons that have expressed interest in the RFA;

(b) The RFA process begins with a public notice of the RFA, which shall be communicated using the Authority’s website. A public notice of an RFA shall identify the certification requirements for the contract, the designated service areas where coordinated care services are requested and a sample contract;

(c) The RFA may specify that applicants must submit a letter of intent to the Authority within the specified time period. The letter of intent does not commit any applicant to apply. If a letter of intent is required, the Authority may not consider applications from applicants who fail to submit a timely letter of intent except as provided in the RFA;

(d) The RFA may request applicants to appear at a public meeting to provide information about the application;

(e) The RFA will request information from applicants in order to allow the Authority to engage in appropriate state supervision necessary to promote state action immunity under state and federal antitrust laws;

(f) The Authority shall consider only applications that are responsive, completed as described in the RFA, and submitted in the time and manner described in the RFA. The RFA may require submission of the application on its web portal in accordance with OAR 137-047-0330 (Electronic Procurements). If electronic procurement is used, applications shall be accepted only from applicants who accept the terms and conditions for use of the Authority’s web portal.

(4) At recertification the Authority may permit a current CCO contractor to submit an abbreviated application that focuses only on additional or different requirements specific to the recertification and new contract or the new addenda or capacity, or other purposes within the scope of the RFA;

(5) The Authority shall evaluate applications for certification on the basis of information contained in the RFA, the application and any additional information that the Authority obtains. Application evaluations shall be based on RFA criteria;

(a) The Authority may enter into negotiation with Applicants concerning potential capacity and enrollment in relation to other available, or potentially available, capacity, the number of potential enrollees within the service area, and other factors identified in the RFA;

(b) The Authority shall notify each applicant that applies for certification of its certification status;

(c) Applicants that meet the RFA criteria shall be certified to contract as a CCO.
(6) Review for certification:

(a) The Authority shall issue certification to only applicants that meet the requirements and provide the assurances specified in the RFA. The Authority determines whether the applicant qualifies for certification based on the application and any additional information and investigation that the Authority may require;

(b) The Authority determines an applicant is eligible for certification when the applicant meets the requirements of the RFA, including written assurances, satisfactory to the Authority, that the applicant:

(A) Provides or will provide the coordinated care services in the manner described in the RFA and the Authority’s rules;

(B) Is responsible and meets or will meet standards established by the Authority and DCBS for financial reporting and solvency;

(C) Is organized and operated, and shall continue to be organized and operated, in the manner required by the contract and described in the application; and

(D) Shall comply with any assurances it has given the Authority.

(7) The Authority shall certify CCOs for a period of six years from the date the certification application is approved, unless the Authority certifies a CCO for a shorter period.

(8) The Authority may determine that an applicant is potentially eligible for certification in accordance with section (9). The Authority is not obligated to determine whether an applicant is potentially eligible for certification if, in its discretion, the Authority determines that sufficient applicants eligible for certification are available to attain the Authority’s objectives under the RFA.

(9) The Authority may determine that an applicant is potentially eligible for certification if:

(a) The Authority finds that the applicant is reasonably capable of meeting the operational and solvency requirements of the RFA within a specified period of time; and

(b) The applicant enters into discussions with the Authority about areas of qualification that must be met before the applicant is operationally and financially eligible for certification. The Authority shall determine the date and required documentation and written assurances required from the applicant;

(c) If the Authority determines that an applicant potentially eligible for certification cannot become certified within the time announced in the RFA for contract award, the Authority may:
(A) Offer certification at a future date when the applicant demonstrates, to the Authority's satisfaction, that the applicant is eligible for certification within the scope of the RFA; or

(B) Inform the applicant that it is not eligible for certification.

(10) The Authority may award contracts to certified CCOs for administering the Oregon Integrated and Coordinated Health Care Delivery System.

(11) The Authority shall enter into or renew a contract with a CCO only if the CCO has been certified and the Authority determines that the contract would be within the scope of the RFA and consistent with the purposes and effective administration of the Oregon Integrated and Coordinated Health Care Delivery System, which includes but is not limited to:

(a) The capacity of any existing CCO in the region compared to the capacity of an additional CCO for the number of potential enrollees in the addenda;

(b) The number of CCOs in the region.

(12) The application is the applicant’s offer to enter into a contract and is a firm offer for the period specified in the RFA. The Authority's award of the contract constitutes acceptance of the offer and binds the applicant to the contract:

(a) Except to the extent the applicant is authorized to propose certain terms and conditions pursuant to the RFA, an applicant may not make its offer contingent on the Authority’s acceptance of any terms or conditions other than those contained in the RFA;

(b) Only an entity that the Authority has certified to contract as a CCO may enter into a contract as a CCO. Certification to contract as a CCO does not assure the CCO that it will be offered a CCO contract;

(c) The Authority may award multiple contracts or make a single award or limited number of awards to all certified or potentially certified applicants, in order to meet Authority's needs including but not limited to adequate capacity for the potential enrollees in the service area, maximizing the availability of coordinated care services, and achieving the objectives in the RFA;

(d) Subject to any limitations in the RFA, the Authority may renew a contract for CCO services by amending an existing contract or issuing a replacement contract, without issuing a new RFA;

(e) The suspension or termination of a CCO contract issued under an RFA due to noncompliance with contract requirements or by a CCO’s voluntary suspension or termination shall also be a suspension or termination of certification.
(13) Disclosure of application contents and release of information:

(a) Except for the letter of intent to apply, and the technical application (with the exception of information that has been clearly identified and labeled confidential in the manner specified in the RFA), application information may not be disclosed to any applicant or the public until the award date. No information may be given to any applicant or the public relative to its standing with other applicants before the award date, except under the following circumstances:

(A) The information in the application may be shared with the Authority, DCBS, CMS, and those individuals involved in the application review and evaluation process; and

(B) Information may be provided by the applicant to the public as part of a public review process.

(b) Application information may be disclosed on the award date, with the exception of information that has been clearly identified and labeled confidential in the manner specified in the RFA, and if the Authority determines it meets the disclosure exemption requirements.

(14) CCOs may apply to participate in the CMS Medicare/Medicaid Alignment Demonstration, but participation is not required. This rule does not replace the CMS requirements related to the Medicare/Medicaid Alignment Demonstration, such as the CMS notice of intent to apply and required components for Part D coverage. The RFA provides information about the Demonstration requirements. Upon approval of the Demonstration by CMS, the Authority shall conduct, jointly with CMS, the evaluation for certification for the Medicare/Medicaid Alignment Demonstration and award of three-way contracts between CMS, the state, and applicants who have been certified to contract as a CCO and participate in the Demonstration.

(15) The Authority shall interpret and apply this rule to satisfy federal procurement and contracting requirements in addition to state requirements applicable to contracts with CCOs. The Authority must seek and receive federal approval of CCO contracts.

(16) Except where inconsistent with the preceding sections of this rule, the Authority adopts the following DOJ Model Public Contract Rules (as in effect on January 1, 2012) to govern RFAs and certification and contracting with CCOs:

(a) OAR 137-046 -- General Provisions Related to Public Contracting: 137-046-0100, 137-046-0110 and 137-046-0400 through 137-046-0480;

(b) OAR 137-047 -- Public Procurements for Goods or Services: OAR 137-047-0100, 137-047-0260 through 137-047-0670, 137-047-700 to 137-047-0760 (excluding provisions governing judicial review) and OAR 137-047-0800;
(c) In applying the DOJ Model Rules to RFAs under this rule:

(A) An application is a proposal under the DOJ Model Rules;

(B) An RFA is an RFP under the DOJ Model Rules;

(C) Certification as a CCO is pre-qualification under the DOJ Model Rules;

(D) Provisions of the Public Contracting Code referenced in the DOJ Model Rules are considered to be incorporated therein;

(E) Definitions in the DOJ Model Rules govern this rule except where a term is defined in section (1) of this rule.

(17) Judicial review of the Authority’s decisions relating to a solicitation protest, certification, or contract award is governed by the Oregon Administrative Procedures Act (APA). The RFA may establish when an Authority decision may be considered a final order for purposes of APA review.

Stats. Implemented: ORS 414.610 – 685 OL 2011, Ch 602 Sec. 13, 14, 16, 17, 62, 64 (2) and 65, HB 3650
410-141-3015 – Certification Criteria for Coordinated Care Organizations

(1) Applicants shall submit applications to the Authority describing their capacity and plans for meeting the goals and requirements established for the Oregon Integrated and Coordinated Health Care Delivery System, including being prepared to enroll all eligible individuals within the CCO’s proposed service area. The Authority shall use the RFA procurement process described in OAR 410-141-3010.

(2) In addition to the requirements for CCOs expressed in the laws establishing Health System Transformation, the Authority interprets the qualifications and expectations for CCO certification within the context of the Oregon Health Policy Board’s report, *Coordinated Care Organizations Implementation Proposal: HB 3650 Health System Transformation* (Jan. 24, 2012).

(3) Applicants must describe their demonstrated experience and capacity for:

   (a) Managing financial risk and establishing financial reserves;

   (b) Meeting the following minimum financial requirements:

      (A) Maintaining restricted reserves of $250,000 plus an amount equal to 50 percent of the entity’s total actual or projected liabilities above $250,000;

   (c) Operating within a fixed global budget;

   (d) Developing and implementing alternative payment methodologies that are based on health care quality and improved health outcomes;

   (e) Coordinating the delivery of physical health care, mental health and chemical dependency services, oral health care, and covered long-term care services;

   (f) Engaging community members and health care providers in improving the health of the community and addressing regional, cultural, socioeconomic and racial disparities in health care that exist among the entity’s enrollees and in the entity’s community.

(4) In selecting one or more CCOs to serve a geographic area, the Authority shall:

   (a) For members and potential members, optimize access to care and choice of providers;

   (b) For providers, optimize choice in contracting with CCOs; and
(c) Allow more than one CCO to serve the geographic area if necessary to optimize access and choice under this subsection.

(5) Evaluation of CCO applications shall account for the developmental nature of the CCO system. The Authority recognizes that CCOs and partner organizations will need time to develop capacity, relationships, systems and experience to fully realize the goals envisioned by the Oregon Integrated and Coordinated Health Care Delivery System. The Authority shall thoroughly review how the application describes community involvement in the governance of the CCO and the CCO’s strategic plan for developing its community health assessment and community health improvement plan:

(a) In all cases, CCOs must have plans in place to meet the criteria laid out in these rules and the application process and to make sufficient progress in implementing plans and realizing the goals established in contract;

(b) Each criterion will be listed, followed by the elements that must be addressed during the initial certification described in this rule, without limiting the information that is requested in the RFA concerning these criteria.

(6) Each CCO shall have a governance structure that meets the requirements of ORS 414.625. The applicant must:

(a) Clearly describe how it meets governance structure criteria from ORS 414.625, how the governance structure makeup reflects community needs and supports the goals of health care transformation, the criteria used to select governance structure members; and how it will assure transparency in governance;

(b) Identify key leaders who are responsible for successful implementation and sustainable operation of the CCO;

During this initial implementation period, the Authority holds the following expectations:

(1) Contract provisions, including an approved CCO strategy or plan for implementing health services transformation, shall describe how the CCO must comply with transformation requirements under these rules.

(2) Local and community involvement is required, and the Authority will work with CCOs to achieve flexibilities that may be appropriate to achieve community-directed objectives, including addressing health care for diverse populations.

410-141-3050 – CCO Enrollment for Children Receiving Health Services

Pursuant to OAR 410-141-3060, the Department or Oregon Youth Authority (OYA) shall select CCOs for a child receiving Department or OYA services in an area where a CCO is available. If a CCO is not available in an area, the Authority or the Department shall enroll the child in accordance with OAR 410-141-0050.

(1) The Authority shall, to the maximum extent possible, ensure that all children are enrolled in CCOs at the next available enrollment date following eligibility determination, redetermination, or upon review by the Authority, unless the Authority authorizes disenrollment from a CCO:

   (a) Except as provided in OAR 410-141-3060 (Coordinated Care Enrollment Requirements), OAR 410-141-3080 (Disenrollment from Coordinated Care Health Plans) or ORS 414.631(2) children are not exempt from mandatory enrollment in a CCO on the basis of third party resources (TPR) coverage;

   (b) The Authority shall review decisions to use fee-for-service (FFS) open card for a child if the child's circumstances change and at the time of redetermination consider whether the Authority or the Department shall enroll the child in a CCO.

(2) When a child is transferred from one CCO to another CCO or from FFS or a PHP to a CCO, the CCO must facilitate coordination of care consistent with OAR 410-141-3160:

   (a) CCOs must work closely with the Authority to ensure continuous CCO enrollment for children;

   (b) If the Authority determines that it should disenroll a child from a CCO, the CCO shall continue to provide health services until the Authority’s established disenrollment date to provide for an adequate transition to the next CCO.

(3) When a child experiences a change of placement that may be permanent or temporary, the Authority shall verify the address change information to determine whether the child no longer resides in the CCO's service area:

   (a) A temporary absence as a result of a temporary placement out of the CCO's service area does not represent a change of residence if the Authority determines that the child is reasonably likely to return to the CCO's service area at the end of the temporary placement;

   (b) A CAF child receiving behavioral rehabilitation services (BRS) is considered a temporary placement;
(c) Children in OYA custody enroll with the CCO serving the geographic area of placement. OYA representatives may request an SAE to maintain CCO coverage on a placement they consider temporary.

(4) If the Authority or the Department enrolls the child in a CCO on the same day the child is admitted to psychiatric residential treatment services (PRTS), the CCO shall pay for covered health services during that placement, even if the location of the facility is outside the CCO’s service area:

(a) The child is presumed to continue to be enrolled in the CCO with which the child was most recently enrolled. The Authority considers an admission to a PRTS facility a temporary placement for purposes of CCO enrollment;

(b) Any address change associated with the placement in the PRTS facility is not a change of residence for purposes of CCO enrollment and may not be a basis for disenrollment from the CCO, unless the provisions in OAR chapter 410 division141 apply;

(c) If the Authority determines that a child was disenrolled for reasons not consistent with these rules, the Authority or Department shall re-enroll the child with the appropriate CCO and assign an enrollment date that provides for continuous coverage with the appropriate CCO. If the child was enrolled in a different CCO in error, the Authority shall disenroll the child from that CCO and recoup the CCO payments.

(5) Except for OAR 410-141-3060 and 410-141-3080, if a child is enrolled in a CCO after the first day of an admission to PRTS, the enrollment effective date shall be immediately upon discharge.

Women receiving services FFS for their physical health plan coverage shall continue to be enrolled in the appropriate CCO plan in their service area for dental and mental health coverage. Sixty days after the estimated date of delivery, the member shall re-enroll in a plan as appropriate. Qualifying criteria are as follows:

(A) Be pregnant;

(B) Have an established relationship with a licensed, practitioner who is not a participating provider with the client’s CCO;

(C) Make a request to change to FFS. This request can be made through the end of the twenty-seventh week and sixth day of pregnancy;

(A) Newly eligible clients are exempt from enrollment with a CCO if the client is newly diagnosed and under the treatment protocol for an organ transplant;

(B) Newly eligible clients with existing transplants shall enroll into the appropriate CCO for their service area.

(d) Other just causes to preserve continuity of care include the following considerations:

(A) Enrollment would pose a serious health risk; and

(B) The Authority finds no reasonable alternatives.

(7) Unless stated above, CCO enrollment is mandatory in all areas served by a CCO. A client who is eligible for or receiving health services shall enroll in a CCO as required by ORS 414.631, except as provided in ORS 414.631(2), (3), (4), and (5) and this rule.

(8) Enrollment is voluntary in service areas without adequate access and capacity to provide health care services through a CCO or PHP.
(9) Enrollment is mandatory in service areas with adequate health care access and capacity to provide health care services through a CCO or PHP. If upon application or redetermination a client does not select a CCO, the Authority shall auto-assign the client and the client’s household to a CCO that has adequate health care access and capacity. The following outlines the priority of enrollment in service areas where enrollment is mandatory and a PHP remains available for enrollment:

(a) Priority 1: The client shall enroll in a CCO that serves that area and has adequate health care access and capacity;

(b) Priority 2: The client has the option to enroll in a PHP through a manual process if:

   (A) The client has an established relationship with a provider who is only contracted with the PHP; or

   (B) The PHP serves an area that a CCO serves, but the CCO has inadequate health care services capacity to accept new members. Clients shall be FFS unless already established with a PHP’s provider.

(c) Priority 3: The client shall receive services on an FFS basis.

(10) If a service area changes from mandatory enrollment to voluntary enrollment, the member shall remain with the PHP for the remainder of their eligibility period or until the Authority or Department redetermines eligibility, whichever comes sooner, unless otherwise eligible to disenroll pursuant to OAR 410-141-3080.

(a) The client shall be enrolled with a CCO if the CCO offers mental health and oral health services; or

(b) The client shall be enrolled with an MHO for mental health services and with a DCO for oral health services if the CCO does not offer those services; or

(c) The client shall be enrolled with a DCO for oral health services and remain FFS for mental health services if an MHO is not available; or

(d) The client shall remain FFS for both mental health and oral health services if an MHO or DCO is unavailable.

