Minutes & Agenda: Review/Approval of	C. Buist; Chair	.	Approved 10/2014 Mtg Minutes
Open Forum: Public Comment		No individuals signed up to speak.	
<u>Updates:</u>	D. Taray; staff	<p>Back Pain Lines: Revisions to the prioritized list to include re-ranking of the line with a guideline note to allow coverage of low back pain. M. Koder asked for clarification about medication included in the recommendations: coverage of medications is managed through the P&T committees but the condition of low back pain will become a condition above the funded line. Quality Council: reviewing Oregon opioid prescribing and opioid related deaths Drug Take Back Programs: DEA changes to allow entities with a DEA license to apply to become a resource but access remains very limited. OPMC website information will need to be updated with current info resource. Legislative Session begins February: Bills that impact OPMC TBD IHI Conference: Healthcare Improvement; Nuka System of Care – AK June Conference. Met with CareOregon CCO and Transformation Center staff to consider collaborative work with the OPMC/ present their work to reach patients in</p>

		<p>pain from the perspective of the payer. Governor’s Opioid Task Force: C. Buist informed additional work being looked at with goals to decrease the amount of circulating drugs. Primarily focused on treatment side. Looking for resources for speakers within the Pendleton area. P. Coelho announced Jim Shames will be participating in a Medford area conference in May with the So. Oregon Prescribers Group</p>	
Public Perspective	C. Carlisle	<p>Public perspective as a public member: Housekeeping item – Reminders of the importance of attendance/ concern about not able to have a quorum for meetings Not every pain patient is an addict; dependence does not equal addiction – Be mindful of this concept as we have our discussions and in our work with the OPMC Concern about the Washington Statewide Prescribing Guideline being implemented in Oregon. Medical care should be between patient and physician not government or insurance companies. Of most concerning would be the limitations to the dosing. Reminder of the Vision & Mission Statement: Oregonians should be satisfied with their treatment of chronic pain – Verify that the work that the OPMC is going to work on meets those.</p>	<p>Discussion & Sharing: Provider tools to understand and treat pain -pain informed education and the opioid issue will improve -f/u with the Gov. Opioid Prescribing Task Force</p>
Persistent Pain Project – Patient and Provider Education	R. Halperin N. Stern Providence, Oregon	<p>Education for both providers and patients: Interdisciplinary collaboration Pain competency of all the specialties that treat pain 2 rounds of state wide trainings completed Goal to prevent persistent pain from starting Shared/ Group medical appointments: interdisciplinary Importance of including a patient centered individualized treatment plan</p>	<p>Discussion & Sharing: Explore: -nutrition and inflammatory pain -update on Integrative Med Advisory Group</p>
