## **OMMP sets community outreach sessions on reporting and tracking requirements for medical marijuana growers**

The Oregon Medical Marijuana Program has scheduled a series of community outreach sessions to help growers understand new reporting and tracking requirements.

The focus of the sessions is to provide information to registered medical growers on how to designate a grow site administrator (GSA) for those sites that are required to use the state's Cannabis Tracking System (CTS). OMMP staff members will also review the requirements around when a grow site is required to use CTS, when it is required to report monthly into the Oregon Medical Marijuana Online System (OMMOS) or when a grow site is exempt from any kind of reporting and tracking.

During the outreach sessions, OMMP staff members will help growers with setting up or accessing their accounts in OMMOS. An OMMOS account is required not only for monthly reporting, but also for growers at grow sites that will be using CTS.

**Please RSVP either by email to [mmg.online@state.or.us](mailto:mmg.online@state.or.us) or call 971-673-1234 (noon to 4:00 p.m.).**

OMMP outreach sessions are scheduled as follows:

### **CTS and You, Getting Started**

During May and June, OMMP and the Oregon Liquor Control Commission (OLCC) will embark on a CTS “roadshow” to help registered medical growers, dispensaries and processors understand the cannabis tracking system. OMMP staff members will be on hand to provide an overview of program changes. OLCC will hold a workshop on how to use CTS for medical registrants. One of the sessions will be videotaped and posted on the OLCC YouTube channel.

A complete list of dates and locations, as well as a sign-up form to attend a session, will be posted on the [OLCC’s Eventbrite page](#).

It is recommended that you attend both the OMMP Outreach meetings and the Cannabis Tracking System Workshops.