(12) The following pertains to the effective date of the enrollment. If the enrollment occurs:
(a) On or before Wednesday, the date of enrollment shall be the following Monday; or

(b) After Wednesday, the date of enrollment shall be one week from the following Monday.

(a) A newborn’s date of birth when the mother was a member of a CCO at the time of birth;

(b) For persons other than newborns who are hospitalized on the date enrolled, the date of enrollment shall be the first possible enrollment date after the date the client is discharged from inpatient hospital services;

(c) For members who are re-enrolled within 60 calendar days of disenrollment, the date of enrollment shall be the date specified by the Authority and may be earlier than the effective date outlined above;

(d) For adopted children or children placed in an adoptive placement, the date of enrollment shall be the date specified by the Authority.

410-141-3065 – Coordinated Care Organization (CCO) Enrollment Requirements for Individuals Receiving Residential Substance Abuse Disorder (SUD) Treatment Services

This rule implements and further describes how the Oregon Health Authority (Authority) will administer its authority under 410-141-3060 for purposes of making enrollment decisions and 410-141-3080 for purposes of making disenrollment decisions for adult and adolescent individuals receiving residential SUD treatment services;

(1) The Authority has determined that, to the maximum extent possible, all individuals should be enrolled at the next available enrollment date following eligibility, redetermination, or upon review by the Authority. Unless disenrollment is authorized by the Authority in accordance with this section, OAR 410-141-3050 or 410-141-3080: If the Authority determines that disenrollment should occur, the CCO will continue to be responsible for providing covered services until the disenrollment date established by the Authority, which shall provide for an adequate transition to the next responsible managed care organization when applicable.

(2) It is not unusual for individuals to receive residential SUD treatment services outside of their residential/home county and outside of the coordinated care organization’s delivery service area. Receiving residential SUD treatment is considered a temporary absence from the individual’s residential/home-county and does not represent a change of residence or a change in enrollment when the individual is reasonably likely to return to the coordinated care organization’s delivery service area at the end of the residential treatment stay.

(3) If the individual is enrolled in a coordinated care organization on the same day the individual is admitted to the residential treatment services, the CCO shall be responsible for the covered services during that placement even if the location of the facility is outside of the CCO’s service area: The individual is presumed to continue to be enrolled in the CCO with which the individual was most recently enrolled. An admission to a residential SUD facility is deemed a temporary placement and does not constitute a change of residence for the purposes of CCO enrollment and does not constitute a basis for disenrollment from the CCO, notwithstanding OAR 410-141-3080. If the Authority determines that an individual was disenrolled for reasons not consistent with these rules, the Authority will re-enroll the individual with the appropriate CCO and assign an enrollment date that provides for continuous CCO coverage with the appropriate CCO. If the individual was enrolled in a different CCO in error, the Authority will disenroll the individual from that CCO and recoup the capitation payments.

(4) If the individual is enrolled in a CCO after the first day of an admission to a residential SUDs treatment service facility, the individual will be retro disenrolled from the CCO, and any capitation payment will be recouped. The date of enrollment shall be effective the next available enrollment date following discharge from the residential SUD treatment service facility.

410-141-3066 – CCO Enrollment Requirements for Temporary Out-of-Area Behavioral Health Treatment Services

(1) For purposes of this rule, the following definitions apply:

(a) “Behavioral Health” means mental health, mental illness, addiction disorders, and substance use disorders;

(b) “Home CCO” means enrollment in a Coordinated Care Organization (CCO) in a given service area, based upon a client’s most recent permanent residency, determined at the time of original eligibility determination or most current point of CCO enrollment prior to hospitalization;

(c) “Temporary Placement” means hospital, institutional, and residential placement only, including those placements occurring inside or outside of the service area with the expectation to return to the Home CCO service area.

(2) The Authority has determined that, to the maximum extent possible, all individuals shall be enrolled at the next available enrollment date following eligibility, redetermination, or upon review by the Authority. This rule implements and further describes how the Authority administers its authority under OAR 410-141-3060 and OAR 410-141-3080 for purposes of making enrollment decisions for adult and young adult individuals, 14 through and including 17 years of age, receiving temporary out-of-area behavioral health treatment services:

(a) For program placements in Child Welfare, Behavioral Rehabilitative Services, Oregon Youth Authority, and Psychiatric Residential Treatment Services, see OAR 410-141-3050 for program specific rules;

(b) For program placements in Secure Children’s In-Patient (SCIP) and Secure Adolescent In-Patient (SAIP), CCOs shall work with the Authority in managing admissions and discharges;

(c) The member shall remain enrolled with the CCO for delivery of SCIP and SAIP services. The CCO shall bear care coordination responsibility for the entire length of stay, including admission, determination, and planning.

(3) Specific to residential settings specializing in the treatment of Substance Use Disorders (SUD), if the individual is enrolled in a CCO on the same day the individual is admitted to the residential treatment services, the CCO shall be responsible for the covered services during that placement even if the location of the facility is outside of the CCO’s service area. The individual is presumed to continue to be enrolled in the CCO with which the individual was most recently enrolled.

(4) CCO assignment is based on the member’s residence and referred to as Home CCO. Home CCO enrollment for temporary out-of-area placement shall:
(a) Meet Oregon residency requirements defined in OAR 410-200-0200;

(b) Be eligible for enrollment into a CCO as specified in OAR 410-141-3060;

(c) Be based on most recent permanent residency and related CCO enrollment history prior to hospital, institutional, and residential placement. If the client has no enrollment history, new enrollment shall reflect most recent permanent residence prior to hospital, institutional, and residential placement; and

(d) Be consistent with OAR 410-141-3080 when the client exercises recipient choice, where the client is able to actively participate in their own recovery and direct their own care. If the client is unable to designate county of residence, as indicated in OAR 410-200-0200, the Authority shall designate the Home CCO as the geographic location of the client at the most recent residency and CCO enrollment prior to hospitalization.

(5) Home CCO enrollment policy for State Hospital discharges shall be implemented as follows:

(a) Upon State Hospital discharge, the Authority and the State Hospital Benefit Coordination Unit shall consult and coordinate with the Home CCO for client placement;

(b) If the client has no residency or enrollment history or no recent pre-hospitalization enrollment history, but the client’s permanent residency is indicated other than temporary placement location, the Authority shall enroll pursuant to section (3) (c) of this rule Home CCO enrollment;

(c) If the client has no residency or enrollment history prior to hospitalization, the Authority shall enroll in placement service area.

(6) For new and existing temporary residential placements, CCOs shall coordinate all behavioral health care and needs including, but not limited to, medication assisted treatment, routine non-emergent physical health care, dental, and transportation when within the scope of the CCO’s contract, including when member’s temporary placements are outside the CCO service area. CCO’s shall coordinate care for members receiving behavioral health treatment while in temporary placement and discharge planning for the return to the Home CCO. Additionally, CCO’s shall coordinate all care for accompanying dependent members.

(7) Enrollment shall follow the Home CCO enrollment policy outlined in this rule, except when:

(a) The Home CCO enrollment hinders access to care or puts the client at potential harm, or the Home CCO is unable to provide needed unique services, a change in
enrollment may be requested for the member to a CCO serving the service area of the temporary out-of-area placement;

(b) Home CCO enrollment may create a continuity of care concern, as specified in OAR 410-141-3080. If a continuity interruption to a client’s care is indicated, the Authority shall align enrollment with the care and claims history.

(8) Pursuant to OAR 410-141-3080, if the Authority determines that an individual was disenrolled for reasons not consistent with these rules, the Authority shall re-enroll the individual with the appropriate CCO and assign an enrollment date that provides for continuous CCO coverage with the appropriate CCO. If the individual was enrolled in a different CCO in error, the Authority shall disenroll the individual from the incorrect CCO and recoup the capitation payments, pursuant to OAR 410-120-1395. Re-enrollment to the correct CCO shall occur as specified in OAR 410-141-3060.

(9) For consideration of disenrollment decisions other than specified in this rule, OAR 410-141-3080 shall apply. If the Authority determines that disenrollment should occur, the CCO shall continue to provide covered services until the disenrollment date established by the Authority, pursuant to 410-141-3160. This shall provide for an adequate transition to the next responsible coordinated care organization.

410-141-3070 – Preferred Drug List Requirements

(1) Prescription drugs are a covered service based on the funded Condition/Treatment Pairs. CCOs shall pay for prescription drugs except:

   (a) As otherwise provided, mental health drugs that are in Standard Therapeutic Class 7 (ataractics-tranquilizers) or Standard Therapeutic Class 11 (psychostimulants-antidepressants), (based on the National Drug Code (NDC) as submitted by the manufacturer to First Data Bank);

   (b) Depakote, Lamictal, and their generic equivalents and those drugs that the Authority specifically carved out from capitation according to sections (8) and (9) of this rule;

   (c) Any applicable co-payments;

   (d) For drugs covered under Medicare Part D when the client is fully dual eligible.

(2) CCOs may use the statewide Practitioner-Managed Prescription Drug Plan under ORS 414.330 to 414.337. CCOs may use a restrictive drug list as long as it allows access to other drug products not on the drug list through some process such as prior authorization (PA). The drug list shall:

   (a) Include Federal Drug Administration (FDA) approved drug products for each therapeutic class sufficient to ensure the availability of covered drugs with minimal prior approval intervention by the provider of pharmaceutical services;

   (b) Include at least one item in each therapeutic class of over-the-counter medications; and

   (c) Be revised periodically to assure compliance with this requirement.

(3) CCOs shall provide their participating providers and their pharmacy subcontractor with:

   (a) Their drug list and information about how to make non-drug listed requests;

   (b) Updates made to their drug list within 30 days of a change that may include, but are not limited to:

      (A) Addition of a new drug;

      (B) Removal of a previously listed drug; and

      (C) Generic substitution.
(4) Preauthorization for prescription drugs marked for urgent review shall be reviewed within 24 hours. If an urgent preauthorization for a prescription drug cannot be completed within 24 hours, the CCO shall provide for the dispensing of at least a 72-hour supply if there is an immediate medical need for the drug. All requests, including those not marked urgent, shall be reviewed and decision rendered within 72 hours of original receipt of the preauthorization request.

(5) CCOs shall authorize the provision of a drug requested by the Primary Care Provider or referring provider if the approved prescriber certifies medical necessity for the drug such as:

(a) The equivalent of the drug listed has been ineffective in treatment; or

(b) The drug listed causes or is reasonably expected to cause adverse or harmful reactions to the member.

(6) Prescriptions for Physician Assisted Suicide under the Oregon Death with Dignity Act are excluded. Payment is governed by OAR 410-121-0150.

(7) CCOs may not authorize payment for any Drug Efficacy Study Implementation (DESI) Less Than Effective (LTE) drugs that have reached the FDA Notice of Opportunity for Hearing (NOOH) stage, as specified in OAR 410-121-0420 (DESI)(LTE) Drug List.

(8) A CCO may seek to add drugs to the list contained in section (1) of this rule by submitting a request to the Authority no later than March 1 of any contract year. The request must contain all of the following information:

(a) The drug name;

(b) The FDA approved indications that identifies the drug may be used to treat a severe mental health condition; and

(c) The reason that the Authority should consider this drug for carve out.

(9) If a CCO requests that a drug not be paid within the global budget, the Authority shall exclude the drug from the global budget for the following January contract cycle if the Authority determines that the drug has an approved FDA indication for the treatment of a severe mental health condition such as major depressive, bi-polar, or schizophrenic disorders.

(10) The Authority shall pay for a drug that is not included in the global budget pursuant to the Pharmaceutical Services program rules (chapter 410, division 121). A CCO may not reimburse providers for carved-out drugs.
(11) CCOs shall submit quarterly utilization data within 60 days of the date of service as part of the CMS Medicaid Drug Rebate Program requirements pursuant to Section 2501 of the Affordable Care Act.

(12) CCOs are encouraged to provide payment only for outpatient and physician administered drugs produced by manufacturers that have valid rebate agreements in place with the CMS as part of the Medicaid Drug Rebate Program. CCOs may continue to have some flexibility in maintaining formularies of drugs regardless of whether the manufacturers of those drugs participate in the Medicaid Drug Rebate Program.

410-141-3080 – Disenrollment from Coordinated Care Organizations

(1) Continuity of care, for purposes of this rule, means the ability to sustain services necessary for a person's treatment. Continuity of care is a concern when a member is transferred from one service provider to another.

(2) All member-initiated requests for disenrollment from a Coordinated Care Organization (CCO) shall be initiated orally or in writing by the primary person in the benefit group enrolled with a CCO where primary person and benefit group are defined in OAR 461-001-0000, 461-001-0035, and 461-110-0750, respectively. For members who are not able to request disenrollment on their own, the request may be initiated by the member's representative.

(3) In accordance with 42 CFR 438.56(c)(2), the Authority or CCO shall honor a member or representative request for disenrollment for the following:

   (a) Without cause:

      (A) Clients may request to change their CCO enrollment within 30 days of the Authority’s automatic or manual enrollment error. If approved, the change would occur during the next weekly enrollment cycle;

      (B) Clients may request to change their CCO enrollment within 90 days of the initial CCO enrollment. If approved, the change would occur during the next weekly enrollment cycle;

      (C) Clients may request to change their CCO enrollment after they have been enrolled with a plan for at least six months. If approved, the change would occur during the end of the month;

      (D) Clients may request to change their CCO enrollment or upon OHP eligibility renewal, as defined in OAR 410-141-3060. The OHP eligibility period is typically 12 months. If approved, the change would occur during the end of the month;

      (E) Clients have one additional opportunity to request a plan change during the eligibility period if none of the above options can be applied. The plan change shall be considered “recipient choice.” If approved, the change would occur at the end of the month. Once the recipient choice option has been applied, the client must be enrolled with the same plan at least six months or until the OHP eligibility renewal, whichever comes first, to request an additional plan change.

   (b) With cause:

      (A) At any time;
(B) Due to moral or religious objections, the CCO does not cover the service the member seeks;

(C) When the member needs related services (for example a cesarean section and a tubal ligation) to be performed at the same time, not all related services are available within the network, and the member’s primary care provider or another provider determines that receiving the services separately would subject the member to unnecessary risk; or

(D) Other reasons including, but not limited to, poor quality of care, lack of access to services covered under the contract, or lack of access to participating providers who are experienced in dealing with the member’s health care needs. Examples of sufficient cause include, but are not limited to:

(i) The member moves out of the CCO service area;

(ii) The member is a Native American or Alaskan Native with Proof of Indian Heritage who wishes to obtain primary care services from his or her Indian Health Service facility, tribal health clinic/program, or urban clinic and the Fee-For-Service (FFS) delivery system;

(iii) Continuity of care that is not in conflict with any section of OAR 410-141-3060, or as defined in this rule. Participation in OHP, including coordinated care or dental care, does not guarantee that any OHP member has a right to continued care or treatment by a specific provider. A request for disenrollment based on continuity of care shall be denied if the basis for this request is primarily for the convenience of an OHP member or a provider of a treatment, service, or supply, including, but not limited to, a decision of a provider to participate or decline to participate in a CCO;

(iv) As specified in ORS 414.647, the Authority may approve the transfer of 500 or more members from one CCO to another CCO if:

(I) The member’s provider has contracted with the receiving CCO and has stopped accepting patients from or has terminated providing services to members in the transferring CCO; and

(II) Members are offered the choice of remaining enrolled in the transferring CCO; and

(III) The member and all family (case) members shall be transferred to the provider’s new CCO; and

(IV) The transfer shall take effect when the provider’s contract with their current CCO contractual relationship ends, or on a date approved by the Division; and
(V) Members may not be transferred under section (2) (E) (vi) until the Division has evaluated the receiving CCO and determined that the CCO meets criteria established by the Division as stated in rule including, but not limited to, ensuring that the CCO maintains a network of providers sufficient in numbers, areas of practice, and geographically distributed in a manner to ensure that the health services provided under the contract are reasonably accessible to members; and

(VI) The Division shall provide notice of a transfer to members affected by the transfer at least 90 days before the scheduled date of the transfer.

(E) If a member’s disenrollment is denied, notice of denial shall be sent to the member pursuant to OAR 410-141-0263 and 410-141-3263 of their right to file a grievance or request a hearing.

(c) If the following conditions are met:

(A) As supported in 42 CFR 438.56(d) (2), if a client is at any point in the third trimester of pregnancy and if the client is newly determined eligible for OHP, or the client is newly re-determined eligible for OHP and not enrolled in a CCO within the past three months; or

(B) If the member is enrolled with a new CCO that does not contract with the member’s current OB provider and the member wishes to continue obtaining maternity services from that non-participating OB provider;

(C) The enrollment exemption shall remain in place until 60 days post date of delivery of the member’s child, at which time the member shall select and be enrolled in the appropriate CCO plan in their service area.

