## Oregon Healthy Teens Survey 2004

This survey was developed to learn about risks to students' health and safety. The information you provide will be used to help school and communities develop ways to improve student health and safety in Oregon.

## DO NOT WRITE YOUR NAME ON THIS SURVEY.

The answers you give will be kept private. No one will know how you answer.
This is NOT a test. There are no right or wrong answers, and your participation in this survey is VOLUNTARY. If you are not comfortable answering a question, you can leave it blank.

Please do answer each question you are comfortable with answering. Just because a question is asked, that does not mean that we believe you have engaged in a particular behavior. Each question has a response to indicate if you did not engage in that behavior. If you don't always find an answer that fits exactly, use the one that comes closest. If you are not sure what a question means, just leave it blank.

Please fill in only ONE bubble or answer, unless the question specifically asks you to "MARK ALL THAT APPLY."

Some questions have the following format:
Please fill in the bubble for the ONE word that best describes how you feel about that sentence.

## EXAMPLE:

The Portland Trailblazers are a good basketball team
Mark the Big NO! if you think the statement is definitely NOT true for you.
Mark the little no if you think the statement is mostly NOT true for you.
Mark the little yes if you think the statement is mostly true for you.
Mark the Big YES! if you think the statement is definitely true for you.

In the example above, the student marked "yes" because he or she thinks the statement in mostly true
