# Oregon Vital Events Registration System (OVERS)
Preview Screen Descriptions – Marriage Records

Preview:

Legend:

- The preview screen will only display for records with a marriage dated before 2016. These records originated in the Mainframe and have been converted into OVERS. Records 2016 forward will show a preview of the certificate. **Both views can be used to verify record information.**
- All information on the Preview screen is specific to the information reported at the time of Marriage, unless the record has been changed through the amendments processes. The Preview will not show whether amendments have been made.

Letter	Description	Letter	Description
A	Preview - Hyperlink that will display a Preview of the marriage record (for records before 2016).	E	Place of Event - City and County where marriage took place.
B	Date of Event - Date of marriage.	F	Date Filed/Birthplace/Date of Birth - These fields will be left blank because they didn't appear in the Mainframe.
C	SFN – State File Number/Marriage Certificate Number - If there is no SFN listed, the record is not yet registered as a vital record.	G	Status - Indicates if the record has been registered at the State office. - The last section will state "Converted" if the record was converted from the mainframe.
D	Registrant Name - Names of both Party A & B	H	Date of Marriage - Marriage Date