(d) For purposes of a member’s right to file a grievance or request a hearing, disenrollment does not include the following:

(A) Transfer of a member from a PHP to a CCO;

(B) Involuntary transfer of a member from a CCO to another CCO; or

(C) Automatic enrollment of a member in a CCO.

(e) Member disenrollment requests are subject to the following requirements:

(A) The member shall join another CCO unless the member resides in a service area where enrollment is voluntary, or the member meets the exemptions to enrollment set forth in OAR 410-141-3060 or 410-141-0060, or the member meets disenrollment criteria stated in 42 CFR 438.56 (c)(2), or there is not another CCO in the service area;
(B) The effective date of disenrollment shall be the end of the month in which disenrollment was requested unless the Division approves retroactively;

(C) If the Authority fails to make a disenrollment determination by the first day of the second month following the month in which the member files a request for disenrollment, the disenrollment is considered approved.

(4) The CCO may not disenroll members solely for the following reasons:

(a) Because of a physical, intellectual, developmental, or mental disability;

(b) Because of an adverse change in the member’s health;

(c) Because of the member’s utilization of services, either excessive or lack thereof;

(d) Because the member requests a hearing;

(e) Because the member exercises their option to make decisions regarding their medical care with which the CCO disagrees;

(f) Because of uncooperative or disruptive behavior resulting from the member’s special needs.

(5) Subject to applicable disability discrimination laws, the Division may disenroll members for cause when the CCO requests it for cause, which includes, but is not limited to, the following:

(a) The member commits fraudulent or illegal acts related to the member’s participation in the OHP such as: Permitting the use of their medical ID card by others, altering a prescription, theft, or other criminal acts. The CCO shall report any illegal acts to law enforcement authorities and, if appropriate, to DHS Fraud Investigations Unit at 888-Fraud01 (888-372-8301) or http://www.oregon.gov/DHS/aboutdhs/fraud/ as appropriate, consistent with 42 CFR 455.13;

(b) The member became eligible through a hospital hold process and placed in the Adults and Couples category as required under OAR 410-141-3060;

(c) Requests by the CCO for routine disenrollment of specific members shall include the following procedures to be followed and documented prior to requesting disenrollment of a member:

(A) A request shall be submitted in writing to the Coordinated Account Representative (CAR). The CCO shall document the reasons for the request, provide written evidence to support the basis for the request, and document that attempts at intervention were made as described below. The procedures cited
below shall be followed and documented prior to requesting disenrollment of a member;

(B) There shall be notification from the provider to the CCO at the time the problem is identified. The notification shall describe the problem and allow time for appropriate resolution by the CCO. Such notification shall be documented in the member’s clinical record. The CCO shall conduct provider education or training regarding the need for early intervention, disability accommodation, and the services available to the provider;

(C) The CCO shall contact the member either verbally or in writing, if it is a severe problem, to inform the member of the problem that has been identified and attempt to develop an agreement with the member regarding the issue. Any contact with the member shall be documented in the member’s clinical record. The CCO shall inform the member that their continued behavior may result in disenrollment from the CCO;

(D) The CCO shall provide individual education, disability accommodation, counseling, or other interventions with the member in a serious effort to resolve the problem;

(E) The CCO shall contact the member’s care team regarding the problem and, if needed and with the agreement of the member, involve the care team and other appropriate individuals working with the member in the resolution within the laws governing confidentiality;

(F) If the severity of the problem warrants, the CCO shall develop a care plan that details how the problem is going to be addressed and coordinate a care conference with the member, their care team, and other individuals chosen by the member. If necessary, the CCO shall obtain an authorization for release of information from the member for the providers and agencies in order to involve them in the resolution of the problem. If the release is verbal, it shall be documented in the member’s record;

(G) The CCO shall submit any additional information or assessments requested by the Division CAR;

(H) The Authority shall notify the member in writing of a disenrollment made as defined in the section above;

(I) If the member’s behavior is uncooperative or disruptive including, but not limited to, threats or acts of physical violence as the result of his or her special needs or disability, the CCO shall also document each of the following:

   (i) A written description of the relationship of the behavior to the special needs or disability of the individual and whether the individual’s behavior poses a
direct threat to the health or safety of others. Direct threat means a significant risk to the health or safety of others that cannot be eliminated by a modification of policies, practices, or procedures. In determining whether a member poses a direct threat to the health or safety of others, the CCO shall make an individualized assessment based on reasonable judgment that relies on current medical knowledge or best available objective evidence to ascertain the nature, duration, and severity of the risk to the health or safety of others; the probability that potential injury to others shall actually occur; and whether reasonable modifications of policies, practices, or procedures shall mitigate the risk to others;

(ii) A CCO-staffed interdisciplinary team review that includes a mental health professional or behavioral specialist and other health care professionals who have the appropriate clinical expertise in treating the member’s condition to assess the behavior, the behavioral history, and previous history of efforts to manage behavior;

(iii) If warranted, a clinical assessment of whether the behavior will respond to reasonable clinical or social interventions;

(iv) Documentation of any accommodations that have been attempted and why the accommodations haven’t worked;

(v) Documentation of the CCO’s rationale for concluding that the member’s continued enrollment in the CCO seriously impairs the CCO’s ability to furnish services to either this particular member or other members;

(vi) If a Primary Care Provider (PCP) terminates the provider/patient relationship, the CCO shall attempt to locate another PCP on their panel who shall accept the member as their patient. If needed, the CCO shall obtain an authorization for release of information from the member in order to share the information necessary for a new provider to evaluate whether they can treat the member. All terminations of provider/patient relationships shall be according to the CCO’s policies and shall be consistent with CCO or PCP’s policies for commercial members and with applicable disability discrimination laws. The CCO shall determine whether the PCP’s termination of the provider/patient relationship is based on behavior related to the member’s disability and shall provide education to the PCP about disability discrimination laws.

(d) In addition to the requirements in subsection (c), requests by the CCO for an exception to the routine disenrollment process shall include the following:

(A) In accordance with 42 CFR 438.56, the CCO shall submit a request in writing to the CAR for approval. An exception to the disenrollment process may only be requested for members who have committed an act of or made a credible threat
of physical violence directed at a health care provider, the provider’s staff, other patients, or the CCO’s staff so that it seriously impairs the CCO’s ability to furnish services to either this particular member or other members. A credible threat means that there is a significant risk that the member may cause grievous physical injury to others (including but not limited to death) in the near future, and that risk cannot be eliminated by a modification of policies, practices, or procedures. The CCO shall document the reasons for the request and provide written evidence to support the basis for the request prior to requesting an exception to the disenrollment process of a member;

(B) Providers shall immediately notify the CCO about the incident with the member. The notification shall describe the problem and be maintained for documentation purposes;

(C) The CCO shall attempt and document contact with the member and their care team regarding the problem and, if needed, involve the care team and other appropriate individuals in the resolution within the laws governing confidentiality;

(D) The CCO shall provide any additional information requested by the CAR, the Authority, or the Department assessment team;

(E) If the member’s behavior could reasonably be perceived as the result of their special needs or disability, the CCO shall also document each of the following:

   (i) A written description of the relationship between the behavior to the special needs or disability of the individual and whether the individual’s behavior poses a credible threat of physical violence as defined in section (2)(b)(C)(i) of this rule;

   (ii) In determining whether a member poses a credible threat to the health or safety of others, the CCO shall make an individualized assessment, based on reasonable judgment that relies on current medical knowledge or best available objective evidence to ascertain the nature, duration, and severity of the risk to the health or safety of others; the probability that potential injury to others may actually occur; and whether reasonable modifications of policies, practices, or procedures may mitigate the risk to others.

(F) Documentation shall exist that verifies the provider or CCO immediately reported the incident to law enforcement. The CCO shall submit a copy of the police report or case number. If a report is not available, submit a signed entry in the member’s clinical record documenting the report to law enforcement or other reasonable evidence;

(G) Documentation shall exist that verifies what reasonable modifications were considered and why reasonable modifications of policies, practices, or procedures may not mitigate the risk to others;
(H) Documentation shall exist that verifies any past incidents and attempts to accommodate similar problems with this member;

(I) Documentation shall exist that verifies the CCO’s rationale for concluding that the member’s continued enrollment in the CCO seriously impairs the CCO’s ability to furnish services to either this particular member or other members.

(e) Approval or denial of disenrollment requests shall include the following:

(A) If there is sufficient documentation, the request shall be evaluated by the CCO’s CAR or a team of CARs who may request additional information from Ombudsman Services, AMH, or other agencies as needed. If the request involves the member’s mental health condition or behaviors related to substance abuse, the CAR shall also confer with the AMH’s substance use disorder specialist;

(B) In cases where the member is also enrolled in the CCO’s Medicare Advantage plan, the CCO shall provide proof to the Division of CMS’ approval to disenroll the member. If approved by the Division, the date of disenrollment from both plans shall be the disenrollment date approved by CMS;

(C) If there is insufficient documentation, the CAR shall notify the CCO within two business days of initial receipt what supporting documentation is needed for final consideration of the request;

(D) The CARs shall review the request and notify the CCO of the decision within ten working days of receipt of sufficient documentation from the CCO;

(E) Written decisions shall be sent to the CCO within 15 working days from receipt of request and sufficient documentation from the CAR.

(6) The following procedures apply to all denied disenrollment requests:

(a) The CAR shall send the member a notice within five days after the decision for denial with a copy to the CCO and the member’s care team;

(b) The notice shall give the disenrollment date, the reason for disenrollment, and the notice of the member’s right to file a complaint, as specified in 410-141-3260 through 410-141-3266, and to request an administrative hearing and the option to continue enrollment in the PHP pending the outcome of the hearing, in accordance with 42 CFR 438.420. If the member requests a hearing, the disenrollment shall proceed unless the member requests continued enrollment pending a decision;

(c) If disenrollment is approved, the CAR shall contact the member’s care team to arrange enrollment in a different plan. The Division may require the member to
obtain services from FFS providers until such time as they can be enrolled with another CCO;

(d) If no other CCO is available to the member, the member shall be exempt from enrollment in that type of managed care plan for 12 months. If a member who has been disenrolled for cause is re-enrolled in the CCO, the CCO may request a disenrollment review by the CAR. A member may not be involuntarily disenrolled from the same CCO for a period of more than 12 months. If the member is re-enrolled after the 12-month period and the CCO again requests disenrollment for cause, the request shall be referred to the Authority assessment team for review.

(7) The following procedures apply to all approved disenrollment requests:

(a) The CAR shall send the member a notice within five days after the request was approved with a copy to the CCO and the member’s care team;

(b) The notice shall give the disenrollment date, the reason for disenrollment, and the notice of member’s right to file a complaint, as specified in OAR 410-141-3260 through 410-141-3266, and to request an administrative hearing and the option to continue enrollment in the CCO pending the outcome of the hearing, in accordance with 42 CFR 438.420. If the member requests a hearing, the disenrollment shall proceed unless the member requests continued enrollment pending a decision;

(c) The disenrollment effective date shall be ten calendar days after the disenrollment notice is sent to the member, unless the member requests a hearing and ongoing enrollment pending a hearing decision. The disenrollment shall become effective immediately upon the issuing of an Administrative Law Judge’s decision to uphold disenrollment;

(d) If disenrollment is approved, the CAR shall contact the member’s care team to arrange enrollment in a different plan. The Division may require the member to obtain services from FFS providers until such time as they can be enrolled with another CCO;

(e) If no other CCO is available to the member, the member shall be exempt from enrollment in that type of managed care plan for 12 months. If a member who has been disenrolled for cause is re-enrolled in the CCO, the CCO may request a disenrollment review by the CAR. A member may not be involuntarily disenrolled from the same CCO for a period of more than 12 months. If the member is re-enrolled after the 12-month period and the CCO or the member again requests disenrollment for cause, the request shall be referred to the Authority’s assessment team for review.

(8) Other reasons for the CCO’s requests for disenrollment may include the following:
(a) If the member is enrolled in the CCO on the same day the member is admitted to the hospital, the CCO shall be responsible for the hospitalization. If the member is enrolled after the first day of the inpatient stay, the member shall be disenrolled and enrolled on the next available enrollment date following discharge from inpatient hospital services;

(b) The member has surgery scheduled at the time their enrollment is effective with the CCO, the provider is not on the CCO’s provider panel, and the member wishes to have the services performed by that provider;

(c) The Medicare member is enrolled in a Medicare Advantage plan and was receiving hospice services at the time of enrollment in the CCO;

(d) If the CCO determines the member has Third Party Liability (TPL), the CCO shall report the TPL to the Health Insurance Group (HIG) at www.reportTPL.org.HIG and send the CCO an email receipt, including a tracking number. The CCO may use this number, should they choose to follow up on their referral submission, via the provider portal. If the member is determined to have active TPL, HIG shall disenroll the member from the CCO A or B, effective the end of the month the TPL is reported, as referenced above, and the member is not reflected on that month’s 834 report;

(e) If a CCO has knowledge of a member’s change of address, the CCO shall notify the member’s care team. The care team shall verify the address information and disenroll the member from the CCO if the member no longer resides in the CCO’s service area. Members shall be disenrolled if out of the CCO’s service area for more than three months unless previously arranged with the CCO or DCO. The effective date of disenrollment shall be the date specified by the Division, and if a partial month remains, the Division shall recoup the balance of that month’s capitation payment from the CCO;

(f) The member is an inmate who is serving time for a criminal offense or confined involuntarily in a state or federal prison, jail, detention facility, or other penal institution. This does not include members on probation, house arrest, living voluntarily in a facility after their case has been adjudicated, infants living with an inmate, or inmates who become inpatients. The CCO shall identify the members and provide sufficient proof of incarceration to the Division for review of the disenrollment request. The Division shall approve requests for disenrollment from CCO’s for members who have been taken into custody;

(g) The member is in a state psychiatric institution.

(9) The Division may initiate and disenroll members as follows:

(a) If informed that a member has TPL, the Division shall refer the case to the HIG for investigation and possible exemption from CCO enrollment. The Division shall
Oregon Health Plan (MCO and CCO) Rules

disenroll members who have TPL effective the end of the month in which HIG makes such a determination. In some situations, the Division may approve retroactive disenrollment;

(b) If the member moves out of the CCO’s service area, the effective date of disenrollment shall be the date specified by the Division, and the Division shall recoup the balance of that month’s capitation payment from the CCO;

(c) If the member is no longer eligible for OHP, the effective date of disenrollment shall be the date specified by the Division;

(d) If the member dies, the last date of enrollment shall be the date of death.

(10) Unless specified otherwise in these rules or in the Division notification of disenrollment to the CCO, all disenrollments are effective the end of the month the Authority approves the disenrollment with the following exceptions:

(a) The Authority may retroactively disenroll or suspend enrollment when the member is taken into custody. The effective date shall be the date the member was incarcerated;

(b) The Authority may retroactively disenroll the member if they have TPL pursuant to this rule. The effective date shall be the end of the month in which HIG makes the determination.

410-141-3120 – Operations and Provision of Health Services

(1) CCOs shall establish, maintain and operate with a governance structure and community advisory council that is consistent with the requirements of ORS 414.625 and applicable health system transformation laws.

(2) At a minimum, CCOs must provide medically appropriate health services, including flexible services, within the scope of the member’s benefit package of health services in accordance with the Prioritized List of Health Services and the terms of the contract.

(3) CCOs must select providers using universal application and credentialing procedures and objective quality information. CCOs must take steps to remove providers from their provider network that fail to meet objective quality standards:

   (a) CCOs shall ensure that all participating providers providing coordinated care services to members are credentialed upon initial contract with the CCO and recredentialed no less frequently than every three years. The credentialing and recredentialing process shall include review of any information in the National Practitioners Databank. CCOs shall accept both the Oregon Practitioner Credentialing Application and the Oregon Practitioner Recredentialing Application;

   (b) CCOs must screen their providers to be in compliance with 42 CFR 455 Subpart E (42 CFR 455.410 through 42 CFR 455.470) and retain all resulting documentation for audit purposes;

   (c) CCOs may elect to contract for or to delegate responsibility for the credentialing and screening processes; however, CCOs shall be responsible for the following activities, including oversight of the following processes, regardless of whether the activities are provided directly, contracted or delegated:

      (A) Ensuring that coordinated care services are provided within the scope of license or certification of the participating provider or facility and within the scope of the participating provider’s contracted services. They must ensure participating providers are appropriately supervised according to their scope of practice;

      (B) Providing training for CCO staff and participating providers and their staff regarding the delivery of coordinated care services, applicable administrative rules, and the CCOs administrative policies.

   (d) The CCO must provide accurate and timely information to the Authority about:

      (A) License or certification expiration and renewal dates;

      (B) Whether a provider’s license or certification is expired or not renewed or is subject to licensing termination, suspension or certification sanction;
(C) If a CCO knows or has reason to know that a provider has been convicted of a felony or misdemeanor related to a crime, or violation of federal or state laws under Medicare, Medicaid, or Title XIX (including a plea of "nolo contendre").

(e) CCOs may not refer members to or use providers that:

(A) Have been terminated from the Division;

(B) Have been excluded as a Medicaid provider by another state;

(C) Have been excluded as Medicare/Medicaid providers by CMS; or

(D) Are subject to exclusion for any lawful conviction by a court for which the provider could be excluded under 42 CFR 1001.101.

(f) CCOs may not accept billings for services to members provided after the date of the provider's exclusion, conviction, or termination. CCOs must recoup any monies paid for services to members provided after the date of the provider's exclusion, conviction or termination;

(g) CCOs must require each atypical provider to be enrolled with the Authority and must obtain and use registered National Provider Identifiers (NPIs) and taxonomy codes reported to the Authority in the Provider Capacity Report for purposes of encounter data submission, prior to submitting encounter data in connection with services by the provider. CCOs must require each qualified provider to have and use an NPI as enumerated by the National Plan and Provider Enumeration System (NPPES);

(h) The provider enrollment request (for encounter purposes) and credentialing documents require the disclosure of taxpayer identification numbers. The Authority shall use taxpayer identification numbers for the administration of this program including provider enrollment, internal verification and administrative purposes for the medical assistance program, for administration of tax laws. The Authority may use taxpayer identification numbers to confirm whether the individual or entity is subject to exclusion from participation in the medical assistance program. Taxpayer identification number includes Employer Identification Number (EIN), Social Security Number (SSN), Individual Tax Identification Number (ITIN) used to identify the individual or entity on the enrollment request form or disclosure statement. Disclosure of all tax identification numbers for these purposes is mandatory. Failure to submit the requested taxpayer identification numbers may result in denial of enrollment as a provider and denial of a provider number for encounter purposes, or denial of continued enrollment as a provider and deactivation of all provider numbers used by the provider for encounters.

(4) A CCO may not discriminate with respect to participation in the CCO against any health care provider who is acting within the scope of the provider's license or
certification under applicable state law, on the basis of that license or certification. If a CCO declines to include individual or groups of providers in its network, it must give the affected providers written notice of the reason for its decision. This rule may not be construed to:

(a) Require that a CCO contract with any health care provider willing to abide by the terms and conditions for participation established by the CCO; or

(b) Preclude the CCO from establishing varying reimbursement rates based on quality or performance measures. For purposes of this section, quality and performance measures include all factors that advance the goals of health system transformation, including price.

(5) A CCO shall establish an internal review process for a provider aggrieved by a decision under subsection (4) of this rule, including an alternative dispute resolution or peer review process. An aggrieved provider may appeal the determination of the internal review to the Authority.

(6) To resolve appeals made to the Authority under sections (4) and (5) of this rule, the Authority shall provide administrative review of the provider’s appeal, using the administrative review process established in OAR 410-120-1 580. The Authority shall invite the aggrieved provider and the CCO to participate in the administrative review. In making a determination of whether there has been discrimination, the Authority must consider the CCO’s:

(a) Network adequacy;

(b) Provider types and qualifications;

(c) Provider disciplines; and

(d) Provider reimbursement rates.

(7) A prevailing party in an appeal under sections (4) through (6) of this rule shall be awarded the costs of the appeal.

410-141-3140 – Emergency and Urgent Care Services

(1) CCOs shall have written policies, procedures, and monitoring systems that ensure the provision of appropriate urgent, emergency, and triage services 24-hours a day, 7-days-a-week for all members. CCOs shall:

(a) Communicate these policies and procedures to participating providers;

(b) Regularly monitor participating providers’ compliance with these policies and procedures; and

(c) Take any corrective action necessary to ensure compliance. CCOs shall document all monitoring and corrective action activities.

(2) CCOs shall have written policies, procedures, and monitoring processes to ensure that a provider provides a medically or dentally appropriate response as indicated to urgent or emergency calls including but limited to the following:

(a) Telephone or face-to-face evaluation of the member;

(b) Capacity to conduct the elements of an assessment to determine the necessary interventions to begin stabilization;

(c) Development of a course of action;

(d) Provision of services and referral needed to begin post-stabilization care or provide outreach services in the case of a member requiring behavioral health services, or a member who cannot be transported or is homebound;

(e) Provision for notifying a referral emergency room, when applicable, concerning the arriving member’s presenting problem, and whether or not the provider will meet the member at the emergency room; and

(f) Provision for notifying other providers, when necessary, to request approval to treat members.

(3) CCOs shall ensure the availability of an after-hours call-in system adequate to triage urgent care and emergency calls from members or a member’s long-term care provider or facility. The CCO representative shall return urgent calls appropriate to the member’s condition but in no event more than 30 minutes after receipt. If information is not adequate to determine if the call is urgent, the CCO representative shall return the call within 60 minutes to fully assess the nature of the call. If information is adequate to determine that the call may be emergent in nature, the CCO shall return the call.

(4) If emergency room screening examination leads to a clinical determination by the examining provider that an actual emergency medical condition exists under the prudent
layperson standard, the CCO must pay for all services required to stabilize the patient, except as otherwise provided in section (6) of this rule. The CCO may not require prior authorization for emergency services:

(a) The CCO may not retroactively deny a claim for an emergency screening examination because the condition, which appeared to be an emergency medical condition under the prudent layperson standard, turned out to be non-emergent;

(b) The CCO may not limit what constitutes an emergency medical condition based on lists of diagnoses or symptoms;

(c) The CCO may not deny a claim for emergency services merely because the PCP was not notified, or because the CCO was not billed within ten calendar days of the service.

(5) When a member's PCP, designated provider, or other CCO representative instructs the member to seek emergency care, in or out of the network, the CCO shall pay for the screening examination and other medically appropriate services. Except as otherwise provided in section (6) of this rule, the CCO shall pay for post-stabilization care that was:

(a) Pre-authorized by the CCO;

(b) Not pre-authorized by the CCO if the CCO, or the on-call provider, failed to respond to a request for pre-authorization within one hour of the request, or the member could not contact the CCO or provider on call; or

(c) If the CCO and the treating provider cannot reach an agreement concerning the member's care and a CCO representative is not available for consultation, the CCO must give the treating provider the opportunity to consult with a CCO provider. The treating provider may continue with care of the member until a CCO provider is reached or one of the criteria is met.

(6) The CCO's responsibility for post-stabilization care it has not authorized ends when:

(a) The participating provider with privileges at the treating hospital assumes responsibilities for the member's care;

(b) The participating provider assumes responsibility for the member's care through transfer;

(c) A CCO representative and the treating provider reach an agreement concerning the member's care; or

(d) The member is discharged.
(7) CCOs shall have methods for tracking inappropriate use of urgent and emergency care and shall take action, including individual member counseling, to improve appropriate use of urgent and emergency care services. In partnership with CCOs, DCOs shall take action to improve appropriate use of urgent and emergency care settings for dental health care.

(a) CCOs shall educate members about how to appropriately access care from emergency rooms, urgent care and walk-in clinics, non-traditional health care workers, and less intensive interventions other than their primary care home;

(b) CCOs shall apply and employ innovative strategies to decrease unnecessary hospital utilization.

(8) CCOs must limit charges to members for post-stabilization care services to an amount no greater than what the CCO would charge the member if he or she had obtained the services through the CCO. For purposes of cost sharing, post stabilization care services begin upon inpatient admission.

Stats. Implemented: ORS 414.610 – 685 OL 2011, Ch 602 Sec. 13, 14, 16, 17, 62, 64 (2) and 65, HB 3650
410-141-3145 – Community Health Assessment and Community Health Improvement Plans

(1) CCOs must partner with their local public health authority, local mental health authority and hospital systems to develop a shared community health assessment process, including conducting the assessment and development of the resulting community health improvement plan (plan).

(2) CCOs must work with the Authority, to identify the components of the community health assessment. CCOs are encouraged to partner with their local public health authority, hospital system, type B Area Agency on Aging, APD field office and local mental health authority, using existing resources when available and avoiding duplication where practicable.

(3) In developing and maintaining a health assessment, CCOs must meaningfully and systematically engage representatives of critical populations and community stakeholders to create a plan for addressing community health needs that build on community resources and skills and emphasizes innovation including but not limited to the following:

   (a) Emphasis on disproportionate, unmet, health-related need;
   (b) Emphasis on primary prevention;
   (c) Building a seamless continuum of care;
   (d) Building community capacity;
   (e) Emphasis on collaborative governance of community benefit.

(4) The CCO requirements for conducting a community health assessment and community health improvement plan will be met for purposes of this law if they substantially meet the community health needs assessment requirement of the federal Patient Protection and Affordable Care Act, 2010 Section 9007 and the community health assessment and community health improvement plan requirements for local health departments of the Public Health Accreditation Board, and worked with AAA and local mental health authority.

(5) The CCO’s Community Advisory Council shall oversee the community health assessment and adopt a plan to serve as a strategic population health and health care system service plan for the community served by the CCO. The Council shall annually publish a report on the progress of the Plan.

(6) The plan adopted by the Council must describe the scope of the activities, services and responsibilities that the CCO shall consider upon implementation. The activities, services and responsibilities defined in the plan may include, but are not limited to:
(a) Analysis and development of public and private resources, capacities and metrics based on ongoing community health assessment activities and population health priorities;

(b) Health policy;

(c) System design;

(d) Outcome and quality improvement;

(e) Integration of service delivery; and

(f) Workforce development.

(7) CCOs and their participating providers must work together to develop best practices of culturally and linguistically appropriate care and service delivery to eliminate health disparities and improve member health and well-being.

(8) Through their community health assessment and plan, CCOs shall identify health disparities associated with race, ethnicity, language, health literacy, age, disability, gender, sexual orientation, behavioral health status, geography, or other factors in their service areas such as type of living setting, including but not limited to home, independent support living, adult foster home or homeless. CCOs shall collect and maintain data on race, ethnicity and primary language for all members on an ongoing basis in accordance with standards established jointly by the Authority and the Department. CCOs shall track and report on any quality measure by these demographic factors and shall develop, implement, and evaluate strategies to improve health equity among members. CCO’s shall make this information available by posting on the web.

(9) CCOs shall develop and review and update its community health assessment and plan every three years to ensure the provision of all medically appropriate covered coordinated care services, including urgent care and emergency services, preventive, community support and ancillary services, in those categories of services included in CCO contracts or agreements with the Authority.

(10) CCOs shall communicate these policies and procedures to providers, regularly monitor providers’ compliance, and take any corrective action necessary to ensure provider compliance. CCOs shall document all monitoring and corrective action activities.

(11) Should there be more than one CCO in a community, the CCOs and their community partners may work together to develop one shared community health assessment and one shared Plan.

Stats. Implemented: ORS 414.610 – 685 OL 2011, Ch 602 Sec. 13, 14, 16, 17, 62, 64 (2) and 65, HB 3650
410-141-3150 – Flexible Services

(1) Flexible Services, as cross referenced in OAR 410-141-0000, in alignment with the CMS Waiver, and for purposes of this rule, means non-state plan, non-covered health related services. These services are provided instead of or as an adjunct to benefits and are intended to improve health delivery and member health and lower costs. Flexible services are likely to be cost-effective alternatives to covered benefits and are likely to generate savings. These services may effectively treat or prevent physical, oral, or behavioral health conditions, improve health outcomes, and prevent or delay health deterioration. Flexible services are consistent with the member’s treatment plan as developed by the member’s care team and documented in the member’s medical record as specified in OAR 410-141-3180. Flexible services lack traditional billing or encounter codes, are not encounterable, and cannot be reported for utilization purposes.

(2) The Authority requires all CCOs to reflect the above standardized definition of flexible services in their policies and procedures (P&Ps). These P&Ps shall be written in collaboration with the Authority and are intended for administration of flexible services through their provider network. Flexible services P&Ps shall encourage transparency and provider and member engagement, reflect streamlined administrative processes that do not create unnecessary barriers, and provide for accountability.

(3) CCO flexible services policies shall:

(a) Describe how members and primary care teams are engaged;

(b) Allow providers outside of the primary care team to render and coordinate flexible services efficiently;

(c) Provide mechanisms to capture services within the treatment plan and clinical record as specified in OAR 410-141-3180;

(d) Provide efficient decision making processes that are separate from CCO prior authorization protocols;

(e) Describe how community resources are considered and coordinated with community partners;

(f) Describe the data collection and tracking reporting plan;

(g) Efficiently and effectively reduce costs and improve care; validate that no cost sharing is required and that no administrative burden is imposed on the member;

(h) Provide clear accountability for service delivery;

(i) Allow for consideration of any flexible services requested; and
(j) Not limit the range of possible flexible services.

(4) Flexible services provided to individual members shall be consistent with the member’s treatment plan as developed by the member’s care team and agreed to by the CCO. The care team and the CCO shall work with the member and, as appropriate, the family of the member in determination of the additional health related services effective as alternative in the member’s care. These services shall be documented in the member’s treatment plan and clinical record, as specified in OAR 410-141-3180.

(5) Flexible services provided on a community based level and initiated by the CCO shall, for documentation purposes, be reflected with date and details within the Community Advisory Council (CAC) minutes in the same calendar quarter as the activity occurrence. Such activities might include: Programs to improve the general community health, e.g., farmers’ market in the “food desert” or classes on healthy meal preparation.

(6) An enrollee’s request to have an approved state plan service rather than a flexible service must be honored when medically necessary.

(7) Flexible services are not accounted for in the medical expenses part of the capitation rate.

(8) CCOs shall submit their financial reporting for flexible services as directed through their contracting agreement with the Authority.

(9) As allowed under 42 CFR 438.6(e), CCOs are always at liberty to offer any additional health related services. The services are separate from flexible services and delivered at the complete discretion of the CCO.

(10) All CCOs shall have written P&Ps for a grievance system. A grievance process, described in OAR 410-141-3261, applies only to those situations in which the member or their representative expresses concern or dissatisfaction about any matter other than an “Action,” as referenced in 42 CFR 438.400, (b)(6). A flexible services outcome is not an “Action.” CCOs shall have written procedures to acknowledge the receipt, disposition, and documentation of each grievance from members as specified in 42 CFR 438.402-408 and OAR 410-141-3260 through 410-141-3264.

(11) CCOs shall provide to members a written outcome regarding flexible services requests and shall be copied to any representative of the member and any provider who made or participated in the request on the member’s behalf. Flexible services outcomes are subject to the grievance provisions of OAR 410-141-3260 and 410-141-3261. The written outcomes shall inform the member and any provider of the member’s right to file a grievance in response to the outcome.

(12) Except as provided in section (11), members have no appeal or hearing rights in regard to a flexible services outcome.

410-141-3160 – Integration and Care Coordination

(1) In order to achieve the objectives of providing CCO members' integrated person centered care and services, CCOs must assure that physical, behavioral and oral health services are consistently provided to members in all age groups and all covered populations when medically appropriate and consistent with the needs identified in the community health assessment and community health improvement plan (Plan). CCOs must develop, implement and participate in activities supporting a continuum of care that integrates physical, behavioral, and oral health interventions in ways that are whole to the member and serve members in the most integrated setting appropriate to their needs:

(a) CCOs shall ensure the provision of care coordination, treatment engagement, preventive services, community based services and follow up services for all members' health conditions;

(b) CCOs must enter into contracts with providers of residential chemical dependency treatment services not later than July 1, 2013 and must notify the Authority within 30 calendar days of executing the contract;

(c) By July 1, 2014, each CCO must have a contractual relationship with any dental care organization that serves members in the area where they reside;

(d) CCOs must have adequate, timely and appropriate access to hospital and specialty services. CCOs must establish hospital and specialty service agreements that include the role of patient-centered primary care homes and that specify processes for requesting hospital admission or specialty services, performance expectations for communication and medical records sharing for specialty treatments, at the time of hospital admission or discharge, for after-hospital follow up appointments;

(e) CCOs must demonstrate how hospitals and specialty services will be accountable to achieve successful transitions of care. CCOs shall ensure members are transitioned out of hospital settings into the most appropriate independent and integrated community settings. This includes transitional services and supports for children, adolescents, and adults with serious behavioral health conditions facing admission to or discharge from acute psychiatric care, residential treatment settings and the state hospital.

(2) CCOs shall develop evidence-based or innovative strategies for use within their delivery system networks to ensure access to integrated and coordinated care, especially for members with intensive care coordination needs. CCOs must:

(a) Demonstrate that each member has a primary care provider or primary care team that is responsible for coordination of care and transitions and that each
member has the option to choose a primary care provider of any eligible CCO participating provider type.

(b) Ensure that members with high health needs, multiple chronic conditions, or behavioral health issues are involved in accessing and managing appropriate preventive, health, behavioral health, remedial and supportive care and services;

(c) Use and require its provider network to use individualized care plans to the extent feasible to address the supportive and therapeutic needs of each member, particularly those with intensive care coordination needs, including members with severe and persistent mental illness receiving home and community based services covered under the state’s 1915(1) State Plan Amendment, and those receiving DHS Medicaid-funded long-term care services. Plans should reflect member family, or caregiver preferences and goals to ensure engagement and satisfaction;

(d) Implement systems to assure and monitor improved transitions in care so that members receive comprehensive transitional care, and improve members’ experience of care and outcomes, particularly for transitions between hospitals and long-term care;

(e) Demonstrate that participating providers have the tools and skills necessary to communicate in a linguistically and culturally appropriate fashion with members and their families or caregivers and to facilitate information exchange between other providers and facilities (e.g., addressing issues of health literacy, language interpretation, having electronic health record capabilities);

(f) Work across provider networks to develop partnerships necessary to allow for access to and coordination with social and support services, including crisis management and community prevention and self-managed programs;

(g) Communicate its integration and coordination policies and procedures to participating providers, regularly monitor providers' compliance and take any corrective action necessary to ensure compliance. CCOs shall document all monitoring and corrective action activities.

(3) CCO’s must assess the needs of its membership and make available supported employment and assertive community treatment services available when medically appropriate and when an appropriate provider is available. Appropriate providers are those that meet the requirements in 309-016-0825. When no appropriate provider is available, the CCO must consult with AMH and develop an approved plan to make supported employment and assertive community treatment services available.

(4) CCOs must develop and use Patient Centered Primary Care Home (PCPCH) capacity by implementing a network of PCPCHs to the maximum extent feasible:
(a) PCPCHs should become the focal point of coordinated and integrated care, so that members have a consistent and stable relationship with a care team responsible for comprehensive care management;

(b) CCOs must develop mechanisms that encourage providers to communicate and coordinate care with the PCPCH in a timely manner, using electronic health information technology, where available;

(c) CCOs must engage other primary care provider (PCP) models to be the primary point of care and care management for members, where there is insufficient PCPCH capacity;

(d) CCOs must develop services and supports for primary care that are geographically located as close as possible to the member’s residence and are, if available, offered in nontraditional settings that are accessible to families, diverse communities, and underserved populations. CCOs shall ensure that all other services and supports are provided as close to the member’s residence as possible.

(5) If a CCO implements other models of patient-centered primary health care in addition to the use of PCPCH, the CCO shall ensure member access to coordinated care services that provide effective wellness and prevention, coordination of care, active management and support of individuals with special health care needs, a patient and family-centered approach to all aspects of care, and an emphasis on whole-person care in order to address a patient’s physical and behavioral health care needs.

(6) If the member is living in a DHS Medicaid funded long-term care (LTC) nursing facility or community based care facility, or other residential facility, the CCO must communicate with the member and the DHS Medicaid funded long-term care provider or facility about integrated and coordinated care services:

(a) The CCO shall establish procedures for coordinating member health services, and how it will work with long-term care providers or facilities to develop partnerships necessary to allow for access to and coordination of CCO services with long-term care services and crisis management services;

(b) CCOs shall coordinate transitions to DHS Medicaid-funded long-term care by communicating with local AAA/APD offices when members are being discharged from an inpatient hospital stay, or transferred between different LTC settings;

(c) CCOs shall develop a Memorandum of Understanding (MOU) or contract with the local type B Area Agency on Aging or the local office of the Department’s APD, detailing their system coordination agreements regarding members’ receiving Medicaid-funded LTC services.

(7) For members who are discharged to post hospital extended care, at the time of admission to a skilled nursing facility (SNF) the CCO shall notify the appropriate
AAA/APD office and begin appropriate discharge planning. The CCO shall pay for the post hospital extended care benefit if the member was a member of the CCO during the hospitalization preceding the nursing facility placement. The CCO shall notify the SNF and the member no later than two working days before discharge from post hospital extended care. For members who are discharged to Medicare Skilled Care, the CCO shall notify the appropriate AAA/APD office when the CCO learns of the admission.

(8) When a member's care is being transferred from one CCO to another or for OHP clients transferring from fee-for-service or PHP to a CCO, the CCO shall make every reasonable effort within the laws governing confidentiality to coordinate, including but not limited to ORS 414.679 transfer of the OHP client into the care of a CCO participating provider.

(9) CCOs shall establish agreements with the Local Mental Health Authorities (LMHAs) and Community Mental Health Programs (CMHPs) operating in the service area, consistent with ORS 414.153, to maintain a comprehensive and coordinated behavioral health delivery system and to ensure member access to mental health services, some of which are not provided under the global budget.

(10) CCOs shall coordinate a member’s care even when services or placements are outside the CCO service area. CCO assignment is based on the case member’s residence, and referred to as county of origin or jurisdiction. Temporary placements by the Authority, Department or health services placements for services including residential placements may be located out of the service area, however, the CCO shall coordinate care while in placement and discharge planning for return to county of origin or jurisdiction. For out of area placements, an out of area exception must be made for the member to retain the CCO enrollment in the county of origin or jurisdiction, while the member’s placement is a temporary residential placement elsewhere. For program placements in Child Welfare, BRS, OYA, and PTRS, refer to OAR 410-141-3050 for program specific rules.

(11) CCOs shall ensure that members receiving services from extended or long-term psychiatric care programs such as secure residential facilities, PASSAGES projects, or state hospital, shall receive follow-up services as medically appropriate to ensure discharge within five working days of receipt of notice of discharge readiness.

(12) CCOs shall coordinate with Community Emergency Service Agencies, including but not limited to police, courts, juvenile justice, corrections, LMHAs and CMHPs, to promote an appropriate response to members experiencing a behavioral health crisis and to prevent inappropriate use of the emergency department or jails.

(13) CCOs shall accept FFS authorized services, medical, and pharmacy prior authorizations, ongoing services where a FFS prior authorization is not required, and services authorized by the Division’s Medical Management Review Committee for 90 days, or until the CCO can establish a relationship with the member and develop an evidence based, medically appropriate coordinated care plan, whichever is later, except
where customized equipment, services, procedures, or treatment protocol require service continuation for no less than six months.

(14) Except as provided in OAR 410-141-3050, CCOs shall coordinate patient care, including care required by temporary residential placement outside the CCO service area, or out-of-state care in instances where medically necessary specialty care is not available in Oregon:

(a) CCO enrollment shall be maintained in the county of origin with the expectation of the CCO to coordinate care with the out of area placement and local providers;

(b) The CCO shall coordinate the discharge planning when the member returns to the county of origin.

(15) CCOs shall coordinate and authorize care, including instances where the member’s medically appropriate care requires services and providers outside the CCO’s contracted network, in another area, out-of-state, or a unique provider specialty not otherwise contracted. The CCO shall pay the services and treatment plan as a non-participating provider pursuant to OAR 410-120-1295.

410-141-3170 – Intensive Care Coordination (Exceptional Needs Care Coordination (ENCC))

(1) CCOs are responsible for intensive care coordination services, otherwise known as Exceptional Needs Care Coordination (ENCC). Even if the CCO uses another term, these rules set forth the elements and requirements for intensive care coordination services. Where the term ENCC appears in rule or contract, it shall be given the meaning in this rule.

(2) CCOs shall make intensive care coordination services available to members identified as aged, blind, or disabled, who have complex medical needs, high health care needs, multiple chronic conditions, behavioral health issues, and for members with severe and persistent behavioral health issues receiving home and community-based services under the state’s 1915(1) State Plan Amendment. The member, member’s representative, provider, other medical personnel serving the member, or the member’s Authority case manager may request intensive care coordination services.

(3) CCOs shall respond to requests for intensive care coordination services with an initial response made by the next working day following the request.

(4) CCOs shall periodically inform all participating providers of the availability of intensive care coordination services, provide training for patient centered primary care homes and other primary care providers’ staff on intensive care coordination services and other support services available for members.

(5) CCOs shall ensure that the case manager’s name and telephone number are available to Authority staff and members or member representatives when intensive care coordination services are provided to the member.

(6) CCOs shall make intensive care coordination services available to coordinate the provision of these services to members who exhibit inappropriate, disruptive, or threatening behaviors in a provider’s office or clinic or other health care setting.

(7) CCOs shall implement procedures to share the results of its identification and assessment of any member appropriate for intensive care coordination services, with participating providers serving the member so that those activities are not duplicated. Information sharing shall be consistent with ORS 414.679 and applicable privacy requirements.

(8) CCOs must have policies and procedures, including a standing referral process for direct access to specialists, for identifying, assessing and producing a treatment plan for each member identified as having a special health care need. Each treatment plan shall be:

(a) Developed by the member’s designated provider with the member’s participation;
(b) Include consultation with any specialist caring for the member;
(c) Approved by the CCO in a timely manner if CCO approval is required; and
(d) In accordance with any applicable quality assurance and utilization review standards.

410-141-3180 – Record Keeping and Use of Health Information Technology

(1) CCOs shall have written policies and procedures that ensure maintenance of a record keeping system that includes maintaining the security of records as required by the Health Insurance Portability and Accountability Act (HIPAA), 42 USC §1320-d et seq., and the federal regulations implementing the Act, and complete clinical records that document the coordinated care services received by the members. CCOs shall communicate these policies and procedures to participating providers, regularly monitor participating providers’ compliance and take any corrective action necessary to ensure compliance. CCOs shall document all monitoring and corrective action activities. These policies and procedures shall ensure that records are secured, safeguarded and stored in accordance with applicable Oregon Revised Statutes and Oregon Administrative Rules.

(2) A member must have access to the member’s personal health information in the manner provided in 45 C.F.R. 164.524 and ORS 179.505(9) so the member may share the information with others involved in the member’s care and make better health care and lifestyle choices. CCO’s participating providers may charge the member for reasonable duplication costs, as set forth in OAR 943-014-0030, when the member seeks copies of their records.

(3) Notwithstanding ORS 179.505, a CCO, its provider network and programs administered by the Department’s Aging and People with Disabilities shall use and disclose member information for purposes of service and care delivery, coordination, service planning, transitional services and reimbursement, in order to improve the safety and quality of care, lower the cost of care and improve the health and well-being of the members.

(4) A CCO and its provider network shall use and disclose sensitive diagnosis information including HIV and other health and behavioral health diagnoses, within the CCO for the purpose of providing whole-person care. Individually identifiable health information must be treated as confidential and privileged information subject to ORS 192.553 to 192.581 and applicable federal privacy requirements. Redisclosure of individually identifiable information outside of the CCO and the CCO’s providers for purposes unrelated to this section or the requirements of ORS 414.625, 414.632, 414.635, 414.638, 414.653 or 414.655 remains subject to any applicable federal or state privacy requirements including the Authority’s rules established in OAR 943-014-0000 through 0070 for matters that involve privacy and confidentiality and privacy of members protected information.

(5) The CCO must document its methods and findings to ensure across the organization and the network of providers there is documentation of the following coordinated care services and supports:

(a) Each member has a consistent and stable relationship with a care team that is responsible for comprehensive care management and service delivery;
(b) The supportive and therapeutic needs of the member are addressed in a holistic fashion, using patient centered primary care homes and individualized care plans to the extent feasible;

(c) Members receive comprehensive transitional care, including appropriate follow-up, when entering and leaving an acute care facility, including acute psychiatric facility, state hospital or residential care settings for members with mental illness or a DHS Medicaid funded long-term care setting, including engagement of the member and family in care management and treatment planning;

(d) Members receive assistance in navigating the health care delivery system and in accessing community and social support services and statewide resources, for example, the use of certified or qualified health care interpreters, as defined in ORS 413.550, community health workers and personal health navigators who meet competency standards established in ORS 414.665 or who are certified by the Home Care Commission under ORS 410.604;

(e) Members have access to advocates, for example, qualified peer wellness specialists where appropriate, personal health navigators, and qualified community health workers who are part of the member’s care team to provide assistance that is culturally and linguistically appropriate to the member’s need to access appropriate services and participate in processes affecting the member’s care and services;

(f) Members are encouraged within all aspects of the integrated and coordinated health care delivery system to use wellness and prevention resources and to make healthy lifestyle choices.

(6) CCOs shall facilitate the adoption and use of electronic health records (EHRs) by its provider network. To achieve advanced EHR adoption, CCOs shall:

(a) Identify EHR adoption rates; rates may be divided by provider type and geographic region;

(b) Develop and implement strategies to increase adoption rates of certified EHRs;

(c) Encourage EHR adoption.

(7) CCOs shall facilitate the adoption and use of electronic health information exchange (HIE) in a way that allows all participating providers to exchange a member’s health, behavioral health, and dental health information with any other provider in that CCO.

(8) CCOs shall establish minimum requirements for HIE, including rates of e-prescribing and electronic lab orders, over time.

(9) CCOs shall initially identify their current HIT capacity and develop and implement a plan for improvement in the following areas:
(a) Analytics that are regularly and timely used in reporting to its provider network (e.g. to assess provider performance, effectiveness and cost-efficiency of treatment);

(b) Quality and utilization reporting (to facilitate quality improvement within the CCO as well as to report the data on quality of care that will allow the Authority to monitor the CCOs performance);

(c) Patient engagement through HIT (using existing tools such as e-mail); and

(d) Other appropriate uses for HIT (e.g. telehealth, mobile devices).

(10) CCOs shall maintain health information systems that collect, analyze, integrate, and report data and can provide information on areas including but not limited to the following:

(a) Names and phone numbers of the member's primary care provider or clinic, primary dentist and behavioral health provider;

(b) Copies of Client Process Monitoring System (CPMS) enrollment forms;

(c) Copies of long-term psychiatric care determination request forms;

(d) Evidence that the member has been informed of rights and responsibilities;

(e) Complaint and appeal records;

(g) Coordinated care services provided to enrollees, through an encounter data system; and

(h) Based on written policies and procedures, the record keeping system developed and maintained by CCOs and their participating providers shall include sufficient detail and clarity to permit internal and external review to validate encounter submissions and to assure medically appropriate services are provided consistent with the documented needs of the member. The system shall conform to accepted professional practice and facilitate an adequate system to allow the CCO to ensure that data received from providers is accurate and complete by:

(A) Verifying the accuracy and timeliness of reported data;

(B) Screening the data for completeness, logic, and consistency; and

(C) Collecting service information in standardized formats to the extent feasible and appropriate.
(11) CCOs and their provider network shall cooperate with the Division, AMH, the Department of Justice Medicaid Fraud Unit, and CMS, or other authorized state or federal reviewers, for purposes of audits, inspection and examination of members' clinical records, whether those records are maintained electronically or in physical files. Documentation must be sufficiently complete and accurate to permit evaluation and confirmation that coordinated care services were authorized and provided, referrals made, and outcomes of coordinated care and referrals sufficient to meet professional standards applicable to the health care professional and meet the requirements for health oversight and outcome reporting in these rules.

(12) Across the CCO’s provider network, all clinical records shall be retained for seven years after the date of services for which claims are made. If an audit, litigation, research and evaluation, or other action involving the records is started before the end of the seven-year period, the clinical records must be retained until all issues arising out of the action are resolved.

Stats. Implemented: ORS 414.610 – 685 OL 2011, Ch 602 Sec. 13, 14, 16, 17, 62, 64 (2) and 65, HB 3650
410-141-3200 – Outcome and Quality Measures

(1) CCOs shall report to the Authority its health promotion and disease prevention activities, national accreditation organization results and HEDIS measures as required by DCBS in OAR 836-053-1000. A copy of the reports may be provided to the Authority’s Performance Improvement Coordinator concurrent with any submission to DCBS.

(2) As required by Health System Transformation, CCOs shall be accountable for performance on outcomes, quality, and efficiency measures incorporated into the CCO’s contract with the Authority.

(3) CCOs shall address objective outcomes, quality measures, and benchmarks, for ambulatory care, inpatient care, behavioral health treatment, oral health care (to the extent that dental services are the responsibility of a CCO under an agreement with a DCO) and all other health services provided by or under the responsibility of the CCO, as specified in the CCO’s contract with the Authority.

(4) CCOs shall maintain an effective process for monitoring, evaluating, and improving the access, quality and appropriateness of services provided to members consistent with the needs and priorities identified in the CCO’s community health assessment, community health improvement plan, and the standards in the CCO’s contract. CCOs must have in effect mechanisms to:

   (a) Detect both underutilization and overutilization of services;

   (b) Evaluate performance and customer satisfaction;

   (c) Evaluate grievance, appeals and contested case hearings, consistent with OAR 410-141-3266; and

   (d) Assess the quality and appropriateness of coordinated care services provided to members who are aged, blind or disabled, who have high health care needs, multiple chronic conditions, mental illness or chemical dependency; who received Medicaid funded long term care benefits; or who are children receiving CAF (Child Welfare) or OYA services.

(5) CCOs must implement policies and procedures that assure it will timely collect data including health disparities and other data required by rule or contract that will allow the CCO to conduct and report on its outcome and quality measures and report its performance. CCOs shall submit to the Authority the CCO’s annual written evaluation of outcome and quality measures established for the CCO, or other reports as the Authority may require in response to the measures adopted by the Metrics and Scoring Committee.
(6) CCOs must adopt practice guidelines consistent with 42 CFR 438.236 that address physical health care, behavioral health treatment or dental care concerns identified by members or their representatives and to implement changes which have a favorable impact on health outcomes and member satisfaction in consultation with its community advisory council or clinical review panel.

(7) CCOs shall be accountable for both core and transformational measures of quality and outcomes:

(a) Core measures will be triple-aim oriented measures that gauge CCO performance against key expectations for care coordination, consumer satisfaction, quality and outcomes. The measures will be uniform across CCOs and shall encompass the range of services included in CCO global budgets (e.g. behavioral health, hospital care, women’s health);

(b) Transformational metrics shall assess CCO progress toward the broad goals of health systems transformation and require systems transitions and experimentation in effective use. This subset may include newer kinds of indicators (for which CCOs have less measurement experience) or indicators that entail collaboration with other care partners.

(8) CCOs must provide the required data to the All Payer All Claims data system established in ORS 442.464 and 442.466.

Stats. Implemented: ORS 414.610 – 685 OL 2011, Ch 602 Sec. 13, 14, 16, 17, 62, 64 (2) and 65, HB 3650
410-141-3220 – Accessibility

(1) Consistent with the community health assessment and health improvement plan, CCOs must assure that members have access to high quality care. The CCO shall accomplish this developing a provider network that demonstrates communication, collaboration, and shared decision making with the various providers and care settings. The CCO shall develop and implement the assessment and plan over time that meets access-to-care standards, and allows for appropriate choice for members. The goal shall be that services and supports should be geographically as close as possible to where members reside and, to the extent necessary, offered in nontraditional settings that are accessible to families, diverse communities, and underserved populations.

(2) CCOs shall ensure access to integrated and coordinated care as outlined in OAR 410-141-3160, which includes access to a primary care provider or primary care team that is responsible for coordination of care and transitions.

(3) In developing its access standards, the CCO should anticipate access needs, so that the members receive the right care at the right time and place, using a patient-centered approach. The CCO provider network shall support members, especially those with behavioral health issues, in the most appropriate and independent setting, including in their own home or independent supported living.

(4) CCOs shall have policies and procedures which ensure that for 90% of their members in each service area, routine travel time or distance to the location of the PCPCH or PCP does not exceed the community standard for accessing health care participating providers. The travel time or distance to PCPCHs or PCPs shall not exceed the following, unless otherwise approved by the Authority:

(a) In urban areas — 30 miles, 30 minutes or the community standard, whichever is greater;

(b) In rural areas — 60 miles, 60 minutes or the community standard, whichever is greater.

(5) CCOs shall have an access plan that establishes standards for access, outlines how capacity is determined and establishes procedures for monthly monitoring of capacity and access, and for improving access and managing risk in times of reduced participating provider capacity. The access plan shall also identify populations in need of interpreter services and populations in need of accommodation under the Americans with Disabilities Act.

(6) CCOs shall make the services it provides including: primary care, specialists, pharmacy, hospital, vision, ancillary, and behavioral health services, as accessible to members for timeliness, amount, duration, and scope as those services are to other members within the same service area. If the CCO is unable to provide those services locally, it must so demonstrate to the Authority and provide reasonable alternatives for
members to access care that must be approved by the Authority. CCOs shall have a monitoring system that shall demonstrate to the Authority that the CCO has surveyed and monitored for equal access of members to referral providers of pharmacy, hospital, vision, ancillary, and behavioral health services:

(a) CCOs shall ensure that PCPs screen all eligible members for behavioral health issues to promote prevention, early detection, intervention and referral to treatment, especially at initial contact or physical exam or at initial prenatal examination, when a member shows evidence of behavioral health issues or when a member over utilizes services;

(b) CCOs must use a universal screening process that assesses members for critical risk factors that trigger intensive care coordination for high-needs members.

(7) CCOs shall have policies and procedures and a monitoring system to ensure that members who are aged, blind, or disabled, or who have complex or high health care needs, multiple chronic conditions, behavioral health issues or who are children receiving Department or OYA services have access to primary care, dental care (when the CCO or DCO is responsible for dental care), mental health providers and referral, and involves those members in accessing and managing appropriate preventive, health, remedial and supportive care and services.

(8) CCOs shall have policies and procedures that ensure scheduling and rescheduling of member appointments are appropriate to the reasons for, and urgency of, the visit. The member shall be seen, treated, or referred as within the following timeframes:

(a) Emergency care-Immediately or referred to an emergency department depending on the member’s condition;

(b) Urgent care-Within 72 hours or as indicated in initial screening, in accordance with OAR 410-141-0140;

(c) Well care-Within 4 weeks or within the community standard;

(d) Emergency dental care (when dental care is provided by the CCO or DCO)-Seen or treated within 24- hours;

(e) Urgent dental care (when dental care is provided by the CCO or DCO)-Within one to two weeks or as indicated in the initial screening in accordance with OAR 410-123-1060; and

(f) Routine dental care (when dental care is provided by the CCO or DCO)-Seen for routine care within an average of eight weeks and within 12 weeks or the community standard, whichever is less, unless there is a documented special clinical reason which would make access longer than 12 weeks appropriate;
(g) Non-Urgent behavioral health treatment-Seen for an intake assessment within 2 weeks from date of request.

(9) CCOs shall develop policies and procedures for communicating with, and providing care to members who have difficulty communicating due to a medical condition or who are living in a household where there is no adult available to communicate in English or here there is no telephone:

(a) The policies and procedures shall provide certified or qualified interpreter services by phone, in person, in CCO administrative offices, especially those of member services and complaint and grievance representatives and in emergency rooms of contracted hospitals;

(b) CCOs shall ensure the provision of certified or qualified interpreter services for covered coordinated care services including medical, behavioral health or dental care (when the CCO or DCO is responsible for dental care) visits, and home health visits, to interpret for members with hearing impairment or in the primary language of non-English speaking members. All interpreters shall be linguistically appropriate and be capable of communicating in English and the members’ primary language and be able to translate clinical information effectively. Interpreter services shall be sufficient for the provider to understand the member’s complaint; to make a diagnosis; respond to member’s questions and concerns; and to communicate instructions to the member;

(c) CCOs shall ensure the provision of coordinated care services which are culturally appropriate, i.e., demonstrating both awareness for and sensitivity to cultural differences and similarities and the effect on the members’ care;

(d) CCOs shall have written policies and procedures that ensure compliance with requirements of the Americans with Disabilities Act of 1990 in providing access to covered coordinated care services for all members and shall arrange for services to be provided by non-participating referral providers when necessary;

(e) CCOs shall have a plan for ensuring compliance with these requirements and shall monitor for compliance.

(7) The CCO must provide members with any reasonable assistance in completing forms and taking other procedural steps related to filing grievances, appeals or hearing requests. Reasonable assistance includes, but is not limited to:

   (a) OHP Complaint Form (OHP 3001);

(14) The CCO must review the log monthly for completeness and accuracy, which includes but is not limited to timeliness of documentation and compliance with procedures.

(15) A member or a member’s provider may request an expedited resolution of an appeal or a contested case hearing if the member or provider believes taking the standard time of resolution could seriously jeopardize the member’s:

   (a) Life, health, mental health or dental health; or

   (b) Ability to attain, maintain or regain maximum function.

(16) A member who may be entitled to continuing benefits may request and receive continuing benefits in the same manner and same amount while an appeal or contested case hearing is pending:

(f) Ensure that the individuals who make decisions on appeals are:

   (A) Not involved in any previous level of review or decision making; and

(13) If the appeal was referred to the CCO from the Division as part of a contested case hearing process within two business days from the date of the appeal resolution, the CCO must transmit the:
(a) Notice of Appeal Resolution; and

(b) Complete record of the appeal to the Division’s Hearings Unit.

(14) If the appeal was made directly by the member or their representative, and the Notice of Appeal Resolution was not favorable to the member, the CCO must, if a contested case hearing is requested, submit the record to the Division’s Hearings Unit within two business days of the Division’s request.

Stats. Implemented: ORS 414.610 – 685 OL 2011, Ch 602 Sec. 13, 14, 16, 17, 62, 64 (2), 65, HB 3650
410-141-3264 – Contested Case Hearings

(1) A CCO must have a system in place to ensure its members and providers have access to appeal a CCO’s action by requesting a contested case hearing. Contested case hearings are conducted pursuant to ORS 183.411 to 183.497 and the Attorney General's Uniform and Model Rules of Procedure for the Office of Administrative Hearings, OAR 137-003-0501 to 137-003-0700.

(2) The member may request a hearing without first filing an appeal with their CCO. The member must file a hearing request with the Authority no later than 45 days from the date of the CCO’s notice of action or notice of appeal resolution. If the member files the hearing request with the Department of Human Services or the CCO no later 45 days from the date of the notice, the Authority shall consider the request timely.

(3) In the event a request for hearing is not timely, the Authority shall determine whether the failure to timely file the hearing request was caused by circumstances beyond the member’s control and enter an order accordingly. The member must submit a written statement explaining why the hearing request was late. The Authority may conduct further inquiry as the Authority deems appropriate. The Authority may refer an untimely request to the Office of Administrative Hearings (OAH) for a hearing on the question of timeliness;

(4) The CCO must conduct an appeal if the member requests an appeal without filing a request for hearing. If the member requests a hearing, without first requesting an appeal, the Authority may require the CCO to conduct an appeal prior to referring the matter to OAH.

(5) Effective February 1, 2012, the method described in OAR 137-003-0520(8)–(10) is used in computing any period of time prescribed in the division of rules in OAR 410 division 120 and 141 applicable to timely filing of requests for hearing. Due to operational conflicts, the procedures needing revision and the expense of doing so, OAR 137-003-0520(9) and 137-003-0528(1)(a), which allows hearing requests to be treated as timely based on the date of postmark, does not apply to CCO hearing requests.

(6) If the member files a request for hearing with the Authority, the Authority shall provide a copy of the hearing request to the member’s CCO. The CCO shall:

   (a) Review the request immediately as an appeal of the CCO’s action;

   (b) Approve or deny the appeal within 16 calendar days, and provide the member with a notice of appeal resolution.

(7) If a member sends the hearing request to their CCO, the CCO must:

   (a) Date-stamp the hearing request with the date of receipt; and
(b) Submit the following to the Authority within two business days:

(A) A copy of the hearing request, notice of action, and notice of appeal resolution, if applicable;

(B) All documents and records the CCO relied upon to take its action, including those used as the basis for the initial action or the notice of appeal resolution, if applicable, and all other relevant documents and records the Authority requests.

(8) A member's provider may request a hearing about an action affecting the provider. However, the provider must resolve an appeal with the CCO before requesting a hearing.

(a) The CCO must approve or deny the appeal within 16 calendar days, and provide the provider with a notice of appeal resolution.

(b) The provider must file a hearing request with the Authority no later than 45 days from the date of the CCO’s notice of appeal resolution.

(9) The parties to a contested case hearing include the:

(a) CCO and the member requesting a hearing; or

(b) CCO and the member’s provider if the provider requests a hearing.

(10) The Authority shall refer the hearing request along with the notice of action or notice of appeal resolution to OAH for hearing.

(11) The Authority must issue a final order or the Authority must resolve the case ordinarily within 90 calendar days from the earlier of the date:

(a) The CCO receives the member’s request for appeal. This does not include the number of days the member took to subsequently file a hearing request; or

(b) The Authority receives the request for hearing.

(12) If a member requests an expedited hearing, the Authority shall request documentation from the CCO, and the CCO shall submit relevant documentation, including clinical documentation, to the Authority within two working days.

(13) The Authority must determine whether the member is entitled to an expedited hearing within two working days from the date of receipt of the medical documentation. If the Authority denies a request for an expedited hearing, the Authority must make reasonable efforts to:

(a) Call the member; and
(b) Send written notice within two calendar days.

Stats. Implemented: ORS 414.610 – 685 OL 2011, Ch 602 Sec. 13, 14, 16, 17, 62, 64 (2) and 65, HB 3650
410-141-3267 – Process for Resolving Disputes between Coordinated Care Organizations (CCOs) and the Oregon Health Authority

(1) If a CCO has a dispute with the Oregon Health Authority (Authority) as a result of a Division of Medical Assistance Programs (Division) decision that is perceived as adversely affecting a CCO, the CCO may submit a request to the Division director or his or her designee requesting an Administrative Review, as prescribed in OAR 410-120-1580.

(2) An example of such disputes include, but is not limited to, Authority decisions made through the OHA Provider Discrimination Review Process as a result of a provider discrimination appeal. These disputes primarily address legal or policy issues that may arise in the context of a Division decision that is perceived by the CCO to adversely affect the CCO and is not otherwise reviewed as a claim redetermination, a contested case, or client appeal. This rule does not involve claims that the Authority has breached its contract with a CCO. This CCO process is not mandatory, and it need not be exhausted before a CCO seeks judicial review or brings any other form of action related to any CCO/Authority dispute related decision.

(3) Within thirty calendar days of the conclusion of the administrative review, or such other time as may be agreed to by the CCO and the Division, the Division shall send written results of the administrative review to the initiating CCO and any other affected CCO. Should a resolution be reached through administrative review that is mutually agreeable to all involved, the process shall be considered complete and binding.

(4) If the dispute between the CCO and the Authority remains unresolved as a result of the administrative review, the CCO may request an alternative dispute resolution as set forth in section (5) of this rule to attempt to resolve the issue. The alternative dispute process is conducted pursuant to the Attorney General’s Uniform Model Rules OAR 137-005-0060 and 137-005-0070.

(5) Not more than ten business days after receipt of the final administrative review decision, the CCO may contact the Division director indicating the CCO’s intent to pursue mediation. In that request, the CCO may request to stay the administrative review decision, which the Division will grant if the CCO alleges sufficient facts and provides good cause for the stay as provided in OAR 137-004-0090. The Division shall respond within ten business days of the date of the stay request.

(6) After both the CCO and the Authority agree to enter into mediation, both shall attempt to agree on the selection of the mediator and complete paperwork required to secure the mediator’s services. If the CCO and the Authority are unable to agree on the selection of a mediator, both shall appoint a mediator, and those mediators shall select the final mediator. To be qualified to propose resolutions for disputes under this rule, the mediator shall:

(a) Be a knowledgeable and experienced mediator;
(b) Be familiar with health care and the disputed matters; and

(c) Follow the terms and conditions specified in this rule for the mediation process.

(7) If the dispute is likely to impact another CCO, the Authority shall notify all CCOs potentially impacted by the dispute and provide an opportunity for the impacted CCOs to participate in the dispute resolution process.

(8) The CCO and the Authority shall share in the cost of all mediation expenses, whether the dispute is resolved or not.

(9) Within ten business days of a selection of a mediator or upon a different schedule, as agreed to by the parties and the mediator, the CCO and the Authority shall submit to each other and to the mediator the following:

(a) Dispute resolution offer; and

(b) Explanation of their position, i.e., advocacy brief.

(10) The parties will engage in mediation as arranged by the mediator.

(11) The Authority shall maintain the confidentiality of proprietary information of all participating CCOs to the extent the information is protected under state or federal law.

410-141-3268 – Process for Resolving Disputes on Formation, Certification, and Recertification of CCOs

(1) The dispute resolution process described in this rule applies only when, under ORS 414.635:

(a) An entity is applying to the Authority for certification as a CCO (applicant);

(b) A Health Care Entity (HCE) and the applicant (together, the “parties” for purposes of this rule) have failed to agree upon terms for a contract; and

(c) One or more of the following occurs:

(A) The applicant states that the HCE is necessary for the applicant to qualify as a CCO;

(B) An HCE states that its inclusion is necessary for the applicant to be certified as a CCO; or

(C) In reviewing the applicant’s information, the Authority identifies the HCE as necessary for the applicant to qualify as a CCO.

(2) If an applicant and HCE disagree about whether the HCE is necessary for the applicant’s certification as a CCO, the applicant or HCE may request the Authority to review the issue.

(3) If the Authority determines the HCE is not necessary for the applicant’s certification, the process described in this rule does not apply.

(4) If the Authority determines or the parties agree the HCE is necessary for the applicant’s certification, the following applies:

(a) The HCE and the applicant shall participate in good faith contract negotiations. The parties shall take the following actions in an attempt to reach a good faith resolution:

(A) The applicant shall provide a written offer of terms and conditions to the HCE. The HCE shall explain the area of disagreement to the applicant;

(B) The applicant’s or HCE’s chief financial officer, chief executive officer, or an individual authorized to make decisions on behalf of the HCE or applicant shall have at least one face-to-face meeting in a good faith effort to resolve the disagreement.

(b) The applicant or HCE may request the Authority to provide technical assistance. The Authority also may offer technical assistance, with or without a request. The
Authority’s technical assistance is limited to clarifying the CCO certification process, criteria, and other program requirements.

(5) Pursuant to 2013 Engrossed SB 568 and 2013 Oregon Laws chapter 27, if the applicant and HCE cannot reach agreement on contract terms within ten calendar days of the face-to-face meeting, either party may request arbitration. The requesting party shall notify the other party in writing to initiate a referral to an independent third party arbitrator for an HCE’s refusal to contract with the CCO or the termination, extension, or renewal of a HCE’s contract with a CCO. The party initiating the referral shall provide a copy of the notification to the Authority.

(6) After notification that one party initiated arbitration, the parties shall attempt to agree upon the selection of the arbitrator and complete the paperwork required to secure the arbitrator’s services. If the parties are unable to agree, each party shall appoint an arbitrator, and these arbitrators shall select the final arbitrator.

(7) The parties shall pay for all arbitration costs. In consideration of potentially varied financial resources between the parties, which may pose a barrier to the use of this process, the parties may ask the arbitrator to allocate costs between the parties based on ability to pay.

(8) Within ten calendar days of a referral to an arbitrator, the applicant and HCE shall submit to each other and to the arbitrator the following:

(a) The most reasonable contract offer; or

(b) The HCE’s statement that a contract is not desirable and an explanation of why this is reasonable.

(9) Within ten calendar days of receiving the other party’s offer or the HCE’s statement that a contract is not desirable, each party shall submit to the arbitrator and the other party the advocacy briefs regarding whether the HCE is reasonably or unreasonably refusing to contract with the applicant.

(10) The arbitrator shall apply the following standards when making a determination about whether an HCE reasonably or unreasonably refused to contract with the applicant:

(a) An HCE may reasonably refuse to contract when an applicant’s reimbursement to an HCE for a health service is below the reasonable cost to provide the service. The arbitrator shall apply federal or state statutes or regulations that establish specific reimbursements, such as payments to federally qualified health centers, rural health centers, and tribal health centers; and

(b) An HCE may reasonably refuse to contract if that refusal is justified in fact or by circumstances, taking into consideration the Health Services Transformation (HST)
legislative policies. Facts or circumstances outlining what is a reasonable or unreasonable refusal to contract include, but are not limited to:

(A) Whether contracting with the applicant would impose demands that the HCE cannot reasonably meet without significant negative impact on HCE costs, obligations, or structure while considering the proposed reimbursement arrangement or other CCO requirements. Some of the requirements include:

   (i) Use of electronic health records;

   (ii) Service delivery requirements, or

   (iii) Quality or performance requirements;

(B) Whether the HCE’s refusal affects access to covered services in the applicant’s community. This factor alone cannot result in a finding that the refusal to contract is unreasonable; however, the HCE and applicant shall make a good faith effort to work out differences in order to achieve beneficial community objectives and HST policy objectives;

(C) Whether the HCE has entered into a binding obligation to participate in the network of a different CCO or applicant and that participation significantly reduces the HCE’s capacity to contract with the applicant.

(11) The following outlines the arbitrator determination and the parties’ final opportunity to settle:

   (a) The arbitrator shall evaluate the final offers or statement of refusal to contract and the advocacy briefs from each party and issue a determination within 15 calendar days of the receipt of the parties’ information;

   (b) The arbitrator shall provide the determination to the parties. The arbitrator and the parties may not disclose the determination to the Authority for ten calendar days to allow the parties an opportunity to resolve the issue themselves. If the parties resolve the issue no later than the end of the tenth day, the arbitrator may not release the determination to the Authority;

   (c) If the parties have not reached an agreement after ten calendar days, the arbitrator shall provide its decision to the Authority. After submission to the Authority, the arbitrator’s determination becomes a public record, subject to protection of trade secret information if identified by one of the parties prior to the arbitrator’s submission of the determination.

(12) If the parties cannot agree, the Authority shall evaluate the arbitrator’s determination and may take the following actions:
(a) The Authority may certify an applicant if the arbitrator determined the applicant made a reasonable attempt to contract with the HCE or the HCE’s refusal to contract was unreasonable;

(b) The Authority may refuse to certify, recertify, or continue to certify an applicant when the arbitrator determined the applicant did not reasonably attempt to contract with the HCE or the HCE’s refusal to contract was reasonable, and the Authority determines that participation from the HCE remains necessary for certification of applicant as a CCO;

(c) The Authority may not pay fee-for-service reimbursements to an HCE if the arbitrator determined the HCE unreasonably refused to contract with the applicant. This applies to health services available through a CCO;

(d) In any circumstance within the scope of this rule when the parties have failed to agree, the current statutes regarding reimbursement to non-participating providers shall apply to certified CCOs and the HCE, consistent with ORS 414.743 for hospitals and consistent with Authority rules for other providers.

(13) To be qualified to resolve disputes under this rule, the arbitrator shall:

(a) Be a knowledgeable and experienced arbitrator;

(b) Be familiar with health care provider contracting matters;

(c) Be familiar with HST; and

(d) Follow the terms and conditions specified in this rule for the arbitration process.

(1) Pursuant to ORS 414.635, Coordinated Care Organizations (CCOs) and Health Care Entities (HCE) shall participate in good faith contract negotiations. This rule covers the termination, extension, and renewal of an HCE’s contract with a CCO.

(2) In the event of a dispute involving the termination, extension, or renewal of an HCE’s contract with a CCO, the parties may take the following actions in an attempt to reach a good faith resolution:

(a) Both parties shall provide a written offer of terms and conditions to the other party. The parties shall explain the basis for their disagreement with the terms and conditions offered by the other party;

(3) If the CCO and HCE cannot reach agreement on contract terms, the parties may engage in mediation. Either the CCO or the HCE may request mediation:

(a) After the parties have agreed to enter into mediation, the parties shall attempt to agree on the selection of the mediator and complete paperwork required to secure the mediator’s services. If the parties are unable to agree, each party shall appoint a mediator, and those mediators shall select the final mediator;

(b) To be qualified to propose resolutions for disputes under this rule, the mediator shall:

(A) Be a knowledgeable and experienced mediator;

(B) Be familiar with health care and contracting matters; and

(d) Within ten business days of a selection of a mediator, the CCO and HCE shall submit to each other and to the mediator the following:

(A) Contract offer; and

(B) Explanation of their position (i.e., advocacy brief).

(e) Unless an extension is agreed on by all parties, the mediator shall issue a report to the involved parties that will include mediation findings and recommendations no longer than 15 business days from the conclusion of the mediation.

(4) Pursuant to ORS 414.635, if the CCO and HCE cannot reach an agreement on contract terms within ten business days of receipt of the mediator’s report, either party may request non-binding arbitration. The requesting party shall notify the other party in writing of the party’s intent to refer the matter to arbitration:

(a) After notification that one party initiated arbitration, the parties shall agree on the selection of the arbitrator and complete the paperwork required to secure the arbitrator’s services. If the parties are unable to agree, each party shall appoint an arbitrator, and these arbitrators shall select the final arbitrator;

(b) To be qualified to propose resolutions for disputes under this rule, the arbitrator shall:

(A) Be a knowledgeable and experienced arbitrator;

(B) Be familiar with health care provider contracting matters; and

(C) Follow the terms and conditions specified in this rule for the arbitration process.

(d) Within ten business days of a selection of an arbitrator, the CCO and HCE shall submit to each other and to the arbitrator the following:

(A) Final contract offer; and

(B) Explanation of their position (i.e., advocacy brief).

(e) The arbitrator shall evaluate the final offers and the advocacy briefs from each party and issue a non-binding determination within 15 business days of the receipt of the parties’ submissions.

410-141-3340 – General Financial Reporting and Financial Solvency Matters; Transition

(1) The Authority shall determine financial solvency of a CCO in accordance with OAR 410-141-3345 through 410-141-3395, the request for applications and the CCO contract. In implementing OAR 410-141-3345 to 410-141-3395, the Authority may enter into a cooperative agreement with another state agency to carry out these provisions. For purposes of obtaining necessary information to determine financial solvency, any reference to OHA in these rules shall include DCBS when DCBS is working cooperatively with OHA to implement these provisions. However, only OHA may take enforcement action or other regulatory sanctions related to the implementation of OAR 410-141-3345 to 410-141-3395 and the CCO contract.

(2) OAR 410-141-3345 to 410-141-3395 are developed in consultation with DCBS in accordance with Section 13, chapter 602, Oregon Laws 2011 (Enrolled House Bill 3650) and Section 1, chapter 8, Oregon Laws 2012 (Enrolled Senate Bill 1580).

(3) Where these rules specify that the OHA may request or receive information or provide a response or take any action, DCBS may act on behalf of OHA. A response to DCBS under these rules shall be considered a response to the OHA on the matter, consistent with the objective of providing a single point of reporting by CCOs.

Stats. Implemented: ORS 414.610 – 685 OL 2011, Ch 602 Sec. 13, 14, 16, 17, 62, 64 (2) and 65, HB 3650
410-141-3345 – General Financial Reporting and Financial Solvency Matters; CCO Reporting Method

(1) Each CCO must demonstrate that it is able to provide coordinated care services efficiently, effectively, and economically. CCOs shall maintain sound financial management procedures, maintain protections against insolvency, and generate periodic financial reports as provided in these rules.

(2) The Authority shall collaborate with the Department of Consumer and Business Services (DCBS) to review CCO financial reports and evaluate financial solvency. CCOs are not required to file financial reports with both OHA and DCBS except as provided in this section or as outlined in the CCO contract:

(a) Initial applicants for certification as a CCO shall submit all required information to the Authority as part of the application process, and the Authority shall transmit that information to DCBS for its review. In making its determination about the qualifications of the applicant, the Authority shall consult with DCBS about the financial materials and reports submitted with the application;

(b) For purposes of these financial reporting and solvency rules, DCBS is authorized to make recommendations to the Authority and to act in conjunction with the Authority in accordance with these rules. If quarterly reports or other evidence suggest that a CCO’s financial solvency is in jeopardy, the Authority shall act as necessary to protect the public interest.

(3) The Authority may address any proper inquiries to any CCO or its officers in relation to the activities or condition of the CCO or any other matter connected with its transactions. The person shall promptly and truthfully reply to the inquiries using the form of communication requested by the Authority. The reply shall be timely, accurate, and complete and, if the Authority requires, verified by an officer of the CCO. A reply is subject to the provisions of ORS 731.260.

(4) OAR 410-141-3345 through 410-141-3395 provide for three alternative methods for a CCO’s solvency plan and financial reporting requirements, depending on the status of the CCO as described in this rule:

(a) The Authority reporting CCO: The CCO complies with restricted reserve and net worth requirements the Authority used to regulate financial solvency of MCOs on July 1, 2012, submitting financial information and reports to the Authority as detailed in the CCO contract. Under this approach, the Authority shall monitor the CCO’s financial solvency utilizing the same reporting format and financial standards that the Authority used for MCOs on July 1, 2012;

(b) DCBS reporting CCO: The CCO complies with financial requirements as detailed in the CCO contract and in OAR 410-141-3345 through 410-141-3395, including
risk-based capital and NAIC reporting requirements. These requirements shall be monitored by DCBS;

(c) Certificate of Authority: The CCO has a certificate of authority and complies with financial reporting and solvency requirements applicable to licensed health entities pursuant to applicable DCBS requirements under the Oregon insurance code and DCBS rules. In addition, the CCO shall report to the Authority the schedules outlined in the CCO contract.

(5) CCO Status. The method described in this rule that applies to a CCO is determined as follows:

(a) If the CCO is a licensed health entity, the CCO shall use the method described in this rule for certificate of authority. The CCO shall submit a copy of its certificate of authority to the Authority, not later than the readiness review document submission date under the initial CCO contract, and annually thereafter, not later than August 31. The CCO shall report to the Authority immediately at any time that this certificate of authority is suspended or terminated;

(b) If the CCO is neither a converting MCO nor a licensed health entity, the CCO shall use the method described in this rule for DCBS reporting CCO;

(c) If the CCO is a converting MCO and is not a licensed health entity, the CCO shall elect either the method described in this rule for the Authority reporting CCO or the method described in this rule for DCBS reporting CCO. The CCO shall notify the Authority of its election no later than the readiness review document submission date under the initial CCO contract. The CCO shall comply with the requirements applicable to its elected method until it notifies the Authority of its intent to change its election. If the CCO expects to change its election, any elements of the solvency plan, or solvency protection arrangements, the CCO shall provide written advance notice to the Authority, at least 90-calendar days before the proposed effective date of change. Such changes are subject to written approval from the Authority.

(6) CCOs may be required to use specific required reporting forms or items in order to supply information related to financial responsibility, financial solvency, and financial management. The Authority or DCBS, as applicable, shall provide supplemental instructions about the use of these forms.

(7) The standards established in OAR 410-141-3350 through 410-141-3395 are intended to be consistent with, and may utilize procedures and standards common to insurers and to DCBS in its administration of financial reporting and solvency requirements. Any reference in these rules to the insurance code or to rules adopted by DCBS under the insurance code may not be deemed to require a CCO to be an insurer but is adopted and incorporated by reference as the Authority standard.

410-141-3355 – Restricted Reserves, Capital and Surplus – DCBS Reporting CCOs only

(1) The provisions of OAR 410-141-3355 apply only to DCBS reporting CCOs, and do not apply to Authority reporting CCOs.

(2) A CCO shall:

(a) Establish a restricted reserve account; and

(b) Maintain adequate funds in this account to meet the Authority’s primary and secondary restricted reserve requirements. Reserve funds are held for the purpose of making payments to providers in the event of the CCO’s insolvency.

(3) A CCO shall establish a restricted reserve account with a third party financial institution for the purpose of holding the CCO’s primary and secondary restricted reserve funds. CCOs shall use the model depository agreement to establish a restricted reserve account;

(E) The surety bond agreement contains a clause that no changes to the surety bond agreement will occur until approved by the Authority; and

(F) The Authority approves the terms of the surety bond agreement.

(4) A CCO’s primary and secondary reserve balances are determined by calculating the average monthly medical expense incurred. A CCO that has submitted quarterly financial statements for the current quarter and the prior three quarters, the average monthly medical expense incurred is derived by adding together the “total hospital and medical” expense (NAIC statement of revenue and expenses) for the prior four quarters and dividing by 12. A newly formed CCO will use an average of hospital and medical expense projected for the first four quarters of operation. Each quarter the average expense liability will be recalculated using historical quarter data available. The amount a CCO must deposit into the restricted reserve account shall be:

(a) If a CCO’s average monthly medical expense incurred is less than or equal to $250,000, an amount equal to the average monthly medical expense incurred. This amount will be referred to as the CCO’s primary reserve and the CCO shall have no secondary reserve, until such time as the average monthly medical expense exceeds $250,000;

(b) If a CCO’s average monthly medical expense is greater than $250,000, funds equaling 50 percent of the difference between the average monthly medical expense and the primary reserve balance of $250,000. This amount will be referred to as the CCO’s secondary reserve;

(5) Working capital or surplus requirements:
(a) As used in this section, “net healthcare revenue” means direct healthcare premium less the following: amounts paid for reinsurance ceded, HRA and GME payments (if any received by a CCO), and MCO taxes. “Net healthcare revenue” includes all healthcare related revenue and fee-for-service revenue adjusted for the change in unearned premium reserves;

(b) Except as provided in Section (8) CCOs shall possess and thereafter maintain capital or surplus, or any combination thereof, equal to the greater of $2.5 million or the amount required from the application of the risk-based capital standards in OAR 410-141-3360;

(f) A converting CCO will initially be subject to financial responsibility and solvency standards applicable to an the Authority reporting CCO. Effective January 1, 2014, the converting CCO shall comply with the minimum capital and surplus set forth in this rule;

(g) The converting CCO shall calculate its authorized control level and file the RBC report in accordance with this rule.

(6) Funds of a CCO at least equal to its required capital and surplus shall be invested and kept invested as follows:

(a) "Authorized Control Level RBC" means the number determined under the risk-based capital formula in accordance with the RBC Instructions;

(b) "Company Action Level RBC" means, with respect to any CCO, the product of 2.0 and the CCO’s Authorized Control Level RBC;

(c) "Mandatory Control Level RBC" means the product of .70 and the CCO’s authorized control level RBC;

(f) "RBC Plan" means a comprehensive financial plan containing the elements specified in this rule. If OHA rejects the RBC plan and it is revised by the CCO with or without OHA's recommendation, the plan shall be called the "revised RBC plan;"

(g) "RBC Report" means the report required in OAR 410-141-3360;

(h) "Regulatory Action Level RBC" means the product of 1.5 and the CCO’s authorized control level RBC;

(A) A CCO’s capital and surplus (i.e. net worth) as determined in accordance with the statutory accounting applicable to the annual financial statements required to be filed under these rules; and

(B) Such other items, if any, as the RBC instructions may provide.

(3) For the purpose of determining the reasonableness and adequacy of a CCO’s capital and surplus, the Oregon Health Authority must consider at least the following factors, as applicable:

(a) The size of the CCO, as measured by its assets, capital and surplus, reserves, premium writings, insurance in force and other appropriate criteria;
(b) The number of lives insured;

(c) The extent of the geographical dispersion of the lives insured by the CCO;

(4) The following pertain to a CCO’s RBC levels:

(c) An excess of capital (i.e. net worth) over the amount produced by the risk-based capital requirements contained in this rule and the formulas, schedules and instructions referenced in this rule is desirable in the business of a CCO. Accordingly, CCOs should seek to maintain capital above the RBC levels required by this rule. Additional capital is used and useful in the business of a risk-bearing entity and helps to secure a CCO against various risks inherent in, or affecting, the business of a CCO and not accounted for or only partially measured by the risk-based capital requirements contained in this rule;

(d) If a CCO files an RBC report that in the judgment of OHA is inaccurate, then OHA shall adjust the RBC report to correct the inaccuracy and shall notify the CCO of the adjustment. (6) In the event of a company action level event, the CCO shall prepare and submit to OHA an RBC plan that shall:

The projections for both new and renewal business might include separate projections for each major line of business and separately identify each significant income, expense and benefit component;

(d) Identify the key assumptions impacting the CCO’s projections and the sensitivity of the projections to the assumptions; and

(A) Within 45 days after the notification from OHA; or

(B) Within 45 days after a notification to the CCO that OHA has, after a hearing, rejected the CCO’s challenge, if the CCO challenges the notification from OHA under this rule.

(8) In the event of a notification by OHA to a CCO that the CCO’s RBC plan or revised RBC plan is unsatisfactory, OHA may at OHA’s discretion, subject to the CCO’s right to a hearing under this rule, specify in the notification that the notification constitutes a regulatory action level event.

(9) "Regulatory Action Level Event" means, with respect to a CCO, any of the following events:

(a) The filing of an RBC report by the CCO that indicates that the CCO’s total adjusted capital is greater than or equal to its authorized control level RBC but less than its regulatory action level RBC;
(b) Notification by OHA to a CCO of an adjusted RBC report that indicates the event in Section (9)(a), if the CCO does not challenge the adjusted RBC report in this rule;

(2) OHA shall examine every CCO, including an audit of the financial affairs of such CCO, as often as OHA determines an examination to be necessary but generally at least once during the CCO’s certification period. An examination shall be conducted for the purpose of determining the financial condition of the CCO, its ability to fulfill its obligations and its manner of fulfillment, the nature of its operations and its compliance with these rules and applicable CCO contract requirements.

(3) The following apply to CCO examinations:

(a) When OHA determines that an examination should be conducted, OHA shall appoint one or more examiners to perform the examination and instruct them as to the scope of the examination. In conducting the examination, each examiner shall consider the guidelines and procedures in the examiner handbook, or its successor publication, adopted by the NAIC. OHA may prescribe the examiner handbook or its successor publication and employ other guidelines and procedures that OHA determines to be appropriate, taking into account whether the CCO is an OHA reporting CCO, is a DCBS reporting CCO, or has a certificate of authority;

(b) When making an examination, OHA may retain appraisers, independent actuaries, independent certified public accountants or other professionals and specialists as needed. The cost of retaining such professionals and specialists shall be borne by the CCO that is the subject of the examination;

(c) Before OHA files the examination report as a final examination report or makes the report or any matters relating thereto public, the person being examined shall have an opportunity for a hearing. A copy of the report must be mailed by certified mail to the person being examined. The person may request a hearing not later than the 30th day after the date on which the report was mailed. This subsection does not limit the authority of OHA to disclose a preliminary or final examination report as otherwise provided in this section, or to CMS or other federal or state authorities authorized to obtain access to CCO financial records in accordance with the CCO contract;

(d) OHA shall consider comments presented at a hearing requested under paragraph (c) of this section and may direct the examiner to consider the comments or direct that the comments be included in documentation relating to the report, although not as part of the report itself. OHA may file the report as a final examination report at any time after consideration of the comments or at any time after the period for requesting a hearing has passed if a hearing is not requested;

(e) A report filed as a final examination report is subject to public inspection. OHA, after filing any report, if OHA considers it for the interest of the public to do so, may publish any report or the result of any examination as contained therein in one or more newspapers of the state without expense to the person examined; and

A CCO shall pay the costs of an examination of the CCO.

(b) Whether the CCO has made adequate provision, according to presently accepted actuarial standards of practice, for the anticipated cash flows required by the contractual obligations and related expenses of the CCO, when considered in light of the assets held by the CCO with respect to such reserves and related actuarial items including but not limited the investment earnings on such assets, and the considerations anticipated to be received and retained under such contracts;

(c) The ability of an assuming reinsurer to perform and whether the CCO's reinsurance program provides sufficient protection for the CCO's remaining capital and surplus after taking into account the CCO's cash flow and the classes of business written as well as the financial condition of the assuming reinsurer;

(d) Whether the CCO's operating loss in the last 12-month period or any shorter period of time is greater than 50 percent of the CCO's remaining capital and surplus in excess of the minimum required;

(h) Whether any "controlling person" of a CCO is delinquent in the transmitting to, or payment of, net premiums to the CCO;

(i) The age and collectability of receivables;

(j) Whether the management of a CCO, including officers, directors or any other person who directly or indirectly controls the operation of the CCO, fails to possess and demonstrate the competence, fitness and reputation determined by OHA to be necessary to serve the CCO in such position;

(k) Whether management of a CCO has failed to respond to inquiries relating to the condition of the CCO or has furnished false and misleading information concerning an inquiry;

(l) Whether the CCO has failed to meet financial responsibility, accountability or filing requirements in the absence of a reason satisfactory to OHA;

(n) Whether the CCO has grown so rapidly and to such an extent that it lacks adequate financial and administrative capacity to meet its obligations in a timely manner;

(o) Whether the CCO has experienced or will experience in the foreseeable future cash flow or liquidity problems, or both;

(p) Whether management has established reserves that do not comply with minimum standards established by the CCO contract or regulations, accounting standards, sound actuarial principles and standards of practice;

(q) Whether management persistently engages in material under reserving that results in adverse development;

(r) Whether transactions among affiliates, subsidiaries or controlling persons for which the CCO receives assets or capital gains, or both, do not provide sufficient value, liquidity or diversity to assure the CCO's ability to meet its outstanding obligations as they mature; and (s) Any other finding determined by OHA to be hazardous to the CCO's members, creditors or general public.

(3) For the purposes of making a determination of the financial condition of a CCO under these rules or the CCO contract, OHA may do one or more of the following:

(d) Increase the CCO's liability in an amount equal to any contingent liability, pledge, or guarantee not otherwise included if there is a substantial risk that the CCO will be called upon to meet the obligation undertaken within the next 12-month period.

(4) In addition to the requirements OHA may impose, if OHA determines that the continued operation of the CCO may be hazardous to OHA, the members or the general public, OHA may require the CCO to:

   (a) Its required capitalization; or

   (b) A greater amount which OHA, by rule or by order after hearing upon the motion of OHA or the petition of any interested person, finds necessary to avoid injury or prejudice to the interest of OHA, members or creditors.

(6) Whenever OHA determines from any showing or statement made to OHA or from any examination made by OHA that the assets of a CCO are less than its liabilities plus required capitalization, OHA may proceed immediately to terminate the CCO contract and revoke or suspend its certification as a CCO, or OHA may allow the CCO a period of time, not to exceed 90 days, in which to make correct the amount of the impairment with cash or authorized investments. If the amount of any such impairment is not corrected within the time prescribed by OHA, OHA shall proceed immediately to terminate the CCO contract and revoke or suspend its certification as a CCO.

(2) Providers shall be enrolled with the Division to be eligible for fee-for-service (FFS) payments. Mental health providers, except Federally Qualified Health Centers (FQHC), shall be approved by the Local Mental Health Authority (LMHA) and the Division before enrollment with the Authority or to be eligible for MCE payment for services. FFS providers may be retroactively enrolled in accordance with OAR 410-120-1260 Provider Enrollment.

(3) Providers, including mental health providers, shall be enrolled with the Authority as a Medicaid FFS provider or an MCE encounter-only provider prior to submission of encounter claims to ensure the encounter claim is accepted.

(4) Providers shall verify before providing services that the client is:

(a) Eligible for Division programs and;

(b) Whether the client is assigned to an MCE on the date of service.

(5) Providers shall use the Authority’s tools and the MCE’s tools, as applicable, to determine if the service to be provided is covered under the member’s OHP benefit package. Providers shall also identify the party responsible for covering the intended service and seek prior authorizations from the appropriate payer before providing
services. Before providing a non-covered service, the provider shall complete an OHP 3165, or facsimile, signed by the client, as described in OAR 141-120-1280.

(6) MCEs shall pay for all covered capitated and coordinated care services. These services shall be billed directly to the MCE, unless the MCE or the Authority specifies otherwise. MCEs may require providers to obtain prior authorization to deliver certain capitated or coordinated care services.

(7) Payment by the MCE to participating providers for capitated or coordinated care services is a matter between the MCE and the participating provider except as follows:

(a) MCEs shall have written policies and procedures for processing prior authorization requests received from any provider and written policies and procedures for processing claims submitted from any source. The policies and procedures shall specify time frames for:

   (A) Date stamping prior authorization requests and claims when received;

(c) Prior authorization for prescription drugs marked for urgent review shall be reviewed within 24 hours. If an urgent prior authorization for a prescription drug cannot be completed within 24 hours, the MCE shall provide for the dispensing of at least a 72-hour supply if there is an immediate medical need for the drug. All pharmacy requests, including those not marked urgent, shall be reviewed and a decision rendered within 72 hours of original receipt of the prior authorization request;
(d) For expedited prior authorization requests in which the provider indicates or the MCE determines that following the standard timeframe could seriously jeopardize the member’s life or health or ability to attain, maintain, or regain maximum function:

(A) The MCE shall make an expedited authorization decision and provide notice as expeditiously as the member’s health or mental health condition requires and no later than three working days after receipt of the request for service;

(B) The MCE may extend the three working day time period no more than 14 calendar days if the member requests an extension or if the MCE justifies to the Authority a need for additional information and how the extension is in the member’s best interest.

(e) For all other prior authorization requests, MCEs shall notify providers of an approval, a denial, or the need for further information within 14 calendar days of receipt of the request as outlined in OAR 410-141-3263. MCEs shall make reasonable efforts to obtain the necessary information during the 14-day period. However, the MCE may use an additional 14 days to obtain follow-up information if the MCE justifies to the Authority, upon request, the need for additional information and how the delay is in the member’s best interest. If the MCE extends the timeframe, it shall give the member written notice of the reason for the extension as outlined in 410-141-3263. The MCE shall make a determination as the member’s health or mental health condition requires, but no later than the expiration of the extension;

(f) MCEs shall pay or deny at least 90 percent of valid claims within 30 calendar days of receipt and at least 99 percent of valid claims within 90 calendar days of receipt. MCEs shall make an initial determination on 99 percent of all claims submitted within 60 calendar days of receipt;

(h) MCEs may not require providers to delay billing to the MCE;

(i) MCEs may not require Medicare be billed as the primary insurer for services or items not covered by Medicare or require non-Medicare approved providers to bill Medicare;

(j) MCEs may not deny payment of valid claims when the potential TPR is based only on a diagnosis, and no potential TPR has been documented in the member’s clinical record;

(k) MCEs may not delay or deny payments because a co-payment was not collected at the time of service;
(L) MCEs may not delay or deny payments for occupational therapy, physical therapy, speech therapy, nurse services, etc., when a child is receiving such services as school-based health services (SBHS) through either an Individual Educational Plan (IEP) or an Individualized Family Service Plan (IFSP). These services are supplemental to other health plan covered therapy services and are not considered duplicative services. Individuals with Disabilities Education Act (IDEA) mandated school sponsored SBHS will not apply toward the member’s therapy allowances. SBHS Medicaid covered IDEA services are provided to eligible children in their education program settings by public education enrolled providers billing MMIS for these services to Medicaid through the Authority for reimbursement under Federal Financial Participation (FFP) as part of cost sharing on a fee-for-service basis.

(8) MCEs shall pay for Medicare coinsurances and deductibles up to the Medicare or MCE’s allowable for covered services the member receives within the MCE participating provider network for authorized referral care and urgent care services or emergency services the member receives from non-participating providers. (9) MCEs shall pay transportation, meals, and lodging costs for the member and any required attendant for services that the MCE has arranged and authorized when those services are not available within the state, unless otherwise approved by the Authority.

(10) MCEs shall pay for ancillary, as defined in 410-120-0000, covered services provided by a non-participating provider that are not prior authorized if all of the following conditions exist:

(c) It was an ancillary covered service that would have been prior authorized with a participating provider if the MCE’s referral procedures had been followed;

(d) The MCE shall pay non-participating providers (providers enrolled with the Authority that do not have a contract with the MCE) for ancillary covered services that are subject to reimbursement from the MCE in the amount specified in OAR 410-120-1295. This rule does not apply to providers that are Type A or Type B hospitals, as they are paid in accordance with ORS 414.727;

(e) Except as specified in OAR 410-141-3140 Emergency and Urgent Care Services, MCEs shall not be required to pay for covered treatment services provided by a non-participating provider, unless:
(A) The MCE does not have a participating provider that will meet the member’s medical need; and

(B) The MCE has authorized care to a non-participating provider.

(f) Notwithstanding OAR 410-120-1280, non-participating providers may not attempt to bill the member for services rendered;

(g) MCEs shall reimburse hospitals for services provided on or after January 1, 2012, using Medicare Severity DRG for inpatient services and Ambulatory Payment Classification (APC) for outpatient services or other alternative payment methods that incorporate the most recent Medicare payment methodologies for both inpatient and outpatient services established by CMS for hospital services and alternative payment methodologies including, but not limited to, pay-for-performance, bundled payments, and capitation. An alternative payment methodology does not include reimbursement payment based on percentage of billed charges. This requirement does not apply to Type A or Type B hospitals as referenced in ORS 442.470. MCEs shall attest annually to the Authority in a manner to be prescribed to MCE’s compliance with these requirements.

(11) For Type A or Type B hospitals transitioning from Cost-Based Reimbursement (CBR) to an Alternative Payment Methodology (APM):

(a) Sections (11)–(13) only apply to services provided by Type A or Type B hospitals to members that are enrolled in an MCE;

(b) In accordance with ORS 414.653, the Authority may upon evaluation by an actuary retained by the Authority, on a case-by-case basis, require MCEs to continue to reimburse fully a rural Type A or Type B hospital determined to be at financial risk for the cost of covered services based on a cost-to-charge ratio;

(c) For those Type A or Type B hospitals that transitioned from CBR to an APM, the Authority shall require hospitals and MCEs to enter into good faith negotiations for contracts. Dispute resolution during the contracting process shall be subject to OAR 410-141-3268 and 410-141-3269, as applicable;

(a) Reimbursement rates under this section shall be based on discounted hospital charges for both inpatient and outpatient services;

(b) Reimbursement rates effective for the initial calendar year of a hospital transitioning from CBR shall be based on that hospital’s most recently filed Medicare cost report adjusted to reflect the hospital’s Medicaid/OHP mix of services;

(c) Subsequent year reimbursement rates for hospitals transitioned from CBR shall be calculated by the Authority based on the individual hospital’s annual price increase and the Authority’s global budget rate increase as defined by the CMS 1115 waiver using the following formula: Current Reimbursement Rate x (1+Global Budget Increase) / (1+Hospital Price Increase);

(d) On an annual basis, each Type A or Type B hospital that has transitioned from CBR shall complete a template provided by the Authority that calculates the hospital’s change in prices for their MCE population;

(e) Inpatient and outpatient reimbursement rates shall be calculated separately;

(f) Non-contracted Type A or Type B hospital reimbursement rates can be found in the Rate Table section at the following:

(14) Members may receive certain services on a Fee-for-Service (FFS) basis:

(a) Certain services shall be authorized by the MCE or the Community Mental Health Program (CMHP) for some mental health services, even though the services are then paid by the Authority on a FFS basis. Before providing services, providers shall verify a member’s eligibility and MCE assignment as provided for in this rule;

(b) Services authorized by the MCE or CMHP are subject to the Authority’s administrative rules and supplemental information including rates and billing instructions;
(c) Providers shall bill the Authority directly for FFS services in accordance with billing instructions contained in the Authority administrative rules and supplemental information;

(d) The Authority shall pay at the Medicaid FFS rate in effect on the date the service is provided subject to the Authority’s administrative rules, contracts, and billing instructions;

(e) The Authority may not pay a provider for providing services for which an MCE has received an MCE payment unless otherwise provided for in rule;

(f) When an item or service is included in the rate paid to a medical institution, a residential facility, or foster home, provision of that item or service is not the responsibility of the Authority or an MCE except as provided in Authority administrative rules and supplemental information (e.g., coordinated care and capitated services that are not included in the nursing facility all-inclusive rate);

(g) CCOs and MHOs that contract with FQHCs and RHCs shall negotiate a rate of reimbursement that is not less than the level and amount of payment that the CCO and MHOs would pay for the same service furnished by a provider who is not an FQHC nor RHC, consistent with the requirements of BBA 4712(b)(2).

(15) Coverage of services through the OHP benefit package of covered services is limited by OAR 410-141-0500 Excluded Services and Limitations for OHP Clients.

In the event that a secured transport is medically appropriate to return a member to their place of residence, the CCO shall obtain written documentation signed by the treating medical professional stating the circumstances that required secured transport. The CCO shall retain the documentation and a copy of the order in their record for the Authority to review.

(5) The CCO may approve and pay for secured medical transport provided to a person going to or from a court hearing or to or from a commitment hearing if there is no other source of funding for this transport.
